LOCAL SERVICE GUARANTEE CREDIT

**APPROVED**

A. Description

The Company will provide a one (1) month local service guarantee credit, which includes all recurring items of local service billed on the customer's current bill, when the Company fails to provide specified levels of customer service. This program provides for credits to all residential and single line business customer's bills when the Company does not meet the service standards outlined below:

1. **Missed Service Installations:** If the Company fails to provide new install within 5 business days of receiving an application for new service, or by a requested date, when at least 5 business days notice has been given, the Company will waive 50% of all regulated non-recurring installation charges. If failure to install within 10 days, 100% waiver of charges

If the Company fails to meet an installation appointment, it shall waive 50% of regulated non-recurring install charges.

2. **Missed Service Commitment:** The customer will be given a one (1) month local service credit if the Company fails to meet a commitment and has not notified the customer 24 hours prior to the agreed time and date. This would apply to such services as changes to custom calling features, provision of optional calling plans and other similar requests.

The credit will not apply if the customer could not be reached by telephone and a notice was left in a conspicuous place 24 hours prior to the commitment date and time, the customer did not make the meeting, or "out of service" conditions exist resulting from natural disasters, or circumstances beyond the control and knowledge of the Company.

3. **Service Outages of More Than 24 Hours:** A one (1) month local service credit will be applied to the customer's telephone bill if the Company fails to restore basic exchange telephone service within 24 hours after the interruption was reported to or discovered by the Company.

The credit will not apply if premise access is required and neither the customer nor a representative was available at the customer premise and the Company left a notice in a conspicuous place, or the customer had been disconnected for nonpayment of a bill or request for a deposit, or "out of service" conditions exist resulting from natural disasters, or circumstances beyond the control and knowledge of the Company.

MOVED

1. (Continued)

4. Repeat Customer Requests: A one (1) month local service credit will be applied to the customer's telephone bill if the Company fails to accommodate the customer's request the first time and this causes the customer to make a second request within thirty (30) days. Examples of requests which may require multiple business office contacts by a customer include those for billing name and address changes, directory listing changes, requests for credit cards or directories, requests for adjustments, repeat reports of service problems, and moves of cable or drop wires. (T)

This credit will not apply to requests beyond the control of the Company and when the Company has notified the customer.

5. Credit is NOT applicable to: (T)

Claims for credit by customers who have been temporarily disconnected for nonpayment or are requesting reconnection from a temporary disconnect for nonpayment.

Misuse or abuse of the Company owned facilities, or if the problem is found to be associated with the customer's inside wiring or the customer's premise equipment.

Such example is where there has been a storm or other catastrophe that has caused a large number of customers to lose telecommunications services and/or other similar utility type services.

6. Local Service Guarantee Credit includes all recurring items of local service billed on the customer's current bill. (T)

Use of the "E911" number will provide each caller with telephone access to the appropriate local PSAP.

B. REGULATIONS

The regulations set forth below apply to "Enhanced 911" service hereinafter referred to as 911 service.

1. Application for 911 service shall be executed in writing by each participating local government authority or their duly appointed agent. BOUNDARIES

This company concurs with the recommendation set forth in Exhibit "A", entitled "Boundaries", of the Public Utilities Commission of Ohio's Code, Section 4901:1-3-06.

BRIDGED SERVICE - COMBINED BUSINESS AND RESIDENCE

Where a subscriber wishes to contract for two individual line main station services at two separate locations in the same exchange area, but also wishes to be able to answer calls for one station or either station at the other location, the arrangements described below are provided subject to the availability of the facilities necessary to furnish satisfactory service.

Combined main station service may be employed where one station is at a business location and the other is at a residence or where both stations are at either business or residence locations. However, such an arrangement is permitted only on the premises of the same subscriber or where the subscriber at the residence location is associated in business with or is an employee of the subscriber at the business location.

In any arrangement for combined main station service, each station is assigned its own telephone number.

Combined main station service may be arranged so that the bells at both stations will ring when either station is called.

The rate for individual line business service applied for the business station, and the rate for individual line residence applies for the residence station.

3. Transmitting Messages

The Telephone Company does not transmit messages but offers the use of its facilities for communication between patrons. C. USE OF SERVICE AND FACILITIES (continued)

3. Use of Subscriber Service

Subscriber telephone service, as distinguished from public and semi-public telephone service, is furnished only for use by the subscriber, his family, employees or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service. At such locations, however, service may be installed, provided the instrument is so located that it is not accessible for public use.

