SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.7 Miscellaneous Local Features (Cont'd)

3.7.4 Touch Dial Calling Service

Touch dial calling service provides for the origination of telephone calls through the use of pushbuttons transmitting alternating currents in lieu of rotary dial or push buttons transmitting direct current. The service is furnished for use with residential and business basic local exchange service lines. Touch dial calling service requires special central office equipment and will be provided only from central offices where facilities are available.
