Re: Case No. 07-464-TP-UNC
Case No. 90-5032-TP-TRF

Dear Ms. McCauley:

On August 10, 2011, tariff pages for the Ameritech Operating Companies were filed with the Federal Communications Commission under Transmittal No. 1748. This filing in the FCC No. 2 Tariff became effective on August 25, 2011.

The filing was made by AT&T to grandfather Multichannel Video Service (MVS). AT&T'S 214 application for grandfathering this service was automatically deemed granted on August 1, 2011. Additional changes were made to clean up language related to Analog Video Service, which was discontinued in February, 2011, and Supertrunking Video Service, which was grandfathered in May, 2011. No intrastate customers exist for any of these services.

These tariff pages can also be viewed on the FCC website at <http://svartifoss2.fcc.gov>. Once you have accessed the page, please follow the following steps to access this filing:

1. Click on FCC Electronic Filing and Public Access Systems.
2. Click on Electronic Tariff Filing System (ETFS).
3. Click on Public Access.
4. Click on the Browse Filed Tariff Documents block.
5. Click on the Browse Filed by an ILEC block.
6. Click on Ameritech Services.
7. Click on FCC 2 - Access Services.
8. Locate tariff pages for Transmittal No. 1748 and click on the block showing "Acrobat PDF" (third column from the left).

This process will provide you with the specific pages filed by SBC for Ohio.

Should you have any questions or require additional information, please contact me at 223-8184.

Very truly yours,

Susan Drombetta
Area Manager-Regulatory Affairs

Patrick Doherty
Director – Access Regulatory Affairs
Four AT&T Plaza
Room 1921
Dallas, Texas 75202

This filing is being made on a streamlined basis on 15 days notice under Section 204(a) (3) of the Communications Act.

FRN: 0020-5728-30

August 10, 2011

Transmittal No. 1748

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
Washington, D.C. 20554

Attention: Wireline Competition Bureau

The accompanying tariff material, issued by Ameritech Operating Companies (Ameritech) and bearing Tariff F.C.C. No. 2 is sent to you for filing in compliance with the requirements of the Communications Act of 1934, as amended.

This filing, scheduled to become effective August 25, 2011, consists of the tariff pages as indicated on the following Check Sheets:

<u>Tariff F.C.C. No.</u>	<u>Check Sheet Revision No.</u>
2	1581st Revised Page 1
	229th Revised Page 1.5
	201st Revised Page 1.6
	135th Revised Page 1.7
	113th Revised Page 1.8
	149th Revised Page 1.9
	57th Revised Page 1.15
	68th Revised Page 1.16

With this filing, Ameritech is proposing to grandfather Multichannel Video Service (MVS). Ameritech's 214 application for grandfathering this service was automatically deemed granted effective August 1, 2011. Clean-up items are also included to complete removal of Wideband Analog Video Service (WAVS), which was discontinued effective February 23, 2011, and Supertrunking Video Service (SVS), which was grandfathered effective May 21, 2011.

Wireline Competition Bureau

August 10, 2011

In accordance with Section 61.14, this transmittal letter and associated attachments are being filed electronically today via the Federal Communications Commission's Electronic Tariff Filing System (ETFS) in compliance with the electronic filing procedures.

Payment in the amount of \$845.00 has been electronically transmitted to the US Bank in St. Louis, Missouri, in accordance with the fee program procedures. The Form 159 is being transmitted electronically via ETFS as a proprietary document. These actions have been committed on the date established as the issued (filed) date as reflected above.

Personal or facsimile service petitions against this Transmittal, as required under Section 1.773(a)(4) of the Commission's Rules, should be sent to Scott Murray, Area Manager – Rates/Tariffs, 311 S. Akard St., Room 1940.04, Dallas, TX 75202, facsimile number (214) 858-0639. All other correspondence and inquiries concerning this Transmittal should be addressed to Debra L. Clemens, Director-Federal Regulatory, (202) 457-3066, 1120 20th Street, N.W., Suite 1000, Washington, D.C. 20036.

Sincerely,

A handwritten signature in black ink, reading "Patrick R. Doherty". The signature is written in a cursive style with a large, stylized "P" and a long, sweeping underline.

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.1 General (Cont'd)

7.1.1 Channel Types (Cont'd)

Detailed descriptions of each of the channel types are provided in 7.2 following.

The customer also has the option of ordering direct analog service, or DS1 or DS3 Service operating at terminating speeds of 1.544 Mbps or 44.736 Mbps, to a Telephone Company Hub for multiplexing to individual channels of a lower capacity or bandwidth. Descriptions of the types of multiplexing available at the Hubs, as well as the number of individual channels which may be derived from each type of facility are set forth in 7.2 following. Additionally, the customer may specify optional features for the individual channels derived from the facility to further tailor the channel to meet specific communications requirements. Descriptions of the optional features and functions available are also set forth in 7.2 following.

For example, a customer may order a 44.736 Mbps facility from a customer designated premises to a Telephone Company Hub for multiplexing to twenty eight 1.544 Mbps channels. The 1.544 Mbps channels may be further multiplexed at the same or a different Hub to Direct Analog Service (i.e., Group Level) channels or may be extended to other customer designated premises. Optional features may be added to either the 1.544 Mbps or the Direct Analog Service Channels.

Supertrunking Video Service (SVS)⁽¹⁾ may be ordered between customer designated premises or from a customer designated premises to a Telephone Company Central Office for the purposes of splitting the video signal for distribution to multiple customer premises in a multipoint circuit.

