AFFIDAVIT

Compliance with Commission Rules

I am an officer/agent of the applicant corporation, AT&T Ohio, and am authorized to make this statement on its behalf.
(Name)

I attest that these tariffs comply with all applicable rules for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

EXHIBIT C

AT&T Ohio hereby revises its AT&T Ohio P.U.C.O. Tariff No. 20 so as to comply with the Ohio Commission's January 19, 2011 Entry in Case No. 10-1010-TP-ORD implementing Substitute Senate Bill 162, requiring that certain services no longer be included in tariffs filed with the Commission. This filing supplements the 5.19.2011 AT&T Ohio detariffing application by removing the remaining references to non-BLES services from AT&T Ohio P.U.C.O. Tariff No. 20; amending the Table of Contents; and providing the Commission a copy of the fully revised (including the changes filed in this application) AT&T Ohio P.U.C.O. Tariff No. 20 in its entirety (Attachment 1).

1. DEFINITIONS OF TERMS

Access Area

The total geographical area served from a specific central office. Central offices are grouped into three access areas, for purposes of this tariff, based upon the quantity of network access lines served per square mile.

Audio Response Unit

Mechanized announcement equipment, which uses synthesized speech to quote a telephone number to a customer who has called Directory Assistance Service.

Basic Local Exchange Service (BLES)

Residential-end-user access to and usage of telephone company provided services over a single line or small-business-end-user access to and usage of telephone-company-provided services over the primary access line of service, which in the case of residential and small-business access and usage is not part of a bundle or package of services, that does both of the following:

Enables a customer to originate or receive voice communications within a local service area as that area exists on the effective date of the amendment of this section by S.B. 162 of the 128th general assembly.

Consists of all of the following services:

Local dial tone service;

For residential end users, flat-rate telephone exchange service;

Touch tone dialing service;

Access to and usage of 9-1-1 services, where such services are available;

Access to operator services and directory assistance;

Provision of a telephone directory in any reasonable format for no additional charge and a listing in that directory, with reasonable accommodations made for private listings;

Per call, caller identification blocking services;

Access to telecommunications relay service; and

Access to toll presubscription, interexchange or toll providers or both, and networks of other telephone companies.

PART 2 - General Terms and Conditions
SECTION 1 - Definitions and Abbreviations

Original Sheet 1.1

1. DEFINITIONS OF TERMS (cont'd)

Central Office

/1/

A switching unit, in one location of a telecommunications system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines. More than one central office may be located in the same building.

Central Office Area

The specific section of an exchange area served by a particular central office or by a particular group of central offices.

Circuit

The term applied to a channel used for the transmission of electrical energy in the furnishing of telephone service. In the case of battery circuits and generator circuits, each pair of wires or fraction thereof is considered as a separate channel.

Class of Service

The term used in describing exchange service with respect to the character of use to be made of such service. The Company furnishes two classes of service: residence and non-residence.

Common Battery Service

The type of telephone service in connection with which electrical energy for talking and signaling is supplied from a central point.

Connecting Company (Independent Company)

A corporation, association, partnership or individual (other than an Associated Bell Company) owning or operating one or more exchanges and with whom traffic is interchanged.

1. DEFINITIONS OF TERMS (Cont'd)

Continuous Property

The continuous plot of ground, including any buildings thereon, occupied by a customer and which is not separated by public highways or by property occupied by others, except that where a customer owns or leases properties on both sides of a street, alley, highway, body of water, railroad right of way, etc., which properties otherwise would be continuous, such properties are considered continuous property provided poles or conduit are not required for the placing of wire facilities between the properties or, if required, are provided and maintained by or at the expense of the customer.

Costs Incurred

Wherever rates or charges based upon "costs incurred" are applied in this tariff, such rates or charges consist of an estimate of the following items to the extent that they are applicable:

- a. Cost of maintenance.
- b. Cost of operation.
- c. Depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.
- d. Administration, taxes and uncollectible revenue on the basis of reasonable average charges for these items.
- e. Any other specific items of expense associated with the particular situation.
- f. A reasonable amount, computed on the estimated cost installed of any facilities provided, for return and contingencies.

Estimated cost installed, as mentioned in c. and f. above, includes cost of equipment and material specifically provided or used plus the estimated cost of installing, including engineering, labor, supervision, transportation, rights of way and any other items which are chargeable to telephone plant accounts.

Material formerly appeared in Exchange and Network Services Tariff,

By J. F. Woods, President, Cleveland, Ohio

1. DEFINITIONS OF TERMS (cont'd)

Customer

The individual, firm, partnership, association, corporation, municipality, cooperative organization, governmental agency, etc., which contracts for telephone service and is responsible for the payment of charges and compliance with the rules and regulations of the Company. (T)

Derived Local Channel

Derived Local Channel is an arrangement that permits multiple and simultaneous use of a single exchange service for voice and/or data communications. The arrangement consists of equipment located in the central office and on the customer premises.

Directory Listing

The publication in the Company's alphabetical directory, or information records, of information relative to a subscriber's telephone number, by which telephone users are enabled to ascertain the telephone number of a desired telephone. (T)

Exchange

A basic unit for the administration of communication service in a specified area, called the exchange area. It usually consists of one or more central offices together with the associated plant used in furnishing communication service in that area.

Exchange Area

The territory included within the boundaries of an exchange, as shown on maps on file with The Public Utilities Commission of Ohio.

Exchange Service

The furnishing of telecommunications service to individual residence and non-residence customers within a specified geographical area for local calling and access to the message toll network. Exchange Service is comprised of three components - network access line, central office termination and local usage. Exchange service is furnished as follows:

1. DEFINITIONS OF TERMS (cont'd)

Exchange Service (cont'd)

- a. Flat Rate Service: Exchange service in connection with which a stipulated monthly charge is made covering all local message use within a defined area.
- b. Message Rate Service: Exchange service in connection with which local message use is measured in terms of local messages for purposes of charging for the service.
- c. Measured Rate Service: Exchange service in connection with which local messages are measured in terms of four measured elements, i.e., the total number of outgoing completed local messages, the distance and the duration of each local message and the time of day each local message is originated.

(T)

Expense Incurred By The Company

Wherever "expense incurred by the Company" is applied in this tariff, such expense consists of an estimate of the expenditure by the Company for labor, material, engineering, supervision, motor vehicles, tool and any other expenditure incident thereto, to the extent that any or all of such items are applicable in the particular situation involved.

(T)

(T)

1. DEFINITIONS OF TERMS (cont'd)

Family

A group of persons, related either by blood or by marriage or adoption. In addition, single persons living alone and small groups of unrelated persons sharing the same living accommodations as "partners" shall be considered as families.

Foreign Central Office Service

Exchange service furnished from a central office other than that regularly serving the central office area in which the customer is located.

Foreign Exchange Service

Exchange service furnished from an exchange other than that which regularly serves the exchange area in which the customer is located.

Grade of Service

The term used in describing exchange service with respect to the number of customers which may be connected to a line. The Company furnishes the following grades of service: individual and PBX (T) trunks.

Individual

An exchange service connecting one customer's premises with the central office.

Initial Contract Period

The minimum length of time for which a customer is obligated to pay for service and facilities whether or not retained by the customer for such minimum length of time.

Joint User

An individual, partnership, association or corporation sharing a customer's exchange service according to the provisions of this tariff for such shared use.

Loading Coil

A device added to a circuit to improve transmission by reducing attenuation.

1. DEFINITIONS OF TERMS (cont'd)

Local Access and Transport Area

A geographic area established by the Company for the provision and administration of communications service. A Local Access and Transport Area encompasses designated exchange areas which are grouped to serve common social, economic and other purposes. (T)

Local Message

A communication between a calling station and any other station within the local service area of the calling station.

Local Service Area

The area within which a customer may make calls without payment of message toll charges. A local service area may include one or more exchange areas of the Company or of other telephone companies. In certain exchange areas, customers may select either: (T)

1. basic local service which provides local service with the basic local service area, or
2. an optional local service which provides one-way local service to specified exchange areas in addition to local service within basic local service area.

Miscellaneous Common Carriers

A Miscellaneous Common Carrier, as defined in part 21 of the Rules and Regulations of the Federal Communications Commission, is a person engaged in rendering communications service for hire to the public who is not engaged in the business of providing either a public landline message telephone service or public message telegraph service. For purposes of this and all other Company tariffs, the term "Miscellaneous Common Carrier" shall apply only to such carriers, as defined above, who are duly licensed by the Federal Communications Commission and have tariffs filed with that Commission and The Public Utilities Commission of Ohio. (T)

Network Access Line

The connecting facility between a customer's premises and a serving central office that provides customer access to the public switched network for placing and receiving calls.

1. DEFINITIONS OF TERMS (cont'd)

Network Interface (NI)

The network interface is a unit provided as part of the network access line. The network interface will be installed on the customer's premises at a location determined by the Company which is accessible to the customer. The normal location of the network interface would be in close proximity to the protector or point of minimum penetration where the Company facilities enter the customer's premises. (T) (T)

Network Wiring

Wiring on the network side of the Network Interface at the customer's premises which is used for the termination of network access lines.

Normal Exchange

The exchange which normally serves the exchange area in which the customer is located.

Normal Working Days

All days except Sundays and except Christmas Day, Memorial Day, Independence Day, Labor Day, New Year's Day, Thanksgiving Day, day after Thanksgiving, Washington-Lincoln Day, and Good Friday.

Other Common Carrier

Specialized Common Carriers, Domestic and International Record Carriers and Domestic Satellite Carriers engaged in providing such private line voice, data, or video services or other services as such carriers may be authorized by the Federal Communications Commission to provide.

PBX Trunk

A class of exchange service used when connecting switching equipment located at the customer's premises to the central office.

Premises

1. The building, or portion or portions of a building, occupied at one time by a customer either as a residence or for non-residence use.
2. Two or more entire buildings which are used and occupied by the same customer are also considered to be the same premises if such buildings meet the conditions in either a, b or c following:

1. DEFINITIONS OF TERMS (cont'd)

Premises (cont'd)

2. (Cont'd)

- a. The buildings are connected by enclosed, lighted and heated passage- ways (overhead bridges, subways, or at ground level), or by common basements, permitting access from one building to the other, and such passageways or common basements are suitable for the routing and proper protection of inside cable or wire type facilities.
- b. There is full access between adjoining buildings by means of doorways or open archways and such doorways and archways are suitable for the routing and proper protection of inside cable or wire type facilities.
- c. The buildings have not been made continuous as described in a. and b. preceding however the airline distance between the building in which the main station, attendant position or switching equipment is located and each of the other buildings is not in excess of 150 feet, and the customer furnishes a pathway connecting the buildings which is suitable for the routing, placing, and proper protection of inside cable and wire type facilities, or buried cable or wire.

Where the pathway is underground, it may be a tunnel, conduit, or a closed trench for buried cable or wire. Where the pathway is overhead, it must be a continuous rigid support, such as to make electrical and mechanical protection of the cable or wire unnecessary.

3. Portions of two or more buildings which are used and occupied by the same customer are also considered to be the same premises if these portions of the buildings meet the conditions in either a. or b. following:
 - a. The portions of the buildings are made continuous between the areas used and occupied by the customer by means of enclosed, lighted and heated passageways (overhead bridges, subways, or at ground level), or by a common basement used and occupied solely by the customer, and such passageways or common basements are suitable for the routing and proper protection of inside cable or wire type facilities.
 - b. There is full access by means of doorways or open archways between the areas used and occupied by the customer in adjoining buildings, and such doorways or archways are suitable for the routing and proper protection of inside cable or wire type facilities.
4. If a customer refuses to allow the Company to install inside cable and wire type facilities in the passageways, pathways, basements, doorways, or archways, referred to in 2 or 3 preceding, the buildings or portions of buildings involved shall be considered as separate premises. (T)

1. DEFINITIONS OF TERMS (cont'd)

Premises Wiring

Interior wiring on the customer's side of the Network Interface at the customer's premises which is used for the connection of terminal equipment. The installation and maintenance of premises wiring is provided on a non-regulated basis.

Private Property

The continuous plot of ground owned or leased and occupied by a customer and not separated by public highways or by property occupied by others.

Public Highway

A road, street, highway, way, lane or alley under the control of and kept by the public.

Rate Center

A centralized point within a central office area or exchange area which is established for the purpose of measuring airline mileage between central office areas or exchange areas. Each rate center is assigned a unique pair of vertical and horizontal coordinates as described in Part 9, Section 2 of the AT&T Ohio Guidebook. (C)
(C)

Relay Circuit

An arrangement of circuits to provide for electrical separation, but at the same time allow for the transfer or passage of operations from one circuit to one or more circuits, and also to provide where necessary, additional sources of energy.

1. DEFINITIONS OF TERMS (cont'd)

/1/

Repeater

A combination of one or more amplifiers together with their associated equipment, so arranged as to provide for two-way transmission in a telephone circuit.

Residence Location

A place in which a person actually lives continuously and which is considered to be the person's home is a residence location.

1. DEFINITIONS OF TERMS (cont'd)

Right Of Way

The right which the Company obtains to use the land of another for the purpose of installing, constructing, operating and maintaining its facilities. The phrase "right of way" also means a strip of land which the Company has acquired the right to use for its facilities. (T)
Private right of way is right of way on private property, not a part of a public highway. (T)

Rotary Service

An arrangement under which two or more exchange services of the same class and grade, or PBX trunks of the same class, served from the same central office and furnished to the same customer, are grouped so that calls to the first number of the group are automatically routed to the first non-busy number of the group, and a busy signal or busy report is not given unless all the grouped numbers are busy.

Shared Tenant Service

The resale or sharing of local exchange service in a multi-tenant single building, or a contiguous complex of buildings under common ownership or management, on non-residence individual and PBX trunks, and Centrex stations.

The Company

The Ohio Bell Telephone Company d/b/a/ AT&T Ohio

(C)

Terminal

The designation given the equipment with which a circuit is connected or the equipment on which a circuit terminates.

1. DEFINITIONS OF TERMS (cont'd)

Termination Charge

A charge applied when a contract for service is terminated before the expiration of the initial contract period.

Termination Liability

A specific charge associated with an item of service from which the applicable termination charge is computed.

Toll Message

A communication between a calling station and a station located in a different local service area.

Toll Office

A central office used primarily for completing and supervising toll calls.

Two-Wire - See Part 15, Section 1 of the AT&T Ohio Guidebook.

(C)

Type Of Service

The term used in describing exchange service with respect to each of the following:

1. The use to be made of such service, i.e., by the customer, his family, employees, etc.
2. The comparative limitation which the Company places on the number of times customer service may be used for the stipulated monthly charge. With respect to this use of the term, the Company furnishes three types of service: flat rate (or unlimited) service, message rate service and measured rate service.
3. The physical characteristics of the services, with respect to this use of the term, the Company furnishes only common battery dial service.
4. The scope of the service, i.e., the area throughout which service is rendered to a calling station without the application of toll charges. With respect to this use of the term, the Company furnishes two types of service: basic local area service and optional local area service.

1. DEFINITIONS OF TERMS (cont'd)

1. ESTABLISHING AND FURNISHING SERVICE

The following general regulations are applicable in addition to regulations, rates and charges specified in other sections of this tariff. Where reference is made in this tariff to regulations, rates and charges specified in other tariffs of the Company or in the AT&T Ohio Guidebook, such tariffs or Guidebook as they now exist, or as they may be revised, added to or supplemented, are hereby adopted and made a part of this tariff.

Any change in rates or regulations authorized by legally constituted authorities effects a modification of all contracts for service to that extent, without further notice.

Establishment of local and message toll telephone service shall take precedence over all other services, except as the public interest shall otherwise require.

1.1 Applications For Service

The Company will generally accept applications for service verbally during usual working hours on normal working days, however the Company reserves the right to require applications for service in writing on forms supplied by the Company.

The Company will accept orders from a customer's duly authorized agent upon demonstration of such agent's authority in a form satisfactory to the Company.

A. Refusal to Provide Local Service

Local Service may be refused under the following conditions:

1. Where an applicant owes an unpaid bill for previous service with the Company, the Company may reject application for local service until the amount due shall have been paid in full. (C)
2. In the event an applicant refuses to pay an advance payment or deposit for local service requested by the Company.
3. Upon objection to the furnishing of service made by or on behalf of any governmental authority.

1. ESTABLISHING AND FURNISHING SERVICE (cont'd)

1.1 Applications For Service (cont'd)

B. Cancellation of Applications for Service (T)

When an application for new service or a request for additions, rearrangements, relocations, or modifications of service is cancelled before service is established or before the work involved has been completed, the applicant or customer may be required to reimburse the Company for all expense incurred in connection with the handling of the application or request before notice of cancellation is received. However, such charge shall not exceed all charges which would apply if the work involved in complying with the application or the request had been completed, i.e., all applicable nonrecurring and termination charges.

C. Use of Service (T)

1. Ownership and Use of Facilities

Facilities furnished by the Company on the premises of a customer are the property of the Company, whose agents and employees shall have the right to lawfully enter said premises at any reasonable hour for the purpose of installing, inspecting, maintaining or repairing the facilities, for the purpose of making collections from coin boxes, or upon termination of the service, for the purpose of removing such facilities or equipment.

2. Use of Customer Service

- a. Customer service is furnished for use by the customer, the customer's family, employees or representatives, persons residing in the customer's household, or guests of the customer. Subject to the provisions of C-3 following, use of the customer's service may also be extended to the following:
 - (1) Joint users
 - (2) Guests and tenants of hotels, motels, hospitals, apartment houses and apartment hotels
 - (3) Members of club
 - (4) Persons temporarily subleasing a customer's residential premises
 - (5) Patrons of the customer and the public in connection with exchange access lines terminating in customer-provided equipment which restricts calls to telephone numbers preset by the customer
 - (6) The public in connection with municipal emergency fire and police reporting station lines
 - (7) Patrons of non-residence customers who resell or share their service or equipment

3. Resale and Sharing

a. General Regulations

The Company will permit the resale or sharing of all services (excluding residence services resold as non-residence services) by a customer of record to or with end user clients subject to the terms and regulations contained in this paragraph 3 and the restrictions specified elsewhere in this tariff.

- (1) "Resale" occurs when the customer of record subscribes to a telecommunications service at one price for the purpose of selling such service to end user clients at a different price.
- (2) "Sharing" occurs when the customer of record subscribes to a telecommunications service for the purpose of sharing such service with or among end user clients on a cost-sharing (non-profit) basis. A cost-sharing arrangement could include a fee assessed by the customer of record for functions it performs, including management of the sharing arrangement.
- (3) "Customer of record" as used within this section shall mean the party of a resale or sharing arrangement which contracts directly with the Company for the telecommunications services to be resold to or shared among end user clients.
- (4) "End user clients" as used within this section shall mean the party of a resale or sharing arrangement which contracts with a customer of record for the telecommunications services resold or shared pursuant to the provisions of this section.

3. Resale and Sharing (cont'd)

a. General Regulations (cont'd)

- (5) Resale or sharing will be permitted on all basic exchange services provided for in this tariff, except residence services resold for use as non-residence services.
- (6) Directory listings for the end user clients of customers of record who resell or share service will be provided at the rates for non-residence additional listings as set forth in Part 12, Section 1 of the AT&T Ohio Guidebook. When notified by the customer of record, the Company will place listings of residential end user clients of customers of record in the residential section of its directories.
- (7) Direct interconnection of resale or sharing systems or a combination of Shared Tenant Service and Centrex systems serving different resale/sharing systems is prohibited, except as otherwise specified in this tariff or the AT&T Ohio Guidebook.
- (8) The end user clients of customers of record who resell or share service may obtain local exchange service directly from the Company.

1. ESTABLISHING AND FURNISHING SERVICE (cont'd)

1.1 Applications For Service (cont'd)

D. Assignment or Transfer of Service

(T)

Except as otherwise specifically provided in this tariff, the service of a customer may, upon the consent of the customer and provided there is no interruption or relocation of the service, be assigned or transferred as follows:

1. Non-Residence Service

- a. To another individual, partnership, association or corporation, provided 1) there is no outstanding indebtedness related to contracted-for services, including advertising in classified directories, or 2) if any such outstanding indebtedness exists the individual, partnership, association or corporation assumes all such outstanding indebtedness and the unexpired portion of the contract.
- b. To a receiver, trustee or other person appointed by a court or acting pursuant to law in bankruptcy, receivership, reorganization, insolvency, liquidation or other similar proceedings, provided 1) there is no outstanding indebtedness related to contracted-for services, including advertising in classified directories or 2) if any such outstanding indebtedness exists the receiver, trustee or other person appointed by a court or acting pursuant to law in bankruptcy, receivership, reorganization, insolvency, liquidation or other similar proceedings assumes all such outstanding indebtedness and the unexpired portion of the contract.

1. ESTABLISHING AND FURNISHING SERVICE (cont'd)

1.1 Applications For Service (cont'd)

D. Assignment or Transfer of Service (cont'd) (T)

2. Residence Service

- a. If the customer no longer resides at the premises to be served, to another individual.
 - b. If the customer continues to reside at the premises to be served, to another individual provided the transferee assumes all outstanding indebtedness for such service and the unexpired portion of the initial contract period applicable to such service, if any.
3. The regulations and conditions contained in this tariff concerning the establishment of service for and the furnishing of service to applicants and customers shall apply to such assignee or transferee.

