WINDSTREAM WESTERN RESERVE, INC.'S MOTION FOR REVIEW  
OF DECISION OF NEUSTAR – POOLING ADMINISTRATOR

---

Pursuant to 47 CFR § 52.15(g)(3)(iv), Windstream Western Reserve, Inc. ("Windstream") hereby moves the Public Utilities Commission of Ohio ("Commission") to review a decision of the Pooling Administrator ("PA" or "NeuStar") denying Windstream's request for numbering resources in one Ohio rate center. For the reasons set forth below, Windstream respectfully requests that the Commission overturn the PA's decision and direct it to assign the requested one thousand number block to Windstream.

Windstream recently submitted a request to NeuStar for a one thousand number block in accordance with current guidelines, including the months-to-exhaust ("MTE") certification procedures established in the Central Office Code Assignment Guidelines. Windstream is deploying a new packet switch to support a new VOIP product offering called Unified Communications. Windstream needs a one thousand number NXX block to establish the local routing number for the new switch. It does not have any one-thousand number blocks available in inventory to be moved to the new switch.

Windstream's request for the additional numbers from NeuStar was denied because Windstream does not meet the utilization threshold necessary in order to obtain numbering

resources. The Federal Communication Commission ("FCC") requires a MTE of six months or less and Windstream is now at 84.261.

The FCC's rules set forth the instant procedure for state commission review of a denial of a numbering resource request. 47 CFR § 52.15(g)(3)(iv). The FCC's rules allow a state commission to, "... overturn the NANPA's decision to withhold numbering resources from the carrier based on its determination that the carrier has demonstrated a verifiable need for numbering resources and has exhausted all other available remedies." 47 CFR § 52.15(g)(4).

The FCC Report and Order adopting this rule elaborates as follows:

We therefore clarify that states may also grant relief if a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory. Carriers may demonstrate such a need by providing the state with documentation of the customer request and current proof of utilization in the rate center. States may not accommodate requests for specific numbers (i.e., vanity numbers), but may grant requests for customers seeking contiguous blocks of numbers.

*Third Report and Order and Second Order on Reconsideration, Numbering Resource Optimization*, FCC 01-362, CC Docket Nos. 96-98 and 99-200, ¶ 64 (December 28, 2001).

This Commission has the authority to overturn the PA's decision when a carrier demonstrates that it cannot meet a customer need for a contiguous block of numbers from its current inventory. Windstream does not have the inventory for one thousand consecutive numbers in the Madison rate center to be able to offer this new service. Copies of the thousand-block application, the MTE certification, and NeuStar's denial are attached and incorporated herein.

For the reasons set forth herein, Windstream respectfully requests that the Commission overturn NeuStar's denial and direct NeuStar to allocate to Windstream the requested additional one thousand number block.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "William A. Adams", written over a horizontal line.

The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia<sup>TM</sup> LERG<sup>TM</sup> Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia<sup>TM</sup> Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI<sup>TM</sup> tandem of the facilities based provider<sup>xi</sup>. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.