Multichannel Video Service (MVS)⁽²⁾ may be ordered as MVS-A Hub Transport, between (N) a Customer designated premises and a Telephone Company Video Hub for cross connecting to other video services, or as MVS-A Customer Premises transport, between customer designated premises via a Telephone Company Central Office. (N)

⁽¹⁾ Effective May 21, 2011, SVS is no longer available to new customers. There is no change for existing customers. (T)

⁽²⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers. (N)
(N)

(This page filed under Transmittal No. 1748)

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.2 Service Description (Cont'd)

7.2.5 Video Service (Cont'd)

(A) Basic Channel Description (Cont'd)

(3) Supertrunking Video Service (SVS) ⁽¹⁾

SVS provides fiber based one-way transport of multiple amplitude modulated (AM) vestigial sideband (VSB) standard 525 line/60 field monochrome or National Television Systems Committee (NTSC) color video signals and associated audio signals. SVS provides for the transmission of a single AM Radio Frequency (RF) signal that is a composite of multiple AM-VSB video signals each limited to a 6 MHz bandwidth. SVS will carry up to 110 6 MHz channels of video programming within a bandwidth of 54 MHz to 750 MHz.

SVS provides one-way video transport on a point-to-point or multipoint basis. Point-to-point SVS is provided between customer designated premises. Multipoint SVS is provided between a customer designated premises and multiple customer designated premises via a Telephone Company Central Office.

The signal quality of the video channel depends on;

- 1) The total number of video signals that are transported,
- 2) The end-to-end loss budget of the video circuit.

Customers may select from performance packages which support either 30, 60, 80 or 110 channels. Each package has unique set of performance parameters and distance limitations as specified in Technical Reference AM-TR-NIS-000131.

SVS rate categories are composed of Local Distribution Channels (LDCs) for facilities between the customers premises and serving wire center, Channel Mileage and Channel Mileage Terminations for interoffice facilities and Optional Features and Functions. Monthly and Optional Payment Plan (OPP) recurring rates are available for SVS LDCs as set forth in Section 7.5.5(C)(1)(a).

Monthly and OPP recurring Channel Mileage Termination (CMT) and Channel Mileage (CM) rates are available for SVS interoffice transport as set forth in Sections 7.5.5(C)(2) and 7.5.5(C)(3).

The Optional Features and Functions Video Bridging and Video Repeater are available with SVS at rates set forth in Section 7.5.5(C)(4)(a) and (b).

⁽¹⁾ Effective May 21, 2011, SVS is no longer available to new customers. There is no change for existing customers. (T)

ACCESS SERVICE

7. Special Access Service (cont'd)

7.2 Service Description (cont'd)

7.2.5 Video Service (cont'd)

(A) Basic Channel Description (cont'd)

(4) Multichannel Video Service (MVS)⁽¹⁾ (N)

MVS provides fiber based one-way transport of multiple high quality video and audio signals. An MVS transport system provides for up to 16 video transport channels, which may provide anywhere from 8 to 32 individual video service channels, depending on the blend of MVS sub-services (A/C/D) utilized.

Each MVS video transport channel may accommodate a single uncompressed broadcast analog video service channel with associated audios (MVS-A); or two digital video service channels with associated audio streams (MVS-D). Two video transport channels may accommodate a single serial component video service channel with embedded ancillary data streams and audio (MVS-C). An MVS transport system supports 16 transport channels which may accommodate a representative blend of the above video service channels.

The technical specifications for MVS video transport are described in Technical Reference AM-TR-NIS-000130. Customers must provide specific equipment at their premises as specified in this Technical Reference.

MVS provides one-way point-to-point or point to multi-point video transport systems with a total of 16 video transport channels per system:

- 1) MVS Hub Transport - A multichannel video transport service between a customer designated premises and a Telephone Company Video Hub office.

A hub transport system may be cross connected at the individual channel level with compatible video services or to another compatible MVS hub transport system, at the Telephone Company hub.

Hub transport systems may be provided on a point to multipoint basis.

- 2) MVS Customer Premises Transport - A multichannel video transport service between two customer designated premises provisioned via a Telephone Company Central Office.

⁽¹⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers. (N)
(N)

(This page filed under Transmittal No. 1748)

7. Special Access Service (Cont'd)

7.2 Service Description (Cont'd)

7.2.5 Video Service (Cont'd)

(A) Basic Channel Description (Cont'd)

(4) Multichannel Video Service (MVS) ⁽¹⁾ (Cont'd) (N)

MVS transport systems provide for the following types of video service channels:

- A) Analog (MVS-A) provides a standard 525 line/60 field monochrome or National Television Systems Committee (NTSC) color video signal and associated audio signals. MVS-A provides for the transmission of an individual uncompressed analog video service channel each with up to four, associated 50 Hz to 15 kHz audio channels. The audio channels provide for Stereo, Second Audio Program (SAP), Broadcast Television Steering Committee (BTSC) or Professional (PRO) aural transport. An MVS transport system will support up to 16 MVS-A video service channels.
- B) Component (MVS-C) provides a high quality digital 4:2:2 10-bit component ANSI/SMPTE 259M video channel. Each component video service channel requires two MVS transport channels, thereby reducing the number of Serial Component video service channels to 8 per transport system. Ancillary data streams; i.e. digital audio, machine or time control, and audio channels, may be embedded by the customer.
- C) Digital (MVS-D) provides a multiplexed 45 Mbps video service channel which may accommodate MPEG-2 system compliant encoded video and audio stream as described in MPEG-2 Systems International Standard ISO/IEC 1-13818 IS. Two MVS-D video service channels may be accommodated by a single video transport channel, thereby providing up to 32 MVS-D video service channels per transport system. Audio channels may be embedded by the customer.

⁽¹⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers. (N)
(N)

(This page filed under Transmittal No. 1748)

ACCESS SERVICE

7. Special Access Service (cont'd)

7.2 Service Description (cont'd)

7.2.5 Video Service (cont'd)

(A) Basic Channel Description (cont'd)

(4) Multichannel Video Service (MVS)⁽¹⁾ (Cont'd) (N)

MVS rate categories are composed of Local Distribution Channels (LDCs), a transport system with associated video service channels, for facilities between the customer premises and serving wire center, Channel Mileage and Channel Mileage Terminations for interoffice facilities and Optional Features and Functions. Monthly and Optional Payment Plan (OPP) recurring rates are available for MVS LDCs as set forth in Section 7.5.5(D)(1).

Monthly and OPP recurring Channel Mileage Termination (CMT) and Channel Mileage (CM) rates are available for MVS interoffice transport as set forth in Sections 7.5.5(D)(2) and 7.5.5(D)(3).

The Optional Features and Functions MVS Regenerator, MVS Video Bridging, MVS Route Survivability and MVS Service Survivability are available with MVS at rates set forth in Section 7.5.5(D)(4)(a), (b), (c) and (d).

⁽¹⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers. (N)

(This page filed under Transmittal No. 1748)

ACCESS SERVICE

7. Special Access Service (cont'd)

7.2 Service Description (cont'd)

7.2.5 Video Service (cont'd)

(C) Network Channel Interfaces (cont'd)

CI	Audio Bandwidth	Provision
06TV6.15	15kHz	1 or 2 Channels, diplexed
10TV6.15A	15kHz	1 to 4 Channels, diplexed
02WV6.J.O-		1 Channel, RF
02WV6.J.-O		1 Channel, RF
01WVF.L.O-	50Hz to 15kHz	1,2 or 4 Channels
01WVF.L.-O	50Hz to 15kHz	1,2 or 4 Channels
02WV6.K	No Audio	
02TD6.20.0-	20 kHz	1 to 6 Channels
02TD6.20.-0	20 kHz	1 to 6 Channels

(D) Optional Features and Functions

(1) Video Bridging Capability ^{(1), (2)}

(N)

Video Bridging Capability is available with Supertrunking Video Service (SVS) and Multichannel Video Service (MVS). When the Video Bridging Capability option is ordered in conjunction with SVS/MVS, the composite SVS/MVS signal will be optically split to allow one-way transmission to multiple customer designated premises. Each of the multiple customer premises receives the same composite SVS/MVS video signal. This option is required with SVS/MVS multipoint configurations when the splitting function is not combined with the retransmission of the SVS/MVS signal.

When MVS Video Bridging is used, all receiving segments of the circuit must have the same video service channels (MVS /C/D) as the originating segment.

(2) Video Repeater ⁽¹⁾

Video Repeaters provide for the retransmission of the video signal. A Video Repeater will be required when the distance between the customer designated video customer premises is greater than the single system optical power budget. The Video Repeater function is divided into Video Receive Repeater and Video Transmitter Repeater rate elements to accommodate customer requests to simultaneously split and retransmit SVS video signals. The Video Repeater option is available for SVS video services.

⁽¹⁾ Effective May 21, 2011, SVC is no longer available to new customers. There is no change for existing customers.

⁽²⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers.

7.2 Service Description (Cont'd)

7.2.5 Video Service (Cont'd)

(D) Optional Features and Functions (Cont'd)

(6) AMVS Route Survivability⁽¹⁾

(N)

The AMVS Route Survivability option is available for individual two point AMVS Services; i.e., either AMVS Customer Premises Transport between two customer designated premises or AMVS Hub Transport between a customer designated premises and a Telephone Company Video Hub. AMVS Route Survivability provides a transmission path that is diverse from the normal transmission path designated by the Telephone Company (see example below).

AMVS Route Survivability is available for either the AMVS Local Distribution Channels (LDCs) and/or AMVS Channel Mileage associated with either AMVS Customer Premises Transport or AMVS Hub Transport service. AMVS LDC Route Survivability provides a transmission path between the customer's designated premises and serving wire center that is diverse from the normal LDC path. AMVS Channel Mileage (CM) Route Survivability provides an interoffice transmission path that is diverse from the normal interoffice transmission path between serving wire centers.

When the customer orders an AMVS service with the AMVS LDC or CM Route Survivability option, only the AMVS LDC or CM Route Survivability rates in Section 7.5.5(E)(4)(b) apply for the LDC or CM portion of the diversely routed service. AMVS Route Survivability nonrecurring charges in Section 7.5.5(E)(4)(b) will apply to diversely routed portions of an AMVS service in addition to the AMVS nonrecurring charges in Section 7.5.13.

Prior to confirming an order for AMVS Route Survivability, the Telephone Company will provide a proposed route diagram to the customer. Any routing which is common to the normal and diverse routes (e.g., entrances to the customer's premises or at a wire center) will be disclosed to the customer. The diagram will include the number of quarter route miles for AMVS LDC Route Survivability and the method used to determine the mileage. The Telephone Company will only provide the route survivability information to the ordering customer in order to insure that the information is not compromised. Where facilities are not available, Special Construction may apply.

The installation of the AMVS Route Survivability option will not begin until the customer has accepted the proposed routing.

⁽¹⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers.

7.2 Service Description (Cont'd)

7.2.5 Video Service (Cont'd)

(D) Optional Features and Functions (Cont'd)

(7) AMVS Service Survivability⁽¹⁾

(N)

AMVS Service Survivability provides diversity for part or all of a network of three or more interconnected customer designated premises. AMVS Service Survivability provides diversity between the multiple separate AMVS Customer Premises Transport services that interconnect the customer premises on the network. AMVS Service Survivability is available for both AMVS LDCs and/or AMVS Channel Mileage. The customer must specify which AMVS services or portions of AMVS Service will be diverse from other AMVS services or portions of AMVS services within the network. The Telephone Company will work cooperatively with the customer to identify which portions of each different AMVS service requires diverse routing to insure total network survivability.

With AMVS Service Survivability, the originating and terminating location of a specific AMVS service and the originating and terminating location of the AMVS service that the customer has chosen to be diverse from that specific AMVS service, may be different (see example below).

When the customer orders an AMVS service with the AMVS LDC or CM Service Survivability option, only the AMVS LDC or CM Service Survivability rates in Section 7.5.5(E)(4)(c) apply for the LDC or CM portion of the diversely routed service. Separate AMVS Service Survivability nonrecurring charges in Section 7.5.5(E)(4)(c) will apply to diversely routed portions of an AMVS service in addition to the AMVS nonrecurring charges in Section 7.5.13.

Prior to confirming an order for AMVS Service Survivability, the Telephone Company will provide a proposed route diagram to the customer. Any routing which is common to the normal and diverse routes (e.g., entrances to the customer's premises or at a wire center) will be disclosed to the customer. The diagram will include the number of quarter route miles for AMVS LDC Service Survivability and the method used to determine the mileage. The Telephone Company will only provide the Service Survivability information to the ordering customer to insure that the information is not compromised. Where facilities are not available, Special Construction may apply.

The installation of the AMVS Service Survivability option will not begin until the customer has accepted the proposed routing.

7.2 Service Description (Cont'd)

7.2.5 Video Service (Cont'd)

(D) Optional Features and Functions⁽¹⁾ (Cont'd)

(N)

An example of AMVS Service Survivability is shown below. The example displays an AMVS Service Survivability arrangement consisting of a network of three customer premises locations. These locations are interconnected by two sets of individual AMVS Customer Premises Transport services. The customer, with the Telephone Company, will identify which portions of the interconnected AMVS services are to be diversely routed in order to protect against fiber cuts and help insure delivery of the AMVS video signal from Customer Premises 1 (CP1) to both CP2 and CP3. The solid arrows show the delivery of AMVS video signal from CP1 to CP2 and then to CP3. The dotted arrows display the delivery of AMVS video signal from CP1 to CP3 and then to CP2. With the AMVS Service Survivability option, the customer may choose to diversely route LDC 1B from LDC 1A, LDC 2B from LDC 4A, LDC 4B from LDC 2A, CM 1B from CM 1A and CM 3B from CM 1A.

7.4 Rate Regulations (Cont'd)

7.4.2 Types of Rates and Charges (Cont'd)

(C) Nonrecurring Charges*

Nonrecurring charges are one-time charges that apply for specific work activity (i.e., installation of new services and rearrangements of installed services). The nonrecurring charges that apply for installation of Special Access Service are described in (1) through (3), following. Application of nonrecurring charges for service rearrangements is described in (6), following.

Certain optional features and functions also have separate installation nonrecurring charges as described in (4), following. There are also separate nonrecurring charges for circuit record work associated with hub rearrangements. Applications of these charges is described in (5), following.

(1) Administrative Charge

The Administrative Charge applies any time a customer initiates an order for service. This charge applies once per customer order, as described in Section 5.1 preceding. Administrative Charges for Special Access Service are set forth in 7.5.15 following.

(2) Design and Central Office Connection Charge ⁽¹⁾

The Design and Central Office Connection Charge applies to each service installed, and is charged once per circuit, except for multipoint Supertrunking Video Service (SVS). For multipoint SVS circuits, one Design and Central Office Connection Charge is charged for each leg of the SVS circuit associated with a terminating customer premises. The nonrecurring charges for design and central office connection are set forth in 7.5.15 following.

(3) Customer Connection Charge

The Customer Connection Charge applies to each service installed, and is charged once per Local Distribution Channel. The nonrecurring charges for customer connection are set forth in 7.5.15 following.

If a single order involves 500 or more terminations at the same location on the same customer requested date, the individual nonrecurring charges for the services provided will not apply, except for the Administrative Charge. The customer will be notified and will be provided

* For Services ordered under MVP, refer to Section 19.3(E)(5).

⁽¹⁾ Effective May 21, 2011, SVS is no longer available to new customers. There is no change for existing customers.

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.2 Types of Rates and Charges (Cont'd)

(C) Nonrecurring Charges* (Cont'd)

(6) Service Rearrangements (Cont'd)

- Change of customer name (i.e., the customer of record does not change but rather the customer of record changes its name -- e.g., AT&T Long Lines to AT&T - Communications),
- Change of customer premises or customer's end user premises address when the change of address does not require a physical relocation of equipment,
- Change in billing data (name, address, or contact name or telephone number or Optional Payment Plan information),
- Change of customer or customer's end user contact name or telephone number.

All other service rearrangements will be charged for as follows:

- If a change involves a change of the customer of record (i.e., Access Service is provided and billed to a different entity) and no physical relocation or rearrangement of the service is required, the Administrative Charge will apply. For the change of customer of record to be treated as a service rearrangement, the new customer must assume liability for both current and prior charges for the service.
- If the change involves the addition of one or more legs to an existing multipoint service, one Design and Central Office Connection Charge associated with the Special Access Service will apply, regardless of the number of legs added, except for multipoint Ameritech Supertrunking Video Service (SVS) ⁽¹⁾. One Design and Central Office Connection Charge will apply for the addition of each leg of multipoint SVS ⁽¹⁾ service associated with a terminating customer premises. One Customer Connection Charge will apply only for each leg that is being added. One Administrative Charge will also apply.

* For Services ordered under MVP, refer to Section 19.3(E)(5).

⁽¹⁾ Effective May 21, 2011, SVS is no longer available to new customers. There is no change for existing customers. (T)

7.4.2 Types of Rates and Charges (Cont'd)

(C) Nonrecurring Charges* (Cont'd)

(6) Service Rearrangements (Cont'd)

- If a change is made in payload mapping within an OCN Point-to-Point Service package, this change will require a redesign of OCN Point-to-Point Service and an Administrative Charge and Design and Central Office Connection Charge will apply.
- If a change is made in payload mapping within an OC-3, OC-12 or OC-48 Dedicated Ring service, an Administrative Charge and Design and Central Office Connection Charge will apply.
- If the change involves a change in the type of signaling on a Direct Analog Service, the Design and Central Office Connection Charge and the Customer Connection Charge associated with Direct Analog Service will apply. The Customer Connection Charge will apply per LDC affected. The Administrative Charge will also apply.
- If the Priority Restoration (PR) Level is changed on a Telecommunications Service Priority System service, the PR Level Change Charge will apply. The Administrative Charge will also apply.
- If a change involves the option Multiplexer Cross-Connection Service for DS1 and DS3 Service, the Administrative Charge will apply in addition to the Design and Central Office Connection Charge. No other nonrecurring charges will apply.
- If the change to an Supertrunking Video Service ⁽¹⁾ involves a change in the number of video channels transported, a customer premises visit may be required. If a customer visit is required, the Customer Connection Charge will apply per LDC affected. The Administrative Charge will also apply.

* For Services ordered under MVP, refer to Section 19.3(E)(5).

7.4 Rate Regulations (Cont'd)

7.4.5 Minimum Periods

The minimum service period for all services is one month, except as follows:

- (A) The minimum service period for part-time and occasional Video and Program Audio services is one day (i.e., a continuous 24 hour period, not limited to a calendar day).
- (B) The minimum period for service provided on an Individual Case Basis (ICB) is as specified in the ICB filing.
- (C) The minimum service period for a DS3 LDC with an Electrical Interface and a DS3 Service Package with an Optical Interface is 12 months. After the minimum period is satisfied, the monthly extension rate will apply.
- (D) The minimum service period for Ameritech OC-3 and Ameritech OC-12 Services is 12 months. After the minimum period is satisfied, the monthly rate will apply unless an OPP is selected.
- (E) The minimum service period for Ameritech OC-3 Dedicated Ring and Ameritech OC-12 Dedicated Ring service is 36 months. After the minimum period is satisfied, the prevailing rates of the current plan will continue until the customer cancels or renews the service.
- (F) The minimum service period for Ameritech Multichannel Video Service⁽²⁾ and Ameritech Supertrunking Video Service⁽¹⁾ is 12 months. After the minimum period is satisfied, the prevailing rates of the OPP selected by the customer will apply, or the monthly rates will apply if the customer's OPP term has expired. The minimum service period requirement for Ameritech Multichannel Video Service provided for the 1996 Democratic National Convention is one month. (N)
- (G) The minimum service period for SONET Xpress is 12 months. After the minimum period is satisfied, the monthly extension rate will apply unless an OPP is selected.

⁽¹⁾ Effective May 21, 2011, SVS is no longer available to new customers. There is no change for existing customers. (T)

ACCESS SERVICE

7. Special Access Service (cont'd)

7.4 Rate Regulations (cont'd)

7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3,⁽²⁾ TV Analog Video Services, Digital Video Service⁽³⁾, Supertrunking Video Services⁽³⁾, Multichannel Video Service⁽⁴⁾, (N) and SONET Xpress Service⁽²⁾

(A) General

The Optional Payment Plan is a provision that allows a customer to select Base Rate, DS1, DS3, TV Analog Video Service, Digital Video Service⁽³⁾, Multichannel Video Service (AMVS),⁽²⁾ (excluded DS1 - 128.0, 256.0, 384.0, 512.0 and 768.0 Kbps transport) and SONET Xpress, over a 12, 24, 36, 48 or 60 month payment period. Supertrunking Video Service (SVS)⁽³⁾ is available with 12, 36, 60 and 84 month payment periods. Monthly rates for services installed under this Payment Plan will change as Telephone Company initiated rate changes become effective but during the OPP term will not exceed the monthly rate in effect at the beginning of the customer's OPP term.*

During the term of the selected OPP, Telephone Company initiated rate changes (increases or decreases) will automatically be applied to the monthly payments for the remaining months of the current OPP term. But in no case will any rate change cause the monthly rate during the OPP term to exceed that in effect at the beginning of the customer's OPP term.

Supertrunking Video Service⁽³⁾, Multichannel Video Service, TV Analog Video Service and Digital Video Service⁽³⁾ (2), rates and charges for which the OPP is available are listed in 7.5.5 following. Base Rate, DS1, and DS3 Service rates and charges for which the OPP is available are listed in 7.5.9⁽²⁾ and SONET Xpress Service rates and charges for which OPP is available are listed in 7.5.12 following.

Customers subscribing to the OPP will be subject to nonrecurring charges⁽¹⁾ as specified in 7.5.13 for installation and rearrangements of service covered by the plan. The nonrecurring charges will not be spread over the OPP term. If the customer subscribes to the OPP on an existing service with no other changes, no nonrecurring charges will apply.

* For DS3 customers under an OPP as of August 4, 1992, the sum of the rates for the Service Package and Service Channels will not exceed, for the remainder of the OPP term, the rate in effect at the beginning of the customer's OPP Term.

(1) For Services ordered under MVP, refer to Section 19.3(E)(5).

(2) Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

(3) Effective May 21, 2011, SVS and Digital Video Service are no longer available to new customers. (T)
There is no change for existing customers.

(4) Effective August 25, 2011, MVS is no longer available to new customers. There is no change for (N)
existing customers. (N)

(This page filed under Transmittal No. 1748)

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

- 7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3,⁽¹⁾ TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Service⁽¹⁾ (Cont'd)

(N)

(A) General (Cont'd)

At the expiration of the OPP term and if the customer wishes to continue Base Rate, DS1, DS3, TV Analog Video Service, Digital Video Service, ASVS, AMVS⁽¹⁾, or SONET Xpress Service, the customer may select a new OPP at the prevailing OPP rate. If a customer does not wish to renew the OPP at the expiration of the term, the customer's service will automatically convert to month-to-month or DS3,⁽¹⁾ or SONET Xpress Monthly Extension rates.

(B) Prepayment of an OPP

A customer may, at any time during an OPP term, elect to prepay the remaining monthly charges for the rest of the term. The prepayment amount will be adjusted for the time value of money. Recurring charges will cease for the rest of the term and start up again at the end of the OPP if service has not been disconnected. If prepayment has been elected and the service is discontinued prior to the end of the OPP term, a credit for the unused portion of the OPP term, adjusted for the time value of money, will be given to the customer. Termination charges will still be applicable. Once a customer selects the prepayment option, the prepaid amount is not adjusted for company initiated rate changes that occur during the period for which the customer has prepaid.

(C) OPP Termination Liabilities

Customers requesting termination of service prior to the expiration date of the OPP term will be liable for a termination charge. The termination charge for all OPP terms, except for Base Rate OPP terms subscribed to after October 8, 1997, DS1 and DS3 OPP terms subscribed to after February 20, 1997 and DS3 Service Packages with an Optical Interface (see 7.4.10 C(i)), will be calculated as follows:

The dollar difference between the current OPP rate for the OPP term that could have been completed during the time the service was actually in service, or the monthly rate for services in place less than 12 months, and the customer's current OPP rate for each month the service was provided.

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

⁽²⁾ Effective May 21, 2011, SVS and Digital Video Service are no longer available to new customers. There is no change for existing customers.

(T)

⁽³⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers.

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

- 7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3, ⁽¹⁾, TV Analog Video Services, Digital Video Service ⁽²⁾, Supertrunking Video Services ⁽²⁾, Multichannel Video Service ⁽³⁾, and SONET Express Services ⁽¹⁾ (Cont'd) (N)

C. OPP Termination Liabilities (Cont'd)

For example, a customer subscribed to a 60 month OPP term and disconnected service during the 37th month. This customer's termination charge would be:

$$[36 \text{ month OPP Rate} - 60 \text{ month OPP rate}] \times 37 = \text{Termination Charge.}$$

The 36 month OPP term could have been completed during the months the service was actually in service.

All recurring rate termination charges will be based on the recurring OPP rates in effect at the time of termination.

Termination Liability charges for all OPP terms including DS3 Service that have been initiated prior to August 29, 1992 may, at the customer's request, be charged as described above or pay a percentage of the monthly charges for the remainder of the term as indicated below:

OPP Terms in Months	Termination Percentage
12	85
36	75
60	60

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

⁽²⁾ Effective May 21, 2011, SVS and Digital Video Service are no longer available to new customers. There is no change for existing customers. (T)

ACCESS SERVICE

7. Special Access Service (cont'd)

7.4 Rate Regulations (cont'd)

- 7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3,⁽¹⁾ TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Services⁽¹⁾ (cont'd)

(N)

(C) OPP Termination Liabilities (cont'd)

- (i) Except for DS1 and DS3 OPP terms subscribed to under the OPP Renewal Program as described in 17.2(6) following, the termination charges for Base Rate OPP terms subscribed to after October 8, 1997, DS1 and DS3 OPP terms subscribed to after February 20, 1997, and DS3 Service Packages, discontinued prior to the expiration of the selected OPP term will be calculated as follows:

(a) Service discontinued in 1st through 11th month:

(1) DS3 Service Packages with an Optical Interface

$(.85 \times 12 \text{ Mo. OPP rate} \times [12 - \text{number of Months in service}]) + ([12 \text{ Mo. OPP rate} - \text{subscribed to OPP rate}] \times \text{number of Months in service})$

For example: A customer subscribed to a 36 month OPP term and disconnected service at the end of the fifth month. This customer's termination charge would be:

$(.85 \times 12 \text{ Mo. OPP rate} \times [12 - 5 \text{ Mos}]) + ([12 \text{ Mo. OPP rate} - 36 \text{ Mo OPP rate}] \times 5 \text{ Mos})$

(2) Base Rate, DS1 and DS3 rate elements other than Service Packages

$(.40 \times 12 \text{ Mo. OPP rate} \times [12 - \text{number of Months in service}]) + ([12 \text{ Mo. OPP rate} - \text{subscribed to OPP rate}] \times \text{number of Months in service})$

For example: A customer subscribed to a 36 month OPP term and disconnected service at the end of the fifth month. This customer's termination charge would be:

$(.40 \times 12 \text{ Mo. OPP rate} \times [12 - 5 \text{ Mos}]) + ([12 \text{ Mo. OPP rate} - 36 \text{ Mo OPP rate}] \times 5 \text{ Mos})$

ACCESS SERVICE

7. Special Access Service (cont'd)

7.4 Rate Regulations (cont'd)

- 7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3,⁽¹⁾ TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Services⁽¹⁾ (cont'd)

(N)

(C) OPP Termination Liabilities (cont'd)

(b) Service discontinued in 12th through 60th month:

The dollar difference between the current OPP rate for the OPP term that could have been completed during the time the service was actually in service, and the customer's current OPP rate for each month the service was provided.

Termination liability for services provided under the Volume Pricing Plan (VPP) for DS3 LDCs with an Electrical Interface as described in 7.4.10 I following, will be calculated prior to the application of any volume discounts associated with the plan.

Except as provided in 7.4.10 D following, any customer terminating a DS1 service that was installed after February 20, 1997, or a DS3 service that was installed after June 10, 1998, before the expiration of the term under which it was installed shall also be liable for a nonrecurring termination charge. The nonrecurring termination charge will be the dollar difference between the nonrecurring charge for an OPP term that could have been completed during the time the service was actually in service, or the nonrecurring charge associated with the minimum service period for services in place less than 12 months, and the nonrecurring charge the customer actually paid.

(D) Conversion of service to New OPP, Higher Speed, or SONET Xpress Service

During a customer's OPP term, conversion may be made to a new OPP term of the same or different length or to a higher speed service or to the same or higher speed SONET Xpress service. If the expiration date for the new service or OPP term is beyond the end of the original OPP term, the remaining OPP charges and any nonrecurring termination charges for the original term will not apply. If no physical changes are made to the service, the Administrative Charge, the Design and Central Office Connection Charge and the Customer Connection Charge will not apply.

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

- 7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3,⁽¹⁾ TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Services⁽¹⁾ (cont'd)

(N)

(E) Moves

(i) DS1 Service and Base Rate Service

During an OPP term a customer may move one Local Distribution Channel (LDC) of an DS1 or Base Rate service to another location in the same LATA and keep the OPP in force, provided no lapse in service occurs. Nonrecurring charges for the move will be based on the customer's existing OPP term.

During an OPP term, a customer may purchase a Local Channel Diversity Arrangement or an Interwire Center Diversity Arrangement (described in Section 11.1.1) and move an in-service DS1 or Base Rate Service to one of these arrangements while keeping the OPP in force, provided the customer's premises and serving wire center remain the same and no lapse in service occurs.

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

⁽²⁾ Effective May 21, 2011, SVS and Digital Video Service are no longer available to new customers. There is no change for existing customers.

(T)

⁽³⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers.

(E) Moves (cont'd)

(ii) DS3 Service

During an OPP term a customer may move one Local Distribution Channel (LDC) of an DS3 Service to another location within the same LATA without incurring termination charges, as described in G following, provided the following conditions are met:

- The DS3 Service has satisfied the twelve month minimum service period requirement at the old location,
- for DS3 Service Channels with an Optical Interface, the number of DS3 Service Channels with an Optical Interface at the new location must be the same or greater than the number of DS3 Service Channels with an Optical Interface being discontinued at the old location,
- the customer subscribes to a new OPP term at the new location that is equal to, or greater than the remaining period of the OPP term being discontinued at the old location and,
- no lapse in service occurs.

A new twelve month minimum service period requirement will apply to the DS3 Service at the new location. The monthly rates for the new service will be those rates in effect at the time the new service is installed.

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

⁽²⁾ Effective May 21, 2011, SVS and Digital Video Service are no longer available to new customers. There is no change for existing customers. (T)

ACCESS SERVICE

7. Special Access Service (cont'd)

7.4 Rate Regulations (cont'd)

- 7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3,⁽¹⁾ TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Services⁽¹⁾ (cont'd)

(N)

(F) NRS

During a customer's OPP term, a customer may elect to include an DS3, DS1 or an Base Rate service into the customer's Network Reconfiguration Service (ANRS) database. The customer may opt to convert to a new OPP term of the same or different length or to continue the current OPP term to the original expiration date. If the expiration date for the new OPP term is beyond the end of the original OPP term, termination charges for the original term will not apply. Adding an existing service to the customer's ANRS database requires that all nonrecurring charges applicable to the installation of the service apply.

(G) DS3 Service Package with an Optical Interface Upgrade

During a customer's OPP term, conversion may be made from one DS3 Service Package with an Optical Interface to another larger package (e.g., DS3012 to DS3024) for a new OPP term of the same or different length. If the expiration date of the new OPP term is beyond the end of the original OPP term, termination charges will not apply to the original OPP term.

Monthly Extension rates for DS3 Service will apply only after a customer has completed an OPP term or an ICB minimum period.

(H) Moving Services from an OPP Term to a DCP Term

Customers may terminate Optional Payment Plans for Base Rate and DS1 services in states where they have effective Discount Commitment Program terms for those services. Upon termination of these Optional Payment Plans, the services will begin being billed DCP (as described in 7.4.13 following) rates subject to the DCP terms and conditions. No termination liability charges will be applied to services that move from an OPP term to a DCP term.

(I) Volume Pricing Plan for DS3 Local Distribution Channels with an Electrical Interface

(1) General

The Volume Pricing Plan (VPP) will be grandfathered as of January 11, 2002. Customers with OPPs on order or in effect prior to Jan 11, 2002, will continue to receive the VPP until the expiration of their OPP term. The VPP will not be available with OPPs that are ordered on or after January 11, 2002.

The Volume Pricing Plan (VPP) for DS3 Local Distribution Channels (LDCs) with an Electrical Interface (EI) provides rate discounts to customers based on the number of DS3 LDCs with an EI provided to the customer's designated premises and the Optional Payment Plan term selected by the customer.

The following volume discounts, shown in terms of percentage discounts, will be applied to DS3 LDC rates as specified in 7.5.9 (C) (1) (a) following. The volume discount will be based on the OPP term selected by the customer and the number of DS3 LDCs with an Electrical Interface provided to the same customer designated premises and will be provided as a credit on the customers monthly bill.

Volume Discount Band	DS3 LDC Quantity	Volume Discount Percentage Optional Payment Plan Term		
		12 and 24 Month	36 and 48 Month	60 Month
A	2	19.5%	2.4%	2.3%
B	3 to 5	23.6%	5.8%	5.5%
C	6 to 11	30.6%	8.5%	12.6%
D	12 to 23	41.8%	25.2%	25.2%
E	24 or more	52.4%	38.0%	33.8%

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3,⁽¹⁾ TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Services⁽¹⁾ (Cont'd) (N)

(l) Volume Pricing Plan for DS3 Local Distribution Channels with an Electrical Interface (Cont'd)

(1) General (Cont'd)

At the end of each monthly billing period, billing for DS3 LDCs with an EI that are provided under an OPP term will be adjusted via a billing credit. The monthly credit will be developed by determining the number of DS3 LDCs with an EI provided to the customer's designated premises, along with their associated OPP payment term, in service at the end of the monthly billing period. The preceding discount percentages will be applied to all of the customer's DS3 LDCs with a EI that are provided under the same OPP term, and billed to the same customer billing account and will be provided as a credit to the customer's monthly DS3 billing.

(2) Regulations

All of the customers in service DS3 LDCs with an EI provided under an OPP term, (both interstate access and intrastate access), along with all of the customer's LT-3 Entrance Facilities with an EI provided under an OPP term, as described in Section 6.8.2(D)(6)(g) preceding, will be used to determine the Volume Discount Band applicable for that monthly billing period.

When a customer has DS3 LDCs with an EI provided under different OPP payment terms, each OPP payment term will be administered separately and a Volume Discount Band will be determined for each OPP term based on the customers in service quantities for that term.

When there is more than one DS3 Local Distribution Channel termination location at the customer designated premises, each location will be administered separately and a Volume Discount Band(s) will be determined based on the DS3 Local Distribution Channel OPP term(s) at that location.

When the customer has elected the Prepayment of an OPP option as described in 7.4.10 B preceding, prepaid DS3 LDCs with an EI will be included in the monthly count of DS3 LDCs with an EI in order to determine the Volume Discount Band applicable for that monthly billing period, however, only non-prepaid DS3 LDCs with an EI will be discounted under the VPP.

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

⁽²⁾ Effective May 21, 2011, SVS and Digital Video Service are no longer available to new customers. There is no change for existing customers. (T)

⁽³⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers. (N)

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3,⁽¹⁾ TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Services⁽¹⁾ (Cont'd) (N)

(l) Volume Pricing Plan for DS3 Local Distribution Channels with an Electrical Interface (Cont'd)

(3) Conversion of DS3 Service Package and Service Channels in service prior to October 15, 1999

Except for DS3 Service Packages with an EI provided under OPP Vintage Rates as specified in 7.5.16 following, all DS3 Service Packages and Service Channels with an EI in service as of October 15, 1999, will be converted to individual DS3 LDCs with an EI. DS3 LDCs with an EI that are converted from a DS3 Service Package will be converted to the same OPP payment term, and retain the same expiration date as the Service Package. All terms and conditions described above related to the VPP will apply to converted DS3 LDCs.