1.2 Obligation to Furnish Service

The Company's obligation to furnish service is dependent upon its ability to secure and retain without unreasonable expense suitable facilities and rights for the construction, installation, testing and maintenance of the necessary pole lines, circuits and equipment.

1.3 Identity of Customers

Use of Company facilities for public announcements is subject to the following conditions:

- A. For purposes of identification, customers to telephone service who transmit recorded public announcements over facilities provided by the Company must include in the recorded message the name of the organization or individual responsible for the service and the address at which the service is provided. Such address may be omitted from the recorded message provided that it is included in a published directory listing in the name of the organization or individual, responsible for the service, as such name is included in the message. (T)
- B. Customers transmitting factual public announcements, such as time, time-temperature, weather, stock market quotations, airline schedules, and similar information, are excluded from the preceding condition. (T)
- C. Failure to comply with the provisions of this paragraph shall be cause for termination of the service. (T)
- D. The Company will reveal, to the extent the information is available from its records, on request, the name of the customer responsible for the service with which the recorded public announcements are associated, and the address at which the service is provided. (T)

1. ESTABLISHING AND FURNISHING SERVICE (cont'd)

1.4 Telephone Numbers

The customer has no property right in the telephone number which is assigned by the Company nor any right to continuance of service through any particular central office, and the Company reserves the right to change the telephone number or the central office designation, or both, of a customer whenever it deems it necessary to do so in the conduct of its business.

1.5 Denial or Termination of Service

- A. The Company may deny or terminate any or all local service at one or more or all of the same customer's premises for the following reasons:

1. Abandonment of the service;
2. Nonpayment of any past due charges in accordance with OAC 4901:1-6-12. (C)

(a) Temporary Access To 9-1-1 Service

The Company will continue to follow its existing procedures for disconnection of local exchange service. However, for a period of 14 days following any disconnection for non-payment of a customer's telephone exchange service, a residential customer will have outgoing access to 9-1-1 service provided on the disconnected access line. If, however, the customer has another active local exchange service line at the same service address, the 14 day outgoing access to 9-1-1 service will not be placed on the disconnected line. Where 14-day outgoing access to 9-1-1 service is provided on a disconnected line, all other incoming and outgoing calls on the disconnected line will be blocked. Once the 14-day period ends, complete disconnection will occur, and access to 9-1-1 service will no longer be available from the disconnected line. (C)

3. Nonpayment of any sum on any final account. (C)
4. Abuse or fraudulent use of service as set forth in C. following; (C)
5. Any other violation of the regulations of the Company; or
6. Upon objection to the continuance of service made by or on behalf of any governmental authority.

Subsequent to the completion of an order to discontinue local service, it will be re-established only upon the basis of a new service application.

1. ESTABLISHING AND FURNISHING SERVICE (cont'd)

1.5 Denial or Termination of Service (cont'd)

- B. When service is restored after temporary denial, the Company will make a pro rata allowance at the schedule rate for the service denied, beginning with the day following the denial. However, when the service is restored on the same day as the denial, no credit will be given. (C)
- C. Abuse or fraudulent use includes, but is not limited to: (C)
1. The use of service or facilities of the Company for a call or calls anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment or harass another;
 2. The use of profane or obscene language;
 3. The impersonation of another with fraudulent intent;
 4. The use of the service in such a manner as to interfere with the service of others or to prevent others from making or receiving calls over their telephone service;
 5. The use of the service for any purpose other than as a means of communication;
 6. The use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information, without the payment of the applicable local message charge or message toll charge; and
 7. The obtaining, or attempting to obtain, or assisting another to obtain or attempt to obtain, local or message toll telephone service, by rearranging, tampering with, or making connection with any facilities of the Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or part, of the regular charge for such service.
- D. When some or all of a customer's services have been denied or terminated in accordance with this tariff through the completion of a Company service order, the customer may be held responsible for fees associated with collection efforts, including attorneys' fees. (C)

1. ESTABLISHING AND FURNISHING SERVICE (cont'd)

1.6 Overtime

The service connection, move, change, installation and nonrecurring charges specified in this tariff contemplate work being performed by the Company during the usual working hours on normal working days. When, at the specific request of a customer or applicant for service, work is performed at other times, either for the convenience of the customer or applicant for service or for other reasons not under the control of the Company, the expense incurred by the Company in excess of the normal expense of such work, when performed during usual working hours on normal working days, may be billed to the customer or applicant for service, in addition to the charges otherwise applicable.

2. PAYMENT FOR SERVICE

2.1 Customer Responsibility

The customer is required to pay all charges for service and facilities in accordance with the Company's billing and collection practices. The customer will be held responsible for all charges for telephone service rendered in connection with local or toll messages placed from his station and in connection with toll messages received at his station on which the charges have been reversed with the consent of the person called.

2.2 Thirty Day Month

For the purpose of computing charges for facilities and service, and allowances for interruptions in service, every month shall be considered to have thirty days.

2.3 Advance Payments and Deposits

A. Advance Payments

(T)

The Company reserves the right to require applicants to make such advance payments as may be necessary for the protection of the Company's exchange and toll service revenues, as well as toll service revenues of an IXC for whom the Company is an authorized agent. The amount of the advance payment is credited to the customer's account as applying to any indebtedness under the contract.

2. PAYMENT FOR SERVICE (cont'd)

2.3 Advance Payments and Deposits (cont'd)

B. Deposits

The Company may, in order to safeguard its interests or those of an IXC for whom the Company is an authorized agent, require an applicant or a customer to make suitable deposit to be held by the Company or IXC. In addition, the Company may require customers who file for bankruptcy to furnish adequate assurance of payment in the form of a deposit or other security in accordance with the U.S. Bankruptcy Code, Section 366. Deposits for residential BLES service shall be in accordance with O.A.C 4901:1-6-12(C)(10). Further, the Company may require toll caps in lieu of, or in combination with, a deposit or advance payment to establish creditworthiness. (C)
(C)

The fact that a deposit has been made in no way relieves the applicant or customer from complying with the Company's regulations as to advance payments and the prompt payment of bills. At such time as the contract is terminated, such amount of the deposit as is necessary will be applied to any indebtedness to the Company for telephone service charges. A deposit may be refunded or credited to the customer's account at any time prior to the termination of the contract in accordance with the Company's policies.

(D)

2. PAYMENT FOR SERVICE (cont'd)

2.4 Customer Billing Adjustments

The Company will issue applicable billing credits for Basic Local Exchange Service (BLES) outages as prescribed by O.A.C. 4901:1-6-12(C).

2.5 Effect of Charge Increases on Pending Orders

A customer who orders service or equipment installations, moves or changes prior to the effective date of any increase in the one time charge applicable to such work will be subject to the one time charge in effect at the time such customer's order was received by the Company provided such work is completed within the Company's normal installation interval in effect at the time such order was placed. The Company's normal installation interval is the interval between the date an order is taken and the earliest date the order can be completed in accordance with the standard work schedules on the date the order is taken. However, if subsequent to the effective date of the increase in the one time charge, the completion of such work is delayed beyond the Company's normal installation interval and the delay is not caused by the Company, such customer will then be subject to the one time charge in effect at the time the work is completed by the Company. A part of an order which is completed prior to the effective date of any increase in the one time charge and which is subject to billing prior to the completion of the entire order in accordance with the Company's billing practices shall be subject to the one time charge in effect on the date said part is completed although the total work is not completed, due to customer-caused delay, by the effective date of the increase. One time charges as used in this paragraph include Service and Equipment charges, move and change charges, installation charges, nonrecurring charges and nonrecurring charge options.

(D)

(D)

2.9 Late Payment Charges for Non-Residence BLES Service

(C)

A late payment charge will be applied to non-residential customer bills which remain unpaid after the due date. This charge will be the greater of either \$11.00, or an amount that equals 1.5% of all unpaid charges which are past due; except that the charge is not applicable as specified below. This late payment charge will not be placed on the customer's account until the past due, unpaid balance on that customer's account exceeds \$10.00.

A. The late payment charge does not apply to:

Amounts which are in dispute at the time the late payment charge would otherwise be applied.

Federal excise tax or any other taxes levied by law directly on the customer.

Accounts of the federal, state county or local government.

Amounts billed by the Company for other entities for which the charge is not authorized by those entities' appropriate tariffs or contracts, other than Interexchange Carrier Services for which the Company, acting as the principal Billing and Collection Agent, purchases the accounts receivable in advance of subscriber billing.

B. Credit, deposit and collection procedures outlined elsewhere in this tariff are not waived or foreclosed by the application of a late payment charge.

(D)

2. PAYMENT FOR SERVICE (cont'd)

2.10 Late Payment Charges for Residence BLES Services

(C)

A late payment charge will be applied to residential customer bills which remain unpaid after the due date. This charge will be the greater of either \$5.00, or an amount that equals 1.5% of all unpaid charges which are past due; except that the charge is not applicable as specified below. This late payment charge will not be placed on the customer's account until the past due, unpaid balance on that customer's account exceeds \$25.00, and it is at least nineteen calendar days from the postmark on the bill.

A. The late payment charge does not apply to:

Amounts which are in dispute at the time the late payment charge would otherwise be applied.

Any previous late payment fees included in the amount due.

Service establishment charges for Lifeline.

Federal excise tax or any other taxes levied by law directly on the customer.

Amounts billed by the Company for other entities for which the charge is not authorized by those entities' appropriate tariffs or contracts, other than Interexchange Carrier Services for which the Company, acting as the principal Billing and Collection Agent, purchases the accounts receivable in advance of subscriber billing.

Amounts upon which an Interexchange Carrier has already assessed a Late Payment Charge.

(D)

2. PAYMENT FOR SERVICE (cont'd)

2.10 Late Payment Charges for Residence BLES Services (cont'd)

(C)

- B. Each customer account shall be permitted a one-time waiver of a monthly late payment charge upon request by the customer provided the customer has paid the monthly bill to which the late payment charge was to apply.
- C. Credit, deposit and collection procedures outlined elsewhere in this tariff are not waived or foreclosed by the application of a late payment charge.

2.11 Convenience Fee for Payment Made with a Company Representative

(C)

A fee, as set forth in the AT&T Ohio Guidebook may apply for each instance of payment of charges made with a Company Representative, when authorized by the subscriber, for one-time electronic payments by check, credit card, or by any other discretionary method that may be accepted by the Company. The subscriber would be informed by the Company Representative of any applicable charges prior to processing the subscriber's payment and given the opportunity to be transferred to the automated payment system to avoid this charge.

(C)

This fee would not apply when automated payment systems are unavailable due to system outages. This fee would also not apply for payments taken directly by subscribers to authorized Company payment locations, payments mailed in, payments made using self service payment options, or automatic funds transfer.

Customers who are physically unable to use other payment alternatives, including the automated system, and who inform the Company Representative of such limitations on each call, would not be subject to the fee. The Company reserves the right to require medical certification.

(D)

|
(D)

2.12 Telecommunication Relay Services (TRS)

Customers may be assessed a monthly charge per line to fund the Telecommunication Relay Services for the State of Ohio in accordance with section 4905.84 of the Revised Code. This charge shall in no event exceed the per end user line (or equivalent) assessment of the Public Utilities Commission of Ohio levied upon the Company.

(D)

3. OBLIGATION AND LIABILITY OF THE COMPANY

3.1 Liability of The Company

In view of the fact that the customer has exclusive control of his communications over the facilities furnished him by the Company, and of the other uses for which facilities may be furnished him by the Company, and because of unavailability of errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the terms, conditions and limitations herein specified.

- A. The Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit by a customer or by any others for damages associated with the installation, provision, termination, maintenance, repair or restoration of service, and subject to the provisions of 2., following, the Company's liability, if any, shall not exceed an amount equal to the proportionate charge for the service for the period during which the service was affected. This liability for damages shall be in addition to any amounts that may otherwise be due the customer under this tariff as a Credit Allowance for a Service Interruption.

(D)
|
(D)

3. OBLIGATION AND LIABILITY OF THE COMPANY (cont'd)

3.1 Liability of The Company (cont'd)

- B. The customer indemnifies and saves the Company harmless against claims for libel, slander, or infringement of copyright from the material transmitted over its facilities; against claims for infringement of patents arising from combining with, or using in connection with, facilities of the Company, apparatus and systems of the customer; against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company; and against any and all claims for damage caused by the customer's facilities or equipment attached or connected to facilities furnished by the Company. (T)

3.2 Installation, Maintenance and Repairs

- A. Unless otherwise specified in the Company's tariffs, a customer is not permitted to install, rearrange, disconnect, remove or repair, or permit others to install, rearrange, disconnect, remove or repair any apparatus or wiring of the Company on the network side of the network interface. (T)
- B. Unless otherwise specified in the Company's tariffs and B.1. and B.2 below, all ordinary expense of installation, maintenance and repair, in connection with facilities and service provided by the Company, on the network side of the network interface, is borne by the Company. (T)
1. In situations where maintenance and repairs would have been performed by the Company during the usual working hours on normal working days, but at the specific request of the customer such work is performed at other times for the customer's convenience or for other reasons not under the control of the Company, the expense incurred by the Company in excess of the normal expense of such maintenance and repairs, when performed during usual working hours on normal working days, may be billed to the customer. This provision, however, shall not apply to emergencies, that is, situations that affect public health or safety, or result from critical illness, unavoidable casualties, or acts of God. (T)
2. In situations such as sporting events, one-time entertainment events, etc., where the customer requests that "standby" workmen be provided to safeguard the continuity of service, irrespective of when such "standby" workmen are provided, the entire cost of providing such "standby" workmen may be billed to the customer. (T)

3. OBLIGATION AND LIABILITY OF THE COMPANY (cont'd)

/1/
/2/

3.3 Directory Errors and Omissions

The Company's liability arising from errors or omissions in its directories or in accepting listings presented by customers or prospective customers shall be limited to resulting impairment of the customer's service and the Company may discharge such liability by an abatement or refund of an amount not exceeding the charge for the service during the period covered by the directory in which the error or omission occurs. The Company will not be a party to controversies arising between customers or others as a result of listings published in its directories.

3.4 Service in Hazardous Locations

Except as otherwise specifically provided in this tariff, the Company will require the customer to install and maintain service at locations which are or may be hazardous or dangerous to its employees or property and then only upon the written consent of the Company.

3.5 Service at Outdoor Locations

The Company will refuse to provide, maintain or restore service at outdoor locations unless the customer agrees in writing to indemnify and save harmless the Company from and against any and all loss or damage that may result to facilities furnished by the Company at such locations.

3.6 Use of Connecting Company Lines

When the lines of another telephone company are used in establishing connections to points not reached by the Company's lines, the Company shall not be held liable for any act or omission of the other company.

3.7 Defacement of Premises

The Company is not liable for any defacement of or damage to the premises of a customer resulting from the attachment of the Company's apparatus and associated wiring on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the Company.

3.8 Transmitting Messages

Except as otherwise specifically provided in this tariff, the Company does not transmit messages but offers the use of its facilities for communications between customers or others.

4. RESPONSIBILITIES OF THE CUSTOMER

/1/
/2/

4.1 Lost or Damaged Equipment

In case of damage, loss or destruction of any of the Company's property due to the negligence or willful act of the customer or other persons authorized to use the service, and not due to ordinary wear and tear or causes beyond the control of the customer, the customer shall be required to pay the expense incurred by the Company in connection with the replacement of the property damaged, lost or destroyed or the expense incurred in restoring it to its original condition.

4.2 Floor Space, Power Supply and Other Arrangements at Customer Premises

The customer shall provide, maintain and bear the expense of the following:

1. Space and floor arrangements for installation of Company facilities.
2. Housing, light, heat and ventilation needed for the operation and maintenance of Company facilities.
3. Electric power, outlets and wiring at convenient locations.

5. INITIAL CONTRACT PERIODS AND TERMINATION CHARGES

5.1 Initial Contract Periods

- A. An initial contract period applies to all services and facilities provided for a customer. Initial contract periods date from the day following the completion of the installation of the service or facilities involved.
- B. Application of Initial Contract Periods

Except as hereinafter provided, the initial contract period for all services and facilities is one month on the same continuous property:

1. Additional Directory Listings and Joint User Service

The initial contract period for additional directory listings and joint user service where the listing does not appear in the directory, is one month. The initial contract period for additional directory listings and joint user service, where the listing appears in the directory, is the directory period. The regulation set forth in the preceding sentence also applies to listings which are ordered discontinued by the subscriber after the established closing date of the directory in which they are to appear. Contracts for additional listings and joint user service are self-renewing for period of one directory issue until cancelled, except as provided hereinafter under "Termination Charges".

5.1 Initial Contract Periods (cont'd)

B. Application of Initial Contract Periods (cont'd)

2. Nonrecurring Charge Items

The initial contract period for facilities and equipment furnished at a nonrecurring charge only, is the period for which the service is rendered.

(D)

(D)

5. INITIAL CONTRACT PERIODS AND TERMINATION CHARGES (cont'd)

5.2 Termination Charges

A. Application of Termination Charges

When service is terminated by the customer, or by the Company for any reason for which it may terminate such service under the provisions of this tariff, prior to the expiration of the initial contract period, the following termination charges apply in addition to all charges due for the service which has been furnished:

1. Additional Directory Listings and Joint User Service

In the case of joint user service and additional directory listings for which the initial contract period is the directory period, the termination charges will be the charges due to the end of the directory period, except that the termination charges will be the charges due for the period service has been rendered.

- a. In case the contract for the main service is terminated; (T)
- b. In case the listed party or joint user becomes a customer to the same class of service as is furnished to the customer who contracted for such additional listing or joint user service; (T)
- c. In case the customer, the listed party or the joint user moves to different premises as a result of which the service of the customer is not available to the listed party or joint user; or (T)
- d. In the case of death of the listed party or joint user. (T)

2. Contract Periods of Two Years or Less

In the case of services for which the initial contract period is two years or less, the termination charges will be the charges due for the unexpired portion of such initial contract period, except for those items for which a termination liability is set forth in this tariff.

3. Contract Periods in Excess of Two Years

In the case of services for which the initial contract period is in excess of two years, the termination charges will be an amount equal to fifty per cent of the charges for the unexpired portion of such initial contract period, at the rate in effect at the time the service is discontinued, except for those items for which a termination liability is set forth in this tariff.

5. INITIAL CONTRACT PERIODS AND TERMINATION CHARGES (cont'd)

/1/
/2/

5.2 Termination Charges (cont'd)

A. Application of Termination Charges (cont'd)

4. Termination Liability Items

In the case of items of service for which a termination liability is included with the rates and charges for such items in various sections of this tariff, the termination charges will be an amount equal to such termination liability, reduced by a proportionate amount for each month within the applicable contract period that the monthly rate has been collected.

5. Special Equipment

In the case of special equipment and other equipment or facilities furnished at rates or charges based upon costs incurred, termination charges apply as follows:

- a. Where the initial contract period is one year or less, the termination charges will be the charges due for the unexpired portion of the initial contract period applicable to such special equipment or such other equipment or facilities.
- b. Where the initial contract period is in excess of one year, the termination charges will be such portion of the expense incurred by the Company for the equipment and for its installation and removal, less the salvage value of the equipment removed, as the unexpired portion of the initial contract period bears to the full initial contract period.

6. Change in Type of Service

In the case of the following changes in type of service prior to the expiration of the one month initial contract period, the termination charges will be the charges due for the unexpired portion of such initial contract period:

- a. from flat rate service to message rate service, or vice versa; and
- b. from basic local service to optional local service, or vice versa.

5.2 Termination Charges (cont'd)

A. Application of Termination Charges (cont'd)

7. Discontinuance of a Portion of a Service

Where only a portion of a service is discontinued, the termination charges will be as set forth in 2 through 6 preceding. In addition, for those items of service and equipment covered in 2, 3 and 4 preceding for which the initial contract period is six months or more, where rearrangements of the equipment left in service are required as a result of the partial discontinuance, the expense incurred by the Company for such rearrangements will be billed to the customer in addition to the termination charges specified or, at the option of the customer, termination charges on the entire installation will be billed to the customer and a new initial contract period for the equipment as rearranged will commence.

8. Message Allowance

When message rate service is terminated prior to the expiration of the initial contract period of one month, the message allowance for the period of service subsequent to the previous billing date, if any, will be the difference between the monthly allowance for the grade of service furnished and the number of messages allowed at such previous billing date.

B. Conditions Under Which Termination Charges Do Not Apply

1. Assignment or Transfer of Service

Termination charges do not apply

- a. when the service of a customer (including any outstanding indebtedness to the Company and the unexpired portion of the initial contract period, if any) is transferred to a new customer without interruption of the service; or
- b. when the service of a customer (including the unexpired portion of the initial contract period, if any) is transferred, without interruption of the service, to a receiver, trustee or other person appointed by a court or acting pursuant to law in bankruptcy, receivership, reorganization, insolvency, liquidation or other similar proceedings.

