## MEMORANDUM IN SUPPORT

As more fully explained in separate motions for protection being filed by Eramet, Globe and Timken (collectively “the customers”), the customers claim that the unredacted Schedules 2, 4-6 contain confidential and proprietary customer load information that merits protection from disclosure. The Companies take no position as whether the customers’ load data is confidential and proprietary under Ohio law, but wanted to ensure that the customers had a timely opportunity to seek protection. The Companies also note for the Commission’s understanding that the load information relating to Ormet Primary Aluminum (Ormet) was included in the public version of the supporting Schedules after the Companies consulted with Ormet and were notified by Ormet that there is no need to redact the information or seek a protective order.

Respectfully submitted,
