Re: Change in Boundaries between the Akron Exchange of AT&T Ohio and the
Montrose Exchange of Frontier North Inc.

Case No. 11-5400-TP-ACB

Dear Ms. McCauley:

AT&T Ohio and Frontier North Inc. (the "Joint Applicants") propose a boundary change for the Akron exchange of AT&T Ohio and the Montrose exchange of Frontier North Inc. This application is being filed pursuant to Ohio Administrative Code §4901:1-6-32(B).

AT&T Ohio and Frontier North Inc. will work with the Commission Staff to revise the topographical maps to reflect the incorporation of a small portion of the Montrose exchange into the Akron exchange of AT&T Ohio. This is an administrative change only, made to reflect the current serving arrangements that have been in place for many years.

This boundary change affects an area located in Akron by Copley Junction on Schocalog Road. Set forth below are the boundary dimensions:

- From the current boundary line, the proposed north line running each to west = 439'.
- The proposed west line running north to south = 513'.
- The proposed south line running west to east, connecting up with the current boundary is 643'. Service will continue to be provided from the AT&T Ohio AKRNOH86 Wire Center.

The Joint Applicants are in concurrence with this change, and confirm that this change will not adversely affect the service being furnished to any existing subscriber. AT&T Ohio serves the customers today in the affected area.

If you have any questions about this filing, please call.
