**Subject:** Let Ohioans shop for the best energy

November 18, 2011  
 Commissioner, Public Utilities Commission of Ohio Cheryl Roberto

Dear Cheryl Roberto,

I am writing to urge you to defend every Ohioans' right to choose an electricity supplier and save money on their energy bills.

Millions of electric customers across Ohio are benefiting from electric competition. But one of our state's largest utilities, AEP Ohio, wants to place caps on "shopping" to prevent its customers from finding a better deal elsewhere. AEP Ohio's proposed Electric Security Plan (ESP) would overcharge residential and small business customers – while restricting their ability to shop.

At a time when Ohioans are struggling to make ends meet, they cannot afford to pay artificially inflated energy costs, nor can they afford the jobs that will be lost because of the impact on small businesses.

Electric competition is an effective means of reducing energy costs for Ohio's families and small businesses. Please protect Ohio's free market, its citizens and its job market by opposing AEP Ohio's proposal, and bring real choices for customers in all corners of the state.

If you already opposed AEP Ohio's proposal and support Ohioans' right to choose an electricity supplier, thank you for your leadership.

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business. Technician MN Date Processed NOV 18 2011

**Subject:** Please save jobs and allow the free market to work

November 18, 2011  
Commissioner, Public Utilities Commission of Ohio Cheryl Roberto

Dear Cheryl Roberto,

I am writing to urge you to defend every Ohioans' right to choose an electricity supplier and save money on their energy bills.

Millions of electric customers across Ohio are benefiting from electric competition. But one of our state's largest utilities, AEP Ohio, wants to place caps on "shopping" to prevent its customers from finding a better deal elsewhere. AEP Ohio's proposed Electric Security Plan (ESP) would overcharge residential and small business customers – while restricting their ability to shop.

At a time when Ohioans are struggling to make ends meet, they cannot afford to pay artificially inflated energy costs, nor can they afford the jobs that will be lost because of the impact on small businesses.

Electric competition is an effective means of reducing energy costs for Ohio's families and small businesses. Please protect Ohio's free market, its citizens and its job market by opposing AEP Ohio's proposal, and bring real choices for customers in all corners of the state.

If you already opposed AEP Ohio's proposal and support Ohioans' right to choose an electricity supplier, thank you for your leadership.

Sincerely,

Oh Ed  
2857 Barlow Rd  
Hudson, OH 44236-4121

Dear Cheryl Roberto,

American became great through an open market and free enterprise. Today the need is there more than ever and I strong support the right of every Ohio citizen to choose their electricity source.

Please represent the people of Ohio who are already struggling in this economy. NO CAPS on our ability to choose or on free competition.

AEP Ohio is looking out for its own best interests at the expense of the consumer.

You should be looking out for us.

Sincerely,

Teresa Blackwood

**Subject:** Please save jobs and allow the free market to work

November 17, 2011  
Commissioner, Public Utilities Commission of Ohio Cheryl Roberto

Dear Cheryl Roberto,

I am writing to urge you to defend every Ohioans' right to choose an electricity supplier and save money on their energy bills.

Millions of electric customers across Ohio are benefiting from electric competition. But one of our state's largest utilities, AEP Ohio, wants to place caps on "shopping" to prevent its customers from finding a better deal elsewhere. AEP Ohio's proposed Electric Security Plan (ESP) would overcharge residential and small business customers – while restricting their ability to shop.

At a time when Ohioans are struggling to make ends meet, they cannot afford to pay artificially inflated energy costs, nor can they afford the jobs that will be lost because of the impact on small businesses.

Electric competition is an effective means of reducing energy costs for Ohio's families and small businesses. Please protect Ohio's free market, its citizens and its job market by opposing AEP Ohio's proposal, and bring real choices for customers in all corners of the state.

If you already opposed AEP Ohio's proposal and support Ohioans' right to choose an electricity supplier, thank you for your leadership.

