positive way but it will also put the State of Ohio on the forefront of new, renewable, and reliable clean energy sources.

**Q.6. Do you have any concluding remarks?**

**A.6.** Yes, on a personal note, this project will provide my family with a much needed additional source of income, all the while allowing farming to continue on my property. The meetings we have attended have been informational and we have acquired new knowledge of wind energy and turbines.
