1.9 Payment Arrangements

- A. The Customer is responsible for payment of all charges for services furnished by the Company to the Customer or its Authorized Users. Objections must be received by the Company within a reasonable period of time after receipt of bill, or all the charges shall be deemed correct and binding upon the Customer. If an entity other than the Company imposes charges of the Company, in addition to its own internal costs, in connection with a service for which a Company non-recurring charge is specified, those charges may be passed on to the Customer.

2 **Services Descriptions and Rates (cont'd)**

2.2 **Feature Descriptions (cont'd.)**

- A. The Company's local exchange services have a variety of available features that let the Customer design a service tailored to meet their needs. Below are feature descriptions.

Caller ID with Number

Allows for the automatic delivery of a calling party's number to the called customer. The telephone number is displayed on customer-provided equipment. If a Customer has call waiting on the same line, they will hear the call waiting tone, but the new incoming number will not be displayed.

Caller ID with Name and Number

Allows for the automatic delivery of a calling party's name and number to the called party. The name and number are displayed on customer-provided equipment. If a Customer has call waiting on the same line, they will hear the call waiting tone, but the new incoming name and number will not be displayed.

Caller ID Blocking Per Line

Provides default blocking of delivery of the calling Customer's telephone number. Blocking can be deactivated by the customer by dialing an access code before each call. When the customer hangs up, the default blocking is reinstated.

Caller ID Blocking Per Call

Provides blocking of delivery of the calling customer's number on a per call basis. Blocking can be activated by the customer dialing an access code before each call.

2 **Services Descriptions and Rates (cont'd)**

2.2 **Feature Descriptions (cont'd.)**

Call Forward

This optional feature allows all calls directed to a telephone number to be routed to a user defined telephone number. The user can activate/deactivate Call Forward and define a telephone number where all calls will be forwarded. Calls cannot be forwarded to an International Direct Distance Dialing (IDDD) number.

Call Forward Busy Line

This optional feature forwards calls to a busy station to a predetermined number. Calls cannot be forwarded to an International Direct Distance Dialing (IDDD) number. The user is charged any applicable usage charges for the forwarded calls.

Call Forwards Don't Answer

Allows users to re-route a call to a predetermined station in the event that the call is not answered within a customer-specified number of rings. Users are charged for any applicable usage charges on a forwarded call.

Call Pick Up

This optional feature allows a call to be answered from a different line by dialing a code. All lines in a group must be equipped with this feature. The Customer can have an unlimited number of lines in a Call Pick Up group.

2 **Services Descriptions and Rates (cont'd)**

2.2 **Feature Descriptions (cont'd.)**

Call Transfer

This optional feature allows the user to transfer any established call to another telephone number (inside or outside of the system) without the assistance of an attendant.

Call Waiting

This optional feature provides a tone to notify a Customer on an existing call that a second call is waiting.

Consultation Hold

This temporary hold feature is inherent in Call Transfer and Three Way Calling. It is activated by depressing the switch hook.

Direct Connect Hotline

This optional feature allows a Customer to automatically dial a designated number whenever the originating telephone goes off the hook. This feature is assigned to a phone which is used for this purpose.

Hunting

This standard feature routes a call to an idle line in a prearranged group when the called telephone number is busy. Typically this feature is used when the customer's main telephone number and several subtending lines so that the customer can receive calls on several lines, although all calls are placed to the same number. Hunting will not work with Call Forward Busy and Don't Answer.

Speed Dial

This optional feature allows a Customer to designate up to six numbers to be called by dialing a code.

2 **Services Descriptions and Rates (cont'd)**

2.2 **Feature Descriptions (cont'd.)**

Speed Dial, Expanded

This optional feature allows Customer to designate up to thirty numbers to be called by dialing a code.

Speed Dial, Group

Allows up to five lines on a Customer's system to share a Speed Dial list. This can be either a six number or expanded speed dial list.

Three Way Calling

Allows a user to add a third party to an existing conversation without expensive conferencing equipment. This feature also allows a user to place a call on hold in order to make a consultation call on the same line. When the consultation call is completed the user hangs up or depresses the flash key on the telephone and is reconnected to the original conversation.