C. Service Terminated After Expiration of Initial Contract Period

When service is terminated after the expiration of the initial contract period, the charges applicable are those due through the last day of service whether this be a full day or a part of a day. However, in the case of additional directory listings and joint user service, after listings have appeared in the directory, each directory period is considered as a separate initial contract period (i.e., listings are automatically included in each directory issue unless notice to the contrary is received from the listed party or customer) and termination may be arranged for only under the conditions specified in A-1 preceding.

6. INFORMATIONAL NOTICE

6.1 Landline Direct-Dialed Calls

Landline direct-dialed calls made by the customer to certain cellular or paging telephone numbers may incur an additional charge. This charge is assessed by the wireless provider, not by AT&T Ohio.

7. DISASTER PLANS

7.1 Disaster Relief Plan

(C)

When a business or residence customer's premise is destroyed or partially destroyed by means beyond the control of the customer, i.e., natural disaster or fire, the following emergency plan will go into effect, except as provided pursuant to the Major Disaster Relief Plan below:

- The Service Connection Charge to re-establish the local exchange access line after the disaster will be waived. (C)
- The monthly rate and associated Service Connection Charge will be waived for thirty days for the following services:
 - Call Forwarding
 - Call Forward Busy Line
 - Call Forward Don't Answer
 - Remote Call Forward
 - Message Waiting Indicator

7.2 Major Disaster Relief Plan

To assist in cases of state and/or federally recognized disasters, AT&T Ohio may provide special offerings of its products and services to residence and business customers. Such disasters include, but are not limited to, natural disasters, terrorism, military action or war.

(D)
(D)

The offering(s) will be limited in duration.

8. MEET POINT BILLING ARRANGEMENTS

/1/

When facilities are provided jointly by the Company and one or more other telephone companies, and a Commission approved multiple bill, multiple tariff (MBMT) arrangement is in place between the Company and the other telephone company or companies, the regulations and prices of such other telephone companies apply for the equipment and facilities furnished by them for use in connection with the service provided by the Company.

When the Company and one or more other telephone companies involved in provisioning services operate under a meet point multiple billing arrangement, and a Commission approved MBMT arrangement is in place between the Company and the other telephone company or companies, the portion of the circuit(s) located in that telephone company's area will be billed by that company. Under this arrangement, AT&T Ohio will bill the customer for their portion of the circuit(s) located in its territory at its tariffed rates, while the other telephone company or companies involved will bill the customer at their tariffed rates for the portion of the circuits located in their company territory.

9. REWARDS AND INCENTIVES

From time to time, AT&T may offer an incentive or reward card when customers purchase or subscribe to AT&T products or services. Customers may use these incentive or reward cards to pay for AT&T services.

1. SPECIAL SERVICES

A. Construction Charges

1. General Regulations

- a. All rates and charges specified in this tariff contemplate the establishment of service without abnormal or excessive expense to the Company. Under certain conditions, as outlined in this paragraph A, nonrecurring charges, hereinafter referred to as construction charges, will be applied to cover all or a part of the abnormal or excessive expense incurred by the Company in the establishment of service. Payment of construction charges will be required prior to the commencement of the work with which such construction charges are associated. (T)
- b. Where construction has been started in order to furnish service to an applicant and the application for service is cancelled prior to the establishment of service, the applicant shall be required to reimburse the Company for the estimated loss resulting from such construction. (T)
- c. Where facilities constructed on private right of way are used as a part of the Company's general distributing plant, the regulations and construction charges to be applied shall be those specified for the construction of facilities on public highways, but when not so used, the regulations and construction charges to be applied shall be those specified for the construction of entrance facilities. (T)
- d. Such facilities and construction work as may be provided by an applicant, as hereinafter set forth, shall be subject to the approval of the Company. (T)
- e. The customer does not obtain any rights of ownership or otherwise in facilities provided by the Company, whether or not construction charges are applied. All facilities provided by the Company shall be under its exclusive control and, except as hereinafter specifically provided, shall be maintained and replaced by and at the expense of the Company. (T)
- f. All facilities provided by the customer shall be owned by the customer, but shall be under the exclusive control of the Company while used for the furnishing of service by the Company. Maintenance and replacement of such facilities shall be at the expense of the customer. (T)
- g. Permanent facilities on public highways will be provided by the Company without the application of construction charges. (T)

Issued: November 30, 2007

Effective: November 30, 2007

1. SPECIAL SERVICES (cont'd)

A. Construction Charges (cont'd)

1. General Regulations (cont'd)

- h. A buried wire or buried cable type of facilities will not be provided where, in the judgment of the Company, conditions are unsuitable and the use of such type of facilities may interfere with the furnishing of efficient telephone service. (T)
- i. When an applicant is so located that it is necessary for the Company to obtain right of way to furnish service, the applicant may be required to pay the cost (including rental) of securing and retaining such right of way. (T)
- j. Where rearrangement of any facilities provided by the Company on private property is made at the request of or to meet conditions imposed by the customer, the expense incurred by the Company for such rearrangement shall be borne by the customer. (T)

2. Temporary Facilities

Where the Company constructs temporary facilities, the applicant will be required to pay the expense incurred by the Company for such construction, plus the estimated cost of removal of such facilities, less the estimated salvage value of the material recovered upon removal of such facilities. Temporary facilities are: (T)

- a. facilities constructed in advance of construction of permanent facilities and removed upon completion of the construction of permanent facilities, and
- b. facilities which will probably be used only for a short term and with respect to which there is no immediate prospect of reuse in place for another applicant.

3. Permanent Entrance Facilities

Entrance facilities are those facilities which extend from the point of entrance on private property to the premises in which service is located. The Company will construct permanent entrance facilities subject to a. through c. following. (T)

1. SPECIAL SERVICES (cont'd)

A. Construction Charges (cont'd)

3. Permanent Entrance Facilities (cont'd)

a. Pole Lines

(1) When the Company constructs permanent entrance facilities of a pole line type, the applicant shall be required to pay the expense incurred by the Company for that portion of the pole line as is in excess of 1,000 feet, measured along the proposed path of construction. (T)

(2) When the Company attaches its entrance facilities to poles of others located on private property, the charges to be applied, where expense is incurred by the Company either for purchase of an interest in or rental of contacts on such poles, are the same as those which would be applicable if a pole line were constructed by the Company. When such poles are used by the Company for attaching its entrance facilities without expense, no construction charges shall apply. All other regulations and requirements of both the owner of such pole lines and the Company with respect to such joint use shall apply. (T)

The decision as to whether poles of others are suitable for the attachment of the Company's facilities rests with the Company. (T)

b. Buried Facilities

(1) When the Company constructs permanent entrance facilities of a buried wire or buried cable type, the applicant shall be required to pay the expense incurred by the Company for excavation and fill-in for that part of the entrance facilities so constructed as is in excess of 1,000 feet in length, measured along the proposed path of construction, provided that the applicant is located in territory where such type of facilities is used for the Company's general distributing plant, and such type of entrance facilities would normally be provided. (T)

(2) Except as otherwise provided in (1) preceding, the furnishing of buried entrance facilities is not considered normal, and when buried entrance facilities are provided, the applicant shall be required to pay charges as specified in (1) preceding, plus the additional expense incurred by the Company as described in 5. following. (T)

Where a buried wire or buried cable type of entrance facilities is provided by the Company in cases where such type of facilities is not considered normal, the customer shall be required to pay for all excavation and fill-in in connection with maintenance and replacement of such buried wire or buried cable type of entrance facilities. c. Conduit

Where a conduit type of entrance facilities is required, construction charges do not apply; however, the applicant is required to provide, in place, suitable conduit from the point of entrance on his private property to the premises in which service is to be furnished, except where the Company, in its sole discretion, initiates the installation or maintenance of such conduit as part of modernizing the network.

4. Facilities (Other Than Entrance Facilities) Confined to the Same Continuous Property

- a. Except where the Company, in its sole discretion, initiates the installation or maintenance of such conduit as part of modernizing the network, the applicant or customer will be required to provide: (1) poles and fixtures in place where a pole line type of facilities is used; (2) conduit in place where a conduit type of facilities is used; and (3) excavation and fill-in where a buried wire or buried cable type of facilities is used.
- b. The Company will provide wire or cable on such poles, cable in such conduit and buried wire or buried cable in such excavations, in accordance with the regulations and at the rates and charges specified for non-regulated Premises Work and Materials. (T)
- c. Where a buried wire or buried cable type of facilities is provided by the Company on private property, other than for entrance facilities, the customer shall be required to pay for all excavation and fill-in in connection with maintenance and replacement of such buried wire or buried cable type of facilities. 5. Special Types of Construction or Facilities

a. Outside Construction or Facilities

When an applicant requires a special type of construction or a type of facilities not normally provided, or where the conditions imposed by the applicant, such as the time and place involved, make the installation abnormally or excessively expensive, the applicant shall be required to pay the additional expense incurred by the Company; i.e., the difference between (T) the expense incurred by the Company for such construction, facilities or installation and the (T) expense which would otherwise be incurred for a normal type of construction or facilities or a normal installation.

(C)

A. DESCRIPTION

The Company will make available, to the extent it may lawfully do so, access to poles, ducts, conduits and rights-of-way (individually and collectively, "Structure") owned or controlled by the Company for the placement of the Attaching Party's Attachments. This tariff applies to all Attaching Parties obtaining access to Structure other than telecommunications carriers obtaining access to Structure pursuant to a negotiated interconnection agreement pursuant to which the Company is obligated to negotiate guidelines for implementation of the terms and conditions of access.

The availability of Company Structure for the Attaching Party's attachments is subject to and dependent upon all rights, privileges, franchises or authorities granted by governmental entities with jurisdiction, existing and future agreements with others, all interests in property granted by persons or entities public and private, and all statutes, laws, codes, regulations, rules and common law, and all terms, conditions and limitations of any or all of the foregoing, by which the Company owns and controls Structure or interests therein.

If the Attaching Party is a provider of telecommunications services, "Poles, Ducts and Conduits" include entrance facilities and conduit and riser space; controlled environmental vaults; manholes; telephone equipment closets; remote terminals; cross-connect cabinets, panels or boxes; equipment cabinets, pedestals, or terminals; and any other infrastructure used by the Company to place telecommunications distribution facilities. "Rights-of-Way" are easements, licenses or any other right, whether based upon grant, reservation, contract law or otherwise, to use property suitable for distribution facilities but does not include property owned or leased by the Company which is not used or suitable for distribution facilities such as business offices or corporate offices.

Occupancy Accommodations

1. POLE ATTACHMENT AND CONDUIT OCCUPANCY ACCOMMODATIONS (cont'd)

(C)

A. DESCRIPTION (cont'd)

If the Attaching Party is a party other than a telecommunications service provider, "Poles" means poles owned by the Company, or poles owned by others or owned in part by the Company or which the Company has a contractual right to permit the use by attaching parties, but in either event, which are used to support attachments. "Ducts and Conduits" means enclosed reinforced passages capable of supporting communication cables, ducts or conduits including single ducts, innerducts and lateral ducts into buildings owned by third parties, and the manholes, handholes, and pull-boxes associated with the ducts or conduit. Duct or Conduit does not include ducts or conduits within buildings owned by third parties.

If the Attaching Party is a party other than a provider of telecommunications services, Rights-of-Way are legal interests of the Company in property of others, such as easements, or licenses, which are suitable for use for attachments for communications distribution networks. Rights-of-Way include ducts or conduit controlled by the Company that are located within buildings owned by third parties and not leased by the Company. Poles, ducts, conduit or rights-of-way do not generally include:

1. controlled environmental vaults, remote equipment buildings, huts or enclosures, cross-connect cabinets, panels and boxes, equipment closets or enclosures in buildings, or any like or similar equipment enclosures or locations, or the ducts or conduit connecting any of the foregoing to manholes or conduit runs between manholes; or
2. access to Company owned or leased property for placement of distribution facilities other than in Company poles, ducts or conduits.

Except as otherwise provided, this tariff applies to affiliates of the Company. This tariff applies to the Company only as specifically provided.

|-----------------------|
| B. DEFINITIONS |
|-----------------------|

Act

The Act means the Telecommunications Act of 1996.

Attaching Party

An Attaching Party is: (a) a provider of telecommunication services as defined in the Act and certified by the Public Utilities Commission of Ohio under Section 4905.24 of the Ohio Revised Code; or (b) a cable television system as defined in the Act; or (c) any person or entity other than a public utility (as defined in Section 4905.02 of the Ohio Revised Code) meeting the criteria of Section 4905.71 of the Ohio Revised Code.

Attachment(s)

Any cable, equipment, facilities, apparatuses or appurtenances used or useful in communication distribution networks providing telecommunications services or in a cable television system.

Capacity

Refers to space available on or in structure for an Attaching Party's Attachment.

Conduit Occupancy

Occupancy of a conduit system by any Attachment of an Attaching Party.

Field Survey

All work in the field performed to verify the availability of Company Structure for the Attachments of the Attaching Party and to determine the extent and cost of any Make Ready Work.

Innerduct

A single enclosed raceway for conductors or cables, sometimes placed within ducts.

Make Ready Work

Make Ready Work includes all activities necessary to prepare the Company's Structure for the attachments of Attaching Party, including engineering, field surveys, permits, construction, rearrangement, replacements, inspection, administration and supervision.

Pole Attachment

Any of Attaching Party's Attachments affixed to a pole.

C. TERMS AND CONDITIONS

1. Structure Availability

The Company will not make Structure available: (a) where, after taking all reasonable steps to accommodate such request, there is insufficient Capacity to accommodate the requested Attachment, or (b) where an Attachment cannot be accommodated based upon nondiscriminatorily applied considerations of safety, reliability or engineering principles.

Insufficient Capacity for purposes of this tariff means the lack of existing available space on or in Structure and the inability to create the necessary space after taking all reasonable steps to do so, including modification of existing attachments or replacement of poles, where such modifications and/or replacements are not precluded on the basis of safety, reliability or engineering concerns.

Based on the information from maps and records, or the field survey, if completed, the Company will determine if access to the Company's Structure to accommodate the requested Attachment can be provided to the Attaching Party. If the Company proposes to deny an Attaching Party access to its Structure due to Insufficient Capacity, the Company will first offer to meet with the Attaching Party to explore potential accommodations in good faith. If the Attaching Party declines to meet with the Company or after such meeting the Company still proposes to deny access, the Company will provide a detailed, written reason for denial within forty-five (45) days of the Attaching Party's request for such access.

If the Company is unable to obtain the required permits to perform a Field Survey or any Make Ready Work or if additional information is discovered while performing the Field Survey or Make Ready Work, which would require the Company to deny an Attaching Party access to its Structure due to Insufficient Capacity, the Company will provide a detailed, written reason for denial within five (5) business days of discovery.

C. TERMS AND CONDITIONS (cont'd)

1. Structure Availability (cont'd)

If denial of access is proposed to be made for any reason, the Company will meet with the Attaching Party, at their request, and explore in good faith reasonable alternatives to accommodate the proposed attachment. The notice of proposed denial will include a statement that the Attaching Party has ten (10) business days to request a meeting. The Company will schedule the meeting within ten (10) business days of receipt of the Attaching Party's written request for a meeting.

2. Franchises, Permits and Consents

Attaching Party shall secure any franchises, permits or consents from federal, state, county or municipal authorities and any property interests or consents from the owners of private property, necessary to construct and operate its Attachments at the location of the Structure it uses. Attaching Party shall indemnify the Company against loss directly resulting from any actual lack of lawful authority to occupy the Structure and Rights-of-Way of the Company.

3. Access and Modifications

Where necessary to accommodate a request for access by Attaching Party, and provided the Company has not denied access for Insufficient Capacity or safety, reliability or engineering reasons, or because the Company may not lawfully make the structure available, the Company will modify its Structure in order to accommodate the Attachments of Attaching Party. The Company may permit the Attaching Party to conduct the Field Survey and Make Ready Work. Modified Structure includes Structure constructed or modified after the effective date of this tariff.

Before commencing the work necessary to provide such additional capacity, the Company will provide notice to all other parties having Attachments on or in the Structure proposed to be modified. The notice shall provide such other parties with Attachments sixty (60) days within which to decide to participate in the modification by expanding the party's Attachment. A modification made to accommodate an Attaching Party, including the Company, will include any additional modifications required to accommodate other parties with Attachments desiring to modify their attachments.

If an Attaching Party requests access to a Company right-of-way where the Company has no existing Structure, the Company shall not be required to construct new poles, conduit or ducts, or to bury cable for an Attaching Party but the Company will make its Right-of-way available to an Attaching Party to construct the Attaching Party's own poles, conduit or ducts or to bury its own cable; provided, however, if the Company desires to extend its own attachments, the Company will construct the Structure to accommodate the Attaching Party's Attachment.

3. Access and Modifications (cont'd)

The costs of modifying a Structure to accommodate Attaching Party's Attachment or the needs of the Company shall be borne by the party requesting such modification, except that if other parties obtain access to the Structure as a result of the modification such parties shall share in the cost of modification proportionately with the party initiating the modification. A party, including the Company, with a pre-existing Attachment to the Structure to be modified to accommodate another Attaching Party shall be deemed to directly benefit from the modification if, after receiving notification of the modification, it adds to or modifies its Attachment. In the event a party, including the Company, uses the modification to bring its Structure or Attachments into compliance with applicable safety or other requirements, it shall be considered as sharing in the modification and shall share the costs of the modification attributable to its upgrade. Notwithstanding the foregoing, a party or the Company with a pre-existing Attachment to the Structure, shall not be required to bear any of the costs of rearranging or replacing its Attachment if such rearrangement or replacement is necessitated solely as a result of an additional Attachment or the modification of an existing Attachment sought by another Attaching Party. If a party, including the Company, makes an Attachment to the modified structure after the completion of the modification, such party shall share proportionately in the cost of the modification if such modification rendered the added Attachment possible.

All modifications to the Company's Structure will be owned by the Company. Attaching Parties, including the Company, who contributed to the cost of a modification, may recover their proportionate share of the depreciated value of such modifications from parties subsequently seeking access to the modified structure.

4. Structure Access Implementation Guidelines^{/1/}

The Company may issue procedures and guidelines for the implementation of this tariff section and efficient administration of access to the Company's Structure. Copies of the current Structure Access Guidelines may be obtained from the Ameritech Structure Access Coordinator, 23500 Northwestern Highway, Room E230, Southfield, Michigan 48075. No change in such Guidelines shall be effective until 60 days after written notice is sent to Attaching Parties and the Commission Staff specifying any proposed changes and seeking their comment. Any notices will be sent to the current billing addresses for Attaching Parties.

/1/ The Structure Access Guidelines are being incorporated by reference to comply with the Opinion and Order of the Public Utilities Commission of Ohio in Case No. 96-1027-TP-CSS, issued on April 17, 1997. By filing this tariff, Ameritech Ohio expressly reserves, and does not waive, any legal rights or recourse it may have to challenge or contest the validity of the Commission's Order and/or the subject tariff, including the right to seek judicial determination that the tariff is void *ab initio* as being contrary to federal law.

5. Installation and Maintenance Responsibility

Attaching Party shall, at its own expense, install and maintain its Attachments in a safe condition and in thorough repair so as not to conflict with the use of the Structure by the Company or by other Attaching Parties. Work performed by Attaching Party on, in or about the Company's Structures shall be performed by properly trained, competent workmen skilled in the trade with qualifications and training at least equivalent to that of the workers and contractors of the Company.

The Company with input of the Attaching Party, will assign in a nondiscriminatory fashion, location of the Attachment on or in the Structure or right-of-way.

Attaching Party shall construct each Attachment in conformance with the Occupancy Permit issued for such attachment. Other than routine maintenance and service wire attachments, Attaching Party shall not modify, supplement or rearrange any Attachment without first obtaining a revised Occupancy Permit therefore.

Attaching Party shall provide the Company with notice five (5) business days before entering any manhole, handhole or pull box for construction or maintenance purposes.

6. Installation and Maintenance Standards

Attaching Party's Attachments shall be installed and maintained in accordance with the valid and lawful rules, requirements and specifications of the National Electrical Code, National Electrical Safety Code, Bellcore Construction Practices and other standards and practices promulgated by the Company, the FCC, the Commission, the Occupational Safety & Health Act and of any other governing authority having jurisdiction over the subject matter. The Attaching Party shall defend, indemnify and hold harmless the Company from and against any claim, demand, cause of action, cost, judgments, damages or expenses, including reasonable attorney's fees, arising directly or indirectly out of the Attaching Party's failure to do so.

7. Access Requests

Any request by Attaching Party for access to the Company's Structure shall be in writing and submitted to the Company's Structure Access Coordinator. The Company may not limit the number and scope of requests from Attaching Party being processed at any time, but may prescribe a process for orderly administration of such requests. Company affiliates shall be subject to the same process and treated in the same manner as other Attaching Parties.

The priority for right of access to existing capacity in the Company's Structure will be determined by the actual time that the written request of the Attaching Party for access to the Company Structure is received by the Structure Access Coordinator. The Attaching Party or Company affiliate will have the priority right (the position in the queue) for access to the Company Structure entered on the written request for access, as long as the Attaching Party continues normal processing of the request for access, including Field Survey, Make Ready Work and construction of Attachments. The Attaching Party can contact the Structure Access Coordinator for the status of the request.

