BEFORE THE OHIO POWER SITING BOARD

In the Matter of the Application )  
of Black Fork Wind Energy, LLC for )  
a Certificate to Install Numerous )  
Electricity Generating Wind Turbines in )  
Crawford and Richland Counties, Ohio )

Case No. 10-2865-EL-BGN

PUCO

2011 MAY 24 PM 4:10

RECEIVED-DOCKETING DIV

NOTICE OF PROJECT BOUNDARY REVISION

On March 10, 2011, Black Fork Wind Energy, LLC ("Black Fork" or "the Applicant") filed its application in the above-captioned proceeding for a wind powered generation facility that will consist of up to 91 wind turbines and have a maximum nameplate capacity of up to 200 megawatts (MW). On April 28, 2011, the Staff of the Ohio Power Siting Board ("OPSB") and the Applicant filed a joint motion seeking to extend the completeness review period to June 10, 2011. The Administrative Law Judge granted that motion on May 3, 2011.

As a result of additional reviews, the Applicant has concluded that three parcels are not necessary for development of the project. These parcels total 262.6 acres, are contiguous and are located in the northeast quadrant of the Project Area. Because these parcels will no longer be part of the project, the Applicant has revised the project boundary. The total acreage within the revised project boundary will be 23,938.12 acres.

With the exception of the project boundary, the layout as presented in the Application will not change as a result of eliminating the three parcels. All turbines and collection lines remain located as set forth in the Application. In addition, all facilities continue to satisfy all applicable setback requirements.

This is to certify that the images appearing are an  
accurate and complete reproduction of a case file  
document delivered in the regular course of business.  
Technician A Date Processed MAY 24 2011

The Applicant has revised all affected maps to account for the elimination of the parcels.  
The revised figures are attached to this notice.

Respectfully submitted,

---

M. Howard Petricoff (0008287)
