COMMENT DESCRIPTION:

case number 11-3549-El-SSO

I think it is outrageous that Duke Energy wants to increase rates because they cannot compete with the alternative companies that provide the same energy to us. We should not be taxed with this increase because I can save 25% or more by using an alternative energy provider. How can they provide energy cheaper than Duke and still make a profit as a Company. My business has saved more than \$25,000.00 in energy cost over the last year because of the use of this alternative source. Do not allow this increase.

Jerry Lasita
