Number of Pages: 172

Description of Document: Application

VIII. PROVISIONS TO MAINTAIN THE COST ALLOCATION MANUAL.

Duke Energy Ohio maintains its CAM in accordance with O.A.C. §4901:1-20-16(J)(8).

The CAM is organized according to the aforementioned provision and includes the following information:

- (1) An organization chart of the holding company, depicting all affiliates, as well as a description of activities in which the affiliates are involved.
- (2) A description of all assets, services, and products provided to and from the electric utility and its affiliates.
- (3) All documentation including written agreements, accounting bulletins, procedures, work order manuals, or related documents, which govern how costs are allocated between affiliates.
- (4) A copy of the job description of each shared employee.
- (5) A list of names and job summaries for shared consultants and shared independent contractors.
- (6) A copy of all transferred employees' (from the electric utility to an affiliate or vice versa) previous and new job descriptions.
- (7) A log detailing each instance in which the electric utility exercised discretion in the application of its tariff provisions.
- (8) A log of all complaints brought to the electric utility regarding this chapter.
- (9) A copy of the minutes of each board of directors meeting, where it shall be maintained for a minimum of three years.

Duke Energy Ohio has established a CAM team comprised of representation from Duke Energy's various departments including Rates, Regulatory Accounting, Corporate Accounting, Human Resources (HR), Compliance and Legal. After initial development of the CAM, this team meets periodically to review changes to Duke Energy Ohio's and its affiliates' business and business practices, and will make the necessary modifications to the CAM. Duke Energy Ohio

will send to the Commission's director of utilities department, in accordance with O.A.C. 4901:1-20-16(J)(8), a summary of any significant changes in the CAM every twelve months, as applicable.

Duke Energy Ohio will keep CAM filed with its corporate entity records, located in the Legal Department, 25th Floor, Atrium II, Cincinnati, OH.

IX. A DESCRIPTION AND TIMELINE OF ALL PLANNED TRAINING AND EDUCATION.

Duke Energy Corporation maintains a Corporate Compliance Department as part of its Office of General Counsel. Corporate Compliance is responsible for ensuring that Employees receive required training in areas such as FERC Standards of Conduct, FERC Affiliate Restrictions (formerly known as FERC Code of Conduct), Duke Energy's Code of Business Ethics, and various state codes of conduct. Corporate Compliance maintains copies of this training on the Duke Energy Portal, an internal website for all employees in the Duke Energy Corporate holding company structure. FERC Standards of Conduct and Affiliate Restrictions training is required for most new employees, and those employees receive that training on an annual basis thereafter. Code of Business Ethics training occurs upon hiring of a new employee and thereafter on a periodic basis, and when standards are revised.

The Ohio Corporate Separation/Code of Conduct Training will consist of the following steps:

3rd Quarter 2009

1. Needs Assessment – determine the specific needs of each of the target audience groups;
2. Refine curriculum and produce training materials;
3. Create roster of all employees in each target audience group.

4th Quarter 2009

4. Schedule training sessions for each target audience group;
5. Computer-based Code of Conduct training sessions;

6. Conduct follow-up and periodic training to ensure all targeted employees have received and thoroughly understand the Corporate Separation and Code of Conduct rules.

Additionally, the training will be repeated on a periodic, as-needed basis, as determined by Corporate Compliance to ensure that employees update and maintain their knowledge of Corporate Separation and Code of Conduct issues. Finally, this training curriculum will be built into Duke Energy Corporation's New Employee Orientation training such that targeted new employees will receive the necessary training on Corporate Separation and Code of Conduct policies and procedures as well.

(REMAINDER OF PAGE INTENTIONALLY LEFT BALNK)

- X. A COPY OF THE POLICY STATEMENT TO BE SIGNED BY ELECTRIC AND AFFILIATE EMPLOYEES WHO HAVE ACCESS TO ANY NONPUBLIC ELECTRIC UTILITY INFORMATION.**

Policy Statement

Each employee who has access to any nonpublic electric utility information will be required to electronically sign the Corporate Separation Policy Statement attached below. This will be administered during the computer-based training sessions to ensure that all affected employees electronically sign this agreement.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

DUKE ENERGY OHIO CORPORATE SEPARATION POLICY STATEMENT

I hereby acknowledge that I am aware of, have read and will adhere to all policies and procedures regarding limitation on the use of nonpublic electric utility information. I also hereby acknowledge that failure to observe these limitations will result in appropriate disciplinary action.

I have also been made aware of Duke Energy Ohio's Cost Allocation Manual (CAM), including the appropriate costs and expenses which must be reported to the person in charge of Duke Energy Ohio's CAM. I have been given the opportunity to ask questions regarding Duke Energy Ohio's Corporate Separation Plan, Affiliate Code of Conduct and CAM and understand the compliance program included therein, including the appropriate method in which complaints are to be handled and the appropriate persons to whom possible violations should be reported. I have attended one or more training sessions offered by Duke Energy Ohio with regard to the implementation and operation of Duke Energy Ohio's Corporate Separation Plan.

XI. A DESCRIPTION OF TRAINING, INTERNAL COMPLIANCE MONITORING PROCEDURES AND METHODS FOR CORRECTIVE ACTION FOR NON-COMPLIANCE.

Corporate Separation/Code of Conduct Training plan has been designed to ensure that all employees throughout the Duke Energy Corporation holding company structure know and can implement the policies and procedures of Corporate Separation.

A. Training Goal:

The goal of the Corporate Separation/Code of Conduct Training is to ensure that those employees that may currently or in the future be affected by the Commission's rules thoroughly understand the policies and are provided with the resources they require to follow the Corporate Separation and Code of Conduct procedures.

The training will be provided not only to currently affected employees, but, on an on-going basis, will be provided to those new employees or employees who have become affected through changes in job responsibilities. A process to track changes in employees' job responsibilities, in order to ascertain whether they require this training, will be maintained by Duke Energy's Corporate Compliance Department.

B. Target Audience:

Generally, the Corporate Separation/Code of Conduct Training will be administered to all employees within the Duke Energy Corporation holding company structure who will be affected by compliance with the Commission's rules. Specifically, these employees include but are not limited to:

- Those employees having decision-making authority for approving transactions between Duke Energy Ohio and any of its affiliates;

- Those employees who have access to nonpublic Ohio electric utility information;
- Service company employees who are located in Ohio.

C. Curriculum:

The Corporate Separation/Code of Conduct Training curriculum generally will consist of the following:

- Present Overview of Corporate Separation/Code of Conduct;
- Explain Accounting Treatment of Affiliate Transactions, including review of SEC-approved Service Agreements;
- Identify Restrictions on Financial Arrangements;
- Discuss Duke Energy Ohio's Affiliate Code of Conduct;
- Explain Corporate Separation Complaint Procedures;
- Describe Cost Allocation Manual (CAM) and Associated Procedures;
- Explain Internal Compliance Monitoring, including reporting of possible violations.

The curriculum will be customized to the target audience. For example, emphasis will be placed on the Cost Allocation Manual in training employees in the accounting department.

D. Internal Compliance Monitoring:

To ensure that Duke Energy Ohio's Corporate Separation Plan and Affiliate Code of Conduct are properly implemented within the Duke Energy Corporation holding company structure, the following internal compliance monitoring process will be followed:

1. Duke Energy's Office of General Counsel will ensure that all affected employees receive the Corporate Separation/Code of Conduct Training;
2. After receiving the training described above, each employee will be required to attest to the Policy Statement contained in Section X of this document;
3. Duke Energy's Office of General Counsel will continue to provide a method for Employees to ask questions regarding the Corporate Separation/ Code of Conduct as well as the ability to report possible violations of the Corporate Separation and Code of Conduct Rules through posting of Compliance personnel contact information on the Duke Energy Portal, the "ComplianceReporting" mailbox, and through the "EthicsLine" (anonymous reporting).
4. Possible violations reported to Duke Energy's Office of General Counsel will be investigated and documented. Upon completing the investigation, Duke Energy's Office of General Counsel will, if

appropriate, recommend to senior management a course of action, including refresher training, to correct repeat violations;

5. Senior management, upon reviewing the investigative report, will determine whether disciplinary action is required.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

XII. DESIGNATION OF THE ELECTRIC UTILITY'S COMPLIANCE OFFICER.

Duke Energy Corporation maintains a Corporate Compliance department within its Office of General Counsel. For purposes of this requirement, Duke Energy Ohio has designated an individual to act as a contact for the Commission Staff when seeking data regarding affiliate transactions, personnel transfers, and sharing of employees. This individual is:

Elizabeth H. Watts
155 East Broad Street
21st Floor,
Columbus, Ohio 43215

Telephone: (614) 221-7551
Fax: (614) 221-7556
e-mail: Elizabeth.Watts@duke-energy.com

XIII. A DETAILED DESCRIPTION OUTLINING HOW THE ELECTRIC UTILITY AND ITS AFFILIATES WILL COMPLY WITH OAC 4901:1-37-05.

Pursuant to the approval Stipulation and Recommendation in Case No. 08-920-EL-SSO, Duke Energy Ohio's corporate separation plan is subject to annual audit. Such an audit will enable the Commission to confirm Duke Energy Ohio's compliance with its internal Plan and the rules pursuant to which that Plan was developed.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

XIV. A DETAILED LISTING OF THE ELECTRIC UTILITY'S ELECTRIC SERVICES AND THE ELECTRIC UTILITY'S TRANSMISSION AND DISTRIBUTION AFFILIATES' ELECTRIC SERVICES.

Duke Energy Ohio is an Ohio Corporation engaged in the business of supplying electric generation, transmission and distribution service to approximately 660,000 customers in southwestern Ohio, and is a public utility as defined by R. C. 4905.02 and R. C. 4905.03. Duke Energy Ohio provides competitive retail electric service to customers in its service territory pursuant to a Commission approved Standard Service Offer in the form of an Electric Security Plan ("ESP"). Duke Energy Ohio also provides regulated electric distribution service to its customers in Southwestern Ohio.

A. Generation:

In a Stipulation reached in Case No. 08-920-EL-SSO, establishing Duke Energy Ohio's Electric Security Plan ("ESP") price through 2011, Duke Energy Ohio agreed to continue to own and dedicate its "legacy Cinergy" generation assets to its Ohio-customers and not transfer those assets to an exempt wholesale generation ("EWG").³ Duke Energy has functionally separated the operation and maintenance of its generating portfolio from its regulated distribution service. As such, Duke Energy Ohio, as a regulated electric distribution company, treats its generation as a non-regulated affiliate and abides by both the FERC Standards of Conduct and Ohio's code of conduct.

B. Transmission:

Control of Duke Energy Ohio's transmission assets reside with a FERC approved transmission entity, the Midwest Independent System Operator (Midwest ISO). The

³ Duke Energy Ohio is permitted to transfer certain gas-fired generating assets that have become referred to as "Legacy Duke Energy North America [DENA]" generating assets.

Midwest ISO controls Duke Energy Ohio's transmission assets and does not have control of any generation assets. The transmission entity shall operate in the public interest by preventing any transmission owner or competitive retail electric market participant from gaining an unfair competitive advantage within the Midwest ISO control area and by preventing the abuse of market power.

The Midwest ISO shall operate in the public interest by implementing efficient operating practices and procedures that prevent pan-caking, by improving transmission reliability, by encouraging an open generation market, eliminating barriers to entry in the generation market and by eliminating market control over bottlenecked transmission. The Midwest ISO shall be large in scale to increase supply options for consumers and shall maintain a Board of Directors independent of transmission users. The transmission entity shall operate in a manner designed to satisfy the requirements of its customers and shall maintain real-time reliability of the transmission system that it operates.

C. Distribution:

Duke Energy Ohio shall operate its distribution system under the governance and rate authority of the Commission. Duke Energy Ohio shall offer all customers safe and reliable distribution service on a non-discriminatory basis. Duke Energy Ohio's unbundled tariffs shall define rates for its distribution services and products. Duke Energy Ohio shall provide and operate new distribution facilities, or the extension of distribution facilities, pursuant to such unbundled tariffs and will not provide non-tariffed products and services absent Commission approval. Non-tariffed products and service offerings will be offered through non-regulated affiliates.

XV. A COMPLAINT PROCEDURE TO ADDRESS ISSUES CONCERNING COMPLIANCE WITH OAC 4901:1-37-05.

Duke Energy Ohio has adopted the complaint procedure set forth below. This complaint procedure is to be used to address complaints related to compliance with Duke Energy Ohio's Corporate Separation Plan. A copy of this complaint procedure will be made available upon request to:

Associate General Counsel – Regulatory Section
Duke Energy Ohio, Inc
139 East Fourth Street
P. O. Box 960
Cincinnati, OH 45202

A. Complaint Procedure

The following complaint procedure is to be used to address complaints related to compliance with Duke Energy Ohio's Corporate Separation Plan.

1. All complaints, whether written or verbal, shall be referred to the compliance officer designated by Duke Energy Ohio or their designee.
2. The compliance officer, or its designee or designee shall orally acknowledge the complaint within five working days of its receipt.
3. The compliance officer or its designee or designee shall prepare a written statement of the complaint that shall contain the name of the complainant and a detailed factual report of the complaint, including all relevant dates, companies involved, employees involved, and the specific claim.
4. The compliance officer or designee shall communicate the results of the preliminary investigation to the complainant in writing within thirty days

after the complaint was received, including a description of any course of action that was taken.

5. All written statements of complaints and required investigations shall keep a file in the CAM, in accordance with paragraph (J) of O.A.C. 4901:1-20-16, of all such complaint statements for a period of not less than three years.
6. This complaint procedure shall not in any way limit the rights of a party to file a complaint with the commission.

~~SECOND-THIRD~~ AMENDED CORPORATE SEPARATION PLAN

I. OVERVIEW.

This ~~Second-Third~~ Amended Corporate Separation Plan (Amended Plan) describes the processes and controls ~~that~~ Duke Energy Ohio, Inc. ("Duke Energy Ohio" or the Company) has implemented, consistent with Ohio Administrative Code (O.A.C.) Chapter 4901:1-37 et seq., and Ohio Revised Code (R.C.) Section 4928.17. Duke Energy Ohio's initial Corporate Separation Plan was initially approved in Case No. 99-1658-EL-ETP. Duke Energy Ohio filed its Amended Corporate Separation Plan as part of its ~~Application~~ application to establish an Electric Security Plan (ESP) in Case No. 08-920-EL-UNC et al.. The Public Utilities Commission of Ohio (Commission) approved Duke Energy Ohio's ESP and Amended Corporate Separation Plan by order dated December 17, 2008. Duke Energy Ohio's Second Amended Corporate Separation Plan was filed in Case No. 09-495-EL-UNC and was approved by the Commission on April 5, 2011.