Attaching Party's attachment to the Company's Structure shall be pursuant to a written permit (an "Occupancy Permit") issued by the Company for each request for access.

The Company's Structure Access Coordinator shall be responsible for processing requests for access to Company Structure, administration of the process of delivery of access to Company Structure, for all matters relating to access to Company Structure.

8. Unused Space

Excepting maintenance ducts and ducts required to be reserved for use by municipalities, all usable but unused space on Structure owned or controlled by the Company shall be available for the Attachments of Attaching Parties, or the Company.

An Attaching Party may not reserve space on Company Structure for its future needs. The Company shall not reserve space on Company Structure for the future need of the Company nor permit any other person to reserve such space. Notwithstanding the foregoing, Attaching Party may provide the Company with a two (2) year forecast of its growth requirements for Structure that will be reviewed jointly on an annual basis.

An Attaching Party's Attachments to Company Poles may be placed in overbuild space or underbuild space. The Attaching Party may request the Company to place brackets on the Company's poles to attach the Attaching Party's Attachments. "Overbuild space" is the location on the pole or portion of the pole controlled by the Company that is available for Attachments and is a minimum of 12 inches above the highest existing telecommunications or cable television cable Attachment but below the neutral space. "Underbuild space" is the location on the pole or portion of the pole controlled by the Company that is available for Attachments and is a minimum of 12 inches below the lowest existing telecommunications or cable television cable Attachment but adhering to the minimum NESC or state of local clearance to ground requirements. A bracket is used to attach an additional Attachment on an existing pole Attachment. Any brackets placed are owned by the Company.

An Attaching Party may select the location on the pole, in the conduit or within the rights-of-way for its attachment, subject to approval by the Company. Assuming available capacity, approval will be denied only for safety, reliability or general engineering principles.

The Company will provide Attaching Party access to and copies of redacted maps, records and additional information relating to the location, capacity and utilization of the Company's Structure. Upon request, the Company will meet with the Attaching Party to clarify matters relating to maps, records or additional information. The Company does not warrant the accuracy or completeness of information on any maps or records.

Maps, records or information are and remain the proprietary property of the Company, are provided to the Attaching Party solely for the purpose of enabling the Attaching Party to obtain access to the Company's Structure, and may not be resold, reproduced or disseminated by the Attaching Party.

The Company will provide information currently available on the Company's maps and/or records regarding:

1. the location of Structure and street addresses for manholes and poles as shown on Company maps
2. the footage between manholes or lateral ducts lengths, as shown on Company maps
3. the footage between poles, if shown on Company maps
4. the total capacity of the Structure and
5. the apparent available capacity of the Structure.

The Company will not create additional information or provide information in formats other than that in which it currently exists and is maintained by the Company.

The Company will expunge any confidential or proprietary information from its maps and records prior to providing access to the Attaching Party.

An Occupancy Permit shall automatically terminate if (a) the Attaching Party's franchise, consent or other authorization from federal, state, county or municipal entities or private property owners necessary for the Attaching Party to lawfully maintain the attachment is terminated, via a final non-appealable determination (b) the Attaching Party has not placed and put into service its Attachments to the Company's Structure within one year from the date the Company has notified Attaching Party that such Structure is available for Attaching Party's Attachments, (c) the Attaching Party ceases to use its attachment to provide services for any period of one year, (d) the Attaching Party fails to comply with a material term or condition of this tariff and does not correct such noncompliance within sixty (60) days after receipt of notice thereof from the Company, or (e) the Company ceases to have the right or authority to maintain its Structure, or any part thereof to which Attaching Party has Attachments.

If the Company ceases to have the right or authority to maintain its Structure, or any part thereof, to which Attaching Party has Attachments, the Company shall provide Attaching Party notice within ten (10) business days after the Company has knowledge of such fact and will not require Attaching Party to remove its Attachments from such Structure prior to the Company's removal of its own Attachments.

If Attaching Party surrenders its Occupancy Permit for any reason (including forfeiture under the terms of this tariff) but fails to remove its Attachments from the Structure within one hundred eighty (180) days after the event requiring Attaching Party to so surrender such Occupancy Permit, the Company shall remove the Attaching Party's Attachments at the Attaching Party's expense.

The Company will provide the Attaching Party at least sixty (60) days written notice prior to (a) terminating an Occupancy Permit for an Attachment or service to an Attaching Party or removal thereof for a breach of the provisions of this tariff, (b) any increase in the rates for Attachments to the Company's Structure, or (c) any modification to the Company's Structure to which the Attaching Party has an Attachment, other than a modification associated with routine maintenance or as a result of an emergency.

13. Inspections

The Company may make inspections of all or any part of the Attachments of Attaching Party on Company Structures. Inspections shall be made to (a) ensure that the Attaching Party's Attachments have been constructed in accordance with the applicable permit and do not violate any other Attaching Party's rights on the Structure and (b) ensure that the Attaching Party's Attachments are subject to a valid permit and conform to all applicable installation and maintenance standards. If attaching party's attachments are found to be in compliance with these criteria, no charges will be incurred by the attaching party for the inspection. If attaching party's attachments are not in compliance with these criteria, the Company may charge attaching party for the inspection. The costs of periodic inspections will be paid by those attaching parties with 2% or more of their attachments in violation. The amount paid by attaching party shall be the percentage that their violations bear to the total violations of all attaching parties found during the inspection. Except for inspections following the construction of permitted attachments, or in cases involving the discovery of safety, damage to attachments or potential violations of this tariff, such inspections shall not be made more often than once every two (2) years. Where reasonably practicable to do so, the Company shall provide prior written notice to Attaching Party of such inspections and billing of violations.

14. Damage to Attachments

Both Attaching Party and the Company will exercise all reasonable care to avoid damaging the Attachments of either or of others or the Company Structure to which Attaching Party obtains access hereunder. The party damaging the Attachments or Structure of others shall be responsible therefore.

15. No Subletting or Assignment

Access to the Company's Structure is personal to the Attaching Party. The Attaching Party shall not let, assign, license, permit or suffer any other party to exercise any of the rights or privileges of the Attaching Party in obtaining access to the Company's Structure.

The preferred entrances and exits to the Company's conduit system is at established openings including building entrances, points at which cable enters the Company's underground conduit facilities, stubbed-off ducts and preformed manhole lateral knockouts.

If the preferred entrances or exits are not available, upon Attaching Party's request, the Company will permit the interconnection of ducts or conduits owned by Attaching Party to Company manholes. Interconnection will not be permitted where modification of Company structure to accommodate the Attaching Party's request for access is not possible. Attaching party will be responsible for any costs required to accommodate the interconnection.

Except where required herein, requests by Attaching Party for interconnection of Attaching Party's attachments in or on Company Structure with the Attachments of other Attaching Parties in or on Company Structure will be considered on a case-by-case basis and permitted or denied based on the applicable standards set forth in this tariff for and reasons of capacity, safety, reliability, and engineering. 23. Limitation of Liability and Indemnity (cont'd)

The Attaching Party shall indemnify and hold harmless the Company against any and all claims, demands, causes of action, damages, judgments, costs or liabilities of every kind and nature whatsoever, including reasonable attorneys' fees, which may arise out of, be caused by, or be alleged to have been caused by (1) the erection, maintenance, presence, use or removal of the Attaching Party's Attachments on the Company's structure, (2) any act of Attaching Party in connection with or in the vicinity of the Company's structure, or (3) any interruption, discontinuance, or interference with Attaching Party's service to any of its customers occasioned or claimed to have been occasioned by any action of the Company pursuant to or consistent with this tariff. Attaching Party shall, upon demand and at its sole risk and expense, defend any and all suits, actions or other legal proceedings brought or instituted against the Company on any such claim, demand or cause of action, and shall pay and satisfy any settlement thereof or judgment or decree rendered against the Company therein, and Attaching Party shall reimburse the Company for any and all legal expense incurred by the Company in connection therewith. Attaching Party shall also indemnify, protect and save harmless the Company from any and all claims, demands, causes of action, damages, judgments, costs or liabilities of every kind and nature whatsoever, including reasonable attorneys' fees, which arise or are alleged to have arisen directly or indirectly from the operation of Attaching Party's Attachments and facilities including without limitation taxes, special charges by others, and damages or loss for libel and slander, for unauthorized use of television broadcast programs, for unauthorized use of other program material, for infringement of patents, copyright, trademark or trade secret with respect to the manufacture, use of operation of Attaching Party's Attachments and facilities whether arising from the use of Attaching Party's Attachment in combination with the Company's structure or otherwise.

Make Ready Work Changes

Make Ready Work charges include all of Company's costs to prepare Structure for the attachments of Attaching Party, including engineering, field surveys, permits, construction, rearrangement, replacements, inspections, administration and supervision.

- a. The charges for Make Ready Work are the full cost to the Company to perform the required work.
- b. Prior to commencing any Make Ready Work by Company, Attaching Party shall pay in advance the Make Ready Work charges.
- c. The Attaching Party shall make separate advance payments for field survey Make Ready Work to determine the actual availability of space apparently available based on Company's records and for the Make Ready Work to prepare the Structure for Attaching Party's attachment.
- d. In the event other Attaching Parties share in the responsibility for the modification to the Company's Structure, the advance payments required by this section shall be Attaching Party's proportionate share of the Make Ready Work Charges.
- e. The Company will not be responsible for any modification and/or Make Ready Work delays due to pull tapes breaking and/or innerduct couplers failing, local conditions, inability to obtain permits, acts of governmental agencies, strikes and labor actions, earthquakes, fire, floods, tornadoes, blizzards or other acts of God, or any other condition beyond the reasonable control of the Company. In the event any such delaying event should occur, the Company will meet with the Attaching Party to discuss appropriate means, if possible, to remove or avoid the delaying event.

Attachment Fees

Attachment Fees are the recurring charges to Attaching Party to place its Attachments in or on Company Structure.

- a. Attachment Fees are due and payable twice each year in advance. On January 1 of each year, Attaching Party will be billed for its Attachments to Company Structure in place and for which Make Ready Work has been completed as of December 1 of the previous year. On July 1 of each year, Attaching Party will be billed for its Attachments to Company's Structure in place and for which Make Ready Work has been completed as of June 1. Any Attachments made within each billing period will be billed at the time of the attachment for the entire billing period.
- b. The Attachment Fee for poles applies to each pole on which Attaching Party has placed its attachments or for which Make Ready Work pursuant to a request for access has been complete. The Attachment Fee applies per pole, per year for each one foot of space occupied by Attaching Party's Attachments and for each power supply or equipment case or cabinet attached to a pole.
- c. The Attachment Fee for duct or conduit applies to the total number of feet of Company conduit system or ducts in which Attaching Party has placed Attachments or for which Make Ready Work pursuant to a request for access has been completed.

The length of the duct or conduit occupied is measured from wall to wall of the manholes, or from the wall of the manhole to the end of the Company's conduit system or duct occupied by the Attaching Party's attachment, plus the cable racking and maintenance loop space measured by the length of the Attaching Party's cable within each manhole.

If Attaching Party's partial occupancy of a continuous conduit system or duct renders the remainder or any portion thereof unusable, the Attachment Fee applies to both the portion occupied and the portion rendered unusable.

c. (cont'd)

If Attaching Party occupies an entire duct, the Attachment Fee shall be two times the rate per innerduct foot for the Attachment.

- d. The Attachment Fee for linear rights-of-way applies to the total linear footage of strips of land suitable for direct buried or trench placement of cable facilities of Company right-of-way in which Attaching Party has placed attachments or for which Make Ready Work pursuant to a request for access has been completed.
- e. If Attaching Party's partial occupancy of a continuous linear right-of-way renders the remainder or any portion thereof unusable, the Attachment Fee applies to both the portion occupied and the portion rendered unusable.

The Attachment Fee for Attaching Party's equipment cabinets or enclosures placed on Company rights-of-way will be priced on a case-by-case basis, depending upon the proposed attachment and the characteristics of the rights-of-way in question including the consumption of usable space of the right-of-way by the attachment and its usability for the attachment of others after the attachment.

The Attachment Fees for Attaching Party's Attachments to Company rights-of-way within buildings or on campuses owned by third parties will be priced on a case-by-case basis, depending upon the proposed attachment and the characteristics of the right-of-way in question including the consumption of usable space of the right-of-way by the attachment and its usability for the attachment of others after the attachment, and the cost to the Company of the right-of-way in question.

- f. Inspection Fees cover Attaching Party's portion of the costs to Company to make inspections of its Structure with respect to the Attachments of all Attaching Parties.

1. SERVICE ESTABLISHMENT AND CHANGE CHARGES

(C)

1.1 Definitions of Terms used in this Section (cont'd)

Simple Service

Simple residence and non-residence exchange service includes network exchange access lines and their associated facilities and equipment which met all of the following conditions: (C)

1. The network access lines are served from their normal serving central office.
2. All terminations of the network access lines are confined to a single continuous property.
3. Customer premises equipment connected to such network access lines is limited to non-key telephones with associated miscellaneous or supplemental equipment.

Where more than one exchange service is billed on a single account, the multi-line account is considered simple only when all the network access lines meet the criteria as outlined in 1. through 3 preceding.

1.2 General Regulations

A. Nonrecurring charges (NRC) are applicable for the following work functions required to establish exchange service:

1. Service Ordering Charge - A nonrecurring charge which covers receiving, recording and processing information necessary to execute a customer's request for service.
2. Central Office Connection Charge - A nonrecurring charge for establishing or changing central office connections which may include, but are not limited to, circuit design work and establishing or changing central office connections.
3. Line Connection Charge - A nonrecurring charge for performing any of the operations associated with the connection of the network access line and a network interface.
4. Network Wiring Charge

A one time charge consisting of a time sensitive network wiring charge required to perform customer requested work on the customer's premises, except work required to establish or reestablish network access.

(D)
(D)

1. SERVICE ESTABLISHMENT AND CHANGE CHARGES (cont'd)

1.2 General Regulations (cont'd)

- B. Service Establishment and Change Charges apply in addition to all other rates and charges for services provided by the Company.
- C. The charges specified in this section contemplate work being performed by the Company during the usual working hours on normal working days. When, at the specific request of the customer or applicant for service, work is performed at other times, either for the convenience of the customer or applicant for service or for other reasons not under the control of the Company, the expense incurred by the Company in excess of the normal expense of such work, when performed during usual working hours on normal working days, may be billed to the customer or applicant for service, in addition to the charges otherwise applicable.

1.3 Nonrecurring Charges

- A. Application of NRCs to Establish Services

Except where otherwise specified in this paragraph 1.3, the same nonrecurring charges apply to residence and non-residence.

(C)

The Central Office Connection and Line Connection Charges do not apply to the transfer of an existing central office line serving a reseller's end user when there is no interruption of service.

Case No. 10-1010-TP-ORD.

By Thomas C. Pelto, President, Cleveland, Ohio

ATT TN OT-11-0021

1. MONTHLY EXCHANGE SERVICES

Telephone Exchange Service is the furnishing of facilities necessary for communicating within specified exchange areas. Service is comprised of three components - network access line, central office termination and usage. There are two classes of service, Non-Residence and Residence. Except where otherwise provided the monthly rates in this paragraph 1 cover the access line and central office termination for the types and classes of exchange service listed.

A list of exchanges and network access areas appears in Section 1 preceding.

A. Network Access Lines

Monthly rates for network access lines are determined by class of service and by access area. The customer's normal serving central office determines the applicable access area rate. The access areas, by exchange, are shown in Section 1 preceding.

Central Office Termination

Furnishes dial tone along with a termination for the network access line to the serving central office for the placing and receiving of calls.

Residential-end-user access to and usage of telephone-company-provided services over a single line or small-business-end-user access to and usage of telephone-company-provided services over the primary access line of service, which in the case of residential and small-business access and usage is not part of a bundle or package of services, that does both of the following:

Enables a customer to originate or receive voice communications within a local service area as that area exists on the effective date of the amendment of this section by S.B. 162 of the 128th general assembly;

Consists of all of the following services:

Local dial tone service;

For residential end users, flat-rate telephone exchange service;

Touch tone dialing service;

Access to and usage of 9-1-1 services, where such services are available;

Access to operator services and directory assistance;

Provision of a telephone directory in any reasonable format for no additional charge and a listing in that directory, with reasonable accommodations made for private listings;

Per call, caller identification blocking services;

Access to telecommunications relay service; and

Access to toll presubscription, interexchange or toll providers or both, and networks of other telephone companies.

SECTION 2 - Exchange Lines and Usage

Original Sheet No. 4

1. MONTHLY EXCHANGE SERVICES (Cont'd)

C. Local Exchange Usage

Four types of local exchange usage are available: measured, minute line, message and flat.

1. Measured Rate Services

The local usage charges are based upon four measured elements, i.e., the total number of outgoing local messages, the distance and the duration of each local message and the time of day each local message is originated, subject to the following:

a. Distance

The charges for local messages vary based on the airline distance (i.e., rate mileage) between the rate centers of the central offices serving the calling and called stations, determined in the same manner as message toll rate distances.

b. Duration

- (1) A charge applies for the initial minute, or fraction thereof, and for each additional minute, or fraction thereof.
- (2) A local message is considered as starting at the time telephone communication is established between the calling station and the called telephone number.
- (3) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by the automatic timing equipment in the telephone network.
- (4) Chargeable time does not include time lost because of faults or defects in the service.

c. Time of day

- (1) Discounts apply to the total charges for local messages during certain time periods as outlined below:

| | Time Periods |
|----------------|--|
| No discount - | 8:00 AM to 9:00 PM* - Monday through Friday |
| 50% discount - | 9:00 PM to 8:00 AM* - Monday through Friday (All day Saturday, Sunday and Holidays) |

* To, but not including.

- (2) The holidays on which a 50% discount applies are Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, or on resulting legal holidays when Christmas, New Year's or Independence Day legal holidays fall on dates other than December 25, January 1 or July 4 respectively.
- (3) In cases where a local message begins in one time period and ends in another, the charges in effect at the time the message starts apply to the entire message.
- d. The charges for local message usage are based on summary billing for such usage by mileage step, initial period calls and total additional minutes of usage per mileage step. The charges will also be separated by time period. Special billing of local message charges requiring the assistance of a Company operator will not be provided. (T)

3. LIFELINE ASSISTANCE

A. General

1. Lifeline service shall be a flat rate, monthly, primary access line service with touchtone service or any other packages/bundles of service, if available to customers, less the lifeline discount and shall provide all of the following:
 - a. Recurring discount equal to the maximum contribution of federally available assistance will be applied to the customer's monthly service charge;
 - b. Waiver of the Federal Universal Service Fee;
 - c. Waiver of a deposit to establish service;
 - d. Waiver of the applicable service connection charges for establishing service, not more than once per customer at a single address in a twelve month period;
 - e. Free toll restriction and automatic blocking for 900 and 976 calls.

B. Regulations

1. Lifeline Assistance is available to residential customers who are currently participating in one of the following federal or state low-income assistance programs that limit assistance based on household income:

Medical Assistance under Chapter 5111 of the Ohio Revised Code (Medicaid) or any state program that might supplant Medicaid;

Supplemental Nutritional Assistance Program (SNAP/food Stamps);

Supplemental Security Income (SSI) under Title XVI of the Social Security Act;

Supplemental Security Insurance – blind and disabled (SSD);

Federal public housing assistance, or Section 8;

Home Energy Assistance Programs (HEAP, LIHEAP, E-HEAP);

National School Lunch Program's Free Lunch Program (NSL);

Temporary Assistance for Needy Families (TANF/Ohio Works); or

General Assistance (including disability assistance (DA)).

3. LIFELINE ASSISTANCE (cont'd)

B. Regulations (cont'd)

2. Lifeline Assistance is available to residential customers whose total household income is at or below one-hundred fifty percent (150%) of the federal poverty level.
3. The Telephone Company shall require, as proof of eligibility for Lifeline Assistance, a document signed by the customer, certifying under penalty of perjury that the customer is receiving benefits from one of the programs identified in Section B.1 above; identify the specific program or programs from which the customer receives benefits and agree to notify the carrier if the customer ceases to participate in such program or programs. If a customer is applying for Lifeline Assistance based on income, see Section B. 5 for examples of income documentation.
4. The Telephone Company must verify Lifeline service eligibility for customers who qualify through household income-based requirements consistent with the FCC requirements in 47 C.F.R. 54.
5. Consistent with federal law, examples of acceptable income documentation includes the following:
 - State or federal income tax return;
 - Current income statement or W-2 from an employer;
 - Three consecutive months worth of current pay stubs;
 - Social Security statement of benefits;
 - Retirement/Pension statement of benefits;
 - Unemployment/Workmen's Compensation statement of benefits;
 - Any other legal document that would show income (such as a divorce decree or other child support document).
6. Customers qualifying for Lifeline Assistance with past due bills for regulated local service charges shall be offered special payment arrangements with the initial payment not to exceed \$25.00 before service is installed, with the balance for regulated local charges to be paid over six equal monthly payments. Lifeline service customers with past due bills for toll service charges shall have toll restricted service until such past due toll service charges have been paid or until the customer establishes service with a subsequent toll provider.
7. All other aspects of the state-specific Lifeline service shall be consistent with the federal requirements.
8. The Telephone Company shall provide written notification to the customer applying for Lifeline service that it is deemed ineligible for Lifeline service and shall provide an additional 30 days to prove eligibility.