4. Misuse of Facilities

The Telephone Company may discontinue telephone service, after notification, to any individual, partnership, association or corporation, who by the use of the facilities furnished by the Telephone Company uses or permits to be used for the following purposes:

- c. The use of the service or facilities of the Telephone Company to transmit a message or to locate a person or otherwise to give or obtain information, without the payment of the applicable local message charge or message toll charge.

4. Misuse of Facilities (continued)

- e. Causing or allowing Telephone Company equipment to be tampered with, damaged or destroyed through negligence.
- f. When service is restored after denial, the Telephone Company will make a pro rata allowance at the scheduled rate for the service denied for the entire period of denial.

5. Government Objections to Service

The Telephone Company has the right and duty to refuse to institute service for a potential customer or to discontinue the service of an existing customer if not doing so would be in violation of Section 4901:1-3-12 of the Commission's Code of Rules and Regulations or of an order issued to the Company by a court of competent jurisdiction.

6. Party Line Service

The Telephone Company provides two-party and multi-party line service as an option for subscribers. Parties subscribing to such service are expected to make a reasonable effort to allow all parties equal access to the line. Party line service may not, under any circumstances, be used by a subscriber as a substitute for private line service.

When a subscriber's service requirements become so great as to interfere with the equal usage of the line by the other subscribers, the Telephone Company shall offer that subscriber a grade of service which is suitable to his needs. D. ESTABLISHMENT AND FURNISHING SERVICE

APPROVED

1. Application for Service

Application for service shall constitute a contract when accepted verbally or in writing by the Company or upon the establishing of service. The initial minimum contract period for exchange service is one (1) month from the date service is established unless otherwise specified herein or elsewhere in the Telephone Company tariff.

2. Establishing Credit

A. Chapter 4901: 1-17 of the Administrative Code pertains, generally, to the manner in which credit may be established by residential utility customers. Except as otherwise indicated in the rule, in each instance where a provision of Chapter 4901: 1-17 of the Administrative Code has application to residential telephone service provided by a telecommunications provider, it shall be deemed, under this rule, as also having application to nonresidential telephone service by such companies.

B. Telecommunications providers may require service applicants to establish financial responsibility as a condition precedent to establishing service. Both may rely on pertinent information obtained from credit reporting bureaus in determining whether creditworthiness need be established. However, a service applicant cannot be denied service, on creditworthiness grounds, unless the service applicant has been provided an opportunity to establish financial responsibility through every means available for doing so provided for in Chapters 4901: 1-5 and 4901: 1-17 of the Administrative Code.

(C)

2. Establishing Credit (Continued)

B. When a telecommunications provider requires the financial responsibility of a service applicant to be established, it must inform the service applicant of all options available for meeting that requirement.

1. Paying a deposit must be among the available options, except where unpaid debt for regulated service is already owed by the service applicant to the telecommunications provider with whom the service applicant is seeking to establish service. Where unpaid debt for regulated service is owed, the company may require the applicant to pay such debt pursuant to rule 4901: 1-5-13 (A)(3)(d) of the Administrative Code.
2. Telecommunications providers are permitted, but not required, to make use of toll caps as a method of extending limited credit to subscribers or service applicants unable to maintain or establish their creditworthiness through other means, so long as the terms and conditions of the toll cap are set forth in a commission-approved tariff. The terms and conditions under which a toll cap is imposed as well as the steps that the subscriber or service applicant may take to have the toll cap removed must be disclosed, in writing, by the telecommunications service provider at the time a toll cap is imposed.
3. If an applicant for service owes a telecommunications service provider an unpaid bill for telecommunications service previously provided but discontinued for nonpayment, where the service applicant is presently seeking to establish or reestablish service with the same provider who previously provided the service, and is seeking to establish or reestablish the same class of service as that previously provided, the telecommunications service provider who provided the previous service is not obligated to deem the service applicant's creditworthiness as having been satisfactorily established under the Commission's establishment of credit and establishment of service rules so long as the bill for previous service remains unpaid. However, in no event, shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

2. Establishing Credit (Continued)

C. (Continued)

1. An unpaid bill for previous toll service can be considered as a reason to deny service to an applicant seeking a new 1+ presubscription toll service account only when the unpaid bill is owed to the same telecommunications provider with whom the applicant is now seeking to establish or reestablish service and the class of service previously provided is the same as that the applicant is now seeking to establish or reestablish. If the previous unpaid bill is owed to a provider other than that with whom the applicant is seeking to establish service, the subsequent toll provider may not deny service on that basis alone, but may consider the applicant's unpaid debt, as well as any pertinent information obtained from a credit reporting bureau, in determining whether there exists a need to assess a toll deposit or take other measures to assure creditworthiness. Moreover, in no event shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

- A. So long as it acts in a just, reasonable, and nondiscriminatory manner, a local service provider may, pursuant to a contract obligating it to do so, enforce the tariff-established credit and deposit policies of another telecommunications provider.