Formatted: Font: Italic

This ~~Third Amended Corporate Separation Plan~~ is designed to comply with the recently enacted regulations set forth in Ohio Administrative Code (~~OAC~~) O.A.C. Chapter 4901:1-37 et seq. This Amended Plan governs the corporate separation of noncompetitive retail electric service from competitive retail electric service as well as the products and services offered by certain affiliates of Duke Energy Ohio and is intended to be ~~complimentary~~ complementary to Duke Energy Ohio's Cost Allocation Manual (CAM). Duke Energy Ohio's CAM generally describes how costs are allocated between and among Duke Energy Ohio and its affiliates.

II. PROVISIONS THAT MAINTAIN STRUCTURAL SAFEGUARDS.

O.A.C. 4901:1-37-4(A) sets forth required structural safeguards. Specifically, the provision provides:

- (1) Each electric utility and its affiliates that provide services to customers within the electric utility's service territory shall function independently of each other.
- (2) Each electric utility and its affiliates that provide services to customers within the electric utility's service territory shall not share facilities and services if such sharing in any way violates paragraph (D) of this rule.
- (3) Cross-subsidies between an electric utility and its affiliates are prohibited. An electric utility's operating employees and those of its affiliates shall function independently of each other.
- (4) An electric utility may not share employees and/or facilities with any affiliate, if the sharing, in any way, violates paragraph (D) of this rule.
- (5) An electric utility shall ensure that all shared employees appropriately record and charge their time based on fully allocated costs.
- (6) Transactions made in accordance with rules, regulations, or service agreements approved by the federal energy regulatory commission, securities and exchange commission, and the commission, which rules the electric utility shall maintain in its cost allocation manual (CAM) and file with the commission, shall provide a rebuttable presumption of compliance with the costing principles contained in this chapter.

Except as permitted by the Commission's rules and Title 49, Ohio Revised Code (R.C.), the Duke Energy Ohio and its affiliates that provide services to customers within Duke Energy Ohio's service territory function independently of each other.

In December 2005, as a condition of the merger between Duke Energy Corporation (Duke Energy) and Cinergy Corp., the companies agreed to enter into several service agreements

that address, among other things, cost allocation, provision of services, and pricing of transactions between and among Duke Energy Corporation holding company affiliates, including Duke Energy Ohio. These agreements include the ~~Utility/Non-utility Service Agreement, the Service Company/Utility Service Agreement, the Operating Company/Non-utility Companies Service Agreement, and the Utility Money Pool Agreement.~~ A summary of the various agreements and the services and pricing for transactions permitted therein is included in Section IV of this document. Copies of the agreements are included in and are more fully described in Duke Energy Ohio's CAM. ~~Duke Energy Corporation holding company~~ monitors compliance with these agreements as part of its utility operations in Ohio, Indiana, Kentucky, North Carolina, and South Carolina.

In addition to the general separation of books and records between Duke Energy Ohio and its affiliates, Duke Energy Ohio has implemented various safe-guards to ensure compliance with the affiliate transaction rules and regulations. The Company has physically separated its regulated distribution business from its competitive retail electric service employees. Employee access to regulated and non-regulated areas is electronically monitored to ensure there is complete separation. All employees receive annual training regarding types of information that cannot be communicated between regulated and non-regulated businesses.

To achieve operating efficiencies, Duke Energy Business Services LLC (DEBS), an affiliated service company, provides support functions across the ~~Duke Energy Corporation holding company.~~ These services include accounting, treasury, human resources, communications, and legal functions. In general, DEBS employees are permitted to have greater access to information across the regulated and non-regulated businesses, but are prohibited from sharing such information with an employee that who is not permitted to ~~directly~~ access the

information directly. Costs related to DEBS employees are allocated pursuant to the Service Company/Utility Service Agreement and the Service Company Nonutility Service Agreement described in Section IV of this document.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

III. PROVISIONS THAT MAINTAIN SEPARATE ACCOUNTING.

Duke Energy Ohio maintains separate books and records from its affiliates in accordance with the Federal Energy Regulatory Commission's (FERC) Uniform System of Accounts (USoA). The FERC USoA designates specific accounts where regulated and non-regulated transactions are to be recorded. -Duke Energy Ohio and its affiliates have cost accounting procedures and systems in place and in operation that assure that each business unit and affiliate properly records the costs associated with that unit's or company's own activities and operations. These accounting procedures and systems are more fully set forth in the Company's CAM.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

IV. A LIST IDENTIFYING FINANCIAL ARRANGEMENTS AND TRANSACTIONS.

Financial arrangements between Duke Energy Ohio and its affiliates, except as the Commission may approve, are subject to the following restrictions: (i) any indebtedness incurred by an affiliate shall be without recourse to the electric utility; (ii) Duke Energy Ohio shall not enter into any agreement with terms under which the electric utility is obligated to commit funds to maintain the financial viability of an affiliate; (iii) Duke Energy Ohio shall not make any investment in an affiliate under any circumstances in which the electric utility would be liable for the debts and/or liabilities of the affiliate incurred as a result of actions or omissions of an affiliate; (iv) Duke Energy Ohio shall not issue any security for the purpose of financing the acquisition, ownership, or operation of an affiliate; (v) Duke Energy Ohio shall not assume any obligation or liability as a guarantor, endorser, surety, or otherwise with respect to any security of an affiliate; and (vi) Duke Energy Ohio shall not pledge, mortgage, or use as collateral any assets of the electric utility for the benefit of an affiliate.

Duke Energy Ohio and its utility and non-utility affiliates operate pursuant to the terms and conditions of various service agreements. The terms and conditions of these agreements set forth the cost allocations for the transactions that are permitted to occur pursuant to the various Agreements. Duke Energy Ohio maintains copies of the current agreements in its CAM. Many of these agreements were approved by the Public Utilities Commission of Ohio in Case No. 05-732-EL-MER as part of the merger between Duke Energy Corporation and Cinergy Corp.¹ In general, there are three primary cost allocations that affect Duke Energy Ohio and its affiliates:

¹ Duke Energy Ohio is a party-party to other agreements with its utility affiliates that were not approved as part of the Duke-Cinergy merger. These agreements include but are not limited to the Miami Fort Operations Agreement, and Affiliate Inventory Asset Transfer Agreement, and the Natural Gas and Propane Services Agreement. These agreements allow Duke Energy Ohio to provide and receive services and goods at cost or otherwise according to FERC pricing regulations.

(1) cost allocations from DEBS, the subsidiary service ~~Company-company~~ of Duke Energy Corporation; (2) cost allocations between Duke Energy Ohio and its wholly-owned subsidiary Duke Energy Kentucky, Inc., for common costs; and (3) administrative and general (A&G) cost allocations between its gas and electric operations for both capital and expense accounts. The ~~Agreements agreements~~ of which Duke Energy Ohio is a ~~Party-party~~ include the following:

- ~~Service Company--~~Utility Service Agreement – This agreement governs transactions between DEBS (the ~~sService eCompany~~) and utility affiliates, including Duke Energy Ohio. This agreement was entered into as part of merger between Duke Energy and Cinergy Corporation. In its Opinion and Order dated December 21, 2005, the Commission approved this agreement in Case No. 05-732-EL-MER et al.² DEBS provides its services at cost, except that, solely for the purpose of Internal Revenue Code Section 482, Duke Energy Ohio shall pay DEBS the market value of services. However, notwithstanding the Section 482 exception, for rate making purposes, services are rendered to Duke Energy Ohio at cost.
- Operating Companies Service Agreement (Operating Company Agreement) – This agreement governs transactions between Duke Energy Ohio and its utility affiliates. As compensation for any services rendered pursuant to the Operating Company Agreement, the company receiving services (Client Company) shall pay the service provider the fully embedded cost thereof (i.e., the sum of (i) direct costs, (ii) indirect costs and (iii) costs of capital), except to the extent otherwise required by Section 482 of the Internal Revenue Code. Services provided to or by

² *In re-Merger the Matter of the Joint Application of Cinergy Corp., on Behalf of The Cincinnati Gas & Electric Company, and Duke Energy Holding Corp. for Consent and Approval of a Change of Control of The Cincinnati Gas & Electric Company*, 05-732-EL-Mer-MER et al., (Opinion-Finding and Order)(Dec. 21, 2005, at 14).

Duke Energy Carolinas shall be priced in accordance with Duke Energy Carolinas's North Carolina Code of Conduct, approved by the North Carolina Utilities Commission. In accordance with FERC regulations, generation services provided by the regulated utilities to Duke Energy Ohio "Generation" and vice versa, are subject to asymmetrical pricing.

- Operating Company/Non-utility Companies Service Agreement (Affiliate Services Agreement) – This agreement governs transactions between Duke Energy Ohio and certain of its non-utility affiliates. As compensation for any services rendered pursuant to the Affiliate Services Agreement, the client company shall pay the service provider the fully embedded costs thereof, except as required by 482 of the Internal Revenue Code.
- Joint Transmission System Planning and Operating Agreement – This agreement addresses the allocation of transmission costs and revenues for the Duke Energy (Duke Energy Ohio and Duke Energy Indiana, Inc., [Duke Energy Indiana]) transmission system.
- Utility Money Pool Agreement – This agreement allows Duke Energy, DEBS, and Duke Energy's utility operating companies (including Duke Energy Ohio) to participate in a money pool arrangement, in order to better manage cash and working capital requirements. Under this arrangement, those companies with surplus short-term funds may contribute those funds into a money pool which is provided for short-term loans to affiliates (other than Duke Energy Corporation) participating under this arrangement. This surplus cash may be from internal or external sources. Each party receiving a loan pursuant to the agreement must

repay the principal amount plus interest either on demand or within 365 days of receiving the loan. Interest incomes from the loans are allocated among the parties in proportion to their respective contribution to the funds.

- Tax Sharing Agreement – This agreement, between Duke Energy and its subsidiaries, provides for a consolidated federal income tax return and the allocation of consolidated federal income tax liabilities and benefits among the parties to the agreement.
- Miami Fort Unit 6 Operation Agreement – This agreement allows for Duke Energy Ohio to operate and maintain Duke Energy Kentucky's Miami Fort Unit 6 Generating Station. Duke Energy Ohio is required to provide material, fuel, equipment, and services to Duke Energy Kentucky in accordance with good utility practice.
- Gas and Propane Services Agreement – This agreement allows for Duke Energy Ohio to provide certain necessary services for the operation of Duke Energy Kentucky's Woodsdale Generating Station, which was formerly owned by Duke Energy Ohio.
- Agreement for Gypsum and FGD Waste Material Disposal Services – This agreement allows Duke Energy Kentucky to perform scrubber and FGD waste disposal services for Duke Energy Ohio.
- Inter-Company Asset Transfer Agreement – This Agreement permits asset transfer agreements for inventory items between Duke Energy Ohio and its sister affiliated regulated utility operating companies (Duke Energy Kentucky, Duke Energy Indiana, and Duke Energy Carolinas). The transfers are priced at the

transferring party's fully embedded costs or through in-kind replacements, providing the transfers do not jeopardize the transferring party's ability to provide service. The pricing under this agreement is consistent with Ohio's affiliate transaction pricing rules. The agreement was entered into as a result of affiliate pricing rules in other jurisdictions that would otherwise require such transactions to be priced according to stricter asymmetrical pricing rules. Duke Energy Ohio "Generation" and regulated utilities use FERC's asymmetrical pricing for transfers among themselves.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

V. **A LIST OF ALL CURRENT AFFILIATES IDENTIFYING EACH AFFILIATE'S PRODUCT(S) AND OR SERVICES(S).**

Duke Energy Corporation has many companies subsidiaries within its family of companies. Duke Energy Corporation's Corporate Secretary maintains a list of all affiliates in the Duke Energy Corporation's Holding Company structure, which list ~~and~~ will be made available to the Commission upon request. The following list includes the list of affiliates within Duke Energy Corporation as of June 1, 2011 ~~March 31, 2009~~.

VI. A CODE OF CONDUCT POLICY THAT COMPLIES WITH O.A.C. 4901:1-37-05 04 AND THAT EMPLOYEES OF THE UTILITY AND AFFILIATES AFFILIATES MUST FOLLOW.

**Duke Energy Ohio
Affiliate Code of Conduct**

A. Introduction

This Affiliate Code of Conduct governs the actions of Duke Energy Ohio and its affiliates. It is intended to ensure that no competitive advantage flows from Duke Energy Ohio to an affiliate and vice versa. Compliance with this Code of Conduct shall be mandatory for all employees, consultants, and independent contractors of Duke Energy Ohio and its affiliates.

B. The Code of Conduct

1. Duke Energy Ohio shall not release any proprietary customer information (e.g., individual customer load profiles or billing histories) to an affiliate, or otherwise, without the prior authorization of the customer, except as required by a regulatory agency or court of law.
2. Duke Energy Ohio shall make customer lists, which include name, address, and telephone number—of the—customer, available on a nondiscriminatory basis to all nonaffiliated and affiliated certified retail electric competitors—service providers transacting business in its service territory, unless otherwise directed by the customer. This paragraph does not apply to customer-specific information, obtained with proper authorization, necessary to fulfill the terms of a contract, or information relating to the provision of general and administrative support services. This information shall not be used by the certified retail electric service providers for any other purpose than the marketing of electric service to the customer.

3. Employees of Duke Energy Ohio's affiliates shall not have access to any information about Duke Energy Ohio's transmission or distribution systems (e.g., that would convey a competitive advantage to such affiliate (including, but not limited to, system operations, capability, price, curtailments, and ancillary services) and that is not contemporaneously available, readily accessible, and in the same form and manner available to a nonaffiliated competitors providing of retail electric service.
4. Duke Energy Ohio shall treat as confidential all information obtained from a Certified Supplier of competitive retail electric service provider, both affiliated and nonaffiliated, and shall not release such information unless a Certified Supplier competitive retail electric service provider provides prior authorization to do so or unless the information was or thereafter becomes available to the public other than as a result of disclosure by the electric utility.
5. Duke Energy Ohio shall not tie (nor allow an affiliate to tie), as defined by state and federal antitrust laws, or otherwise condition the provision of Duke Energy Ohio's regulated services, discounts, rebates, fee waivers, or any other waivers of ordinary terms and conditions of service, including but not limited to tariff provisions, to the taking of any goods and/or services from Duke Energy Ohio's affiliates.
6. Duke Energy Ohio shall ensure effective competition in the provision of retail electric service by avoiding anticompetitive subsidies flowing from a noncompetitive retail electric service to a competitive retail electric service or to a product or service other than retail electric service, and vice versa. Duke Energy Ohio shall accomplish this by ensuring that all employee sharing and affiliate transactions are at fully embedded cost

~~pursuant to its PUCO approved service agreements and in accordance with FERC affiliate pricing rules and regulations.~~

7. Duke Energy Ohio, upon request from a customer, shall provide a complete list of all ~~Certified Suppliers~~competitive retail electric service providers operating on the system, but shall not endorse any ~~Certified Suppliers~~competitive retail electric service providers, nor indicate that any ~~Certified Supplier~~ electric services company is an affiliate, or indicate that any competitive retail electric service provider will receive preference because of an affiliate relationship.
8. Duke Energy Ohio shall ~~not engage in joint advertising or marketing activities with an affiliate, nor allow an affiliate to use its name or logo in any advertising, promotion or marketing activity~~use reasonable efforts to ensure retail electric service consumers protection against unreasonable sales practices, market deficiencies, and market power and Duke Energy Ohio's compliance officer shall promptly report any such unreasonable sales practices, market deficiencies, and market power to the director of the utilities department (or a designee).
9. ~~Employees of Duke Energy Ohio or persons representing Duke Energy Ohio shall not indicate a preference for an affiliated electric services company.~~
- 9.10. Duke Energy Ohio shall provide comparable access to products and services related to tariffed products and services; and specifically comply with the following:
 - a) Duke Energy Ohio shall ~~not be prohibited from unduly discriminating~~ in the offering of its products and/or services;
 - b) Duke Energy Ohio shall apply all tariff provisions in the same manner to the same or similarly situated entities, regardless of any affiliation or non-affiliation;

- c) Duke Energy Ohio shall not, through a tariff provision, a contract, or otherwise, give its affiliates or customers of affiliates preferential treatment or advantages preference over nonaffiliated competitors of retail electric service or their customers in matters relating to any product and/or service;
- d) Duke Energy Ohio shall strictly follow all tariff provisions;
- e) Except to the extent allowed by state law, Duke Energy Ohio shall not provide discounts, rebates, or fee waivers for any state regulated monopoly service.

