Subject: Tell Duke: Clean & Green for New Richmond!

11-4343-EL-RDR

Aug 27, 2011

Public Utilities Commission

Duke ratepayers want clean energy!

Please take steps in being an Energy Leader, by choosing to deliver more renewable energy sources to the Ohio valley. It is time to move forward and embrace renewable resources.

I would like cleaner air for my family and my neighborhood.

I would like to teach my children about the importance of renewable resources.

I would like to leave the lights on and not feel guilty for it.

Duke Energy should move forward with energy efficiency and renewables like wind and solar. Ohio ratepayers would like to see the economic development fund for New Richmond include clean energy to create jobs in the community. We would also like to see Duke replace the Beckjord coal plant with clean energy instead of natural gas.

We have a responsibility to provide green jobs to workers in communities affected by coal plant retirement. Duke can make this transition easier for the New Richmond community by focusing their economic development fund on clean energy.

Sincerely

Mrs. Liza Walsh
