In all cases of pole line construction on public highways, ownership is vested in the Telephone Company. All instrumentalities erected on public highways are owned and maintained by the Telephone Company. When the Telephone Company attaches its facilities to the poles of other companies, in lieu of providing pole line construction, the charges to be applied are the same as those which would have been applied if pole line construction had been provided by the Telephone Company.

3. Buried Entrance

Where a buried wire or buried cable type of entrance facilities is provided by the Telephone Company in cases where such type of facility is not considered normal, as hereinafter set forth, the subscriber shall be required to pay for all excavation and fill-in in connection with maintenance and replacement of such buried wire or buried cable type of entrance facility.

F. SPECIAL ASSEMBLAGES

Where the Telephone Company, at the request of the subscriber, furnishes special assemblages or special services that are not provided for under this Tariff, a charge therefor, in addition to the published rates, will be made in each case. Special assemblages will be made at the discretion of the Telephone Company.

G. TOUCH TONE SERVICE

Touch Tone Service is included in the individual access line rate, set forth in Section 1, Sheet 4 of this Tariff.

Customers who did not have Touch Tone Service as of October 1, 2006 will be grandfathered and will receive a lower rate that excludes the integrated \$1.50 touch tone charge. However, any subsequent change to service, or disconnection followed by reconnection, will result in the loss of the grandfathering exception and will require that customer to upgrade to Touch Tone Service.
