RECEIVED-PROCESSING DIV

WINDSTREAM OHIO, INC.'S MOTION FOR REVIEW
OF DECISION OF NEUSTAR – POOLING ADMINISTRATOR

Pursuant to 47 CFR § 52.15(g)(3)(iv), Windstream Ohio, Inc. (“Windstream”) hereby moves the Public Utilities Commission of Ohio (“Commission”) to review a decision of the Pooling Administrator (“PA” or “NeuStar”) denying Windstream’s request for numbering resources in one Ohio rate center. For the reasons set forth below, Windstream respectfully requests that the Commission overturn the PA’s decision and direct it to assign the requested one thousand number block to Windstream.

Windstream recently submitted a request to NeuStar for a one thousand number block in accordance with current guidelines, including the months-to-exhaust (“MTE”) certification procedures established in the Central Office Code Assignment Guidelines. Windstream is deploying a new packet switch to support a new VOIP product offering called Unified Communications. Windstream needs a one thousand number NXX block to establish the local routing number for the new switch. It does not have any one-thousand number blocks available in inventory to be moved to the new switch.

Windstream’s request for the additional numbers from NeuStar was denied because Windstream does not meet the utilization threshold necessary in order to obtain numbering

This is to certify that the images appearing are an

document delivered in the regular course of business.
Technician fe Date Processed 6/28/2011

resources. The Federal Communication Commission ("FCC") requires a MTE of six months or less and Windstream is now at 31.284.

The FCC's rules set forth the instant procedure for state commission review of a denial of a numbering resource request. 47 CFR § 52.15(g)(3)(iv). The FCC's rules allow a state commission to, "... overturn the NANPA's decision to withhold numbering resources from the carrier based on its determination that the carrier has demonstrated a verifiable need for numbering resources and has exhausted all other available remedies." 47 CFR § 52.15(g)(4). The FCC Report and Order adopting this rule elaborates as follows:

We therefore clarify that states may also grant relief if a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory. Carriers may demonstrate such a need by providing the state with documentation of the customer request and current proof of utilization in the rate center. States may not accommodate requests for specific numbers (i.e., vanity numbers), but may grant requests for customers seeking contiguous blocks of numbers.

Third Report and Order and Second Order on Reconsideration, Numbering Resource Optimization, FCC 01-362, CC Docket Nos. 96-98 and 99-200, ¶ 64 (December 28, 2001).

This Commission has the authority to overturn the PA's decision when a carrier demonstrates that it cannot meet a customer need for a contiguous block of numbers from its current inventory. Windstream does not have the inventory for one thousand consecutive numbers in the Granville rate center to be able to offer this new service. Copies of the thousand-block application, the MTE certification, and NeuStar's denial are attached and incorporated herein.

For the reasons set forth herein, Windstream respectfully requests that the Commission overturn NeuStar's denial and direct NeuStar to allocate to Windstream the requested additional one thousand number block.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'William A. Adams', is written over a horizontal line.

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the TelcordiaTM LERGTM Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by TelcordiaTM Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLITM tandem of the facilities based provider^{xi}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied. The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Foot Notes :

- ⁱ Identify the type of change(s) in Section 1.5.
- ⁱⁱ The Pool Administrator is available to assist in completing these forms.
- ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.
- ^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).
- ^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLITM code of the switch /POI.
- ^{vi} Rate Center name must be a tariffed Rate Center.
- ^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.
- ^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the network prior to the effective date of the block(s).
- ^{ix} Select if you are the current Block Holder.
- ^x Select if you are not the current Block Holder
- ^{xi} Telcordia, LERG Routing Guide, and CLLI are trademarks of Telcordia Technologies, Inc.

Explanation: _____

¹ A copy of this worksheet is required to be submitted to the Pooling Administrator when requesting additional numbering resources in a rate center. For auditing purposes, the applicant must retain a copy of this document.

² Quantity of numbers activated in the past 90 days is based on blocks and/or codes received from the administrator and shall be reported in increments of 1,000 or 10,000 TNs (e. g.: 2 blocks received=2,000 and 1 code received =10,000).

³ Net change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #6 as the current month.

⁴ Forecast of TNs needed in each following month, starting with the most recent month as Month #1.

⁵ To be assigned an additional thousands-block (NXX-X) for growth, "Months to Exhaust" must be less than or equal to 6 months. (FCC 00-104, section 52.15 (g) (3) (iii)).

⁶ Newly acquired numbers may be excluded from the Utilization calculation (FCC 00104, section 52.15 (g)(3)(ii))