10.11 Shared representatives or shared employees of Duke Energy Ohio and its affiliated electric services company shall clearly disclose upon whose behalf their public representations are being made when such representations concern the entity's provision of electric services.

C. Limited Exception

Notwithstanding the foregoing, in a declared emergency situation, Duke Energy Ohio may take actions necessary to ensure public safety and system reliability. Duke Energy Ohio shall maintain a log of all such actions that do not comply with the Code of Conduct provisions, which log shall be subject to review by the Public Utilities Commission of Ohio and its staff.

D. Violations

Violations of this Code of Conduct may subject the violating employee, consultant, or independent contractor to disciplinary action up to and including discharge from employment.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

VII. A DESCRIPTION OF ANY JOINT ADVERTISING AND/OR JOINT MARKETING ACTIVITIES BETWEEN THE UTILITY AND AFFILIATES.

In order to ensure compliance with corporate separation rules and regulations, Duke Energy Ohio does not plan to ~~jointly~~ advertise or market jointly with its non-regulated affiliates. If that position changes, Duke Energy Ohio will advise the Commission Staff. Duke Energy Retail Sales, L.L.C. (DERS) is a ~~registered-certified~~ competitive retail electric service provider in the State of Ohio. It is a subsidiary of Duke Energy Corporation and an affiliate of Duke Energy Ohio. Duke Energy Ohio will not engage in joint marketing with DERS. However, for purposes of clarification, when DER solicits business or enters into contracts with customers, it is occasionally necessary for it to reference the identity of the local utility. In such circumstances, or circumstances similar in nature to those described, the reference by DER to Duke Energy Ohio shall not be deemed joint marketing or advertising.

Duke Energy Corporation has in place several policies to protect its company brand. To best position the company for future growth and create value for all stakeholders, its franchised electric and gas utilities will use a single company name – Duke Energy. Some employees and executives who interact with state regulatory commissions and other official agencies will identify their businesses as Duke Energy Carolinas, Duke Energy Indiana, Duke Energy Ohio and Duke Energy Kentucky. Signs at facilities, logos on vehicles, uniforms and hard hats, language on our Web sites and other communications will simply use “Duke Energy.”

The geographic identifiers (e.g. Duke Energy Ohio) or other corporate identifiers, where appropriate, are to be used in the following applications:

- Regulatory filings in the franchised jurisdictions and in other public documents (press releases, fact sheets, etc.) referring to those filings, and on reports specific

to the utility that are presented to regulators and for limited internal uses. Examples are financial reports, customer data, etc.

- Business cards, stationery of large customer/regulator/legislator-facing employees in the respective utility organizations (for simplicity, this applies to all employees in the organizations reporting to the utility presidents).

Other, non-regulatory-driven communications, publications, brochures, and reports should refer to Duke Energy only and use the Duke Energy logo. Such communications may describe regional operations: for example, an economic development brochure might refer to “doing business in the Carolinas” or a regulatory report might refer to the company’s “Indiana operations.” Geographic identifiers should be avoided in these uses. Geographic identifier logos should not be used on hard hats, vehicles, signage, or logo merchandise.

Marketing Communications researches trademarks and reviews and approves all new names and logos. Logos are based on the common, not legal, name of the business unit.

- All energy-related business units use the corporate name and logo as their primary identifiers, with the business unit name as a secondary identifier.
- Subsidiaries of energy-related business units use the corporate name and logo as their primary identifiers, with the subsidiary name as the secondary identifier.
- Energy-related business formed from joint ventures use the corporate name and logo only when the business’s practices, policies and approaches mirror those of Duke Energy.
- Newly formed businesses use names and logos established on a case-by-case basis.

VIII. PROVISIONS TO MAINTAIN THE COST ALLOCATION MANUAL.

Duke Energy Ohio maintains its CAM in accordance with O.A.C. Rule ~~§4901:1-20-~~
~~16(1)(8)37-08~~. The CAM is organized according to the aforementioned provision and includes
the following information:

1. An organization chart of the holding company, depicting all affiliates, as well as a description of activities in which the affiliates are involved.
2. A description of all assets, services, and products provided to and from the electric utility and its affiliates.
3. All documentation including written agreements, accounting bulletins, procedures, work order manuals, or related documents, which govern how costs are allocated between affiliates.
4. A copy of the job description of each shared employee.
5. A list of names and job summaries for shared consultants and shared independent contractors.
6. A copy of all transferred employees' (from the electric utility to an affiliate or vice versa) previous and new job descriptions.
7. A log detailing each instance in which the electric utility exercised discretion in the application of its tariff provisions.
8. A log of all complaints brought to the electric utility regarding this chapter.
9. A copy of the minutes of each board of directors meeting, where it shall be maintained for a minimum of three years.

Duke Energy Ohio has established a CAM team comprised of representation from Duke
Energy's various departments, including Rates, Regulatory Accounting, Corporate Accounting,

Human Resources (HR), Compliance, and Legal. After initial development of the CAM, this team meets periodically to review changes to Duke Energy Ohio's and its affiliates' business and business practices, and will make the necessary modifications to the CAM. Duke Energy Ohio will send to the ~~Commission's~~ director of the Commission's utilities department, in accordance with O.A.C. Rule 4901:1-37-08(11)20-16(1)(8), a summary of any significant changes in the CAM every twelve months, as applicable.

Duke Energy Ohio will keep CAM filed with its corporate entity records, located in the Legal Department, ~~25th Floor, Avium~~ 139 East Main Street, Cincinnati, OH Ohio.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

IX. A DESCRIPTION AND TIMELINE OF ALL PLANNED TRAINING AND EDUCATION.

Duke Energy Corporation maintains a ~~Corporate Ethics & Compliance Department~~ (Regulatory Compliance) as part of its Office of General Counsel. ~~Corporate Compliance~~ Regulatory Compliance is responsible for ensuring that ~~employees~~ employees and contractors receive required training in areas such as FERC Standards of Conduct, ~~FERC and~~ Affiliate Restrictions (formerly known as FERC Code of Conduct), Duke Energy's Code of Business Ethics, and various states' codes of conduct. ~~Corporate Compliance maintains copies of this~~ This training is maintained on the Duke Energy Portal, an internal website for all employees in the Duke Energy Corporate holding company structure. ~~FERC Standards of Conduct and Affiliate Restrictions training is required for most applicable new employees and contractors, and those employees and contractors receive that the FERC training on an annual basis thereafter. Code of Business Ethics training occurs upon the hiring of a new employee and thereafter on a periodic basis, and when standards are revised. A separate version of the training for the Code of Business Ethics is provided to appropriate contractors, when engaged.~~

The Ohio Corporate Separation/Code of Conduct Training includes specific information and guidance for employees pursuant to the Plan. Mandatory training is deployed annually by Regulatory Compliance to impacted employees and contractors via computer-based training pursuant to a training protocol (e.g., individuals are provided 60 days to complete the training and a formalized follow-up process is followed to track completion). Annual training was deployed on January 1, 2011, and will continue to be a part of the overall Regulatory Compliance training curriculum will consist of the following.

Supplemental, scenario-based Code of Conduct training was deployed in May 2011 (computer-based) to the Retail Customer Products and Services department to address specific requirements in the Ohio Corporate Separation Plan that address promoting non-regulated product and service offerings. This training is expected to be further enhanced, following initial deployment. In response to the department's request, this training will be deployed semi-annually. Further, a document detailing requirements of the Ohio Corporate Separation Plan has been provided to the Retail Customer Products and Services department.

Regulatory Compliance also provides a mailbox (compliance@duke-energy.com) as a resource to employees to encourage them to submit questions and/or concerns. These inquiries are used to identify compliance trends and/or areas that need follow-up.
steps:

3rd Quarter 2009

Needs Assessment—determine the specific needs of each of the target audience groups;

Refine curriculum and produce training materials;

Create roster of all employees in each target audience group.

4th Quarter 2009

Schedule training sessions for each target audience group;

Computer-based Code of Conduct training sessions;

Conduct follow-up and periodic training to ensure all targeted employees have received and thoroughly understand the Corporate Separation and Code of Conduct rules.

Additionally, the training will be repeated on a periodic, as-needed basis, as determined by Corporate Compliance to ensure that employees update and maintain their knowledge of Corporate Separation and Code of Conduct issues. Finally, this training curriculum will be built

~~into Duke Energy Corporation's New Employee Orientation training such that targeted new employees will receive the necessary training on Corporate Separation and Code of Conduct policies and procedures as well.~~

- X. A COPY OF THE POLICY STATEMENT TO BE SIGNED BY ELECTRIC
UTILITY AND AFFILIATE EMPLOYEES WHO HAVE ACCESS TO ANY
NONPUBLIC ELECTRIC UTILITY INFORMATION.

Policy Statement

Each employee who has access to any nonpublic electric utility information will be required to electronically sign or acknowledge the Corporate Separation Policy Statement attached below. This will be administered during the computer-based training sessions to ensure that all affected employees electronically sign this agreement.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

DUKE ENERGY OHIO CORPORATE SEPARATION

POLICY STATEMENT

I hereby acknowledge that I am aware of, have read and will adhere to all policies and procedures regarding limitation on the use of nonpublic electric utility information. I also hereby acknowledge that failure to observe these limitations will result in appropriate disciplinary action.

I have also been made aware of Duke Energy Ohio's Cost Allocation Manual (CAM), including the appropriate costs and expenses which must be reported to the person in charge of Duke Energy Ohio's CAM. I have been given the opportunity to ask questions regarding Duke Energy Ohio's Corporate Separation Plan, Affiliate Code of Conduct and CAM and understand the compliance program included therein, including the appropriate method in which complaints are to be handled and the appropriate persons to whom possible violations should be reported. I have attended one or more training sessions offered by Duke Energy Ohio with regard to the implementation and operation of Duke Energy Ohio's Corporate Separation Plan.

XI. A DESCRIPTION OF TRAINING, INTERNAL COMPLIANCE MONITORING PROCEDURES, AND METHODS FOR CORRECTIVE ACTION FOR NON-COMPLIANCE.

The Corporate Separation/Code of Conduct Training plan has been designed to ensure that all appropriate employees and contractors throughout the Duke Energy Corporation holding company structure know and can implement the policies and procedures of Corporate Separation.

A. Training Goal:

The goal of the Corporate Separation/Code of Conduct Training is to ensure that those employees and contractors that who may currently or in the future be affected by the Commission's rules thoroughly understand the policies and are provided with the resources they require need, in order to follow the Corporate Separation and Code of Conduct procedures.

The training will be provided not only to currently affected employees and contractors; but, on an on-going basis, will be provided also to those new employees and contractors or those employees or contractors who have become affected through changes in job responsibilities. A process to track changes in employees' job responsibilities, in order to ascertain whether they require this training, will be maintained by Duke Energy's Corporate Compliance Department.

B. Target Audience:

Generally, the Corporate Separation/Code of Conduct Training will be administered to all employees and contractors within the Duke Energy Corporation holding company structure who will be affected by compliance with the Commission's rules. Specifically, these employees and contractors include but are not limited to:

- Those employees and contractors having decision-making authority for approving transactions between Duke Energy Ohio and any of its affiliates;
- Those employees and contractors who have access to nonpublic Ohio electric utility information;
- Service company employees and contractors who are located in Ohio.
- Employees and contractors who are directly employed by affiliates that do business in Ohio.

C. Curriculum:

The Corporate Separation/Code of Conduct Training curriculum generally will consist of the following:

- Present Overview of Corporate Separation/Code of Conduct;
- Explain Accounting Treatment of Affiliate Transactions, including ~~review~~ Review of SEC-~~a~~ Approved Service Agreements;
- Identify Restrictions on Financial Arrangements;
- Discuss Duke Energy Ohio's Affiliate Code of Conduct;
- Explain Corporate Separation Complaint Procedures;
- Describe Cost Allocation Manual (CAM) and Associated Procedures;
- Explain Internal Compliance Monitoring, including ~~reporting~~ Reporting of ~~possible~~ Possible ~~violations~~ Violations.

