Subject: 10.1327 - CR 62 Fostoria District: request to modify warning devices [ES-LEGAL.FID312040]

hi george:

this follows our telephone conversation late yesterday.

see my recent e-correspondence with mark zimmerman, the seneca county engineer, confirming that his dept supports our request.

let us know if this suffices, or if you want/need mark to submit something further on the puco docket.

thanks george.

Thank you for note. The Seneca County Engineer's Department worked to correct approach deficiencies to the noted crossing prior to our road paving program a couple years ago. Part of the project was to relocate the driveway (further west) for the landowner to improve safety and to provide the required area for grading on the shoulder. This relocation also provided a smoother transition for the driveway from road grade to average ground. This department is in full support of the proposal and do not anticipate any opposition.

Sincerely,

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.

hi mark:

see attached puco entry which gives the interested parties (e.g., the green creek and adams twp trustees) through july 15 to weigh-in on ns' request to remove the "no turn" signal at the seneca county line road grade crossing.

we would welcome any assistance you can provide in this regard.

(you don't anticipate any opposition, do you?)

call me, of course, if you have any questions or concerns.

thanks mark.