3. LIFELINE ASSISTANCE (cont'd)

B. Regulations (cont'd)

9. The Telephone Company shall provide written customer notification if a customer's Lifeline Assistance service benefits are to be terminated due to failure to submit acceptable documentation for continued eligibility for that assistance. The Lifeline Assistance customer shall have an additional sixty (60) days to submit acceptable documentation of continued eligibility or dispute the findings regarding termination of benefits.
10. The Telephone Company shall establish procedures to verify an individual's continuing Lifeline Assistance eligibility for both program and income based criteria consistent with the FCC's requirement in 47 C.F.R. 54.409 – 54.410.
11. Eligibility Certification. To the extent that appropriate state agencies are able to accommodate automatic enrollment, the Company shall automatically enroll customers into its Lifeline Assistance program. In addition, the Company must verify customer eligibility consistent with the federal communications commission's (FCC) requirements in 47 C.F.R. 54, when enrolling customers into its Lifeline Assistance program who qualify through household income-based requirements. Eligibility for Lifeline Assistance can also be based through a customer's verifiable participation in any federal or state low income assistance program that limits assistance based on household income. The Telephone Company shall require, as proof of eligibility for Lifeline Assistance, a document signed by the customer, certifying under penalty of perjury that the customer is receiving benefits from one of the programs identified in Section B. 1. above; identify the specific program from which the customer receives benefits and agree to notify the carrier if the customer ceases to participate in such program or programs. Further, the Company shall provide written notification to its customer should it determine a customer is not eligible to participate in its Lifeline Assistance program and provide the customer an additional thirty days to prove eligibility.
12. Verification. The Company shall establish procedures to verify an individual's continuing eligibility for both program and income-based criteria consistent with the FCC's requirements in 47 C.F.R. 54.409 - 54.410. The Company shall maintain records to document compliance with these requirements and shall attest, as part of the periodic Eligible Telecommunications Carrier (ETC) certification process by the Ohio Commission that they comply with the FCC's requirements. The Company shall provide written customer notification if a customer's Lifeline Assistance service benefits are to be terminated due to failure to submit acceptable documentation for continued eligibility for that assistance and shall provide the customer an additional sixty days to submit acceptable documentation of continued eligibility or dispute the carrier's findings regarding termination of the Lifeline Assistance service. If a customer does not respond within the sixty days, all Lifeline Assistance benefits will be removed. If the Lifeline Assistance benefits are removed, the customer will be required to make a new application for Lifeline Assistance.
13. The Company reserves the right to perform a verification audit of a customer receiving Lifeline Assistance benefits. The Company is permitted to use any reasonable method to verify the continued eligibility. The Company shall provide written customer notification if an existing customer's Lifeline Assistance service benefits are to be terminated due to failure to submit acceptable documentation for continued eligibility for Lifeline Assistance and shall provide the customer an additional sixty days to submit acceptable documentation of continued eligibility or dispute the carrier's findings regarding termination of the Lifeline Assistance service.

1. BASELINE 3-1-1 SERVICE

(T)/1/

A. Description

Baseline 3-1-1 nonemergency service is an intraLATA local service that will provide the local government entity ("customer") the ability to terminate all 3-1-1 dialed incoming calls to a central location or to alternate customer-defined location(s) based on the originator's Calling Party Number (CPN), service address, and the associated nine-digit zip code.

Baseline 3-1-1 can also be used to provide access to local government offices (such as the Mayor's Office, Department of Parks and Recreation, Planning Commission, etc.). Access to local government offices can only be provided in addition to nonemergency access to police and fire. This capability is dependent upon ancillary Customer Premise Equipment (CPE) (i.e., IVR, ACD, etc.) capabilities or customer resources (i.e., Operators to transfer calls).

Baseline 3-1-1 Service will recognize, route and deliver 3-1-1 dialed calls to Customer Provided Equipment which either (i) originate from AT&T Ohio end offices serving the customer, or (ii) originate from non-AT&T Ohio end offices, provided that the customer, AT&T Ohio and other service providers have reached an agreement as to the interconnection and processing of 3-1-1 calls originating from non-AT&T Ohio end offices.

Calls to "3-1-1" will be routed via the AT&T Ohio public switched network utilizing Advanced Intelligent Network platforms and features to route the call to customer designated location(s).

1. BASELINE 3-1-1 SERVICE (cont'd)

(T)/1/

B. Definitions

Advanced Intelligent Network (AIN)

AIN is a telecommunications network that is software controlled. The network "intelligence" is located in computer nodes which are distributed throughout the network, rather than being confined to the originating and terminating switching offices. Before calls (either outbound or inbound) are sent to their final destination, the network queries a database for disposition of the call.

Calling Party Number (CPN)

The ten digit telephone number of the calling party.

Route To Number

Ten digit telephone number(s) designated by the customer for terminating 3-1-1 calls.

SecurID

A security application to be utilized by authorized personnel to access the Service Management System.

Service Management System

A computerized database containing relational customer data information that is utilized to route 3-1-1 calls.

Signaling System No. 7 (SS7)

The telecommunications signaling system using protocols recommended by the International Consultative Committee for Telegraphy and Telephony (ICCTT) used by AT&T Ohio to route calls over the public switched network.

(T)/1/

C. Terms and Conditions

In addition to the general regulations found in Part 2, Section 2, the following regulations apply to Baseline 3-1-1 Service:

1. A prospective Baseline 3-1-1 Service customer must make separate arrangements for business Local Exchange Access Service prior to establishment of Baseline 3-1-1 Service.
2. Baseline 3-1-1 Service is available on a twelve (12), and thirty-six (36) and sixty (60) month term payment plan basis. The term period will begin on the completion date of the Service Order.
3. Local calls placed to Baseline 3-1-1 may be subject to applicable local usage charges. (T)
4. Baseline 3-1-1 Service is compatible with Caller ID Service network functionality when used in conjunction with basic exchange services. Caller ID Service is available where facilities permit at the applicable tariff price.
5. Upon establishment of Baseline 3-1-1 Service, the customer will be provided with a SecurID access card which provides the customer access to the Baseline 3-1-1 Service network system for viewing its Routing Table or Database, and for accessing standard Baseline 3-1-1 Service reports.

Upon receipt of the SecurID card(s), the customer assumes responsibility for safeguarding the use of their assigned card(s) and for any breaches to security resulting from the loss or misuse of the SecurID card(s).
6. Before Baseline 3-1-1 Service will be provided to a customer, the customer must:
 - a. Identify the geographic boundaries of the proposed 3-1-1 service area;
 - b. verify that it is a governmental entity that intends to use the 3-1-1 service code to provide non-emergency access to entities that provide police and fire protection within the geographic boundaries of its proposed service area;

- c. verify whether or not the customer also intends to use the 3-1-1 service code to provide non-emergency access to other government services;
- d. verify that the customer has provided notice of its intent to use the 3-1-1 service code throughout its proposed service area to all government entities that could use the 3-1-1 service code within that proposed service area. Such notice must provide those government entities upon whom it is served an opportunity to respond to the notice in a way that effectively preserves their ability to seek to use the 3-1-1 service code, either on their own, or in cooperation with other governmental entities; and
- e. acknowledge the authority of the Public Utilities Commission of Ohio (PUCO) to ultimately decide which governmental entity shall provide 3-1-1 service when, within any particular geographic area of Ohio, there are conflicting or competing requests by two or more governmental entities to use the 3-1-1 service code, to the extent that negotiations between or among the affected governmental entities fail.

- **Term Payment Plans**

Baseline 3-1-1 Service is offered under a Term Payment Plan for periods of 12, 36, and 60 months.

3. Termination Charges

In the event that a customer initiates a Service Order request for Baseline 3-1-1 Service, and subsequently cancels the Service Order prior to full operational establishment of service, the customer remains liable for all nonrecurring service establishment charges specified in this Tariff.

Customers that cancel their Baseline 3-1-1 Service before the term expiration date will be billed a termination liability which consists of a lump sum equal to the non-usage sensitive monthly recurring charges specified in this tariff times the number of months remaining on the term period, rounded up to the nearest whole month.

Any cancellation or termination liability lump sum payment will become due and payable in its entirety immediately upon calculation and presentation of the lump sum bill statement.

At the expiration of the term period, subsequent monthly billing will revert to the 12 Month Term Payment Plan monthly prices in effect at that time, as specified in this Tariff until another Term Payment Plan is agreed upon. Termination liability charges are no longer applicable once the term period has expired.

A. Calling Party Number Blocking

(C)

Calling Party Number Blocking provides telephone customers with the capability to prevent the disclosure of the calling telephone number on calls made to an exchange service equipped with Caller ID and other Advanced Custom Calling services where the calling party number may be disclosed. Calling Party Number Blocking is available on a per call basis for residence and non-residence customers. Calling Party Number Blocking is available on a per service basis for residence and non-residence customers.

Per call Calling Party Number Blocking is accomplished by the customer dialing an activation code (*67 for Touch-Tone and 1167 for rotary dial pulse) prior to placing each call for which blocking is desired. Per call blocking is automatically provided without charge to all customers in central offices equipped to offer Caller ID or other Advanced Custom Calling Services where calling party number may be disclosed.

Calling Party Number blocking, (per-call or per-line) automatically prevents the display of the calling telephone number on calls dialed from an exchange service equipped with this option, except for calls made to 911 or to a party that subscribes to an ANI or charge number based service and the call if paid for by the called party.

1. ADVANCED CUSTOM CALLING SERVICE (cont'd)

A. Feature Description (cont'd) (D)

A. Calling Party Number Blocking (cont'd) (C)

Per Line Calling Party Number Blocking automatically prevents the display of the calling telephone number on all calls dialed from an exchange service equipped with this option. It is not necessary to dial an activation code prior to placing the call. After being informed of their blocking options by the Company, customers may subscribe to Per Line Blocking at the rates set forth in the AT&T Ohio Guidebook. (C)

No business, organization or other person may use Calling Party Number Blocking where the primary purpose is to make telephone solicitation calls. The term "telephone solicitation" means the initiation of a telephone message primarily for the purpose of encouraging a person to purchase, rent, or invest in property, goods, or services or to donate to any charity or similar organization or entity without that person's prior express invitation or permission.

Blocked Calling Party Number Identification will be delivered to certain qualifying customers as described in FCC Memorandum Opinion and Order, CC Docket No. 91-281, adopted January 4, 2002. Such customers must certify to the Company compliance with the waiver order's eligibility requirements.

1. UNIVERSAL EMERGENCY NUMBER SERVICE - 911

A. Description

Universal Emergency Number Service/911 Telecommunications Service (911), is a telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. The 911 Service includes lines and central office features necessary to provide the capability to answer, transfer and dispatch public emergency telephone calls originated by persons within the telephone central office areas arranged for 911 calling.

When requested by local government authorities, and subject to the availability of facilities, the Company will provide a universal number "911" for the use of Public Safety Answering Points (PSAPs) engaged in assisting local governments in the protection and safety of the general public. Use of the 911 number will provide each caller with telephone access to the appropriate local PSAP. (T)

The 911 customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the Central Office areas arranged for 911 calling.

911 Service provides for routing all 911 calls originated by telephones having telephone numbers beginning with a given central office prefix code or codes to a PSAP which is prepared to receive those calls. Each 911 Service classification has certain inherent features and optional features which may or may not be available with other 911 Service classifications.

1. UNIVERSAL EMERGENCY NUMBER SERVICE - 911 (cont'd)

(T)

A. DESCRIPTION (cont'd)

911 Service may be classified as follows:

Enhanced 911 Service (E911)

Enhanced 911 Service offerings provide routing via dedicated trunking facilities to all primary PSAPs and to secondary PSAPs based upon ANI capability or Default Routing. The number of lines to a PSAP will be determined by the Company based upon anticipated call volumes. Secondary PSAPs that do not meet these specifications will receive calls on a transfer basis over the exchange network or over additional E911 Exchange lines subscribed to by the customer.

Enhanced 911 Service is available via one or a combination of the following service feature combinations:

- Automatic Number Identification (ANI)
- Selective Routing (SR)
- Automatic Number Identification and Selective Routing (ANI/SR)
- Automatic Number Identification and Automatic Location Identification (ANI/ALI)
- Automatic Number Identification, Automatic Location Identification and Selective Routing (ANI/ALI/SR)

Where two jurisdictions are served by a local switching office each jurisdiction may select a different feature combination as long as SR is one of the features.

B. DEFINITIONS

911 Control Office

A 911 office providing tandem switching capability for 911 calls. It controls switching of ANI information to the PSAP and also provides the Selective Routing function, Speed Calling features, Call Transfer capability and certain maintenance functions for each PSAP.

911 Service Area

The geographic area in which the customer will respond to all 911 calls and dispatch appropriate emergency assistance.

Additional E911 Exchange Line

An additional line which terminates at a PSAP

Alternate Routing (AR)

A feature which allows calls to be routed to a designated alternate location if 1) all 911 exchange lines to the primary PSAP are busy, or 2) the primary PSAP closes down. Alternate Routing is only available when Selective Routing is provided.

Automatic Location Identification (ALI)

A feature that forwards the name and address associated with the calling party's telephone number (identified by ANI as defined below) to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off premise extensions, etc.) are identified with the address of the telephone number at the main location.

Automatic Number Identification (ANI)

A feature which allows the number of the calling party to be forwarded to the PSAP for display.

B. DEFINITIONS (cont'd)

**Automatic Number Identification and Automatic Location Identification
(ANI/ALI)**

A Service Feature combination with both the ANI and ALI features, which allows telephone numbers and the name and address associated with the calling party's telephone number to be forwarded to the PSAP for display.

**Automatic Number Identification, Automatic Location Identification and
Selective Routing (ANI/ALI/SR)**

A Service Feature combination with ANI, ALI and SR which allows telephone numbers, names and addresses to be forwarded to the PSAP for display and allows 911 calls to be routed to the designated primary PSAP based upon the identification number of the calling party.

Automatic Number Identification and Selective Routing (ANI/SR)

A Service Feature combination with ANI and SR which allows telephone numbers to be forwarded to the PSAP for display and allows 911 calls to be routed to the designated primary PSAP based upon the identification number of the calling party.

Cell Site Record

The physical location/street address of a cellular tower and , if applicable, the direction of the transmitter/receiver site. For purposes of this definition a cellular tower equipped with three (3) transmitter/receivers would constitute three (3) cell site records. Conversely, a cellular tower with an omnidirectional transmitter/receiver would constitute one (1) cell site record.

Central Office Identification

A three digit code that identifies the central office from which a 911 call originated. This feature is provided in lieu of Selective Routing and ANI display for central offices within the 911 system not equipped with ANI.

Central Office Transfer

The transfer of an incoming 911 call to another access line through use of a Central Office conference circuit.

Data Management System (DMS)

A system of manual procedures and computer programs used to create, store and update the data required to provide the SR and ALI features.

Default Routing

A feature activated when incoming 911 calls cannot be selectively routed due to a failure of the ANI feature, garbled digits or other cause. Such incoming calls are routed to a "default" PSAP. Default Routing is only available when Selective Routing is provided.

Display and Transfer Unit

A selector console and associated common equipment for displaying ANI numbers at the PSAP attendant position. The attendant can then activate Fixed and/or Selective Transfer functions (defined below).

Emergency Service Number (ESN)

A Selective Routing (SR) code assigned by the Company to each telephone number in an exchange where SR is provided to route 911 calls to an appropriate PSAP. The ESN is associated with street address ranges or other mutually agreed upon routing criteria and defines the set of emergency numbers (e.g. police, fire, medical) responsible for providing emergency service in a primary PSAP and possibly one or more secondary PSAPs.

End Office

The central office in the 911 system which receives originating 911 calls.

Enhanced 911 Service

A 911 service offering which provides completion of 911 calls via dedicated trunking facilities to all primary PSAPs and to secondary PSAPs that are equipped to display ANI information on Company or customer provided terminal equipment. This offering is available via specific service feature and/or service feature combinations which may or may not be available with other 911 Service classifications.

Fixed Transfer

A feature which enables a PSAP attendant to transfer incoming 911 calls to Secondary PSAPs by use of a single button on the Display and Transfer Unit.

Forced Disconnect

Permits the PSAP attendant to release a 911 call connection though the 911 calling party has not hung up, thereby preventing intentional jamming of the 911 central office lines.

Manual Transfer

Enables the PSAP attendant to transfer an incoming call by depressing the switch hook of the associated telephone or the "add" button on the Display and Transfer Unit and dialing either a 7-digit or 10-digit telephone number or a 2-digit Speed Calling Code.

1. **UNIVERSAL EMERGENCY NUMBER SERVICE - 911 (cont'd)**

(T)

B. DEFINITIONS (cont'd)

Public Safety Answering Point (PSAP)

An answering location for 911 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Calls are first directed to the Primary PSAPs for response. Secondary PSAPs receive calls on a transfer basis only and generally serve as a centralized location for a particular type of emergency call. PSAPs shall be staffed by employees or agents of service agencies such as police, fire or emergency medical or a common bureau serving a group of such entities.

Responding Agency

An agency which is prepared to provide one or more specific emergency services via calls received from a PSAP.

Selective Routing

A feature which allows 911 calls to be routed to the designated primary PSAP based upon the identification number of the calling party.

Selective Transfer

Provides a PSAP with the ability to transfer an incoming call to another responding agency by depressing a single button labeled with type of agency, e.g. fire, on the Display and Transfer Unit. Selective Transfer is only available when Selective Routing is provided.

Service User

Any exchange access facility customer within a 911 system.

(T)

B. DEFINITIONS (cont'd)

Serving Central Office

The central office from which a PSAP, either primary or secondary is served.

Speed Calling

A feature which enables the customer to call certain preset numbers via abbreviated dialing.

Universal Emergency Number Service

A telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive telephone calls placed by persons in need of assistance who dial the telephone number 911. The 911 Service includes the lines and equipment necessary for answering, transferring and dispatching public emergency telephone calls originated by persons within the telephone central office areas arranged for 911 calling.

Universal Emergency Number Service Customer (Customer)

A municipality or other state or local governmental unit to whom authority has been lawfully delegated within a geographic area to respond to public emergency telephone calls, at a minimum for police and fire service. An agent may be authorized by one or more municipalities or other state or local governmental units to subscribe to the service but the agent is not the customer.

1. UNIVERSAL EMERGENCY NUMBER SERVICE - 911 (cont'd)

C. Terms and Conditions

1. This service is limited to the use of central office telephone number 911 as the universal emergency telephone number. A single PSAP may subscribe to only one 911 service classification within any single government agency's locality.
2. 911 Service is furnished to the customer only for the purpose of receiving reports of emergencies from the public. It is not intended as a total replacement for the telephone service of the various public safety agencies which participate in the use of this service. The public safety agencies must subscribe to other exchange telephone service provided under this Tariff for non-emergency telephone communications.
3. 911 Service is classified as Business Exchange and is arranged for one-way incoming service to the appropriate PSAP. Outgoing calls can only be made on a transfer basis.
4. Temporary suspension of service is not provided for any part of 911 Service (premise equipment included).
5. 911 Service lines are provided solely for the benefit of the customer operating the PSAP. The provision of 911 Service by the Company shall not be interpreted, construed, or regarded as being for the benefit of or creating any Company obligation, either expressed or implied, toward any third person or legal entity other than the customer.
6. Company serving areas and political subdivision boundaries may not coincide, however it is the obligation of the customer to make arrangements to handle all 911 calls that originate from telephones served by central offices in the local serving area whether or not the calling telephone is situated on property within the geographic boundaries of the customer's public safety jurisdiction. C. TERMS AND CONDITIONS (cont'd)

8. The customer must furnish the Company its written agreement to the following terms and conditions:

Applicants for this service must provide an adequate number of trained personnel to receive and dispatch calls to meet public demand. All 911 calls must be answered on a 24-hour day, seven-day week basis.

The customer accepts responsibility for dispatching the appropriate emergency service vehicles within the 911 service area, or will undertake to transfer all 911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available. A PSAP must be prepared to receive all 911 calls and to dispatch, or to have others dispatch, police, fire, ambulance, or other emergency services as are reasonably available and required.

The customer will develop an appropriate method for responding to calls for non-participating agencies which may be directed to the 911 PSAP by calling parties.

The customer will subscribe to local exchange service at the PSAP location for administrative purposes, for placing outgoing calls, and for receiving non-911 calls.

C. TERMS AND CONDITIONS (cont'd)

8. (cont'd)

The customer will subscribe to, or provide, telephone equipment with a capacity adequate to handle the number of incoming 911 lines recommended by the Company to be installed. Applicants for 911 service must subscribe to adequate facilities to provide satisfactory service to the public. Minimum trunk requirements for each central office designation served, must be met as prescribed by applicable State Codes, Rules, and Legislation.

The customer will make provisions for receiving emergency calls from Telecommunication Devices for the Deaf (TDD) users.