~~The curriculum will be customized to the target audience. For example, emphasis will be placed on the Cost Allocation Manual in training employees in the accounting department.~~

D. Internal Compliance Monitoring:

To ensure that Duke Energy Ohio's Corporate Separation Plan and Affiliate Code of Conduct are properly implemented within the Duke Energy Corporation holding company structure, the following internal compliance monitoring process will be followed:

1. Duke Energy's Office of General Counsel, via Regulatory Compliance encompassed therein, will ensure that all affected employees and contractors receive the Corporate Separation/Code of Conduct Training. Employees and contractors are allowed a 60-day period during which to complete each required training module, with period reminders during that period and overdue notices to management if the training is not completed.
2. After receiving the training described above, each employee will be required to attest to the Policy Statement contained in Section X of this document.
3. Duke Energy's Office of General Counsel will continue to provide a method for ~~Employees-employees~~ to ask questions regarding the Corporate Separation/-Code of Conduct, as well as the ability method to report possible violations of the Corporate Separation and Code of Conduct Rules through posting of Compliance personnel contact information on the Duke Energy Portal, through the "ComplianceReporting" mailbox, and through the "EthicsLine" (anonymous reporting).
4. Possible violations reported to Duke Energy's Office of General Counsel will be investigated and documented. Upon completing the investigation, Duke Energy's Office of General Counsel will, if appropriate, recommend to senior management a course of action, including refresher training, to correct repeat violations.
5. Senior management, upon reviewing the investigative report, will determine whether disciplinary action is required.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

XII. DESIGNATION OF THE ELECTRIC UTILITY'S COMPLIANCE OFFICER.

Duke Energy Corporation maintains a ~~Corporate~~ Ethics and Compliance department within its Office of General Counsel. For purposes of this requirement, Duke Energy Ohio has designated an individual to act as a contact for the Commission Staff when seeking data regarding affiliate transactions, personnel transfers, and sharing of employees. This individual is:

Elizabeth H. Watts
Duke Energy Ohio
155 East Broad Street,
21st Floor,
Columbus, Ohio 43215

Telephone: (614) ~~224-7554~~ 222-1331
Fax: (614) ~~224-7556~~ 222-1337
eE-mail: Elizabeth.Watts@duke-energy.com

**XIII. A DETAILED DESCRIPTION OUTLINING HOW THE ELECTRIC UTILITY
AND ITS AFFILIATES WILL COMPLY WITH O.A.C. CHAPTER 4901:1-37-05.**

Pursuant to the Commission's approval of the Stipulation and Recommendation in Case No. 08-920-EL-SSO, Duke Energy Ohio's corporate separation plan is subject to annual audit only through 2011. Such an audit will enable the Commission to confirm Duke Energy Ohio's compliance with its internal Plan and the rules pursuant to which that Plan was developed.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

**XIV. A DETAILED LISTING OF THE ELECTRIC ~~UTILITY'S~~ UTILITY'S
ELECTRIC SERVICES AND THE ELECTRIC ~~UTILITY'S~~ UTILITY'S
TRANSMISSION AND DISTRIBUTION AFFILIATES' ~~ELECTRIC~~ ELECTRIC
SERVICES.**

Duke Energy Ohio is an Ohio corporation engaged in the business of supplying electric generation, transmission, and distribution service to approximately 666,690,000 customers in southwestern Ohio, and is a public utility as defined by R.C. 4905.02 and R.C. 4905.03. ~~Duke Energy Ohio provides competitive retail electric service to customers in its service territory pursuant to a Commission-approved Standard Service Offer in the form of an Electric Security Plan ("ESP"). Duke Energy Ohio also provides regulated electric distribution service to its customers in Southwestern Ohio.~~

A. Generation:

In a Stipulation reached in Case No. 08-920-EL-SSO, establishing Duke Energy Ohio's Electric Security Plan ("ESP") price through 2011,³ Duke Energy Ohio agreed to continue to own and dedicate its "legacy Cinergy" generation assets to its Ohio customers and not transfer those assets to an exempt wholesale generation ("EWG").⁴ Duke Energy has functionally separated the operation and maintenance of its generating portfolio from its regulated distribution service. As such, Duke Energy Ohio, as a regulated electric distribution company, treats its generation as a non-regulated affiliate and abides by both the FERC Standards of Conduct and Ohio's code of conduct.

B. Transmission:

³ A subsequent plan for establishing the price of generation services is under consideration by the Public Utilities Commission of Ohio.

⁴ Duke Energy Ohio is permitted to transfer certain gas-fired generating assets that have become referred to as "Legacy Duke Energy North America (DENA)" generating assets.

Control of Duke Energy Ohio's transmission assets reside with a ~~FERC-FERC-approved regional transmission entityorganization (RTO)~~ the Midwest Independent System Operator (Midwest ISO). The Midwest ISO ~~RTO~~ controls Duke Energy Ohio's transmission assets and does not have control of any generation assets. The ~~transmission entity~~ RTO shall operate in the public interest by preventing any transmission owner or competitive retail electric market participant from gaining an unfair competitive advantage within the Midwest ISO's control area and by preventing the abuse of market power.

The Midwest ISO ~~RTO~~ shall operate in the public interest by implementing efficient operating practices and procedures that prevent pan-caking, by improving transmission reliability, by encouraging an open generation market, eliminating barriers to entry in the generation market and by eliminating market control over bottlenecked transmission. The Midwest ISO ~~RTO~~ shall be large in scale to increase supply options for consumers and shall maintain a Board of Directors independent of transmission users. The ~~transmission entity~~ RTO shall operate in a manner designed to satisfy the requirements of its customers and shall maintain real-time reliability of the transmission system that it operates.

C. Distribution:

Duke Energy Ohio ~~shall operate~~ its distribution system under the governance and rate authority of the Commission. Duke Energy Ohio ~~shall offer~~ all customers safe and reliable distribution service on a non-discriminatory basis. Duke Energy Ohio's ~~unbundled tariffs~~ shall define rates for its distribution services and products. Duke Energy Ohio ~~shall provide~~ and ~~operate~~ new distribution facilities, or the extension of distribution facilities, pursuant to such ~~unbundled tariffs and will not provide non-tariffed products and services absent Commission approval.~~

Duke Energy Ohio may also offer a limited number of products and services other than retail electric service. Non-tariffed products and service offerings will be offered through non-regulated affiliates, pursuant to tariff provisions. Upon customer request, Duke Energy Ohio may use contractors or employees to provide other utility-related services, programs, maintenance, and repairs related to customer-owned property, equipment, and facilities. In addition, Duke Energy Ohio plans to provide products and services other than tariffed retail electric service in an effort to advance the State's interests in energy efficiency and peak demand reduction and to comply with the energy efficiency and peak demand reduction benchmarks set forth in R.C. 4928.66. These programs give the Company the opportunity to serve customers more completely and to assist in meeting statutory requirements.

XV. A COMPLAINT PROCEDURE TO ADDRESS ISSUES CONCERNING COMPLIANCE WITH O.A.C. 4901:1-37-05.

Duke Energy Ohio has adopted the complaint procedure set forth below. This complaint procedure is to be used to address complaints related to compliance with Duke Energy Ohio's Corporate Separation Plan. A copy of this complaint procedure will be made available upon request to:

Associate Deputy General Counsel – Regulatory Section, Legal Department
Duke Energy Ohio, Inc
139 East Fourth Street
P. O. Box 960
Cincinnati, OH 45202

A. Complaint Procedure

The following complaint procedure is to be used to address complaints related to compliance with Duke Energy Ohio's Corporate Separation Plan.

1. All complaints, whether written or verbal, shall be referred to the compliance officer designated by Duke Energy Ohio or ~~their~~ such officer's designee.
2. The compliance officer, or ~~its~~ the ~~designee, or designee~~ shall orally acknowledge the complaint within five working days of its receipt.
3. The compliance officer or ~~its~~ the ~~designee or designee~~ shall prepare a written statement of the complaint that shall contain the name of the complainant and a detailed factual report of the complaint, including all relevant dates, companies involved, employees involved, and the specific claim.
4. The compliance officer or designee shall communicate the results of the preliminary investigation to the complainant in writing within thirty days after the complaint was received, including a description of any course of action that was taken.

5. All written statements of complaints and required investigations shall keep a file in the CAM, in accordance with paragraph (B)(14)(c) of O.A.C. 4901:1-20-4637-05, of all such complaint statements for a period of not less than three years.
6. This complaint procedure shall not in any way limit the rights of a party to file a complaint with the commission.

THIRD AMENDED CORPORATE SEPARATION PLAN

I. OVERVIEW.

This Third Amended Corporate Separation Plan (Amended Plan) describes the processes and controls that Duke Energy Ohio, Inc. (Duke Energy Ohio or the Company) has implemented, consistent with Ohio Administrative Code (O.A.C.) Chapter 4901:1-37 and Ohio Revised Code (R.C.) Section 4928.17. Duke Energy Ohio's initial Corporate Separation Plan was approved in Case No. 99-1658-EL-ETP. Duke Energy Ohio filed its Amended Corporate Separation Plan as part of its application to establish an Electric Security Plan (ESP) in Case No. 08-920-EL-UNC *et al.* The Public Utilities Commission of Ohio (Commission) approved Duke Energy Ohio's ESP and Amended Corporate Separation Plan by order dated December 17, 2008. Duke Energy Ohio's Second Amended Corporate Separation Plan was filed in Case No. 09-495-EL-UNC and was approved by the Commission on April 5, 2011.

This Amended Plan is designed to comply with the regulations set forth in O.A.C. Chapter 4901:1-37. This Amended Plan governs the corporate separation of noncompetitive retail electric service from competitive retail electric service as well as the products and services offered by certain affiliates of Duke Energy Ohio and is intended to be complementary to Duke Energy Ohio's Cost Allocation Manual (CAM). Duke Energy Ohio's CAM generally describes how costs are allocated between and among Duke Energy Ohio and its affiliates.

II. PROVISIONS THAT MAINTAIN STRUCTURAL SAFEGUARDS.

O.A.C. 4901:1-37-4(A) sets forth required structural safeguards. Specifically, the provision provides:

- (1) Each electric utility and its affiliates that provide services to customers within the electric utility's service territory shall function independently of each other.
- (2) Each electric utility and its affiliates that provide services to customers within the electric utility's service territory shall not share facilities and services if such sharing in any way violates paragraph (D) of this rule.
- (3) Cross-subsidies between an electric utility and its affiliates are prohibited. An electric utility's operating employees and those of its affiliates shall function independently of each other.
- (4) An electric utility may not share employees and/or facilities with any affiliate, if the sharing, in any way, violates paragraph (D) of this rule.
- (5) An electric utility shall ensure that all shared employees appropriately record and charge their time based on fully allocated costs.
- (6) Transactions made in accordance with rules, regulations, or service agreements approved by the federal energy regulatory commission, securities and exchange commission, and the commission, which rules the electric utility shall maintain in its cost allocation manual (CAM) and file with the commission, shall provide a rebuttable presumption of compliance with the costing principles contained in this chapter.

Except as permitted by the Commission's rules and Title 49, Ohio Revised Code (R.C.), Duke Energy Ohio and its affiliates that provide services to customers within Duke Energy Ohio's service territory function independently of each other.

In December 2005, as a condition of the merger between Duke Energy Corporation (Duke Energy) and Cinergy Corp., the companies agreed to enter into several service agreements

that address, among other things, cost allocation, provision of services, and pricing of transactions between and among Duke Energy holding company affiliates, including Duke Energy Ohio. A summary of the various agreements and the services and pricing for transactions permitted therein is included in Section IV of this document. Copies of the agreements are included in and are more fully described in Duke Energy Ohio's CAM. Duke Energy monitors compliance with these agreements as part of its utility operations in Ohio, Indiana, Kentucky, North Carolina, and South Carolina.

In addition to the general separation of books and records between Duke Energy Ohio and its affiliates, Duke Energy Ohio has implemented various safeguards to ensure compliance with the affiliate transaction rules and regulations. The Company has physically separated its regulated distribution business from its competitive retail electric service employees. Employee access to regulated and non-regulated areas is electronically monitored to ensure there is complete separation. All employees receive annual training regarding types of information that cannot be communicated between regulated and non-regulated businesses.

To achieve operating efficiencies, Duke Energy Business Services LLC (DEBS), an affiliated service company, provides support functions across Duke Energy. These services include accounting, treasury, human resources, communications, and legal functions. In general, DEBS employees are permitted to have greater access to information across the regulated and non-regulated businesses, but are prohibited from sharing such information with an employee who is not permitted to access the information directly. Costs related to DEBS employees are allocated pursuant to the Service Company/Utility Service Agreement and the Service Company/Nonutility Service Agreement described in Section IV of this document.

(THIS PAGE INTENTIONALLY LEFT BLANK)

III. PROVISIONS THAT MAINTAIN SEPARATE ACCOUNTING.

Duke Energy Ohio maintains separate books and records from its affiliates in accordance with the Federal Energy Regulatory Commission's (FERC) Uniform System of Accounts (USoA). The FERC USoA designates specific accounts where regulated and non-regulated transactions are to be recorded. Duke Energy Ohio and its affiliates have cost accounting procedures and systems in place and in operation that assure that each business unit and affiliate properly records the costs associated with that unit's or company's own activities and operations. These accounting procedures and systems are more fully set forth in the Company's CAM.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

IV. A LIST IDENTIFYING FINANCIAL ARRANGEMENTS AND TRANSACTIONS.

Financial arrangements between Duke Energy Ohio and its affiliates, except as the Commission may approve, are subject to the following restrictions: (i) any indebtedness incurred by an affiliate shall be without recourse to the electric utility; (ii) Duke Energy Ohio shall not enter into any agreement with terms under which the electric utility is obligated to commit funds to maintain the financial viability of an affiliate; (iii) Duke Energy Ohio shall not make any investment in an affiliate under any circumstances in which the electric utility would be liable for the debts and/or liabilities of the affiliate incurred as a result of actions or omissions of an affiliate; (iv) Duke Energy Ohio shall not issue any security for the purpose of financing the acquisition, ownership, or operation of an affiliate; (v) Duke Energy Ohio shall not assume any obligation or liability as a guarantor, endorser, surety, or otherwise with respect to any security of an affiliate; and (vi) Duke Energy Ohio shall not pledge, mortgage, or use as collateral any assets of the electric utility for the benefit of an affiliate.

Duke Energy Ohio and its utility and non-utility affiliates operate pursuant to the terms and conditions of various service agreements. The terms and conditions of these agreements set forth the cost allocations for the transactions that are permitted to occur pursuant to the various Agreements. Duke Energy Ohio maintains copies of the current agreements in its CAM. Many of these agreements were approved by the Public Utilities Commission of Ohio in Case No. 05-732-EL-MER as part of the merger between Duke Energy and Cinergy Corp.¹ In general, there are three primary cost allocations that affect Duke Energy Ohio and its affiliates: (1) cost

¹ Duke Energy Ohio is a party to other agreements with its utility affiliates that were not approved as part of the Duke-Cinergy merger. These agreements include but are not limited to the Miami Fort Operations Agreement, and Affiliate Inventory Asset Transfer Agreement, and the Natural Gas and Propane Services Agreement. These agreements allow Duke Energy Ohio to provide and receive services and goods at cost or otherwise according to FERC pricing regulations.

allocations from DEBS, the subsidiary service company of Duke Energy; (2) cost allocations between Duke Energy Ohio and its wholly owned subsidiary Duke Energy Kentucky, Inc., for common costs; and (3) administrative and general (A&G) cost allocations between its gas and electric operations for both capital and expense accounts. The agreements of which Duke Energy Ohio is a party include the following:

- Service Company/Utility Service Agreement – This agreement governs transactions between DEBS (the service company) and utility affiliates, including Duke Energy Ohio. This agreement was entered into as part of merger between Duke Energy and Cinergy Corp. In its Opinion and Order dated December 21, 2005, the Commission approved this agreement in Case No. 05-732-EL-MER et al.² DEBS provides its services at cost, except that, solely for the purpose of Internal Revenue Code Section 482, Duke Energy Ohio shall pay DEBS the market value of services. However, notwithstanding the Section 482 exception, for rate making purposes, services are rendered to Duke Energy Ohio at cost.
- Operating Companies Service Agreement (Operating Company Agreement) – This agreement governs transactions between Duke Energy Ohio and its utility affiliates. As compensation for any services rendered pursuant to the Operating Company Agreement, the company receiving services (Client Company) shall pay the service provider the fully embedded cost thereof (i.e., the sum of (i) direct costs, (ii) indirect costs and (iii) costs of capital), except to the extent otherwise required by Section 482 of the Internal Revenue Code. Services provided to or by Duke Energy Carolinas shall be priced in accordance with Duke Energy

² *In the Matter of the Joint Application of Cinergy Corp., on Behalf of The Cincinnati Gas & Electric Company, and Duke Energy Holding Corp. for Consent and Approval of a Change of Control of The Cincinnati Gas & Electric Company*, 05-732-EL-MER et al. (Finding and Order)(Dec. 21, 2005, at 14).

Carolinas's North Carolina Code of Conduct, approved by the North Carolina Utilities Commission. In accordance with FERC regulations, generation services provided by the regulated utilities to Duke Energy Ohio "Generation" and vice versa, are subject to asymmetrical pricing.

- Operating Company/Non-utility Companies Service Agreement (Affiliate Services Agreement) – This agreement governs transactions between Duke Energy Ohio and certain of its non-utility affiliates. As compensation for any services rendered pursuant to the Affiliate Services Agreement, the client company shall pay the service provider the fully embedded costs thereof, except as required by 482 of the Internal Revenue Code.
- Joint Transmission System Planning and Operating Agreement – This agreement addresses the allocation of transmission costs and revenues for the Duke Energy (Duke Energy Ohio and Duke Energy Indiana, Inc., [Duke Energy Indiana]) transmission system.
- Utility Money Pool Agreement – This agreement allows Duke Energy, DEBS, and Duke Energy's utility operating companies (including Duke Energy Ohio) to participate in a money pool arrangement, in order to better manage cash and working capital requirements. Under this arrangement, those companies with surplus short-term funds may contribute those funds into a money pool which is provided for short-term loans to affiliates (other than Duke Energy) participating under this arrangement. This surplus cash may be from internal or external sources. Each party receiving a loan pursuant to the agreement must repay the principal amount plus interest either on demand or within 365 days of receiving

the loan. Interest incomes from the loans are allocated among the parties in proportion to their respective contribution to the funds.

- Tax Sharing Agreement – This agreement, between Duke Energy and its subsidiaries, provides for a consolidated federal income tax return and the allocation of consolidated federal income tax liabilities and benefits among the parties to the agreement.
- Miami Fort Unit 6 Operation Agreement – This agreement allows for Duke Energy Ohio to operate and maintain Duke Energy Kentucky's Miami Fort Unit 6 Generating Station. Duke Energy Ohio is required to provide material, fuel, equipment, and services to Duke Energy Kentucky in accordance with good utility practice.
- Gas and Propane Services Agreement – This agreement allows for Duke Energy Ohio to provide certain necessary services for the operation of Duke Energy Kentucky's Woodsdale Generating Station, which was formerly owned by Duke Energy Ohio.
- Agreement for Gypsum and FGD Waste Material Disposal Services – This agreement allows Duke Energy Kentucky to perform scrubber and FGD waste disposal services for Duke Energy Ohio.
- Inter-Company Asset Transfer Agreement – This Agreement permits asset transfer agreements for inventory items between Duke Energy Ohio and its affiliated regulated utility operating companies (Duke Energy Kentucky, Duke Energy Indiana, and Duke Energy Carolinas). The transfers are priced at the transferring party's fully embedded costs or through in-kind replacements,

providing the transfers do not jeopardize the transferring party's ability to provide service. The pricing under this agreement is consistent with Ohio's affiliate transaction pricing rules. The agreement was entered into as a result of affiliate pricing rules in other jurisdictions that would otherwise require such transactions to be priced according to stricter asymmetrical pricing rules. Duke Energy Ohio "Generation" and regulated utilities use FERC's asymmetrical pricing for transfers among themselves.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

V. A LIST OF ALL CURRENT AFFILIATES IDENTIFYING EACH AFFILIATE'S PRODUCT(S) AND OR SERVICE(S).

Duke Energy has many subsidiaries within its family of companies. Duke Energy's Corporate Secretary maintains a list of all affiliates in the Duke Energy corporate holding company structure, which list will be made available to the Commission upon request. The following list includes the list of affiliates within Duke Energy as of June 1, 2011.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

Name	Jurisdiction of Formation	Formation Date	Nature of Business
Actividades A y D, S.A.	Guatemala	2/8/2008	Formed to be a special proposed vehicle for a project in development.
ADAGE Hamilton LLC	Delaware	5/6/2009	Pursuant to the ADAGE joint venture, this special purpose vehicle will be the owner of the 50mw biomass power plant currently under development in Hamilton County, FL.
ADAGE LLC	Delaware	9/9/2008	Identify, evaluate, develop, and pursue Biomass opportunities in the US.
ADAGE Mason LLC	Delaware	12/17/1009	This special purpose vehicle will be the owner of the 55 MW biomass power plant currently under development in Mason County, Washington.
Advance SC LLC	South Carolina	7/9/2004	Distribute a portion of bulk power marketing revenues of Duke Power Company for certain South Carolina public assistance programs, education programs, economic development funding and manufacturing competitiveness funding. FERC Form 1: Grant making
Aguaytia Energy del Peru S.R.L. Ltda.	Peru	10/1/1996	Peruvian limited liability company which provides thermal electric generation in the Peruvian Amazon Basin, and is dedicated to operations in connection to natural gas and derivatives.
Aguaytia Energy, LLC	Delaware	10/24/1995	Delaware limited liability holding company which owns 97.2238% of Aguaytia Energy del Peru SRL Ltda.
APOG, LLC	Delaware	6/22/2007	To provide technical, engineering and procurement support services to and for the benefit of Member-owned or operated nuclear facilities.
Attiki Denmark ApS	Denmark	10/1/2000	Danish entity which holds 49% interest in Attiki Gas Supply Company SA. This entity is a partnership with Shell Gas BV.
Attiki Gas Supply Company S.A.	Greece	11/2/2001	Greek entity which supplies and sells natural gas to consumers located within the geographical area of Attiki, which includes Athens, Greece.
Ball Hill Windpark, LLC	Delaware	9/29/2006	Developing a wind power generation project known as the "Ball Hill Windpark Project" in Villanova and Hanover Townships in Chautauque County in New York State.
Barmoor Wind Power Limited	England and Wales	9/10/2010	Special purpose company to hold assets of the Barmoor Wind Project in England and to facilitate the sale of the Barmoor Wind Project.
Bison Insurance Company Limited	Bermuda	12/11/1968	Bison Insurance Company Limited is a captive insurance company that insures the risks of Duke Energy Corporation and many of its subsidiaries and affiliates. Duke insures all or part of its risks with Bison and Bison in turn retains a portion of its reinsurance premiums, claim costs and expenses and invests its cash just as any other insurance company would do. (per Keith Bone 4.29.09)

Brownsville Power I, L.L.C.	Delaware	7/13/1998	A natural gas-fired generation facility located in Haywood County, Tennessee.
Caldwell Power Company	North Carolina	7/28/1921	The purpose of this entity is to generate, transmit and distribute electric power and preserve property rights.
Carolinas Virginia Nuclear Power Associates, Inc.	North Carolina	10/4/1956	The Duke Power nuclear program began in 1956 with the formation of the Carolinas Virginia Nuclear Power Associates, Inc. (CVNPA), consisting of Duke Power, Carolina Power & Light, Virginia Electric Power Company, and South Carolina Electric & Gas. CVNPA sponsored the construction and operation of the demonstration Carolinas-Virginia Tube Reactor (CVTR) at the Parr site, north of Columbia, SC. The CVTR began its demonstration mission in 1964 with a generating capacity of 17 Mwe, and completed its mission in January, 1967. Decommissioning of the plant was delayed until 2001; it currently is on-going. (Non-profit)
Catalytic Solutions, Inc.	California	1/31/1996	Formed to develop alternative emissions control technology.
Catamount Celtic Energy Limited	Scotland	6/8/2007	Developing windpower generation in the United Kingdom
Catamount Energy Corporation	Vermont	6/23/1992	Owns non-regulated power generation companies in the USA and United Kingdom
Catamount Energy Limited	England and Wales	8/15/2002	Developing windpower generation in the United Kingdom
Catamount Energy SC 1	Scotland	10/8/2002	Limited partnership that owns a Scottish limited company for wind power development
Catamount Energy SC 2	Scotland	10/8/2002	Limited partnership that owns a Scottish limited company for wind power development
Catamount Energy SC 3	Scotland	10/8/2002	Limited partnership that owns a Scottish limited company for wind power development
Catamount Rumford Corporation	Vermont	4/11/1989	Limited Partner in a cogeneration plant in Maine
Catamount Sweetwater 1 LLC	Vermont	12/12/2003	Member of a Limited Liability Company that owns wind power assets in Texas
Catamount Sweetwater 2 LLC	Vermont	5/5/2004	Member of a Limited Liability Company that owns wind power assets in Texas
Catamount Sweetwater 3 LLC	Vermont	6/3/2004	Member of a Limited Liability Company that owns wind power assets in Texas
Catamount Sweetwater 4-5 LLC	Vermont	3/8/2005	Member of a Limited Liability Company that owns wind power assets in Texas
Catamount Sweetwater 6 LLC	Vermont	9/7/2005	Member of a Limited Liability Company that is developing a wind facility in Texas
Catamount Sweetwater Corporation	Vermont	6/17/2003	Member of three Limited Liability Companies
Catamount Sweetwater Holdings LLC	Vermont	6/20/2005	Holding company that owns LLCs with interests in wind power assets in Texas

Catawba Manufacturing and Electric Power Company	North Carolina		The purpose of this entity is to generate, transmit and distribute electric power and preserves property rights.
CEC UK1 Holding Corp.	Vermont	9/11/2002	General Partner in Scottish limited partnerships
CEC UK2 Holding Corp.	Vermont	9/11/2002	Limited Partner in Scottish limited partnerships
CEC Wind Development LLC	Vermont	1/12/2007	Owens assets in windpower projects being developed in various states

Gas Integral S.R.L.	Peru	1/8/2004	Peruvian limited liability which gathers gas in connection with the Aguaytia asset.
Generadora del Pacifico, Limitada	Guatemala	4/9/2008	Guatemalan limited liability entity slated for dissolution.
Generadora La Laguna Duke Energy International Guatemala y Cia., S.C.A.	Guatemala	6/10/2004	Guatemalan joint stock company which owns 60 MW electric generation facility in Guatemala.
Green Frontier Windpower Holdings, LLC	Delaware	2/22/2010	Holding company formed for the purpose of financing a portfolio of wind energy project companies.
Green Frontier Windpower, LLC	Delaware	5/13/2010	To serve as a holding company to hold certain wind power project companies that would be financed by Duke on a portfolio basis.
Greenville Gas and Electric Light and Power Company	South Carolina	01/28/1861	This corporation shall have for its object the manufacture of gas, and the generating of electricity to be sold for lighting, heating, and all other purposes for which gas and electricity or either of them may be used. The corporation also preserves property rights.
Happy Jack Windpower, LLC	Delaware	10/27/2006	Owner of all the assets that comprise the 29.4 MW Happy Jack Windpower Project being developed in Cheyenne, Wyoming.
IGC Aguaytia Partners, LLC	Cayman Islands	2/8/2002	Cayman company with ownership interests in the Aguaytia project in Peru.
INDU Solar Holdings, LLC	Delaware	10/14/2010	To serve as a holding company for project companies related to the Commercial Rooftop Solar Program. To acquire, invest in, develop, improve, own, operate, finance, maintain, sell, lease, or otherwise dispose of, Project LLCs or, if not owned by a Project LLC, Energy Assets in

				accordance with Applicable Law and, to the extent applicable, the Master Development Agreement.
Inver Energy Holdings I	Cayman Islands	12/22/2008		Cayman Holding company establish for the San Cristobal Project in Guatemala.
Inver Energy Holdings II	Cayman Islands	12/22/2008		Cayman Holding company establish for the San Cristobal Project in Guatemala.
Inver-Energy y Cia. SCA	Guatemala	2/12/2007		Guatemalan operating company establish for the San Cristobal Project in Guatemala.
IPS-Cinergy Power Limited	Kenya	4/28/1999		Holds a joint venture in Tsavo Power Company in Kenya.
Ironwood Windpower Holdings, LLC	Delaware	12/1/2010		Serve as a holding company for the project company that will hold the assets of the Ironwood Windpower project.
Ironwood Windpower, LLC	Delaware	12/8/2010		Project Company that will hold the assets of the Ironwood Windpower project.
Kit Carson Windpower, LLC	Delaware	6/23/2009		To develop, construct, own and operate a 51 MW wind farm facility located in Kit Carson County, Colorado, near Burlington.
KO Transmission Company	Kentucky	4/11/1994		Engaged in the transportation of natural gas in interstate commerce between Kentucky and Ohio.
Laurel Hill Wind Energy, LLC	Pennsylvania	12/14/2004		Limited Liability Company that owns and is developing and operating a wind powered electricity generation facility in Pennsylvania.
LHI, LLC	Delaware	1/10/2002		Formed for the purpose of being the project company that will own a facility capable of producing synthetic fuel, qualifying for tax credits under IRS 29(c). The Company will produce synthetic fuel from coal by applying a latex or asphalt binder in order to induce a chemical change, with such change being a requirement for tax credit eligibility. The facility is located at a Mirant generating station in Newburg, Maryland.
Los Vientos Windpower I Holdings, LLC	Delaware	1/27/2011		Serve as a holding company for the project company that will hold Phase I of the Los Vientos Windpower project.
Los Vientos Windpower I, LLC	Delaware	1/27/2011		Special purpose entity to hold Phase I of the Los Vientos Windpower project
Louisiana Energy Services, LLC	Delaware	4/9/1990		A limited partnership formed to design, license, construct, own and operate a centrifuge uranium enrichment plant to be located in the U.S., and sell and provide enrichment services and products on a profitable basis therefrom.
Martins Creek Solar NC, LLC	North Carolina	4/8/2010		Project company developing a 998 Kilowatt (DC) solar photovoltaic ("PV") electric generation facility located in Murphy Township, Cherokee County, North Carolina
MCP, LLC	South Carolina	8/18/2000		Owner of record of the land on which the Mill Creek Combustion Turbine Station sits in Cherokee County, South Carolina.

