Re: Hardin Wind Farm  
Case No. 09-0479-EL-BGN / Case No. 11-3446-EL-BGA

Dear Mr. Stambaugh:

Theodore E. Wymyslo, M.D.  
Ohio Department of Health

Thank you for your input regarding Hardin Wind's proposal of a 300 MW wind farm consisting of up to 200 wind turbines in Hardin County, Ohio.

David Mustine  
Ohio Department of Natural Resources

On March 22, 2010, the applicant received a certificate for the siting, construction, operation, maintenance, and decommissioning of their proposed wind-powered electric generation facility. However, the applicant's June 13, 2011 amendment filing, Case No. 11-3446-EL-BGA, proposing a more efficient wind turbine, is currently under staff investigation.

Jim Zehringer  
Ohio Department of Agriculture

To view all activity pertaining to these cases, siting applications and/or rules governing the installation and operation of wind energy in Ohio, visit the OPSB website at [www.OPSB.ohio.gov](http://www.OPSB.ohio.gov).

Dr. Ali Keyhani  
Public Member

Again, the Board thanks you for your interest.

Very truly yours,

Louis W. Blessing Jr.  
Ohio House of Representatives

  
Kim Wissman, Executive Director  
Ohio Power Siting Board

**Re: Case # 11-3446-EL-BGA**

**Dear Executive Director:**

**I am writing to express my whole hearted support of the Hardin Wind Project to be located in the farmland of Hardin County. My family's history on the marshland goes back three generations. One fact all past and present farmers believe is that if you're going to stay in the game, you must embrace new technology. Now Ohioans have been given this challenge in the form of green energy initiatives provided by the state government. These of course come with a timeline.**

**I ask that you please greenlight the Hardin Wind Project so that Ohio sets a shining example to the nation of being a leader in science and energy.**

**Sincerely,**

A handwritten signature in black ink, appearing to read "James T. Stambaugh", with a long horizontal line extending from the end of the signature.