9. The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customer's premises.
10. The 911 calling party by calling 911 Service, gives consent for the Company to provide 911 information consisting of the name, address, telephone number, and other calling party information when available, to Law Enforcement Agencies and other emergency service providers on a call-by-call basis for the purpose of enabling those agencies and service providers to respond to emergency calls for assistance.
11. Database inquiries for 911 information consisting of name, address, telephone number, and other information when available, will only be allowed for purposes of dispatching or responding to 911 emergency calls or integrity verification as prescribed by the Company or applicable State Codes, Rules, or Legislation.

C. Terms and Conditions

12. 911 information consisting of the names, addresses, telephone numbers, and other calling party information when available, of the telephone customers whose listings are not published in directories or listed in Directory Assistance Offices is confidential. Information will be provided on a call-by-call basis only for the purpose of responding to emergency calls and is not to be used or disclosed by the customer, its agents or employees for any other purpose not authorized by law.
13. The 911 calling party forfeits the privacy afforded by Private and Semi-Private Listing Service to the extent that the name, telephone number, address and other calling party information, when available, associated with the originating station location are furnished to the PSAP.
14. Terminal equipment used in connection with 911 Service, whether such equipment is provided by the Company or the customer, shall be configured so that it is unable to extract any information from the 911 Database; other than information related to the number identified through the Automatic Number Identification (ANI) feature as the source of an in-progress 911 call. Manual access to the 911 Database may be provided upon written request as prescribed by the Company and subject to State and Federal laws and regulations.
15. Central offices that are not currently equipped to transmit ANI will not be modified to provide ANI solely for 911 Service. When the Selective Routing feature is provided as part of a 911 System, Default Routing and Central Office Identification will be provided in lieu of Selective Routing and ANI display for any central office within the system not equipped with ANI.
16. ANI will not be displayed on calls placed over four-party or rural lines. Central Office Identification is provided in lieu of the telephone number and address.

C. Terms and Conditions (cont'd)

17. When the Selective Routing feature is provided with a 911 System, the customer is responsible for identifying primary and secondary PSAP locations as well as the unique combinations of police, fire and ambulance or any other appropriate agencies responsible for providing emergency service in the 911 serving area. An Emergency Service Number (ESN) will be provided for each unique combination by the Company. The customer will associate these ESNs with street address ranges or other mutually agreed upon routing criteria in the 911 serving area that are agreeable to the Company. These ESNs will be carried in the Data Management System (DMS) to permit routing of 911 calls to the primary and secondary PSAPs responsible for handling of calls from each telephone in the 911 serving area. The customer's responsibilities in providing this information are:

Initial and subsequent ESN assignments by street name, address range and area or other mutually agreed upon routing criteria shall be furnished to the Company by the customer on forms supplied by the Company, or other electronic medium where available, for that purpose at a mutually agreed upon time prior to the effective date of the service.

After establishment of service it is the customer's responsibility to continually verify the accuracy of the routing information contained in the master address file. It is also the customer's responsibility, to advise the Company of any changes in street names, establishment of new streets, changes in address numbers used on existing streets, closing and abandonment of streets, changes in police, fire, ambulance or other appropriate agencies' jurisdiction over any address, annexations and other changes in municipal and county boundaries, incorporation of new cities or any other matter that will affect the routing of 911 calls to the proper PSAP.

C. Terms and Conditions (cont'd)

17. (cont'd)

The Company will provide to the customer on request a complete listing of the master address file to permit customer verification of accuracy of the police, fire, and ambulance PSAP routing designations. One copy of the file will be provided free of charge on an annual basis. Additional copies may be requested at applicable tariff rates.

The Company will furnish to the customer for verification a written copy showing each change, deletion and addition to the master address file.

18. The Company's intent will be to provide at least the same level of service reliability and quality as the telephone service being provided in the exchanges where 911 is offered.
19. Intercept service for the seven digit emergency numbers replaced by 911 will be provided, upon request, for a period negotiated by the customer, until the next customer directory issuance, or up to one year, whichever period is longest.
20. The installation of initial or subsequent 911 exchange lines to maintain applicable Company service standards will be provided by the Company, subject to the terms and agreements of the 911 Service Agreement when applicable.
21. Customer premise equipment used in providing 911 Service and features may be Company or customer-provided.

C. Terms and Conditions (cont'd)

22. The receipt of any contract or amendment to a contract established under this tariff shall not constitute approval of all terms and provisions therein. The Commission retains jurisdiction to investigate on its own motion or upon complaint any contractual term or provision under which the tariffed service is offered, and to take any necessary action pursuant to such investigation, including issue orders.
23. The Company's entire liability to any person for interruption or failure of 911 Service shall be limited to the terms specified in this Tariff or by law.
24. The customer and participating governmental units and agencies each agree to release, indemnify, defend, and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, other than the Company's sole negligence, arising out of the customer's use of 911 service whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others; and the customer and participating governmental units and agencies agree to purchase and maintain adequate insurance against such liability.
25. The rates for 911 Service do not include the inspection or monitoring of facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility. The customer shall be responsible for making such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the event the system is not functioning properly.

/1/

E. Prices (cont'd)

2. Other Applicable Charges and Payments

Messages

The calling party is not charged for calls placed to the 911 number.

Charges for messages transferred over exchange facilities from a PSAP are billed to the 911 customer according to rates applicable from the Serving Central Office which serves the PSAP initiating the transfer to the point of termination, subject to the terms and conditions of the 911 Service agreement. Inter-system transfers are subject to applicable local message charges.

Special equipment and service arrangements for which provision is not otherwise made in these tariffs or catalogs are furnished wherever practicable at charges based on cost.

Equipment Moves

Moves or changes of equipment at PSAP locations will be made based upon cost, not to exceed installation charges specified in this tariff or catalog. Time and material charges may be applicable.

Charges for customer requests that require additions, removals, moves, or changes of access facilities or equipment on Company premises will be based on cost and determined separately in each case.

Installation of additional network or other facilities to maintain a satisfactory grade of service will be provided by the Company, subject to the terms and conditions of the 911 Service Agreement.

Cancellation of the service in whole or in part by the customer prior to installation will require payment of an amount equal to the cost of engineering, manufacturers' billings resulting from equipment orders, installation, assembly, labor, cost of removal and any other costs incurred up, to the time of cancellation which have resulted because of the subscriber's order for services, but not to exceed the total installation charges.

2. END-USER 9-1-1 TRUNK

(T)/1/

A. Description

End-User 9-1-1 Trunks provide voice grade transmission and deliver station specific Automatic Number Identification (ANI) information associated with Private Switch customer switching equipment to the Company's 9-1-1 network. End-User 9-1-1 Trunks are used to route calls to the Company 9-1-1 network and are configured as outgoing trunks only. These trunks are dedicated to carrying 9-1-1 calls only and will not accept incoming calls.

End-User 9-1-1 Trunks route the 9-1-1 call from the customer's premises to one of the following termination points:

- to a local end office
- to the 9-1-1 tandem (Control Office)

B. Definitions

Automatic Number Identification (ANI)

A feature which allows the number of the calling party to be forwarded to the PSAP for display.

(T)/1/

C. Terms and Conditions

1. A minimum of one End-User 9-1-1 Trunk is required per PBX or Private Switch. However, two or more End-User 9-1-1 Trunks are highly recommended.
2. The customer is responsible for ensuring that their terminal equipment is compatible with this service.
3. The customer is responsible for developing and implementing procedures to prevent unauthorized or illegal use of the End-User 9-1-1 Trunks.
4. When End-User 9-1-1 Trunks are used, the PBX or private switch must be directly connected to the 9-1-1 network.
5. The customer may request diversification and redundancy of any or all inter-office and/or local facility routes. Diversification and redundancy will be provided where facilities permit. Additional charges for the utilization, construction and provision of this option will be assessed on an individual case basis.
6. End-User 9-1-1 Trunks are only available in service areas with Enhanced 911 Service.
7. End-User 9-1-1 Trunks are only available in appropriately equipped Central Offices.
8. If the customer leaves the Company for another competitive local exchange carrier and ports the telephone numbers (assigned to the customer) to that Carrier using Local Number Portability (LNP), the customer is responsible for notifying the Company in writing of such change. This condition does not relieve the new Carrier of its notification requirements to the Company.

3. WIRELESS 9-1-1 SERVICE^{/3/}

(T)/4/

A. Description

Wireless 9-1-1 Service (W 9-1-1) is a service that routes emergency wireless calls to specific Public Safety Answering Points (PSAPs) and provides a Mobile Directory Number (MDN) for callback information and the appropriate caller location information to support the Federal Communication Commission's (FCC) Phase I and Phase II requirements as established in CC Docket No. 94-102.

This service will support the following W 9-1-1 design solutions:

Call Path Associated Signaling (CAS)^{/1//2/}
Non-Call Path Associated Signaling (NCAS)
Hybrid^{/2/}

B. Definitions

9-1-1 Selective Router

A central office providing tandem switching capability for 9-1-1 calls. It controls switching of ANI information to the PSAP and also provides the Selective Routing function capability and certain maintenance functions for each PSAP.

/4/

/1/ The CAS solution does not support Phase II and customers that utilize CAS for Phase I will be required to migrate to NCAS or Hybrid solutions for Phase II implementation.

/4/

/2/ The customer provided interface with the selective router must meet the requirements of the National Emergency Number Association (NENA) specification 03-002: "NENA Recommendation for the Implementation of Enhanced MF Signaling, E9-1-1 Tandem to PSAP".

3. WIRELESS 9-1-1 SERVICE (cont'd)

(T)/1/

B. Definitions (cont'd)

(T)

9-1-1 Tandem to 9-1-1 Tandem Transfer

The ability to transfer a W 9-1-1 call from a PSAP served by one Company 9-1-1 Tandem (a.k.a. Selective Router) to a PSAP served by a different Company 9-1-1 Tandem when the two tandems are geographically adjacent and are served by the same Company Automatic Location Identification (ALI) host system.

Billing Unit

A billing unit represents each 1000 in population for the area being served by a Wireless 9-1-1 Customer. The population for the W 9-1-1 Customer will be divided by 1000 to determine the total number of billing units for the W 9-1-1 customer.

Call Path Associated Signaling (CAS)

A W 9-1-1 solution set that utilizes the voice transmission path to deliver the Mobile Directory Number and the caller's location to the PSAP.

Emergency Services Routing Digits (ESRD)

A 10-digit number that is used to identify the cell site/sector serving the caller. The selective router uses the ESRD to selectively route the call to the designated PSAP.

Emergency Services Routing Key (ESRK)

A 10-digit number that is normally used to identify an ongoing W 9-1-1 call and to correlate the associated data for that call. The selective router uses the ESRK to selectively route the call to the designated PSAP.

Hybrid

A W 9-1-1 solution set that utilizes one transmission path to deliver the voice and Mobile Directory Number to the PSAP and a separate transmission path to deliver the caller's location information to the PSAP.

Mobile Directory Number (MDN)

A 10-digit telephone number that identifies the calling party and can be used as a call back number.

Mobile Switching Center

A switch that provides wireless telephone service.

3. WIRELESS 9-1-1 SERVICE (cont'd)

(T)/1/

B. Definitions (cont'd)

Non-Call Path Associated Signaling (NCAS)

A W 9-1-1 solution set that utilizes one transmission path to deliver the voice and a separate transmission to deliver the Mobile Directory Number and the caller's location to the PSAP.

Phase I Service

W 9-1-1 service that provides the PSAP with the call-back telephone number of the W 9-1-1 caller and the location of the cell site or base station transmitting the call.

Phase II Service

W 9-1-1 service that provides the PSAP with all Phase I information plus more precise caller longitude and latitude location information as required by the FCC in CC Docket No. 94-102 (Latitude and Longitude information may require a manual rebid from the PSAP to receive that information).

Pseudo-Automatic Number Identification (pANI)

A number, consisting of the same number of digits as ANI, but is used in place of an ANI to convey a special meaning. The specific meaning assigned to the pANI is determined by agreements, as necessary, between the telephone system originating the call, intermediate telephone systems handling and routing the call, and the destination telephone system. The pANI identifies the destination PSAP, or location of the base station or cell site through which a mobile call originates.

Wireless 9-1-1 Customer (Customer)

The Wireless 9-1-1 Customer is the authorized county government unit to who authority has been lawfully delegated for the implementation of wireless 9-1-1 service at the PSAP or PSAPs under its jurisdiction. The Customer may authorize individual PSAP to work directly with the Company during implementation of W 9-1-1 service.

Wireless Service Provider

A facilities-based provider of wireless service to one or more end users in this state.

Wireless End User

An individual or organization authorized to use the telephone services provided by the Wireless Service Provider.

3. WIRELESS 9-1-1 SERVICE (cont'd)

(T)/2/

C. Terms and Conditions

Request for this service: (1) can only be initiated by a W 9-1-1 Customer; (2) must be provided to the Company in writing 150 days prior to the desired service date for both Phase I or Phase II service; and (3) must identify service locations and arrangements.

W 9-1-1 will be provided where facilities permit. If facilities are not available, the Company will negotiate a mutually agreeable service date with the customer.

The minimum number of digits that the PSAP CPE must be capable of receiving is dependent on the wireless solution. A PSAP must be able to accept 8, 10, or 20 digits when the wireless solution is NCAS, Hybrid, or CAS, respectively. If a PSAP CPE does not meet these requirements, the Company will continue to selectively route wireless 9-1-1 calls to the designated PSAPs. However, the PSAP may not receive callback or location information for these calls.

Customer Obligations^{/1/}

1. The Customer is responsible for ensuring that the Wireless Service Provider creates, maintains and forwards to the Company current pANI data according to the format and procedures specified by the Company.
2. W 9-1-1 Service Wireless End User's information is confidential. The Customer agrees to use such information only for the purpose of responding to emergency calls.
3. The Wireless End User forfeits the privacy afforded by nonlisted and nonpublished service to the extent that the telephone number, the address and name associated with the originating station location are furnished to the PSAP and to the LEC. The Wireless End User (published and nonpublished) consents to the storage and retention of Wireless End User's location and telephone number in the data base and also consents to access this information by the PSAP for the sole purpose of responding to an emergency call.
4. The Customer has the responsibility for reporting all errors, defects and malfunctions that they are aware of to the Company in a timely manner provided the Company is the service provider.

/2/

/1/ The Company will participate in all coordination efforts as appropriate.

/2/ Material formerly appeared on Original Sheet 32 in this Section.

C. Terms and Conditions (cont'd)

Customer Obligations (cont'd)

5. Cancellation of the service in whole or in part by the Customer prior to establishment thereof, will require payment of an amount equal to the cost of engineering, manufacturers' billings resulting from equipment orders, installation, assembly, labor, cost of removal and any other costs incurred by the Company up to the time of cancellation resulting from the Customer's order for service.
6. The PSAP will be responsible for any local or long distance toll associated with the call-back of wireless callers or the transferring of calls to non-PSAP locations.
7. From the effective date of this tariff forward, the PSAP will, if needed, order Enhanced Multi-Frequency (E-MF) trunks for additional Selective Router to PSAP trunks. The customer provided interface with the Selective Router must meet the requirements of the National Emergency Number Association (NENA) specification 03-002: "NENA Recommendation for the Implementation of Enhanced MF Signaling, E9-1-1 Tandem to PSAP".
8. The Company will assign one wireless Emergency Service Number (ESN) per PSAP receiving primary routed wireless calls.
9. The Company will provide additional ALI circuits, Router to PSAP trunks dedicated to wireless service, and/or Power Failure/Make Busy circuits at the customer's request and will charge for the circuits per the rates established in existing applicable tariffs.
10. The Company will route W 9-1-1 calls based on the ESN associated with the pseudo Automatic number identification (pANI) that identifies the cell site/cell face or routing key. When call routing capability based on longitude and latitude becomes available, the Company will revise this tariff and identify the corresponding rates for such service.

C. Terms and Conditions (cont'd)

Customer Obligations (cont'd)

11. The Company's liability and that of its officers or employees to any person for interruption or failure of W 9-1-1 Service is limited by the terms set forth in this section, other sections of this tariff, and by law.
12. W 9-1-1 Service is provided solely for the benefit of the Customer; the provision of such service shall not be interpreted, construed or regarded as being for the benefit of, or creating any LEC obligation toward, or any right of action on behalf of, any third person or other legal entity.
13. To the extent allowed by law, the Customer agrees to release, indemnify, defend and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, to any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the Customer or others.
14. The Company supported segment of the W 9-1-1 Service will be designed to provide at least the same level of service reliability and quality as local exchange telephone service in the exchanges where 9-1-1 systems are equipped with the features required to provide W 9-1-1 service.
15. To the extent allowed by law, the Customer also agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of 9-1-1 service features and the equipment associated therewith, or by any services furnished in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing W 9-1-1 service hereunder, and which arise out of the negligence of the Company or the negligence or other wrongful act of the W 9-1-1 customer, its user, agencies or municipalities or the employees or agents of any one of them.

C. Terms and Conditions (cont'd)

Customer Obligations (cont'd)

16. To the extent allowed by law, the Customer and the Wireless Service Provider agree to indemnify, defend, and hold harmless the Company from any and all claims, costs, demands, liabilities, losses, actions, lawsuits, and expenses arising from the Customer and/or Wireless Customer providing the Company with inaccurate, out of date or improperly formatted MDN or pANI data.
17. To the extent allowed by law, the Customer and the Wireless Service Provider agree to indemnify, defend, and hold harmless the Company from any and all claims, costs, demands, liabilities, losses, actions, lawsuits, and expenses arising from any and all equipment failure or defects or errors in transmission on the part of the Customer or the Wireless Service Provider.
18. The customer acknowledges that W 9-1-1 service requires that the respective wireless service providers have the capability to forward the wireless subscriber's call and associated call data to the Company for transport to the Customer.
19. The Customer will provide the Company with the population total within its jurisdiction in a format agreed to by the Company.
20. Under no circumstances should a Wireless Service Provider or the Customer allow delivery of wireless calls (for overflow or contingency purposes) onto Router to PSAP trunks or into the selective router over public switched network circuits (e.g. any circuit or trunk not dedicated to 9-1-1 use), or through calls to an E9-1-1 routing/test number associated with the PSAP trunk group.

| <i>Wireless 9-1-1 (W 9-1-1) Service</i> | | |
| W P9-1-1 Service with wireless switch features, ALI Server upgrades, Selective Routing (SR), SR and ALI Database upgrades, record entry, assignment of one wireless ESN per wireless PSAP, storage and processing of ANI/ALI, Tandem to Tandem Transfer and Trunks and Telco Map Server functionality ^{/1/2/3/4/5/6/} | | |
| - Phase I service per billing unit | \$7.01 | \$27.96 |
| - Phase II service per billing unit | 0.89 | 91.36 |

- /1/ In applications utilizing a third party database provider, the Company will not assess the completeness of the received ALI record, but will simply deliver it to the PSAP. It will be the responsibility of the third party database provider to ensure that the ALI record provides both the W 9-1-1 Phase 1 and 2 data as required by the FCC.
- /2/ Tandem to Tandem Trunks will be state-averaged, flat rated (not mileage sensitive).
- /3/ Population data and billing unit calculations will be revisited before the fifth year anniversary of the effective date of this tariff.
- /4/ Billing units will be rounded to the next highest number to determine the number of billing units (i.e., .5 or higher equals 1.0). A minimum of one (1) billing unit will apply to each rate shown above.
- /5/ Billing of Phase I rates will begin when the first PSAP within the Customers jurisdiction converts to Phase I. Billing of Phase II rates will begin when the first PSAP within the Customers jurisdiction converts to Phase II.
- /6/ Phase II rates are paid in addition to Phase I rates when Phase II service is implemented. If only Phase I service is purchased, then only the Phase I nonrecurring and monthly recurring charge and the incremental Phase II nonrecurring and monthly recurring charge will be assessed. If Phase II service is purchased by a PSAP that has the above Phase I service, the incremental Phase II nonrecurring charge will apply and the PSAP would be billed both the Phase I and Phase II monthly recurring charge per billing unit.

4. OUTBOUND EMERGENCY NOTIFICATION DATA SERVICE (OENDS)

(N)

A. Description

Outbound Emergency Notification Service (OENDS) is an optional service that provides a county or municipality with telephone subscriber data from the Enhanced 9-1-1 Service database for the purpose of implementing or updating an outbound public emergency notification messaging system pursuant to Ohio Revised Code Section 4931.49 division (F)(5). An outbound public emergency notification system provides service users with a telephone warning of a public emergency situation through a computerized warning system.

Subscriber information is to be used for the sole purpose of contacting citizens during a Public Emergency.

B. Definitions

911 Database

A system of manual procedures and computer programs used to create, store, and update the data required to provide the Selective Routing (SR) and ALI features.

Private and Semi Private Listing Service

Listing Services which excludes the customer's telephone number from the Company's directories, however with Semi-Private Service, the customer's telephone number is included in Directory Assistance records.

Public Emergency

For purposes of this Guidebook, a public emergency shall be defined as the presence of actual or imminent conditions which present either:

- 1) an immediate danger to the health and safety of people, or
- 2) a likelihood of severe irreparable damage to property.

