

In the Matter of the Commission's)
Investigation Into Telephone Numbering and) Case No. 10-884-TP-UNC
Number Assignment Procedures.)

Hypercube Telecom, LLC (“Hypercube”) respectfully requests that the Public Utilities Commission of Ohio (“Commission”) grant Hypercube an extension of time in which to activate one thousands-block of telephone numbers, as well as a code, assigned to it in the Cleveland rate center. The number block, 216-278-9XXX, and the code 216-278 were assigned on December 25, 2010 and have exceeded the due date to submit the confirmation of “in service” to Neustar. Reclamation of the numbers would cause Hypercube and its customers significant hardship. Hypercube requests an extension of ninety (90) days in which to place the affected telephone numbering resources into service.

Hypercube has encountered some delays in turning up service while working with AT&T, the Incumbent Local Exchange Carrier (ILEC). Hypercube requests it be granted a 90-day extension in which to place the affected telephone numbering resources into service.

If this block and code are reclaimed, it would further delay the time to turn up service and would adversely impact the business needs of Hypercube. An extension of time in which to activate the numbering resources is appropriate, given the short duration of the requested extension and the expectation that the numbering resources have an immediate use.

Given the short duration of the requested extension and the hardship imposed on the company if forced to return 216-278-9XXX thousand-block, Hypercube respectfully requests that its Motion be granted.

Respectfully submitted on behalf of,
HYPERCUBE TELECOM, LLC
