## SUPPLEMENTAL TESTIMONY OF KENNETH KALISKI

**Q.1 As you the same Kenneth Kaliski who caused to be filed direct testimony in this matter on September 8, 2011.**

**A.1 Yes, I am.**

**Q.2 What is the purpose of your supplemental testimony?**

**A.2 The purpose of this testimony is to supplement my direct testimony filed on September 8, 2011 by addressing the revisions made to the Staff recommended Conditions, 50, 51 and 52 that are now contained in the Joint Stipulation and Recommendation.**

**Q.3 Have you reviewed the Joint Stipulation and Recommendation?**

**A.3 Yes.**

**Q.4 Do you support and agree with the revisions in Condition 50 that are now contained in the Joint Stipulation and Recommendation?**

**A.4 Yes, I do. The revised language contemplates that certain information associated with a particular turbine model may not exist and that to the extent it exists, certain information may or may not be released to the applicant. Further, use of the adjective "power" instead of "pressure" in subpart B of Condition 50 corrects an error in the original recommended condition.**

**This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.**  
**Technician**  **Date Processed** 10-05-11

**Q.5 Do you support and agree with the revisions in Condition 51 that are now contained in the Joint Stipulation and Recommendation?**

**A.5** Yes, I do, as I explained in my direct testimony in question 17. Condition 51 is now clarified to specify the standard the project will be based upon. Condition 51 is now clear that the standard is the average nighttime Leq for the Project of 43dBA plus 5dBA (48dBA).

**Q.6 Would you please comment on the revisions contained in Condition 52 as it now appears in the Joint Stipulation and Recommendation?**

**A.6** Yes, I now support Condition 52 as it is now revised. The revised Condition 52 now does provide a clear standard for the facility and addresses my concerns expressed in my direct testimony to Question 18.

**Q.7 Does this conclude your supplemental testimony?**

**A.7** Yes, it does.