Miami Power Corporation	Indiana	3/25/1930	Owens an electric transmission line in Indiana.
Murphy Farm Power, LLC	North Carolina	1/27/2010	Owens and is developing and constructing a 998 kilowatt (DC) solar PV electric generation facility located on a site in Culberson, NC.
National Methanol Company (IBN SINA)	Saudi Arabia	5/23/1981	A joint venture with SABIC for the operation of a methanol production plant in Saudi Arabia. 50% held by SABIC and 50% held by CTE Petrochemicals Company (Duke's partnership with Celanese).
North Allegheny Wind, LLC	Delaware	5/31/2006	Single purpose entity which owns and operates a 70 MW wind generating facility in Blair and Cambria Counties, Pennsylvania
NorthSouth Insurance Company Limited	Bermuda	12/2/2002	
Notrees Windpower, LP	Delaware	9/30/2005	Owner of all the assets that comprise that Notrees Windpower Project being developed in Ector and Winkler Counties, Texas.
NuStart Energy Development, LLC	Delaware	4/19/2004	NuStart Energy is a limited liability corporation comprised of ten power companies, created in 2004 for the dual purposes of: 1) obtaining a Construction and Operating License (COL) from the Nuclear Regulatory Commission (NRC), using the never before used, streamlined licensing process developed in 1992 and 2) completing the design engineering for the selected reactor technologies.
Oak Mountain Products, LLC	Delaware	7/9/2001	Project company that owns a facility capable of producing synthetic fuel. from coal by applying a latex or asphalt binder in order to induce a chemical change.
Ocotillo Windpower, LP	Delaware	12/22/2004	Owner of all the assets that comprise the 58.8 MW Ocotillo Windpower Project being developed near Big Spring, Texas.
Ohio River Valley Propane, LLC	Delaware	10/18/2001	Engaged in the business of marketing propane in the United States and owning and operating a propane storage cavern.
Ohio Valley Electric Corporation	Ohio	10/1/1952	Formed for the purpose of providing the large electric power requirement projected for a major DOE uranium enrichment complex. OVEC has in turn a subsidiary called Indiana Kentucky Electric Corporation which provides similar services.
			Owens an electric generating facility and sells electricity to a government facility that makes weapons. It also provides the large electric power requirement for a major Department of Energy uranium enrichment complex.
Oklahoma Arcadian Utilities, LLC	Delaware	12/5/2000	Constructs, owns, operates and maintains energy-related facilities located at a General Motor vehicle assembly plant in Oklahoma City, Oklahoma.
Owings Mills Energy Equipment Leasing LLC	Delaware	10/20/1999	

P.I.D.C. Aguaytia, L.L.C.	Delaware	11/17/1995	Delaware limited liability company with ownership interest in the Aguaytia project in Peru.
Pacific Power Holdings No. 1, B.V.	Netherlands	3/27/2008	Danish Holding company for potential projects in Central America.
PanEnergy Corp	Delaware	1/26/1981	Parent Company
Peru Energy Holdings, LLC	Delaware	10/26/1995	Delaware holding company which holds 99% in Gas Integral SRL (Peru) with regard to the Aguaytia project in Peru.
Piedmont Venture Partners Limited Partnership	North Carolina	10/3/1996	Venture capital firm created to invest in high-technology and biotechnology (including clean energy) private start-up companies in the research triangle (Raleigh, Durham and Chapel Hill) of NC and the Southeast. Currently in bankruptcy proceedings.
Pioneer Transmission, LLC	Indiana	7/31/2008	
Proyecto de Autoabastecimiento La Silla, S. de R.L. de C.V.	Mexico	6/2/2009	Mexican holding company used for various transactions within Duke Energy International.
RP - Orlando LLC	Delaware	3/5/2010	Project company that has been developing two solarphotovoltaic ("PV") electric generation projects (Stanton project) and (Jetport project) to be located on property owned by the Orlando Utilities Commission in Orlando, FL
Ryegate Associates	Utah	4/30/1990	Owens a biomass facility in Vermont
Sandy River Timber, LLC	South Carolina	10/26/2007	Assemblage of land for future generation project use
Seahorse do Brasil Servicos Maritimos Ltda.	Brazil	3/30/1979	Has been dormant for many years. Dissolution under review.
Searchlight Wind Energy LLC	Nevada	1/17/2008	Developing a windpower project in Nevada
SEC Bellefonte SD SolarOne, LLC	Delaware	3/4/2010	Develop and own certain solar PV rooftop projects serving the Bellefonte SD in PA
SEC BESD Solar One, LLC	Delaware	12/7/2009	Develop and own certain solar PV rooftop projects serving the Bald Eagle SD in PA
Shreveport Red River Utilities, LLC	Delaware	10/16/2000	The purpose of the company is to develop, design and construct the improvements; to own, operate and maintain the Central Utilities Complex; to obtain financing for such activities; and to take all actions incident thereto (the "Purpose").
Silver Sage Windpower, LLC	Delaware	4/16/2007	Holds a lease for some property in Laramie County, Wyoming.
Solar Star North Carolina I, LLC	Delaware	11/7/2008	Special purpose company devoted to developing, constructing, owning, operating and selling the electricity and associated renewable energy credits from its 1 megawatt (AC) solar electric generating facility in Shelby, NC (currently under construction).

Solar Star North Carolina II, LLC	Delaware	12/16/2009	Special purpose company devoted to developing, constructing, owning, operating and selling the electricity and associated renewable energy credits from its 5 one-megawatt (AC) solar photovoltaic electric generating facilities in Murfreesboro, Herford County, NC (currently under development)
South Construction Company, Inc.	Indiana	5/31/1934	Holds legal title to real estate and interests in real estate which are either not used and useful in the conduct of Duke Energy Indiana, Inc.'s business or which has some defect in title which is unacceptable to Duke Energy Indiana Inc.
Southern Power Company	North Carolina	12/30/1927	The purpose of this entity is to generate, transmit and distribute electric power and preserve property rights.
Spruce Mountain Investments, LLC	Delaware	11/8/2006	Holding company - Owns all the membership interests in Spruce Mountain Products, LLC, a coal-based synthetic fuel productivity facility.
Spruce Mountain Products, LLC	Delaware	10/27/2006	A coal-based synthetic fuel production facility.
St. Paul Cogeneration, LLC	Minnesota	12/18/1998	Develops, constructs, operates and maintains a qualifying facility (QF) in downtown St. Paul, Minnesota.
SUEZ/VWNA/DEGS of Lansing, LLC	Delaware	11/3/1999	Develops, constructs and operates certain energy facilities located at a General Motors facility in Lansing, Michigan
SUEZ-DEGS of Ashtabula, LLC	Delaware	4/21/1999	Develops, constructs, operates and maintains a qualifying facility (QF) located in Ashtabula, Ohio and provides other energy-related products and services.
SUEZ-DEGS of Lansing, LLC	Delaware	11/3/1999	Provides management services for Trigen/Cinergy-USFOS of Lansing LLC.
SUEZ-DEGS of Orlando, LLC	Delaware	6/12/1998	Develops, constructs, operates and maintains a district cooling business in Orlando, Florida.
SUEZ-DEGS of Owings Mills, LLC	Delaware	9/20/1999	Develops, constructs, operates and maintains a cogeneration facility located at the Sweetheart Cup Corporation in Owings Mills, Maryland.
SUEZ-DEGS of Rochester, LLC	Delaware	10/20/1999	Provides energy-related services to Kodak Park in Rochester, New York.
SUEZ-DEGS of Silver Grove, LLC	Delaware	3/18/1999	Provides energy-related services to the Lafarge gypsum manufacturing plant in Silver Grove, Kentucky. These services include the design, installation and operation of a combined heat and power system.
SUEZ-DEGS of Tuscola, LLC	Delaware	8/21/1998	Develops, constructs, operates and maintains a qualifying facility (QF) in Tuscola, Illinois and provides other energy-related products and services.
SUEZ-DEGS, LLC	Delaware	2/18/1997	Engages in the preliminary development of cogeneration and/or thermal energy facilities. Specific projects are developed and held by special purpose affiliates.
Sugartree Timber, LLC	Delaware	7/24/2008	Hold land for future generation project use.
Sweetwater 4-5 Holdings LLC	Delaware	4/18/2007	Holding company that owns LLCs with interests in wind power assets in Texas
Sweetwater Development LLC	Texas	11/5/2002	Developing a windpower project in Texas

Sweetwater Wind 1 LLC	Delaware	6/24/2003	Owns wind generation facility in Texas
Sweetwater Wind 2 LLC	Delaware	4/19/2004	Owns wind generation facility in Texas
Sweetwater Wind 3 LLC	Delaware	4/29/2004	Owns wind generation facility in Texas
Sweetwater Wind 4 LLC	Delaware	4/29/2004	Owns wind generation facility in Texas
Sweetwater Wind 5 LLC	Delaware	4/29/2004	Owns wind generation facility in Texas
Sweetwater Wind 6 LLC	Delaware	4/29/2004	Owns assets of windpower project being developed in Texas
Sweetwater Wind Power L.L.C.	Texas	11/5/2002	Owns wind generation assets in Texas
SYNCAP II, LLC	Delaware	10/13/2000	Formed to commercialize new technologies for converting high-sulfur coal to low-sulfur coal.
Taylorville Solar, LLC	Delaware	4/29/2010	To develop a 1 MW solar PV project in Alexander County, Taylorsville, North Carolina
TBP Properties, LLC	South Carolina	12/11/2006	Hold land for future project use
TE Notrees, LLC	Delaware	9/30/2005	Holding company.
TE Ocotillo, LLC	Delaware	12/21/2004	Holding company.
Teak Mountain Products, LLC	Delaware	5/1/2007	Coal-based synthetic fuel production business.
TEC Aguaytia, Ltd.	Bermuda	12/17/1996	Bermuda holding entity with indirect ownership interest in the Aguaytia project in Peru.
Termoselva S. R. L.	Peru		Peruvian limited liability company that owns and operates facility generating electricity in the Peruvian Amazon Basin.
Texas Eastern (Bermuda) Ltd.		11/24/1972	Bermuda holding company with investments in international ventures.
Texas Eastern Arabian Ltd.	Bermuda	7/25/1974	Investments in Texas Eastern International Ventures, Ltd. and National Methanol Company
The Duke Energy Foundation	North Carolina	6/5/1984	To receive, administer, and make donation of funds for educational, scientific, and charitable purposes.
Three Buttes Windpower, LLC	Delaware	8/26/2008	Develop, construct, own and operate the Campbell Hill Windpower project near Casper, Wyoming
Top of the World Wind Energy Holdings LLC	Delaware	11/15/2010	To act as the holding company of the project company that owns the Top of the World wind farm, and to pledge that ownership interest as security for a project financing arrangement upon the project.
Top of the World Wind Energy LLC	Delaware	3/13/2008	Developing windpower project in Wyoming
TRES Timber, LLC	South Carolina	12/11/2006	Hold land for future project use

Tri-State Improvement Company	Ohio	1/14/1964	Acquiring and holding property in Ohio, Kentucky, and Indiana for substations, electric and gas rights of way, office space, and other uses in connection with the utility business of Duke Energy Ohio, Inc. and its utility subsidiaries.
Tsavo Power Company Limited	Kenya	1/22/1998	Power plant at the Port of Mombasa, Kenya's main seaport. The facility sells power to Kenya Power and Lighting Corporation through a Purchased Power Agreement.
TX Solar I LLC	Delaware	5/27/2009	Special purpose company devoted to developing, constructing, owning, operating and selling the electricity and associated renewable energy credits from its 14 megawatt (AC) solar electric generating facility in San Antonio, TX (currently under construction)
Waterree Power Company	South Carolina	2/26/1909	The purpose of this entity is to generate, transmit and distribute electric power and preserve property rights.
Western Carolina Power Company	North Carolina	2/26/1909	The purpose of this entity is to generate, transmit and distribute electric power and preserve property rights.
Willow Creek Wind Energy LLC	Delaware	6/18/2007	Developing windpower project in Colorado
Willow Mountain Products, LLC	Delaware	5/1/2007	Coal-based synthetic fuel production business.

VI. A CODE OF CONDUCT POLICY THAT COMPLIES WITH O.A.C. 4901:1-37-04 AND THAT EMPLOYEES OF THE UTILITY AND AFFILIATES MUST FOLLOW.

**Duke Energy Ohio
Affiliate Code of Conduct**

A. Introduction

This Affiliate Code of Conduct governs the actions of Duke Energy Ohio and its affiliates. It is intended to ensure that no competitive advantage flows from Duke Energy Ohio to an affiliate and vice versa. Compliance with this Code of Conduct shall be mandatory for all employees, consultants, and independent contractors of Duke Energy Ohio and its affiliates.

B. The Code of Conduct

1. Duke Energy Ohio shall not release any proprietary customer information (e.g., individual customer load profiles or billing histories) to an affiliate, or otherwise, without the prior authorization of the customer, except as required by a regulatory agency or court of law.
2. Duke Energy Ohio shall make customer lists, which include name, address, and telephone number, available on a nondiscriminatory basis to all nonaffiliated and affiliated certified retail electric service providers transacting business in its service territory, unless otherwise directed by the customer. This paragraph does not apply to customer-specific information, obtained with proper authorization, necessary to fulfill the terms of a contract, or information relating to the provision of general and administrative support services. This information shall not be used by the certified retail electric service providers for any other purpose than the marketing of electric service to the customer.
3. Employees of Duke Energy Ohio's affiliates shall not have access to any information about Duke Energy Ohio's transmission or distribution systems (e.g., system operations,

capability, price, curtailments, and ancillary services) that is not contemporaneously available, readily accessible, and in the same form and manner available to nonaffiliated competitors providing retail electric service.

4. Duke Energy Ohio shall treat as confidential all information obtained from a competitive retail electric service provider, both affiliated and nonaffiliated, and shall not release such information unless a competitive retail electric service provider provides authorization to do so or unless the information was or thereafter becomes available to the public other than as a result of disclosure by the electric utility.
5. Duke Energy Ohio shall not tie (nor allow an affiliate to tie), as defined by state and federal antitrust laws, or otherwise condition the provision of Duke Energy Ohio's regulated services, discounts, rebates, fee waivers, or any other waivers of ordinary terms and conditions of service, including but not limited to tariff provisions, to the taking of any goods and/or services from Duke Energy Ohio's affiliates.
6. Duke Energy Ohio shall ensure effective competition in the provision of retail electric service by avoiding anticompetitive subsidies flowing from a noncompetitive retail electric service to a competitive retail electric service or to a product or service other than retail electric service, and vice versa.
7. Duke Energy Ohio, upon request from a customer, shall provide a complete list of all competitive retail electric service providers operating on the system, but shall not endorse any competitive retail electric service providers, indicate that an electric services company is an affiliate, or indicate that any competitive retail electric service provider will receive preference because of an affiliate relationship.

8. Duke Energy Ohio shall use reasonable efforts to ensure retail electric service consumers protection against unreasonable sales practices, market deficiencies, and market power and Duke Energy Ohio's compliance officer shall promptly report any such unreasonable sales practices, market deficiencies, and market power to the director of the utilities department (or a designee).
9. Employees of Duke Energy Ohio or persons representing Duke Energy Ohio shall not indicate a preference for an affiliated electric services company.
10. Duke Energy Ohio shall provide comparable access to products and services related to tariffed products and services and specifically comply with the following:
 - a) Duke Energy Ohio shall be prohibited from unduly discriminating in the offering of its products and/or services;
 - b) Duke Energy Ohio shall apply all tariff provisions in the same manner to the same or similarly situated entities, regardless of any affiliation or non-affiliation;
 - c) Duke Energy Ohio shall not, through a tariff provision, a contract, or otherwise, give its affiliates or customers of affiliates preferential treatment or advantages over nonaffiliated competitors of retail electric service or their customers in matters relating to any product and/or service;
 - d) Duke Energy Ohio shall strictly follow all tariff provisions;
 - e) Except to the extent allowed by state law, Duke Energy Ohio shall not provide discounts, rebates, or fee waivers for any state regulated monopoly service.
11. Shared representatives or shared employees of Duke Energy Ohio and its affiliated electric services company shall clearly disclose upon whose behalf their public

representations are being made when such representations concern the entity's provision of electric services.

C. Limited Exception

Notwithstanding the foregoing, in a declared emergency situation, Duke Energy Ohio may take actions necessary to ensure public safety and system reliability. Duke Energy Ohio shall maintain a log of all such actions that do not comply with the Code of Conduct, which log shall be subject to review by the Public Utilities Commission of Ohio and its staff.

D. Violations

Violations of this Code of Conduct may subject the violating employee, consultant, or independent contractor to disciplinary action up to and including discharge from employment.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

VII. A DESCRIPTION OF ANY JOINT ADVERTISING AND/OR JOINT MARKETING ACTIVITIES BETWEEN THE UTILITY AND AFFILIATES.

In order to ensure compliance with corporate separation rules and regulations, Duke Energy Ohio does not plan to advertise or market jointly with its non-regulated affiliates. If that position changes, Duke Energy Ohio will advise the Commission Staff. Duke Energy Retail Sales, LLC, (DER) is a certified competitive retail electric service provider in the State of Ohio. It is a subsidiary of Duke Energy Corporation and an affiliate of Duke Energy Ohio. Duke Energy Ohio will not engage in joint marketing with DER. However, for purposes of clarification, when DER solicits business or enters into contracts with customers, it is occasionally necessary for it to reference the identity of the local utility. In such circumstances, or circumstances similar in nature to those described, the reference by DER to Duke Energy Ohio shall not be deemed joint marketing or advertising.

Duke Energy Corporation has in place several policies to protect its company brand. To best position the company for future growth and create value for all stakeholders, its franchised electric and gas utilities will use a single company name – Duke Energy. Some employees and executives who interact with state regulatory commissions and other official agencies will identify their businesses as Duke Energy Carolinas, Duke Energy Indiana, Duke Energy Ohio and Duke Energy Kentucky. Signs at facilities, logos on vehicles, uniforms and hard hats, language on our Web sites and other communications will simply use “Duke Energy.”

The geographic identifiers (e.g. Duke Energy Ohio) or other corporate identifiers, where appropriate, are to be used in the following applications:

- Regulatory filings in the franchised jurisdictions and in other public documents (press releases, fact sheets, etc.) referring to those filings, and on reports specific

to the utility that are presented to regulators and for limited internal uses. Examples are financial reports, customer data, etc.

- Business cards, stationery of large customer/regulator/legislator-facing employees in the respective organizations.

Other, non-regulatory-driven communications, publications, brochures, and reports should refer to Duke Energy only and use the Duke Energy logo. Such communications may describe regional operations: for example, an economic development brochure might refer to “doing business in the Carolinas” or a regulatory report might refer to the company’s “Indiana operations.” Geographic identifiers should be avoided in these uses. Geographic identifier logos should not be used on hard hats, vehicles, signage, or logo merchandise.

Marketing Communications researches trademarks and reviews and approves all new names and logos. Logos are based on the common, not legal, name of the business unit.

- All energy-related business units use the corporate name and logo as their primary identifiers, with the business unit name as a secondary identifier.
- Subsidiaries of energy-related business units use the corporate name and logo as their primary identifiers, with the subsidiary name as the secondary identifier.
- Energy-related business formed from joint ventures use the corporate name and logo only when the business’s practices, policies and approaches mirror those of Duke Energy.
- Newly formed businesses use names and logos established on a case-by-case basis.

VIII. PROVISIONS TO MAINTAIN THE COST ALLOCATION MANUAL.

Duke Energy Ohio maintains its CAM in accordance with O.A.C. Rule 4901:1-37-08. The CAM is organized according to the aforementioned provision and includes the following information:

1. An organization chart of the holding company, depicting all affiliates, as well as a description of activities in which the affiliates are involved.
2. A description of all assets, services, and products provided to and from the electric utility and its affiliates.
3. All documentation including written agreements, accounting bulletins, procedures, work order manuals, or related documents, which govern how costs are allocated between affiliates.
4. A copy of the job description of each shared employee.
5. A list of names and job summaries for shared consultants and shared independent contractors.
6. A copy of all transferred employees' (from the electric utility to an affiliate or vice versa) previous and new job descriptions.
7. A log detailing each instance in which the electric utility exercised discretion in the application of its tariff provisions.
8. A log of all complaints brought to the electric utility regarding this chapter.
9. A copy of the minutes of each board of directors meeting, where it shall be maintained for a minimum of three years.

Duke Energy Ohio has established a CAM team comprised of representation from Duke Energy's various departments, including Rates, Regulatory Accounting, Corporate Accounting,

Human Resources, Compliance, and Legal. After initial development of the CAM, this team meets periodically to review changes to Duke Energy Ohio's and its affiliates' business and business practices, and will make the necessary modifications to the CAM. Duke Energy Ohio will send to the director of the Commission's utilities department, in accordance with O.A.C. Rule 4901:1-37-08(H), a summary of any significant changes in the CAM every twelve months, as applicable.

Duke Energy Ohio will keep CAM filed with its corporate entity records, located in the Legal Department, 139 East Main Street, Cincinnati, Ohio.

IX. A DESCRIPTION AND TIMELINE OF ALL PLANNED TRAINING AND EDUCATION.

Duke Energy maintains a Ethics & Compliance Department (Regulatory Compliance) as part of its Office of General Counsel. Regulatory Compliance is responsible for ensuring that employees and contractors receive required training in areas such as FERC Standards of Conduct and Affiliate Restrictions, Duke Energy's Code of Business Ethics, and various states' codes of conduct. This training is maintained on the Duke Energy portal, an internal website for all employees in the Duke Energy Corporate holding company structure. FERC Standards of Conduct and Affiliate Restrictions training is required for applicable new employees and contractors, and those employees and contractors receive the FERC training on an annual basis thereafter. Code of Business Ethics training occurs upon the hiring of a new employee and thereafter on a periodic basis, and when standards are revised. A separate version of the training for the Code of Business Ethics is provided to appropriate contractors, when engaged.

The Ohio Corporate Separation/Code of Conduct Training includes specific information and guidance for employees pursuant to the Plan. Mandatory training is deployed annually by Regulatory Compliance to impacted employees and contractors via computer-based training pursuant to a training protocol (e.g., individuals are provided 60 days to complete the training and a formalized follow-up process is followed to track completion). Annual training was deployed on January 1, 2011, and will continue to be a part of the overall Regulatory Compliance training curriculum.

Supplemental, scenario-based Code of Conduct training was deployed in May 2011 (computer-based) to the Retail Customer Products and Services department to address specific requirements in the Ohio Corporate Separation Plan that address promoting non-regulated

product and service offerings. This training is expected to be further enhanced, following initial deployment. In response to the department's request, this training will be deployed semi-annually. Further, a document detailing requirements of the Ohio Corporate Separation Plan has been provided to the Retail Customer Products and Services department.

Regulatory Compliance also provides a mailbox (compliancereporting@duke-energy.com) as a resource to employees to encourage them to submit questions and/or concerns. These inquiries are used to identify compliance trends and/or areas that need follow-up. :

- X. A COPY OF THE POLICY STATEMENT TO BE SIGNED BY ELECTRIC UTILITY AND AFFILIATE EMPLOYEES WHO HAVE ACCESS TO ANY NONPUBLIC ELECTRIC UTILITY INFORMATION.**

Policy Statement

Each employee who has access to any nonpublic electric utility information will be required to electronically sign or acknowledge the Corporate Separation Policy Statement attached below. This will be administered during the computer-based training sessions to ensure that all affected employees electronically sign this agreement.

DUKE ENERGY OHIO CORPORATE SEPARATION

POLICY STATEMENT

I hereby acknowledge that I am aware of, have read and will adhere to all policies and procedures regarding limitation on the use of nonpublic electric utility information. I also hereby acknowledge that failure to observe these limitations will result in appropriate disciplinary action.

I have also been made aware of Duke Energy Ohio's Cost Allocation Manual (CAM), including the appropriate costs and expenses which must be reported to the person in charge of Duke Energy Ohio's CAM. I have been given the opportunity to ask questions regarding Duke Energy Ohio's Corporate Separation Plan, Affiliate Code of Conduct and CAM and understand the compliance program included therein, including the appropriate method in which complaints are to be handled and the appropriate persons to whom possible violations should be reported. I have attended one or more training sessions offered by Duke Energy Ohio with regard to the implementation and operation of Duke Energy Ohio's Corporate Separation Plan.

XI. A DESCRIPTION OF TRAINING, INTERNAL COMPLIANCE MONITORING PROCEDURES, AND METHODS FOR CORRECTIVE ACTION FOR NON-COMPLIANCE.

The Corporate Separation/Code of Conduct Training plan has been designed to ensure that all appropriate employees and contractors throughout the Duke Energy Corporation holding company structure know and can implement the policies and procedures of Corporate Separation.

A. Training Goal:

The goal of the Corporate Separation/Code of Conduct Training is to ensure that those employees and contractors who may currently or in the future be affected by the Commission's rules thoroughly understand the policies and are provided with the resources they need, in order to follow the Corporate Separation and Code of Conduct procedures.

The training will be provided not only to currently affected employees and contractors but, on an on-going basis, also to new employees and contractors or those employees or contractors who have become affected through changes in job responsibilities.

B. Target Audience:

Generally, the Corporate Separation/Code of Conduct Training will be administered to all employees and contractors within the Duke Energy Corporation holding company structure who will be affected by compliance with the Commission's rules. Specifically, these employees and contractors include but are not limited to:

- Those employees and contractors having decision-making authority for approving transactions between Duke Energy Ohio and any of its affiliates;

- Those employees and contractors who have access to nonpublic Ohio electric utility information;
- Service company employees and contractors who are located in Ohio.
- Employees and contractors who are directly employed by affiliates that do business in Ohio.

C. Curriculum:

The Corporate Separation/Code of Conduct Training curriculum generally will consist of the following:

- Present Overview of Corporate Separation/Code of Conduct;
- Explain Accounting Treatment of Affiliate Transactions, including Review of SEC-Approved Service Agreements;
- Identify Restrictions on Financial Arrangements;
- Discuss Duke Energy Ohio's Affiliate Code of Conduct;
- Explain Corporate Separation Complaint Procedures;
- Describe Cost Allocation Manual (CAM) and Associated Procedures;
- Explain Internal Compliance Monitoring, including Reporting of Possible Violations.

D. Internal Compliance Monitoring:

To ensure that Duke Energy Ohio's Corporate Separation Plan and Affiliate Code of Conduct are properly implemented within the Duke Energy Corporation holding company structure, the following internal compliance monitoring process will be followed:

1. Duke Energy's Office of General Counsel, via Regulatory Compliance encompassed therein, will ensure that all affected employees and contractors receive the Corporate

Separation/Code of Conduct Training. Employees and contractors are allowed a 60-day period during which to complete each required training module, with period reminders during that period and overdue notices to management if the training is not completed.

2. After receiving the training described above, each employee will be required to attest to the Policy Statement contained in Section X of this document.
3. Duke Energy's Office of General Counsel will continue to provide a method for employees to ask questions regarding the Corporate Separation/Code of Conduct, as well as the method to report possible violations of the Corporate Separation and Code of Conduct Rules through posting of Compliance personnel contact information on the Duke Energy Portal, through the "ComplianceReporting" mailbox, and through the "EthicsLine" (anonymous reporting).
4. Possible violations reported to Duke Energy's Office of General Counsel will be investigated and documented. Upon completing the investigation, Duke Energy's Office of General Counsel will, if appropriate, recommend to senior management a course of action, including refresher training, to correct repeat violations.
5. Senior management, upon reviewing the investigative report, will determine whether disciplinary action is required.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

XII. DESIGNATION OF THE ELECTRIC UTILITY'S COMPLIANCE OFFICER.

Duke Energy Corporation maintains an Ethics and Compliance department within its Office of General Counsel. For purposes of this requirement, Duke Energy Ohio has designated an individual to act as a contact for the Commission Staff when seeking data regarding affiliate transactions, personnel transfers, and sharing of employees. This individual is:

Elizabeth H. Watts
Duke Energy Ohio
155 East Broad Street, 21st Floor
Columbus, Ohio 43215

Telephone: (614) 222-1331
Fax: (614) 222-1337
E-mail: Elizabeth.Watts@duke-energy.com

d

**XIII. A DETAILED DESCRIPTION OUTLINING HOW THE ELECTRIC UTILITY
AND ITS AFFILIATES WILL COMPLY WITH O.A.C. CHAPTER 4901:1-37.**

Pursuant to the Commission's approval of the Stipulation and Recommendation in Case No. 08-920-EL-SSO, Duke Energy Ohio's corporate separation plan is subject to annual audit, only through 2011. . Such an audit will enable the Commission to confirm Duke Energy Ohio's compliance with its internal Plan and the rules pursuant to which that Plan was developed.

(REMAINDER OF PAGE INTENTIONALLY LEFT BLANK)

XIV. A DETAILED LISTING OF THE ELECTRIC UTILITY'S ELECTRIC SERVICES AND THE ELECTRIC UTILITY'S TRANSMISSION AND DISTRIBUTION AFFILIATES' ELECTRIC SERVICES.

Duke Energy Ohio is an Ohio corporation engaged in the business of supplying electric generation, transmission, and distribution service to approximately 690,000 customers in southwestern Ohio, and is a public utility as defined by R.C. 4905.02 and R.C. 4905.03.

A. Generation:

In a Stipulation reached in Case No. 08-920-EL-SSO, establishing Duke Energy Ohio's Electric Security Plan (ESP) price through 2011,³ Duke Energy Ohio agreed to continue to own and dedicate its "legacy Cinergy" generation assets to its Ohio customers and not transfer those assets to an exempt wholesale generation (EWG). Duke Energy has functionally separated the operation and maintenance of its generating portfolio from its regulated distribution service. As such, Duke Energy Ohio, as a regulated electric distribution company, treats its generation as a non-regulated affiliate and abides by both the FERC Standards of Conduct and Ohio's code of conduct.

