OneCommunity is 501(c)3 nonprofit organization with the mission to expand the use of high-speed broadband access and adoption to enhance the global competitiveness of Northeast Ohio. Through a combination of private foundation grants and Federal construction grants of over \$70 million, OneCommunity is building a community fiber network. This network will connect more than 1500 community anchor institutions such as hospitals, physician clinics, universities, K-12 schools, government entities, public safety agencies and nonprofit organizations. As demonstrated by the attached financial statements, the fixed asset base and the service fees generated from these customers both assure long term network sustainability and funding of the nonprofit mission. Additional working capital is provided by a consortium of regional banks and the proceeds of a New Markets Tax Credit loan closed in 2010.