B. Deposits

1. The Company may, in order to safeguard its interest, require a deposit. The deposit will not exceed two hundred thirty per cent (230%) of the customer's average monthly bill based upon the customer's service account billing history for the same recurring regulated charges for the class of service seeking to be established with the telecommunications provider.
2. Deposits for new customers are calculated pursuant to Ohio Admin. Code 4901:1-5-05(B)(1)(a) or at the above method when the customer has a service account billing history.

- F. Toll providers, or local service providers acting on behalf of toll providers subject to billing and collection agreements, may otherwise block access to all toll providers for nonpayment of regulated toll charges, so long as the blocked customer is not, thereby, denied the right to select, through a presubscribed interexchange (PIC) mechanism, any subsequent 1+ toll service provider under the terms of Chapter 4901:1-5 of the Administrative Code. Any such subsequent toll provider may not deny establishment of 1+ presubscribed toll service on grounds that the customer has failed to establish creditworthiness, if:
1. The customer is able to establish creditworthiness using one of the means for doing so available under Chapter 4901: 1-5 of the Administrative Code; or
  2. The subsequent toll provider, exercising its own discretion, does not require the customer to establish (through any of the means available for doing so under Chapter 4901: 1-5 of the Administrative Code); or
  3. The subsequent toll provider attempts to require the customer to establish creditworthiness using credit establishment procedures which do not comport with the commission's credit establishment policies and/or are not set forth within a commission-approved tariff.
- G. When an applicant for 1+ toll service who has previously been universally blocked for nonpayment of toll charges seeks to select, through a PIC mechanism, some subsequent toll provider as the applicant's 1+ carrier of choice, the subsequently PICed toll provider may, subject to its tariffed toll deposit policies and the commission's minimum telephone service standards set forth in Chapter 4901:1-5 of the Administrative Code. However, the subsequently PICed toll provider may accept a lower deposit, or on deposit, based upon usage, toll cap provisions in its tariff, or credit information obtained either from a credit bureau or directly from the customer.

2. Establishing Credit (Continued)

- H. Nothing should constrain telecommunications providers from furnishing credit information acquired from their own experiences with their own customers to consumer reporting agencies, within the meaning of the federal Fair Credit Reporting Act. However, if and when telecommunications providers furnish such information to others, they must comply with all of the requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the federal Fair Credit Reporting Act.
- I. All forms of toll blocking services offered by local service providers to toll service providers must be provided on a nondiscriminatory basis to all toll service providers, regardless of whether the local service provider has established a billing and collection agreement with the toll provider. Any charges for toll blocking service offered by a local service provider to toll service providers must be set forth in a commission-approved tariff.
- J. Changes to local exchange service after initiation of service
  - 1. Within sixty days of the date of initiation of service, new residential local service subscribers shall be allowed, at a minimum, a one-time change of their type of local exchange service (i.e., flat-rate, message, or measured service) without charge. This does not preclude the company from charging for the original service connection, monthly charges for the period such service was used, or the addition or removal of any optional local service.
  - 2. Within sixty days of the date of a change in their type of service, existing residential local service subscribers shall be allowed to return to their prior type of local exchange service once without charge. This does not preclude the company from charging for the previous service connection, monthly charges for the period such service was used, or the addition or removal of any optional local service. This does not apply to subscribers who have availed themselves of the relief afforded in paragraph (J)(1) within the previous six months.

SUBSCRIBER BILL ADJUSTMENT OR CREDITS

APPROVED

(N)

1. The Company shall make an adjustment to a subscriber's bill in accordance with paragraph 2 of this section whenever a subscriber's service is interrupted and remains out of service for more than twenty-four consecutive hours after being reported to the Company or after being found by the Company to be out of service. The length of the service interruption must be computed on a continuous basis, Saturdays, Sundays, and holidays included. This rule does not apply if the out-of-service condition:

- a. Occurs as a result of a negligent or willful act on part of the subscriber;
- b. Occurs as a result of a malfunction of subscriber-owned telephone equipment or inside wire;
- c. Occurs as a result of a military action, war, insurrection, riot, or strike; or
- d. Cannot be repaired due to subscriber missing a repair appointment.

The Company must justify and document in its records each instance where it applied any of the exceptions listed in this paragraph.

2. If an out-of-service condition exceeds twenty-four hours but is less than forty-eight hours, the Company shall credit the subscriber's bill for at least the pro rata portion of the monthly charge(s) for all regulated local services rendered inoperative during the interruption. Credit for out-of-service conditions lasting longer shall be provided as follows:
