Re: Case Nos. 09-1948-EL-POR; 09-1943-EL-EEC; 09-581-EL-EEC

Pursuant to O.A.C. 4901:1-39-05(C)(2)(c), Ohio Edison Company ("Ohio Edison" or "Company") is seeking written Staff approval to reallocate \$4,636,000 of funds between programs serving the Mercantile customer class. The reallocation supports the goals of its approved 2010 – 2012 program portfolio plan and is less than 25% of the \$18,547,231 Mercantile class budget approved by the Commission in cases 09-1948-EL-POR, 09-1943-EL-EEC, and 09-581-EL-EEC. This request does not expand the total budget for this customer class, nor that of the Company's approved portfolio plan.

Specifically, this reallocation seeks to shift \$4,636,000 within the Mercantile customer class from its *Interruptible Demand Reduction Program* to its *C/I Equipment Program (Commercial Lighting)*. This program adjustment is reasonable and better positions the Company to achieve its 2011-2012 energy efficiency and peak demand reduction targets in a cost effective manner. The Company's *C/I Equipment (Commercial Lighting)* program has proven extremely popular with customers. Since launching this program in March 2011, incoming applications have already exceeded the program's 3 year budget. The Company projects customer demand for this program to continue and anticipates that these additional funds will be exhausted during the portfolio plan period. Further, the Company projects that the costs to implement its *Interruptible Demand Reduction Program* in 2011 and 2012 will fall below the originally approved budget, thus allowing these funds to be shifted without a significant (if any) adverse effect on the latter program.

In light of these facts, the Company respectfully requests Staff's written approval to reallocate funds as described herein and as shown in Attachment A.

Respectfully,