(N)

4. OUTBOUND EMERGENCY NOTIFICATION DATA SERVICE (OENDS) (cont'd)

C. Terms and Conditions

1. Customers of this service must be "911 customers" as referenced in the P.U.C.O. Tariff No. 20, Part 8, Section 3, Sheet No. 1 or their authorized agents or the State of Ohio.
2. Telephone subscriber data for all customers served by the requesting Customer, regardless of carrier or class of service, will be included in the data file. Information regarding the names, addresses and telephone numbers of Private and Semi-Private Listing Service customers will be provided for the purpose of facilitating response to public emergency calls.
3. The Company will provide OENDS data only for the jurisdictional area where the Customer is authorized to provide public emergency services.
4. Telephone subscriber data provided to a Customer for the purpose of implementing or updating an outbound public emergency notification system is confidential and proprietary. Subscriber data may be used only to identify the telephone location or service user, or both, and may not be used or disclosed by the Customer, or its agents or employees, for any other purpose. All other uses are prohibited. Customer agrees to abide by all applicable restrictions on the use of the subscriber data.
5. The OENDS information may not be reproduced in any manner, unless specifically authorized in writing by the Company. Upon request, the Customer will promptly return to the Company all OENDS information in a tangible form or certify to the Company that such information has been destroyed.
6. The Company will provide a copy of the OENDS data to the Customer. The Company may not be held liable under Ohio law for providing such information.
7. A full extract of the OENDS data may be requested, at a maximum, once per month and will be delivered within 21 working days of receipt of a written request.

4. OUTBOUND EMERGENCY NOTIFICATION DATA SERVICE (OENDS) (cont'd)

(N)

C. Terms and Conditions (cont'd)

8. The OENDS Customer may request incremental updates of OENDS data. The Customer may select incremental updates to be provided on a weekly or monthly basis.
9. OENDS will reflect data that exists in the Company's 911 Database as of the day the extract is produced.
10. The OENDS Customer is responsible for maintaining the confidentiality of the data contained within the extract.
11. The Customer and participating governmental units and agencies each agree to release, indemnify, defend, and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, other than the Company's sole negligence, arising out of the Customer's use of the Outbound Emergency Notification Data Service whether suffered, made, instituted or asserted by the Customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the Customer or others.
12. OENDS is provided solely for the benefit of the Customer. The provision of OENDS by the Company shall not be interpreted, construed, or regarded as being for the benefit of or creating any Company obligation, either expressed or implied, toward any third person or legal entity other than the Customer.
13. The Customer also agrees to use the OENDS information consistent with the law, applicable regulations, and the AT&T Ohio Guidebook or P.U.C.O. Tariff No. 20. The Company shall not be liable for any violation of the law, applicable regulations, or the AT&T Ohio Guidebook or P.U.C.O. Tariff No. 20 by the Customer.
14. A full extract of OENDS data will be mailed to the Customer on CD. Incremental updates may be provided on CD or via Electronic Transfer
15. Each entity that performs an outbound emergency notification message shall do so in coordination with other municipalities within the county.

D. Features

The following data elements will be provided on each file where they exist in the Company's 911 Database:

Telephone Number
Subscriber Name
Service Address
Class of Service

Full Extract

The initial or subsequent extraction of complete telephone subscriber data for all customers served by the requesting Customer from the Company's 911 Database. Full extracts are only available on a monthly basis.

Incremental Update

An extract containing only additions, deletions, and modifications to the telephone subscriber data for all customers served by the requesting Customer from the Company's 911 Database since the last full extract or incremental update. Incremental updates are available on a weekly or monthly basis.

E. Prices

OENDS is available as a full extract only, an initial full extract with subsequent full extracts on a monthly basis or a full extract with incremental updates on a weekly or monthly basis. The Customer may request an initial full extract when establishing an outbound public emergency notification messaging system as well as subsequent full extracts to verify or update the data in its system.

A one-time, non-recurring charge applies for a full extract.

A monthly recurring charge applies subsequent full extracts.

A monthly recurring charge applies for incremental updates. The Customer selects the frequency of the updates - weekly or monthly. Regardless of the frequency selected, there is a single monthly charge.

| A. DESCRIPTION |
|-----------------------|

211 is a local telephone exchange communications service that allows local exchange end users to reach the 211 service provider (customer) by dialing an abbreviated telephone number, two-one-one (2-1-1). (T)

211 is an intelligent routing service that determines the central office serving the calling party, converts the 211 dialed digits to a Routing Telephone Number (RTN) and then uses the RTN to complete the call over the public switched network to a call center designated by the 211 customer.

211 is an optional service that may be purchased only by applicant information and referral provider call centers which have been approved by the Ohio Council of Information and Referral Providers (OCIRP) and the 211 Ohio Collaborative (211 Ohio), (collectively, OCIRP/211 Ohio), pursuant to the application process developed by the 211 Ohio Collaborative.

211 is offered subject to the availability of facilities.

| B. TERMS AND CONDITIONS |
|--------------------------------|

1. A minimum service period of one month applies to this service.
2. Typically there can be only one 211 customer for each stand-alone, host, or remote central office serving area (the "211 service area"). This assures that 211 calls from an end user located within a 211 service area can be routed to a unique 211 call center. Normally, the Company will route calls based on the serving central office. If a central office serves one or more remote central offices or multiple states, the Company will route the 211 calls based on the originating NPA-NXX. The Company will default route calls to one of the customer's RTNs if the Company is unable to route based on the serving central office or originating NPA-NXX.
3. The customer is required, when establishing a call center, to inform all local exchange service providers operating within the 211 service area of the establishment of such a call center.
4. Only calls originating within an operational 211 service area will be routed to a call center. End users dialing 211 outside operational 211 service areas will receive a recorded message that the call cannot be completed as dialed.
5. The 211 customer may designate only one RTN per 211 service area but may designate different RTNs for different 211 service areas as described below. The RTN must be a toll-free, 8YY telephone number for central offices outside of the 211 call center's local service area.
 - If the customer utilizes more than one 211 RTN, it must designate the specific stand-alone, host or remote central offices to be served by each RTN.
 - Normally only one RTN can serve a stand-alone, host or remote central office serving area.
 - 211 calls are not permitted where local calling is restricted (e.g., prisons).

The Company will route 211 calls originating from end users on its local exchange network whether the end users purchase service directly from the Company or from another Local Exchange Carrier (LEC) reselling Company service.

PART 8 - Miscellaneous Services
SECTION 11 - Abbreviated Dialing for One Call
Centers

Original Sheet No. 1

8-1-1 SERVICE

(N)

A. DESCRIPTION

8-1-1 Service is a three-digit abbreviated local dialing arrangement that allows local exchange end-users to reach the state's One Call Notification system provider (8-1-1 customer). 8-1-1 Service is used by the One Call Notification system to provide advance notice of excavation activities to underground facility operators pursuant to Federal Communications Commission (FCC) Order 05-59 in CC Docket 92-105.

8-1-1 is a routing service that determines the central office serving the calling party, converts the dialed digits to a customer provided designated Routing Telephone Number (RTN) and routes the call over the public switched network utilizing Advanced Intelligent Network (AIN) platforms and features.

B. DEFINITIONS

Advanced Intelligent Network (AIN)

AIN is a telecommunications network that is software controlled. The network "intelligence" is located in computer nodes which are distributed throughout the network, rather than being confined to the originating and terminating switching offices. Before calls (either outbound or inbound) are sent to their final destination, the network queries a database for disposition of the call.

One Call Notification System

A communication system established by operators of underground facilities and/or state governments in order to provide a means for excavators and the general public to notify facility operators in advance of their intent to engage in excavation activities.

Routing Telephone Number (RTN)

Toll free telephone number designated by the customer for terminating 8-1-1 calls.

8-1-1 SERVICE (cont'd)

(N)

C. TERMS AND CONDITIONS

In addition to the general regulations found in Part 2, Section 2, the following regulations apply to 8-1-1 Service:

1. The Company and the Customer will negotiate the implementation date for 8-1-1 service. 8-1-1 is offered subject to the availability of facilities.
2. There can be only one 8-1-1 Customer for each stand-alone host or remote central office NPA-NXX serving area. The Company will route calls based on the serving central office. If a central office serves multiple states, the call will be routed based on the originating NPA-NXX.
3. The Customer must provide a toll-free number to the Company to ensure that toll charges are not incurred by the end-user.
4. 8-1-1 Service can be accessed only by end-users who subscribe to the Company's local exchange service, and by end users who obtain service from a Competitive Local Exchange Carrier ("CLEC") reselling the Company's local exchange service, who are served out of one of the Company's Central Offices.
5. 8-1-1 Service will not complete calls dialed using 0 + 8-1-1 or 1 + 8-1-1. 8-1-1 calls are not permitted where local calling is restricted.
6. The customer is responsible for informing all local exchange service providers operating within its designated geographical area of any call centers it establishes.
7. 8-1-1 Service does not include operator assisted calls, and will only be available to PBX and Key switching systems ("CPE") when those systems have been correctly programmed by the owner of the CPE.
8. The Company will make every effort to route 8-1-1 calls to the appropriate calling center; however it will not be held responsible for routing mistakes and errors, interruptions of service, or intervening Acts of God that interfere with telephone service. The Company's obligation under 8-1-1 applies solely to the transmission of the call and ends upon call completion to the Customer-designated RTN.

1. BLES LISTING SERVICES

(C)

A. General Provisions

1. The alphabetical directory is an alphabetical list of customers, joint users and others for whom directory listings are provided. It is designed solely for the purpose of informing calling persons of the telephone numbers of customers and others listed therein. Accordingly, listings are intended solely for purposes of identification and are limited to information which is essential to such identification.
2. The information in this Paragraph 1 for directory listings applies to primary and BLES listings in the alphabetical directory. (C)
3. An alphabetical directory may include the listings for one or more exchange areas. More than one alphabetical directory may be included in directory book. In alphabetical directories selected by the Company, the pages are divided into two groups, one group of non-residence listings and one group of listings consisting solely of names of individuals.
 - a. Non-residence primary listings consisting solely of names of individuals will appear in both groups at no charge.
 - b. Non-residence additional listings consisting solely of names of individuals will appear in both groups without charge for the additional appearance.
 - c. Special types of additional listings will appear in both groups without charge for the additional appearance under the following conditions:
 - (1) Alternate listings, provided that they are indented under non-residence primary or regular additional listings that are listings consisting solely of names of individuals; and
 - (2) all other special types of additional listings, provided that they are listings consisting solely of names of individuals and are indented under non-residence primary or regular additional listings.
 - d. Residence primary or additional listings will appear in both groups without charge for the additional appearance, provided that they are indented under non-residence primary or regular additional listings consisting solely of names of individuals.
4. Special prominence or arrangement of names is not permitted nor is the listing of a service, commodity or trade name except when such service, commodity or trade name is a part of the name under which the listed party is doing business.

(D)

1. BLES LISTING SERVICES (cont'd)

(C)

A. General Provisions (cont'd)

5. The Company will refuse a listing which does not constitute a legally authorized or adopted name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is intended for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.
6. The length of any listing is limited by the use of abbreviations, where, in the opinion of the Company, the clearness of the listing and the identification of the listed party is not impaired thereby. Where more than one line is required to properly list the party, no additional charge is made.
7. In connection with non-residence service, a designation, i.e., an abbreviated descriptive term characterizing the listed party's business in a general way, may be furnished as part of the listing unless the character of the listed party's business is already apparent from the form of the corporate or time name, in which case the designation is unnecessary and is not furnished.
8. The form of listings must conform to the Company's specifications with respect to its directories.
9. Listings are regularly provided in connection with exchange service of all classes, grades and types, except dormitory individual lines and Centrex dormitory station lines.
10. A Business Customer may list a different telephone number in the Company's Directory Assistance Records than the number listed in the Directory; provided the Business Customer or its representative; 1) has entered into a separate agreement with the Company to list a different telephone number in the Company's Directory Assistance records; 2) complies with the Company's rules for such listings; and 3) has a local telephone number that the Business Customer will continue to answer. The Company reserves the right to reject such requests or remove such numbers from its Directory Assistance Records at the Company's reasonable discretion. The Business Customer or its representative may not list a different telephone number in the Company's Directory Assistance Records, if in the Company's reasonable opinion: the use of such number could potentially mislead or deceive the public; the Business Customer does not have the right to use such number; or, use the number by the Business Customer does not comply with applicable law or regulations. The Business Customer assumes full responsibility concerning the right to use the telephone number and the Company does not undertake to determine the Customer's legal, contractual or other right to use the telephone number. The Business Customer will indemnify, defend, and hold harmless the Company from any claims, lawsuits, costs, damages, judgments, liabilities, losses or expenses, including reasonable attorney fees, that arise from the Business Customer not having the right to use the telephone number, not complying with applicable law and regulations, or misleading or deceiving the public in any manner.

B. Primary BLES Listings

(C)

1. One listing without charge, termed the primary listing, is provided for each call number in connection with exchange service. In cases where two or more non-residence services are arranged in a group of rotary numbers, all of such numbers so arranged are identified by but one call number.

(D)

1. BLES LISTING SERVICES (cont'd) (C)

B. Primary BLES Listings (cont'd) (C)

2. A call number is the telephone number designation with which a customer's service is identified.
3. One primary listing is provided for each joint user.
4. Public telephones and dormitory service are not listed in the directory.
5. The primary listing is ordinarily the name of the customer or joint user, or the name under which a business is regularly conducted. Where the service is contracted for by one party for the use of a second party, the primary listing may be the name of the second party.

1. CUSTOMER-OWNED, COIN OPERATED TELEPHONES (COCOT) (cont'd)

B. Definitions

1. Message Toll Service – COCOT

Additional Minute Rates are for each additional minute or any fraction thereof that the connection continues beyond the initial minute.

Customer-Dialed Service is that service where the person originating the call, dials the telephone number desired without the assistance of the Company operator, or when facilities are not available for dial completion, gives to a Company operator the telephone number of the desired telephone, private branch exchange system, or private branch exchange station which is reached directly rather than through a private branch exchange attendant; or gives the telephone number assigned to the Miscellaneous Common Carrier (MCC) for interconnected service. (T) (T)

Initial Minute Rates are for connections of one minute or any fraction thereof.

Two Point Message Toll Telephone Service is that of furnishing toll connections between a COCOT line and a main station or PBX trunk line.

2. Service Establishment and Change Charges

Billable Network Wiring is work performed on a customer's premises by a Company employee or representative at the customer's request and not covered by other charges. Any work required to establish or reestablish network access to the Company-provided network interface is excluded. (T) (T)

Changes in Service includes changes in telephone service or equipment subsequent to the establishment of such service or equipment, and rearrangements of network wiring (including house cable) which do not involve moves.

1. CUSTOMER-OWNED, COIN OPERATED TELEPHONES (COCOT) (cont'd)

B. Definition (cont'd)

2. Service Establishment and Change Charges (cont'd)

Establishment of Service is the initial establishment of telephone service or equipment for a customer, and transfers of telephone service and equipment from one premises to another on non-continuous property subsequent to the establishment of such service or equipment for a customer.

Moves of Service includes relocation of telephone service or equipment on the same continuous property subsequent to the establishment of such service or equipment for a customer.

Network Wiring work includes travel, preparation, wiring on the network side of the network interface.

Point of Minimum Penetration (POMP) is the first point on a customer's premises that the network facilities wiring is accessible.

3. Operator-Handled Services

Station-to-Station calls are those calls where the person originating the call specifies to a Company operator a particular telephone number to be reached.

Person-to-Person calls are those calls where the person originating the call specifies to a Company operator a particular person to be reached or other special arrangements as specified in Part 11 of this tariff or the AT&T Ohio Guidebook.

(C)

Third Number Billed calls are those calls where the person originating the call specifies to a Company operator to bill the call to an authorized station, as determined by the Company, other than the station originating the call, or the station where the call is terminated.

1. CUSTOMER-OWNED, COIN OPERATED TELEPHONES (COCOT) (cont'd)

C. Terms and Conditions

In addition to the regulations set forth in other sections of this tariff, the following Terms and Conditions apply to this service.

1. Customer-Owned, Coin Operated Telephone (COCOT) Service
 - a. COCOT service will be provided in accordance with the Terms and Conditions and Pricing for such service and consistent with the characteristics and requirements established by the Public Utilities Commission of Ohio (see Appendix A and Appendix B following for a complete set of such requirements).
 - b. One directory listing without charge, termed the primary listing, is provided for each call number in connection with COCOT Service as specified in Part 12 of this tariff or the AT&T Ohio Guidebook. (C)
(C)
 - c. In addition to the services covered in this part, COCOT customers may subscribe to certain toll and usage plans listed in the optional features and specified in other parts of this tariff or the AT&T Ohio Guidebook. (C)
(C)
2. Answer Supervision (Line Side) – COCOT
 - a. This feature is only available from appropriately equipped Central Offices and may be incompatible with other optional Central Office features.
3. Billed Number Screening Service – COCOT
 - a. The Company makes no guarantee and assumes no liability arising out of the use or misuse of Billed Number Screening Service by any other entities, including, but not limited to, Interexchange Carriers. The Company is fully responsible for calls charged to numbers, which should have been prevented by Billed Number Screening Service, that originate and terminate within the Company's service territory, and are not carried over any other carrier's network or facilities.

C. Terms and Conditions (cont'd)

3. Billed Number Screening Service - COCOT (cont'd)
 - b. Billed Number Screening Service is offered subject to the availability of suitable facilities.
 - c. The Service and Equipment Charge is applicable when Billed Number Screening is installed subsequent to the initial establishment of the COCOT line(s) with which it is associated.
4. Directory Assistance Service – COCOT
 - a. Directory Assistance service will be offered by the Company on an interim basis, subject to P.U.C.O. alteration or cancellation. (T)
 - b. Directory Assistance is provided at no charge.
 - c. The number of such telephone numbers furnished on each call shall be limited to two.
5. Message Rate Service – COCOT
 - a. Local calls are each charged on a message unit basis and an additional charge is made for local messages in excess of the allowance. The allowance, if not used during one month, is not credited to the customer's account for any other month that service is provided.

/1/ In accordance with Case No. 96-1310-TP-COI, issued May 22, 1997, and the FCC's CC Docket No. 96-128, Directory Assistance charges assessed to end-users at pay telephone stations are deregulated after October 7, 1997.

d. Network Wiring Charge (NWC)

- (1) The network wiring charge (NWC) applies for the delivery, installation, move or change of all equipment when a premises visit is required to perform such work.
- (2) When a premises visit is made at the request of a customer to perform work for which network wiring charges apply, a NWC applies unless the entire portion of the order which necessitated the premises visit is canceled.
- (3) A NWC applies separately per telephone craftsman scheduled by the Company to perform billable work on the customer's premises. When a customer requests a shorter work interval which would utilize additional telephone craftsmen, the NWC applies separately per telephone craftsman performing such work.
- (4) The NWC applies when a premises visit is made at the request of a customer for the sole purpose of converting non-modular termination points to a network interface.
- (5) For any work charges not provided for in this or other applicable tariffs or the AT&T Ohio Guidebook, the customer is charged the estimated cost to be incurred, unless otherwise specified. (C)
(C)
- (6) Should the customer request that the location of the network interface be other than that designated by the Company, the NWC charges will apply for the additional work required.

d. Network Wiring Charge (NWC) (cont'd)

(7) Should the customer request that a network interface other than the standard be placed at the NI location, the NWC and nonrecurring charge for the requested jack, as specified in Part 3 of this tariff, apply.

(8) No NWC applies for the following customer initiated requests providing work is limited to that specified below.

(a) Complete termination of service. (Includes disconnections initiated by the Company.) (T)

(b) Disconnection or removal of equipment.

e. Expense Incurred Option for Relocation of Service: On relocations of service to non-continuous property locations within territory served by the Company, in lieu of paying all applicable establishment, nonrecurring and termination charges, a COCOT customer for which the initial contract period is six months or more, may elect to pay the expense incurred for relocation of service, subject to the following regulations: (T)

(1) The existing COCOT service involved will be moved from the existing location to the new location with the understanding that the customer will not have continuous service at such locations.

(2) A new contract period will not apply when the service is established at a new location. Only the unexpired portion of any existing contract periods will continue at the new location.

f. The absence of a Nonrecurring Charge (NRC) for any specific service does not imply the waiver of appropriate NRCs for other concurrently installed services.

C. Terms and Conditions (cont'd)

8. Service Establishment and Change Charges - COCOT (cont'd)

- g. The charges specified in this section contemplate work being performed by the Company during the usual working hours on normal working days. When, at the specific request of the customer or applicant for service, work is performed at other times, either for the convenience of the customer or applicant for service or for other reasons not under the control of the Company, the expense incurred by the Company in excess of the normal expense of such work, when performed during usual working hours on normal working days, may be billed to the customer or applicant for service, in addition to the charges otherwise applicable. (T)
- h. In the event of damage to or destruction of a customer's premises by fire, flood or other like disaster, no Service Establishment and Change Charges will apply to the re-establishment on the same continuous property of the same (or less) service furnished to such customer prior to such damage or destruction. (T)

9. Telephone Exchange Service – COCOT

- a. Monthly rates for COCOT network access lines are determined by access area. The COCOT's customer's normal serving central office determines the applicable access area rate. The access areas, by exchange, are shown in Part 4, Section 1 of this tariff. Except where otherwise provided the monthly rates cover the access line and central office termination.
- b. In addition to the above rates, end user access line charges as filed in Ameritech Operating Companies Tariff F.C.C. No. 2 are applicable.

c. Quantity Discounts are available with a minimum commitment of 36 months, based upon the volume of network access lines required by a customer at a single location.