B. Transmission:

Control of Duke Energy Ohio's transmission assets reside with a FERC-approved regional transmission organization (RTO). The RTO controls Duke Energy Ohio's transmission assets and does not have control of any generation assets. The RTO shall operate in the public interest by preventing any transmission owner or competitive retail electric market participant from gaining an unfair competitive advantage within its control area and by preventing the abuse of market power.

³ A subsequent plan for establishing the price of generation services is under consideration by the Public Utilities Commission of Ohio.

The RTO shall operate in the public interest by implementing efficient operating practices and procedures that prevent pancaking, by improving transmission reliability, by encouraging an open generation market, eliminating barriers to entry in the generation market and by eliminating market control over bottlenecked transmission. The RTO shall be large in scale to increase supply options for consumers and shall maintain a Board of Directors independent of transmission users. The RTO shall operate in a manner designed to satisfy the requirements of its customers and shall maintain real-time reliability of the transmission system that it operates.

C. Distribution:

Duke Energy Ohio operates its distribution system under the governance and rate authority of the Commission. Duke Energy Ohio offers all customers safe and reliable distribution service on a non-discriminatory basis. Duke Energy Ohio's tariffs define rates for its distribution services and products. Duke Energy Ohio provides and operates new distribution facilities, or the extension of distribution facilities, pursuant to such tariffs.

Duke Energy Ohio may also offer a limited number of products and services other than retail electric service. Upon customer request, Duke Energy Ohio may use contractors or employees to provide other utility-related services, programs, maintenance, and repairs related to customer-owned property, equipment, and facilities. In addition, Duke Energy Ohio plans to provide products and services other than tariffed retail electric service in an effort to advance the State's interests in energy efficiency and peak demand reduction and to comply with the benchmarks set forth in R.C. 4928.66. These programs give the Company the opportunity to serve customers more completely and to assist in meeting statutory requirements.

XV. A COMPLAINT PROCEDURE TO ADDRESS ISSUES CONCERNING COMPLIANCE WITH O.A.C. 4901:1-37-05.

Duke Energy Ohio has adopted the complaint procedure set forth below. This complaint procedure is to be used to address complaints related to compliance with Duke Energy Ohio's Corporate Separation Plan. A copy of this complaint procedure will be made available upon request to:

Deputy General Counsel -- Regulatory Section, Legal Department
Duke Energy Ohio, Inc
139 East Fourth Street
P. O. Box 960
Cincinnati, OH 45202

A. Complaint Procedure

The following complaint procedure is to be used to address complaints related to compliance with Duke Energy Ohio's Corporate Separation Plan.

1. All complaints, whether written or verbal, shall be referred to the compliance officer designated by Duke Energy Ohio or such officer's designee.
2. The compliance officer, or the designee, shall orally acknowledge the complaint within five working days of its receipt.
3. The compliance officer or the designee shall prepare a written statement of the complaint that shall contain the name of the complainant and a detailed factual report of the complaint, including all relevant dates, companies involved, employees involved, and the specific claim.
4. The compliance officer or designee shall communicate the results of the preliminary investigation to the complainant in writing within thirty days after the complaint was received, including a description of any course of action that was taken.

5. All written statements of complaints and required investigations shall keep a file in the CAM, in accordance with paragraph (B)(14)(e) of O.A.C. 4901:1-37-05, of all such complaint statements for a period of not less than three years.
6. This complaint procedure shall not in any way limit the rights of a party to file a complaint with the commission.

DIRECT TESTIMONY OF

DANIEL L. JONES

ON BEHALF OF

DUKE ENERGY OHIO, INC.

June 20, 2011

TABLE OF CONTENTS

	<u>PAGE</u>
I. INTRODUCTION.....	1
II. OPERATIONAL SUPPORT PLAN.....	3
III. AMENDMENT OF SUPPLIER TARIFF	3
IV. CONCLUSION	7

I. INTRODUCTION

1 **Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.**

2 A. My name is Daniel L. Jones, and my business address is 139 E. Fourth Street,
3 Cincinnati, Ohio 45202.

4 **Q. BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?**

5 A. I am employed by Duke Energy Ohio, Inc., (Duke Energy Ohio or the Company)
6 as the Senior Account Manager, Customer Choice.

7 **Q. PLEASE BRIEFLY DESCRIBE YOUR EDUCATION AND**
8 **PROFESSIONAL EXPERIENCE.**

9 A. I hold a Bachelor of Science Degree in Electrical Engineering and a Masters of
10 Business Administration from the University of Cincinnati. I am also a
11 Professional Engineer in the state of Ohio. I am currently a member of the Retail
12 Executive Committee for the North American Energy Standards Board (NAESB),
13 and I serve as a co-chair on the Retail Business Practices Subcommittee for
14 NAESB. I have facilitated and/or participated in several working groups for both
15 gas and electric customer choice sponsored by the Public Utilities Commission of
16 Ohio (Commission).

17 I started as an electrical engineering cooperative student at The Cincinnati
18 Gas & Electric Company (CG&E) in December 1973. I hired on full time with
19 CG&E in June 1977 as a Power Engineer in Industrial Services, serving as an
20 account manager for industrial facilities and then moving into management
21 positions. After the Cinergy merger, I managed efforts to provide wholesale
22 power and energy management services to customers and participated on

1 Cinergy's behalf in both the Michigan and Pennsylvania electric customer choice
2 pilot programs. When Senate Bill 3 (S.B. 3) was passed in Ohio in 1999, I
3 accepted a position on the Transition Team that developed the Operational
4 Support Plan for electric customer choice within CG&E's service territory. Since
5 the time electric customer choice was implemented in Ohio on January 1, 2001, I
6 have served in various positions in the Certified Supplier Business Center.

7 **Q. PLEASE DESCRIBE YOUR DUTIES AS THE SENIOR ACCOUNT**
8 **MANAGER, CUSTOMER CHOICE.**

9 A. As Senior Account Manager, Customer Choice, the areas I am responsible for
10 include ensuring that electric and gas customer choice regulations are met,
11 resolving related regulatory issues, ensuring the functionality of information
12 systems to support choice, reviewing rules and analyzing their impacts, arranging
13 the set-up of new gas and electric suppliers in the Company's service territory,
14 responding directly to gas and electric supplier inquiries and issues, and
15 coordinating with other departments in responding to inquiries about suppliers
16 and assisting them in their training efforts.

17 **Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE THE PUBLIC**
18 **UTILITIES COMMISSION OF OHIO?**

19 A. Yes. Most recently, I testified with regard to the Company's application for
20 approval of a market rate offer, in Case No. 10-2586-EL-SSO.

21 **Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS**
22 **PROCEEDING?**

23 A. The purpose of my testimony is, first, to address implementation of Duke Energy

1 Ohio's Operational Support Plan (Plan), adopted pursuant to R.C. 4928.31(A)(3).
2 Then, I testify concerning certain of Duke Energy Ohio's proposed revisions to
3 its Certified Supplier Tariff, P.U.C.O. No. 20 (Supplier Tariff).

II. OPERATIONAL SUPPORT PLAN

4 **Q. WHAT IS AN OPERATIONAL SUPPORT PLAN?**

5 A. R.C. 4928.31(A)(3) required each electric utility, in the context of its transition to
6 deregulation, to file a plan "to address operational support systems and any other
7 technical implementation issues pertaining to competitive retail electric service
8 consistent with any rules adopted by the commission under division (A) of section
9 4928.06 of the Revised Code."

10 **Q. WHAT IS THE STATUS OF DUKE ENERGY OHIO'S PLAN?**

11 A. The Company's Plan was initially approved in its transition case.¹ With minor
12 changes, the Plan was again approved in 2008.²

13 **Q. HAS DUKE ENERGY OHIO IMPLEMENTED ITS PLAN?**

14 A. Yes. Duke Energy Ohio has implemented its Plan and there are no outstanding
15 problems with the implementation.

III. AMENDMENT OF SUPPLIER TARIFF

16 **Q. WHAT IS THE CURRENT STATUS OF DUKE ENERGY OHIO'S**
17 **SUPPLIER TARIFF?**

18 A. The Supplier Tariff was first approved in the Company's electric transition plan

¹ *In the Matter of the Application of The Cincinnati Gas & Electric Company for Approval of its Electric Transition Plan, Approval of Tariff Changes and New Tariffs, Authority to Modify Current Accounting Procedures, and Approval to Transfer its Generating Assets to an Exempt Wholesale Generator*, Case No. 99-1658-EL-ETP, *et al.*

² *In the Matter of the Application of Duke Energy Ohio, Inc., for Approval of an Electric Security Plan*, Case No. 08-920-EL-SSO, *et al.*

1 proceeding, at the commencement of deregulation.³ A limited portion of the
2 Supplier Tariff was amended in 2002 to provide for consolidated billing and the
3 purchase of accounts receivable.⁴ The Supplier Tariff was also revised in early
4 2006.⁵ The proceeding in which such revisions were approved immediately
5 followed the Commission's approval of the merger transaction between Duke
6 Energy Corporation and Cinergy Corp., the parent of CG&E. The tariff
7 amendments proposed in that case related simply to the change of name to Duke
8 Energy Ohio. Thus, no comprehensive review of the Supplier Tariff has been
9 made since its original adoption.

10 **Q. PLEASE DESCRIBE THE CHANGES PROPOSED TO BE MADE TO**
11 **THE SUPPLIER TARIFF.**

12 A. There are several categories of changes that are proposed. In the last several
13 years, as electric utilities and competitive retail electric service (CRES) providers
14 have sought to enable competition, numerous changes have occurred, both within
15 Duke Energy Ohio and in the broader electric industry. The first category of
16 changes addresses issues such as the relationship between Duke Energy Ohio and
17 energy suppliers, the manner in which power is transmitted to suppliers, and the
18 related ways in which communications occur among the various parties to

³ *In the Matter of the Application of The Cincinnati Gas & Electric Company for Approval of its Electric Transition Plan, Approval of Tariff Changes and New Tariffs, Authority to Modify Current Accounting Procedures, and Approval to Transfer its Generating Assets to an Exempt Wholesale Generator*, Case No. 99-1658, et al., Opinion and Order (August 31, 2000).

⁴ *In the Matter of the Application of The Cincinnati Gas & Electric Company for Approval of Changes to its Retail Electric Service Tariff (P.U.C.O. No. 19) and Certified Supplier Tariff (P.U.C.O. No. 20) to Implement New Services for Consolidated Utility Bill Ready Billing and Purchase of Supplier Accounts Receivable*, Case No. 02-291-EL-ATA, Finding and Order (June 20, 2002).

⁵ *In the Matter of the Application of The Cincinnati Gas & Electric Company to Modify its Retail Gas, Electric, and its Certified Supplier Tariffs*, Case No. 06-407-GE-ATA, Finding and Order (March 29, 2006).

1 wholesale transactions.

2 An example of one of these technical changes is the substitution of
3 "Balancing Authority Area" for "Control Area." Similarly, "Reliability*First*" is
4 substituted for "ECAR," "Transmission Provider" is used in place of "Cinergy
5 Control Area Operator," and "Transmission Provider's Balancing Authority Area"
6 is substituted for "Cinergy Control Area." Other revisions are more descriptive of
7 industry changes. This category of modifications appears throughout the Supplier
8 Tariff and will result in making the tariff sheets consistent with current industry
9 terms and practices.

10 **Q. WHAT IS THE SECOND GENERAL CATEGORY OF CHANGES?**

11 A. The second group of changes concerns rate-ready billing options. The current
12 tariff language provides for four standard rate types: non-volumetric, flat charge
13 per kilowatt or kilowatthour, multi-tiered, and time-of-use. With regard to any of
14 these four rate types, the Company is bound, under the current Supplier Tariff, to
15 provide sample rate calculations to the requesting supplier within five calendar
16 days of the supplier's request for a new rate code and to migrate the new rate code
17 to the Company's production billing system within three business days of the
18 supplier's approval of the sample rate calculations. The Company will also
19 currently handle requests for other rate types on a case-by-case basis, but testing
20 and set-up may not be available on the same schedule.

21 The proposed tariff changes will provide that only standard rates are
22 available and will add, as a new standard rate type, percentage-off rates. Although
23 percentage-off rates will be considered standard, the Company will have fifteen

1 calendar days to provide sample rate calculations to the requesting supplier and
2 three business days to migrate the new rate code to the Company's production
3 billing system following the supplier's approval of the sample rate calculations.

4 **Q. PLEASE DESCRIBE THE THIRD CATEGORY OF CHANGES**
5 **PROPOSED FOR THE SUPPLIER TARIFF.**

6 A. The current language in the Supplier Tariff includes references to dates by which
7 certain practices were scheduled to begin. Where those dates are in the past, there
8 is no continuing benefit to their existence in the tariff. Therefore, the Company
9 proposes to delete such references. An example of this appears in Section 7.3,
10 Sheet 36, where the current language requires the Company to make available an
11 end-use customer list, beginning on October 1, 2000, with updates available
12 quarterly through the market development period. The Company does make an
13 end-use customer list available and updates are made quarterly. The references to
14 October 1, 2000, and the end of the market development period are both now
15 irrelevant.

16 **Q. PLEASE DESCRIBE THE FOURTH CATEGORY OF CHANGES.**

17 A. As it currently stands, the Supplier Tariff includes provisions that address aspects
18 of the relationship between end users and Duke Energy Ohio. Such provisions are
19 duplicative of matters that are covered more appropriately in Duke Energy Ohio's
20 retail tariff, P.U.C.O. 19. They will be deleted, substituting references to the retail
21 tariff, as necessary. An example of such a change is the return pricing to be
22 charged to end users by Duke Energy Ohio, as found in the current Supplier Tariff
23 in Section 7.8, Sheet 36.

1 **Q. PLEASE DESCRIBE THE FIFTH CATEGORY OF CHANGES.**

2 A. The final group of changes reflect updates to names of corporate entities and
3 minor wording changes that are made for grammatical and/or consistency
4 purposes.

5 **Q. PLEASE EXPLAIN WHETHER ANY OF THE PROPOSED CHANGES**
6 **TO THE SUPPLIER TARIFF, INDIVIDUALLY OR AS A GROUP,**
7 **COULD BE DEEMED TO INCREASE RATES IN ANY WAY.**

8 A. No, these changes will not increase rates in any way. The changes reflect altered
9 industry practices, updated language, and an additional billing option. No change,
10 itself or together with other proposed changes, will increase any rates, joint rates,
11 tolls, classifications, charges, or rentals.

IV. CONCLUSION

12 **Q. DOES THIS CONCLUDE YOUR PRE-FILED DIRECT TESTIMONY?**

13 A. Yes.
