TARIFF FORMAT

Sheet Numbering. Sheet numbers appear in the upper right hand corner of the sheets. Sheets are numbered sequentially. From time to time new sheets may be added to the tariff. When a new sheet is added between existing sheets, a decimal is added to the preceding sheet number. For example, a new sheet added between sheets 5 and 6 would be numbered 5.1.

Sheet Revision Numbers. Revision numbers also appear in the upper right corner of sheets. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th Revised Sheet No. 24 cancels the 3rd Revised Sheet No. 24.

Paragraph Numbering Sequence. There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level, as shown by the following example:

2
2.1
2.1.1
2.1.1.A
2.1.1.A.1
2.1.1.A.1.(a)
2.1.1.A.1.(a).I
2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1)

Check Sheets. When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current one on file with the Commission.

Notwithstanding anything to the contrary in this section, if Customer's service is interrupted and remains out of service for more than twenty-four (24) hours after the earlier of being reported to McLeodUSA or being found by McLeodUSA to be out of order, and if the interruption is not the result of a negligent or willful act by the Customer, a malfunction of Customer-owned equipment, McLeodUSA's inability to gain access to the Customer's premises, or causes beyond McLeodUSA's control as described in the first paragraph of this section, McLeodUSA will make appropriate adjustments upon request. Such adjustments, in the form of direct payments or bill credits, will be the proportionate part of the monthly charge for all services and facilities rendered inoperative during the interruption, beginning with the hour of the report to McLeodUSA, or discovery by McLeodUSA, of the interruption. Bills to Customers will be issued monthly unless McLeodUSA is authorized by the Commission to bill at other than monthly intervals because of unusual circumstances. Local service charges, including installation charges, are billed in advance. Certain toll charges and NRCs are billed in arrears. If a Customer elects, McLeodUSA may issue a billing statement to a Customer in an electronic format only.

McLeodUSA shall have no responsibility with respect to billings, charges, or disputes related to services used by the Customer which are not included in the services herein including, without limitation, any local, regional, and long distance services provided by a third party vendor. 2.9 Payment for Service

2.9.1 Late Payment Charge

McLeodUSA may impose a one time late payment charge not to exceed 1.5% on any bill not paid by the due date listed on the invoice. Customers are obligated to drop off payment at a designated payment location or mail payment to the address contained on the invoice. Customers shall be responsible for all costs incurred in the collection of unpaid charges or in any other action to enforce payments and/or obligations arising under this tariff. McLeodUSA will also charge a check service charge if a check tendered for payment is returned to McLeodUSA as non-sufficient funds (NSF) or is not in acceptable form.

Residential customers will be granted one complete forgiveness of a late payment charge each calendar year. On one monthly bill in each period of eligibility, the net amount of such bill will be accepted as full payment for the month after expiration of the net payment period. The Customer will be notified by mailed written notice that the eligibility has been used. Such forgiveness of late payment charges will have no effect on the credit rating of the Customer.

2.9.2 Partial Payment

If a Customer makes a partial payment in a timely manner and does not designate the service for which payment is made, the payment shall first be applied to the undisputed balance for local service, with the remainder applied on a pro rata basis to regulated utility services and toll service. Any remainder will then be applied to deregulated and unregulated services other than toll. Any late payment penalty charge will be applied only to the outstanding balance for utility services.

2.12.2 Deferment of Start of Service

If a request for deferment of service is received by McLeodUSA prior to the date an order for equipment or service is placed with McLeodUSA's supplier, no charge shall apply. For deferments received by McLeodUSA subsequent to the date the order for equipment or service is placed with McLeodUSA's supplier, a monthly recurring charge based upon the costs incurred prior to the request for the deferment applies. This monthly rate shall be equal to the deferred investment multiplied by the monthly prime interest rate as announced by USBank plus recurring costs resulting directly from the deferral such as storage, taxes, etc., unless otherwise ordered by the Commission.

In addition, any extraordinary nonrecurring costs resulting from the deferral, such as additional engineering, labor, and transportation, shall be billed in total. Billing shall start at the beginning of the month of deferment and extend to the start of service. Charges shall not exceed the monthly rate that would have applied had the service been established. McLeodUSA will also charge the Customer who defers service any and all rates and charges incurred by McLeodUSA for any leased facilities for which McLeodUSA is held responsible. McLeodUSA will make a good faith effort to minimize those rates and charges whenever possible.