(1) In the event that a customer terminates any or all the service during the commitment period, the customer will remain liable for the remaining charges adjusted to their net present worth equivalent using the interest rate specified in Section 2, Paragraph 3.7.13. These charges will become due and payable in their entirety immediately upon such termination.

(2) Commission approval of the above termination liability language is not intended to indicate that the Commission has sanctioned any particular legal result should a dispute arise between the parties. In the event of a dispute, the signators may pursue any legal remedies they deem appropriate to resolve the dispute.

2. COCOT-COIN LINE

A. Description

The COCOT Coin Line is an optional exchange access line for use with payphone service. The COCOT Coin Line is provided with central office based features and signaling functionality.

B. Definitions

Call Screening - a screening feature that is provided with the Coin Line. This feature prevents toll fraud by restricting originating non-sent paid operator assisted calls to collect, credit card, or third-party billing.

Coin Control - the capability of collecting or returning coins deposited into the payphone.

Coin Rating - a rate obtained from a table entry built into the Traffic Operator Position Switch (TOPS) with which the coin line interfaces is in the central office.

Coin Supervision - the capability of recognizing and monitoring coins deposited into the payphone.
End User - consumer making a call from the payphone.

Independent Payphone Provider ("IPP") - the customer of AT&T Ohio subscribing to the Coin Line. (T)

2. COCOT-COIN LINE (cont'd)

C. Terms and Conditions

1. Unless otherwise specified, regulations and charges in this Tariff and the AT&T Ohio Guidebook are in addition to those set forth for COCOT Service in this Part. (C)
(C)
2. The Coin Line offers central office based signaling required to enable coin rating, coin control, and coin supervision. The Coin Line also offers certain call screening (see definition above) designed to prevent fraudulent calls from being placed from the customer's payphone.
3. Coin sent paid interLATA calls from Coin Lines may be routed to any Interexchange Carrier selected by the customer which has the required coin signaling capabilities (i.e., coin recognition, coin control, etc.) that are required to complete the call.
4. Until such time as AT&T Ohio is required to provide dialing parity on an intraLATA basis, AT&T Ohio will carry both sent-paid intraLATA calls and operator-assisted intraLATA calls from COCOT coin lines. AT&T Ohio operator services rates, as specified in Part 11, as well as AT&T Ohio intraLATA toll rates, as specified in Part 9 of the AT&T Ohio Guidebook, will apply to end users. At such time that intraLATA dialing parity is established, the COCOT coin line customer may choose either its interLATA carrier, AT&T Ohio or an alternative intraLATA toll/operator services provider for the completion of intraLATA toll calls. (C)
5. No adjustments to the usage rates charged pursuant to 6. following or any other refund will be made in the event of uncollected initial period or overtime coin charges applicable to end users.
6. The customer shall be responsible for payment of all charges for calls originating from or accepted by a Coin Line user.
7. Coin revenues collected at the customer's payphone are the property of the customer.
8. The Coin Line is available only from appropriately equipped central offices.

3. CALL DETAIL SERVICE (cont'd)

C. Terms and Conditions (cont'd)

1. Call Detail Service for all call types may not be available from all company central office switches. All call data technically available from the switch will be provided to the customer in standard Extended Message Record (EMR) format. Special formatting or screening of certain calls or carriers only will require additional programming at additional charges as specified in the Prices section following. Call Detail Service is provided at the customer's request where equipment and facilities are available.
2. This data will be provided to the IPP customer every month on a per telephone number basis in an available medium that is most economically and technically efficient, and agreeable to both parties. Each Telephone number will be designated by its Automatic Number Identification (ANI).
3. If the information is provided on media provided by the Company, including Diskette or Magnetic tapes, the media remain the property of the Company and are furnished to the customer only on a temporary basis. Magnetic tape density and number of tracks used may vary from time to time. (T)
4. The data will be provided in accordance with standard Bellcore EMR format. The Company makes no further guarantees regarding the completeness and/or accuracy of the call detail data provided through EMR format. (T)
5. Unless otherwise specified, the provision and use of this service is subject to the same General Regulations as all other Telecommunications Services, including those specified in Tariff No. 20, Part 2 Section 2.

3. Termination Charges

In the event of termination of the service provided under the 12 or 36 month Term Payment Plans during the contract period, the customer will be liable for a charge equal to the difference between the month-to-month rate and the contracted per-record rate times the sum of the number of records processed since the start of contract period. This termination charge shall upon any such termination immediately become due and payable in its entirety. This contract termination charge can also be expressed as follows:

$$\begin{aligned} &[(\text{month to month per record rate}) - (\text{Contract, Per record rate})] \\ &\quad \times \text{Number of records} \end{aligned}$$

where the number of records is equal to the sum of all records processed at the lower contracted rate since the start of the contract term.

Termination charges shall not apply whenever a customer selects to upgrade to a Call Detail contract of longer term.

Commission approval of the above termination liability language for Call Detail Service is not intended to indicate that the Commission has sanctioned any particular legal result should a dispute arise between the parties. In the event of dispute signatories to such contracts may pursue whatever legal remedies they deem appropriate to resolve the dispute.

1. SERVICE PROVIDER NUMBER PORTABILITY (cont'd)

(N)

A. DESCRIPTION

Service Provider Number Portability - Location Routing Number (SPNP-LRN)

- SPNP-LRN depends on AIN/IN technology. LRN is a 10-digit number used to uniquely identify a switch that has ported numbers. The LRN for a particular switch must be a native NPA-NXX assigned to the local exchange provider for that switch and serves as a network address. Telecommunications Carriers routing telephone calls to an end-user that has ported their telephone number from one Telecommunications Carrier to another must perform a database query to obtain the LRN that corresponds to the dialed telephone number. The N-1 telecommunications provider (the next to the last terminating carrier) is responsible for determining the LRN for the call being terminated. The database query is performed for all calls where the NPA-NXX of the called number has been marked in the switch as portable. The Telecommunications Carrier routes the call to the appropriate Telecommunications Carrier based on the LRN.
- SPNP-LRN will be initially deployed in Cleveland by May 15, 1998, and will continue through a phased in deployment which will complete December 1998 according to FCC Docket No. 95-116, as published in the Local Exchange Routing Guide (LERG). Subsequent deployment in additional switches beyond initial deployment pursuant to FCC Docket No. 95-116 and PUCO Case No. 95-845-TP-COI, will be accomplished through receipt of a bona fide request.

B. TERMS AND CONDITIONS

General

Service Provider Number Portability (SPNP) is only available to telecommunication carriers for use in the provision of a telecommunications service as specified and to the extent required by the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996) ("the Act") and the rules and regulations of the Federal Communications Commission and the Public Utilities Commission of Ohio.

Service Provider Number Portability is a service arrangement provided by the Company to Telecommunication Carriers whereby a customer, who switches subscription to local exchange service from the Company to a Telecommunication Carrier is permitted to retain for their use the existing Company assigned telephone number provided that the customer's service location remains within the same Company rate center.

Rules and Regulations

SPNP service is only available to Telecommunication Carriers.

SPNP service and facilities will only be provided where technically feasible, subject to the availability of facilities and pursuant to FCC Docket No. 95-116 and PUCO Case No. 95-845-TP-COI, and may only be furnished from properly equipped central offices. SPNP service and facilities are not offered for Mass-Calling NXX Codes, NXX Codes 555, 976, 950, FX service, or Ameritech coin telephone service.

General Regulations as found in Part 2 of this Tariff and Section 1 of this Part apply to this Section unless otherwise specified in this Section. The term "customer", which appears in Part 2 of the General Regulations, is the equivalent of the term "telecommunication carrier" as used in this Section.

Telecommunications Carriers will be assessed Local Number Portability (LNP) Query Charges as defined in F.C.C. No. 2, Section 6, as SPNP-LRN becomes available in an area if the Company performs an LNP database query on behalf of the Telecommunications Carrier.

Interim Arrangements (SPNP-Remote and SPNP-Direct) are only available to Telecommunications Carriers in areas where SPNP-Location Routing Number (LRN) is not available. Telecommunications Carriers shall migrate from Interim Arrangements to SPNP-LRN as soon as practicable, but no later than 120 days from the last day which the F.C.C. has mandated SPNP-LRN be available in a particular Metropolitan Statistical Area (MSA). Any Interim Arrangement (SPNP-Remote and SPNP-Direct in service at the end of the 120 day period will be changed to Remote Call Forwarding and/or Direct Inward Dialing Service. The Telecommunications Carrier will be billed at the rates for Remote Call Forwarding and/or Direct Inward Dialing Service as shown in Part 6 and 7 of this tariff. Requests for Interim Arrangements will also not be processed after the last day which the F.C.C. has mandated SPNP-LRN be available in a particular Metropolitan Statistical Area (MSA). B. TERMS AND CONDITIONS (cont'd)

Responsibilities of the Company

The Company's sole responsibility is to comply with the service requests it receives from the Telecommunication Carrier and to provide SPNP in accordance with its tariff. In the event that the Company becomes aware that a dispute or discrepancy may have occurred, it may insist that the Telecommunication Carrier provide to the Company a signed letter of authorization from the end-user.

The Company is not responsible for the allocation of charges for resold or shared SPNP service or for misdialed calls.

Responsibilities of the Telecommunication Carrier

The Telecommunication Carrier is solely responsible to obtain a signed letter of authorization from the end-user for the handling of the disconnection of the end-user's service with the Company, the provision of service by the Telecommunication Carrier and the provision of SPNP service. Should a dispute or discrepancy arise regarding the authority of a Telecommunication Carrier to act on behalf of the end-user, the Telecommunication Carrier is responsible for providing a signed letter of authorization, to the Company. In the event that the Telecommunication Carrier is unable to provide such authorization, the Company may either refuse to disconnect the end-user's service and establish SPNP service as requested by the Telecommunication Carrier or, where the conversion from end-user to SPNP service has already occurred, may choose to restore the end-user's prior service with the Company and terminate SPNP service for that particular end-user. In such event, the Telecommunication Carrier is responsible to compensate the Company for its cancellation costs if the end-user's service had not been disconnected and SPNP service had not yet been established or to pay all applicable restoral costs for terminating the SPNP service and restoring the end-user's prior service with the Company.

The Telecommunication Carrier is responsible for coordinating the provision of service with the Company to assure that its switch is capable of accepting SPNP ported traffic.

Responsibilities of the Telecommunication Carrier (cont'd)

The Telecommunication Carrier is solely responsible to provide equipment and facilities that are compatible with the Company's service parameters, interfaces, equipment and facilities. The Telecommunication Carrier is required to provide sufficient terminating facilities and services at the terminating end of an SPNP call to adequately handle all traffic to that location and is solely responsible to ensure that its facilities, equipment and services do not interfere with or impair any facility, equipment or service of the Company or any of its end-users. In the event that the Company determines in its sole judgment that Telecommunication Carrier will likely impair or is impairing, or interfering with any equipment, facility or service of the Company or any of its end-users, the Company may either refuse to provide SPNP service or terminate it in accordance with other provisions of the Company's tariff.

Responsibilities of the Telecommunication Carrier (cont'd)

The Telecommunication Carrier is responsible for designating to the Company at the time of its initial service request for SPNP service one of the following options for the handling and processing of Calling Card, Collect, third party, and other operator handled non-sent paid calls from or to SPNP assigned telephone numbers: (1) the Connecting-Carrier may request that the Company block all such calls; (2) the Telecommunication Carrier may accept billing from the Company for such calls; or (3) the Telecommunication Carrier may negotiate a separate, detariffed billing and collection agreement with the Company establishing the call handling, processing and billing responsibilities of the parties.

Limitations of Service

The Company is not responsible for adverse effects on any service, facility or equipment from the use of SPNP service.

End-to-end transmission characteristics may vary depending on the distance and routing necessary to complete calls over SPNP facilities and the fact that another carrier is involved in the provisioning of service. Therefore, end-to-end transmission characteristics cannot be specified by the Company for such calls.

The Company is not responsible to the Telecommunication Carrier if necessary changes in protection criteria or in any of the facilities, operation, or procedures of the Company renders any facilities provided by a Telecommunication Carrier obsolete or renders modification of the Telecommunication Carrier's equipment necessary except as otherwise required by the Public Utilities Commission of Ohio.

1. UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

A. General

1. When requested by local government authorities, and subject to the availability of facilities, the Company will provide a universal number "911" for the use of Public Safety Answering Points (PSAP's) engaged in assisting local governments in the protection and safety of the general public. Use of the 911 number will provide each caller with telephone access to the appropriate local PSAP. (T)
2. The following regulations apply to "Basic 911" and enhanced "E911" service, hereinafter referred to as 911 Service in this Paragraph A., in addition to the specific regulations, rates and charges covered in B. or C. following, as appropriate.
 - a. Application for 911 service must be executed in writing by each participating local governmental authority or their duly appointed agent. If application is made through an agent of the local government authority, the Company must be provided with evidence, satisfactory to the Company, of the appointment and authority of the agent prior to acceptance of the application and establishment of service. As a minimum, both police and fire departments in each local governmental authority must participate in any 911 service and participation must be in the same 911 service. (T)
 - b. Each participating local governmental authority must furnish to the Company its written agreement, duly executed, by which it shall agree to: (T)
 - (1) Provide and staff the PSAP on a 24 hour continuous basis.
 - (2) Accept responsibility for dispatching, or referring, forwarding or transferring 911 calls to other participating local governmental authorities for the dispatch of police, fire, ambulance or other emergency services to the extent such services are reasonably available.
 - (3) Subscribe to additional local exchange service, at the PSAP location, for administrative purposes, for placing of outgoing calls and for receiving other emergency calls, including calls which might be relayed by Company operators. (T)
 - (4) Make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the event the system is not functioning properly. (T)

1. UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE (cont'd)

Effective November 11, 1996, new installations of Basic 911 will no longer be made. Existing systems may be retained under current contract terms and conditions or as amended through mutual agreement between the Company and the involved communities. This service will be withdrawn when all existing customers have moved to an alternative 911 Service.

B. Basic 911 Service

The following regulations, rates and charges apply to Basic 911 service in addition to the general regulations included in A. preceding.

1. Regulations

- a. Local governmental authorities participating in Basic 911 service must include in the written agreement described in A-2-c preceding, their agreement to:
 - (1) subscribe to a minimum of two central office lines in each central office handling incoming Basic 911 calls and to further subscribe, as necessary, to such additional central office lines per central office to sufficiently handle the projected volume of incoming Basic 911 calls as determined by the Company for a given central office within (T) the community boundaries of the participating local governmental authority; and
 - (2) accept responsibility for serving the entire geographic area served by the central office through which Basic 911 calls are routed to the PSAP, even though the geographic area served by such central office does not coincide with the community boundaries of the participating local governmental authority.

b. Basic 911 Central Office Lines

- (1) At the Company's option, Basic 911 central office lines will be provided for incoming emergency calls via one, or a combination of arrangements below. Such arrangements shall be subject to change at the Company's option. (T)

(a) Dedicated arrangements:

- where Basic 911 central office lines are furnished on a dedicated basis from the central office serving the PSAP.
- where Basic 911 central office lines are routed on a dedicated basis from the originating central office through the central office serving the PSAP to the PSAP.

(b) Non-dedicated arrangements:

- where Basic 911 calls are routed via normal exchange facilities to the central office serving the PSAP or to the PSAP.

- (2) A dedicated arrangement for Basic 911 central office lines is required when the originating central office a specified central office code is in an exchange which is not in the local calling area of the exchange in which the PSAP is located.

c. Basic 911 Service Features

(1) Basic 911 lines provide the following service features:

- (a) Forced disconnect which enables the PSAP attendant to release a connection on a Basic 911 call, even if the calling party has not hung up.
- (b) Idle tone application which permits the PSAP attendant to distinguish between calls that have been abandoned before the attendant can answer and calls, where for some reason, the caller is unable to speak.

(2) The following optional features, which require dedicated Basic 911 central office lines terminating in an 8A Emergency Tele-phone System or comparable customer-provided equipment, may be provided, depending upon the availability of such dedicated Basic 911 lines from each originating central office to the PSAP:

(a) Called party hold which enables the PSAP attendant to retain control of the connection regardless of the switch-hook status of the calling party.

(b) Switchhook status which permits the PSAP attendant, by means of audible and visual signals, to monitor the status of a calling party being held.

(c) Emergency ringback which allows the PSAP attendant to ring a Basic 911 calling party who hangs up after the Basic 911 call has been answered by the attendant. Called party hold is a prerequisite for this feature.

2. Rates and Charges

/2/

a. Monthly rates for PBX trunks or message rate non-residence services, as appropriate, will apply for Basic 911 services terminated at the PSAP. The monthly rate for a Basic 911 service is the rate applicable for the Access Area in which the central office originating the Basic 911 service is located. Foreign central office charges do not apply to Basic 911 services; however, where appropriate, the provisions for foreign exchange service are applicable.

C. IntraLATA Presubscription

(N)

1. General

IntraLATA Presubscription is a procedure whereby a subscriber designates to the Telephone Company the carrier which the subscriber wishes to be the carrier of choice for calls subject to IntraLATA Presubscription, as described in Paragraph B.2. following. Such calls are automatically directed to the designated carrier, without any specific codes or number being dialed or pulsed by the subscriber.

IntraLATA Presubscription will become effective subject to the terms of Sections 271(e)(2)(A) and 271(e)(2)(B) of the Telecommunications Act of 1996.

2. Calls Subject to IntraLATA Presubscription

The following calls ("usage calls") are subject to IntraLATA Presubscription:

- a. All IntraLATA message toll calls which are or would otherwise be governed by the provisions of the Telephone Company's Tariff P.U.C.O. No. 20, Part 9, Section 1.
- b. All calls originated by customers of Optional Calling Plans which are or would otherwise be governed by the provisions of the Telephone Company's Tariff P.U.C.O. No. 20, Part 9, Section 3, except as noted below.

Ameritech Ohio will implement intraLATA toll dialing parity coincident with either grant of authority by the FCC under Section 271 of the Telecommunications Act of 1996 and the certifications of Ameritech Communications, Inc. by the Public Utilities Commission of Ohio to provide interLATA services originating in Ohio or February 8, 1999, whichever occurs sooner.

C. IntraLATA Presubscription (cont'd)

(N)

3. Calls Specifically Excluded from IntraLATA Presubscription

All 0- calls, calls to 411, 911, Public Announcement Service calls (976-XXXX), and all local calls except as noted in Paragraph B.2. preceding, are specifically excluded from IntraLATA Presubscription.

Calls using the 500, 700, 800, 888 or 900 service access codes shall be routed in accordance with the North American Numbering Plan.

4. IntraLATA Presubscription Options

Option A - Subscriber selects the Telephone Company as the presubscribed carrier for all IntraLATA usage calls subject to IntraLATA Presubscription.

Option B - Subscriber selects their interLATA toll carrier as the presubscribed carrier for all IntraLATA usage calls subject to IntraLATA Presubscription and InterLATA usage calls.

Option C - Subscriber selects a carrier other than the Telephone Company as the presubscribed carrier for IntraLATA usage calls subject to IntraLATA Presubscription and a different carrier as the presubscribed carrier for all InterLATA usage calls.

Option D - Subscriber may select no presubscribed carrier for Intra and/or InterLATA usage calls, which will require the subscriber to dial a carrier access code to route all intraLATA and/or interLATA toll calls to the carrier of choice for each call.

C. IntraLATA Presubscription (cont'd)

(N)

5. Rules and Regulations

Subscribers of record on the effective date of this tariff will retain their current dialing arrangements until they request that they be changed.

Subscribers of record or new subscribers may select either Options A, B, C, or D as their IntraLATA Presubscription choice.

Subscribers may change their selected option and/or presubscribed carrier at any time subject to charges specified in Paragraph 6. following.

6. IntraLATA Presubscription Charges

a. Application of Charges

The Telephone Company will notify subscribers that IntraLATA Presubscription is available through Telephone Company bill inserts, no longer than 60 days following the effective date of IntraLATA Toll Presubscription. The notice will contain a description of IntraLATA Presubscription, how to select among presubscription choices, and related charges. There will be no charge for the initial selection made within 90 days of subscriber notification of IntraLATA Presubscription.

New subscribers will be asked to select a carrier(s) at the time they place an order with the Telephone Company for a Telephone Company Network Access Line (see P.U.C.O. No. 20, Part 2, Section 1, for the definition of Network Access Line). If unable to make a selection at the time they place an order for the Telephone Company Network Access Line, new subscribers will be read a random listing of all available intraLATA carriers to aid in the selection. There will be no charge for the initial selection if the selection is made within 90 days of the initial order placement.

Until the new subscriber informs the Telephone Company of a choice for an intraLATA toll carrier, the new subscriber will be presubscribed to no intraLATA toll carrier, but rather will be required to dial a carrier access code to route the intraLATA toll call to the carrier of choice.
