Inspection Notes: Driver was called off as a reckless operation. Driver was stopped by Tpr. R. Knebel Unit 950 for marked lanes violation. Driver was weaving back and forth in lane. Driver advised cab was damaged after being struck by another commercial vehicle while in a parking lot in Illinois but did not have any type of police report with him. Trailer brake lamps were stuck on not operable. Rear of tractor cab was damaged under bunk area in driver's side box. Chains and other equipment was secured by bungees. Floor of damaged side box was bent downward toward roadway. Driver was escorted to E & R Trailer Repair on Lincoln Highway where tractor and trailer were both placed OOS. Driver was argumentative about his tractor being placed OOS.

All violations of the FHMR and FMCSR or Title 49 of the Ohio Revised Code will be reviewed by the PUCO's Transportation Department to determine whether civil forfeitures should be assessed against any responsible parties in accordance with the penalty provisions of Title 49 of the Ohio Revised Code. If civil forfeitures are assessed, you will receive a separate notice by mail. These penalties may be assessed to motor carriers, shippers, and/or drivers.

ATTENTION DRIVER: This report must be sent to the motor carrier whose name appears at the top of this inspection report within 24 hours. If the inspection report cannot be delivered within 24 hours the driver must mail or fax the inspection report to the motor carrier.

ATTENTION MOTOR CARRIER: The motor carrier must examine this report and repair all the vehicle defects/violations noted above -AND- The motor carrier must sign the Certification of Repairs below and return the signed form to: Public Utilities Commission of Ohio-TASD; 180 E. Broad St.; Columbus, Oh; 43215-3793 -OR- Fax (614) 752-9274 within 15 days of the inspection. If "No Violations Were Discovered" then you do not need to return this report. Failure to return this report with the required certification can result in penalties up to \$1,000 per day for each day the violation continues, up to a total of \$10,000.

MOTOR CARRIER CERTIFICATION OF COMPLETED REPAIRS: The undersigned certifies that all violations noted on this report have been corrected and action taken to assure compliance with the Federal Motor Carrier Safety & Hazardous Materials Regulations insofar as they are applicable to motor carriers and drivers. A false certification of repairs is required to be prosecuted with penalties up to \$10,000.

Date of Birth: 11/18/1964

Inspection Notes: Vehicle and driver were placed out-of-service at a repair shop near Beaverdam, Ohio. An out-of-service sticker was applied to the windshield, left front corner of the trailer, and a driver out-of-service note was placed on the inspection report. This driver was served with the original copy of the inspection report. Driver's home address was verified.

This vehicle was placed out-of-service by O.S.H.P. C.M.V. Trooper Pargeon, Unit 1554/01, on 06/30/2010 at 13:45 hrs. This vehicle was placed out-of-service at E & R Trailer Sales and Service near Middle Point, Ohio. Trooper Pargeon's inspection report number was: OH1554003873.

This tractor was placed out-of-service for having equipment hanging out of the damaged area of the sleeper berth on the driver's side, unsecured. The equipment storage box area was broken open and equipment could be seen hanging out between the floor and side wall panel. The trailer was placed out-of-service for the brake lamps at the rear staying "on" all the time without a brake application.

During my interview with E & R Trailer Sales & Service & this driver, I noted the following. After Trooper Pargeon placed this vehicle out-of-service at the repair location, the driver stated to the mechanic that he repaired the brake lamps himself. The mechanic would not sign the inspection report under the "signature of repairer" because they did not do anything to this vehicle. The driver talked the mechanic in to writing a note saying the brake lamps worked. The driver had the mechanic watch the trailer brake lamps as the driver stepped on the brake pedal. They did work properly at that time, with the ignition key turned off, & the engine not running. Before Lt. Haas stopped this vehicle, he followed & viewed the brake lamps staying "on" while the vehicle traveled down the roadway. During this inspection, I found that the vehicle key had to be turned "on" & the engine running for the trailer brake lamps to malfunction.