(i) Conversion Credit for Converted DS3 LDCs

When a converted DS3 LDC rate under the VPP is higher than its equivalent rate under the discontinued Service Package structure, the customer will be given a one time credit, as shown following, based on the difference between what the customer would have paid under the Service Package structure and what the customer will pay under the VPP. The credit will be equal to the difference between the monthly rate for the Service Package, with activated DS3s, and the VPP rate for the same number of DS3s, times the number of months remaining in the customer's OPP term.

For example: assume that 10 converted DS3s were part of a former DS3L Service Package with 10 DS3s activated and the Service Package was located in a rate zone 3 wire center under a 60 month OPP term with six months remaining on the OPP term. The DS3 Conversion Credit will be calculated as follows:

\$415.42 (DS3 conversion credit for a rate zone 3 DS3L Service Package with 10 activated DS3s provided under a 60 month OPP term) X 6 (months remaining on the OPP term) = \$2,492.52 (Conversion Credit)

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3,⁽¹⁾ TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Services⁽¹⁾ (Cont'd) (N)

(l) Volume Pricing Plan for DS3 Local Distribution Channels with an Electrical Interface (Cont'd)

(3) Conversion of DS3 Service Package and Service Channels in service prior to October 15, 1999 (Cont'd)

Any customer terminating a DS3 LDC that was provided a DS3 Conversion Credit before the expiration of the OPP term under which it was converted shall be liable for a Conversion Credit termination charge. The Conversion Credit termination charge for each DS3 LDC terminated shall be equal to the monthly DS3 Conversion Credit originally provided to the customer, divided by the number of activated DS3s in the original Service Package times the number of months remaining in the customer's OPP term.

For example: Assume that 1 DS3 Local Distribution Channel, which is part of a former DS3L Service Package with 10 activated DS3s located in a rate zone 3 wire center under a 60 month OPP term, is discontinued 3 months before the expiration of its OPP term. The Conversion Credit termination charge will be calculated as follows:

$\$415.42$ (monthly conversion credit for a DS3L Service Package with 10 activated DS3s in a rate zone 3 wire center under a 60 month OPP term) / 10 (number of converted DS3s) = $\$41.54$ (Conversion Credit for 1 DS3) x 3 (number of months remaining in the customers 60 month OPP term) = $\$124.62$ (Conversion Credit termination charge).

The following one time DS3 Conversion Credit amounts, times the number of months remaining in the OPP term, apply to converted DS3 LDCs:

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3⁽¹⁾, TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Services⁽¹⁾ (Cont'd) (N)

(I) Volume Pricing Plan for DS3 Local Distribution Channels with an Electrical Interface (Cont'd)

(3) Conversion of DS3 Service Package and Service Channels in service prior to October 15, 1999 (Cont'd)

(ii) Termination Liability for Converted DS3 LDCs

Customers requesting termination of converted DS3 LDCs with an EI prior to the expiration date of the original OPP term may be liable for a termination charge. The termination charge for all OPP terms will be calculated as follows:

If the terminated DS3 LDC was a former DS3 Service Package with a capacity of one, the termination liability will be calculated as described in 7.4.10 C, preceding.

If the terminated DS3 LDC was part of a former DS3 Service Package with a capacity of more than one, and the terminated DS3 LDC will not bring the total number of DS3 LDCs remaining under the minimum required for the Service Package, as shown following, no termination liability will apply. If the terminated DS3 LDC will bring the total number of DS3 LDCs remaining under the minimum required for the Service Package, termination liability will be calculated as described in 7.4.10(C) preceding.

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

⁽²⁾ Effective May 21, 2011, SVS and Digital Video Service are no longer available to new customers. There is no change for existing customers. (T)

⁽³⁾ Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers. (N)
(N)

ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.10 Optional Payment Plan (OPP) for Base Rate, DS1, DS3⁽¹⁾, TV Analog Video Services, Digital Video Service⁽²⁾, Supertrunking Video Services⁽²⁾, Multichannel Video Service⁽³⁾, and SONET Express Services⁽¹⁾ (Cont'd) (N)

(I) Volume Pricing Plan for DS3 Local Distribution Channels with an Electrical Interface (Cont'd)

(3) Conversion of DS3 Service Package and Service Channels in service prior to October 15, 1999 (Cont'd)

(ii) Termination Liability for Converted DS3 LDCs (Cont'd)

For example, if 4 DS3s were part of a former DS3F Service Package and 1 of the DS3s is terminated prior to the expiration date of the original Service Package OPP term, no termination liability will apply. However, if an additional DS3 is terminated prior to the expiration date of the original Service Package OPP term, and the customer's total number of DS3s billed under the same OPP term falls below the minimum requirement for the former Service Package (i.e., less than 3 DS3s for a DS3F Service Package) termination liability for the terminated DS3 will be calculated as described in 7.4.10(C) preceding.

DS3 Service Package With Electrical Interface	Minimum Required DS3 LDCs	Maximum Available DS3 LDCs
DS3B	1	2
DS3C	1	3
DS3F	3	6
DS3L	7	12
DS3X	13	24

(J) Moving Services from an OPP Term to a New DCP Term

Customers who do not have an effective DCP term in place may terminate Optional Payment Plans for Base Rate and DS1 services in states where they establish a new DCP term of equal or greater length for those services. No termination liability charges will be applied to services that move from an OPP term to such a new DCP term. Upon termination of these Optional Payment Plans, the services will begin being billed DCP (as described in 7.4.13 following) rates subject to the DCP terms and conditions except for 7.4.13 (G). Services converted from an OPP term to a new DCP term may not convert back to an OPP term.
