Re: case number 11-3549-El-SSO

I object to the proposed increase by Duke Energy. You have already allowed them too many unjustified increases. You have previously allowed them to increase the charge to around \$25 a month for gas service, even when none is used during the summer months for those of us with electric water heaters. That was an outrage. It used to be \$7. \$25 a month for providing nothing. Now they want to charge those who have joined competitors service another fee. You have become a rubber stamp for that industry. Please stop this abuse.

Please docket the attached in the case number above.
