Re: Case number 11-3549-EL-SSO

To the Public Utilities Commission of Ohio:

On behalf of 390 CREDO Action members in Ohio, we urge you to reject Duke Energy's electric stabilization plan and require the company to invest in energy efficiency and clean energy rather than dirty coal plants.

The attached public comments on the electric stabilization plan were collected by CREDO Action, and though they vary throughout, the messages within can be summed up as follows:

I urge you to reject Duke Energy's electric stabilization plan, which would lock its coal assets onto the grid for up to 10 years without any plans to reduce the pollution from these plants. Duke wants ratepayer subsidies to pay for these coal plants despite their age and threat to the community. PUCO should reject Duke's plan and require the company to invest in energy efficiency and clean energy rather than dirty coal plants.

If you have any questions about these comments, please don't hesitate to contact me through the information provided below.

Sincerely,
Josh Nelson
Campaign Manager, CREDO Action