Sincerely,

Allen Edmonds  
676 E Smith Rd  
Medina, OH 44256-3652

But one of our state's largest utilities, AEP Ohio, wants to place caps on "shopping" to prevent its customers from finding a better deal elsewhere. AEP Ohio's proposed Electric Security Plan (ESP) would overcharge residential and small business customers – while restricting their ability to shop.

At a time when Ohioans are struggling to make ends meet, they cannot afford to pay artificially inflated energy costs, nor can they afford the jobs that will be lost because of the impact on small businesses.

Electric competition is an effective means of reducing energy costs for Ohio's families and small businesses. Please protect Ohio's free market, its citizens and its job market by opposing AEP Ohio's proposal, and bring real choices for customers in all corners of the state.

If you already opposed AEP Ohio's proposal and support Ohioans' right to choose an electricity supplier, thank you for your leadership.

Sincerely,

Nancy H. KNouse

Dear Cheryl Roberto,

I am writing to urge you to defend every Ohioans' right to choose an electricity supplier and save money on their energy bills.

Millions of electric customers across Ohio are benefiting from electric competition. But one of our state's largest utilities, AEP Ohio, wants to place caps on "shopping" to prevent its customers from finding a better deal elsewhere. AEP Ohio's proposed Electric Security Plan (ESP) would overcharge residential and small business customers – while restricting their ability to shop.

At a time when Ohioans are struggling to make ends meet, they cannot afford to pay artificially inflated energy costs, nor can they afford the jobs that will be lost because of the impact on small businesses.

Electric competition is an effective means of reducing energy costs for Ohio's families and small businesses. Please protect Ohio's free market, its citizens and its job market by opposing AEP Ohio's proposal, and bring real choices for customers in all corners of the state.

If you already opposed AEP Ohio's proposal and support Ohioans' right to choose an electricity supplier, thank you for your leadership.

Sincerely,

November 17, 2011  
Commissioner, Public Utilities Commission of Ohio Cheryl Roberto

Dear Cheryl Roberto,

I do not understand why our federal government is trying to limit our freedom of choice and now, you in our state government are attempting to do the same by allowing AEP to place caps on "shopping" to prevent its customers from finding a better deal elsewhere. AEP Ohio's proposed Electric Security Plan (ESP) would overcharge residential and small business customers – while restricting their ability to shop.

At a time when Ohioans are struggling to make ends meet, they cannot afford to pay artificially inflated energy costs, nor can they afford the jobs that will be lost because of the impact on small businesses.

Electric competition is an effective means of reducing energy costs for Ohio's families and small businesses. Please protect Ohio's free market, its citizens and its job market by opposing AEP Ohio's proposal, and bring real choices for customers in all corners of the state.

If you already opposed AEP Ohio's proposal and support Ohioans' right to choose an electricity supplier, thank you for your leadership.

Otherwise, I urge you to stop this attempt to control free markets, and oppose this plan. Why is everyone

trying to replace our capitalism with socialism and its micromanagement? Enough!

Sincerely,

Elizabeth Elliott

Dear Ms. Stein,

Thank you for taking the time to make your views heard. I have added your comments to the official file in this matter. You may find your comments as well as the remainder of the record in this matter by following the following link <http://dis.puc.state.oh.us/index.aspx> and typing in the case number 11-0346-EL-SSO.

Once again, thank you for your recent correspondence.

Sincerely,

Cheryl Roberto

**Subject:** Let Ohioans shop for the best energy

November 17, 2011  
Commissioner, Public Utilities Commission of Ohio Cheryl Roberto

Dear Cheryl Roberto,

I am writing to urge you to defend every Ohioans' right to choose an electricity supplier and save money on their energy bills.

Millions of electric customers across Ohio are benefiting from electric competition. But one of our state's largest utilities, AEP Ohio, wants to place caps on "shopping" to prevent its customers from finding a better deal elsewhere. AEP Ohio's proposed Electric Security Plan (ESP) would overcharge residential and small business customers – while restricting their ability to shop.

At a time when Ohioans are struggling to make ends meet, they cannot afford to pay artificially inflated energy costs, nor can they afford the jobs that will be lost because of the impact on small businesses.

Electric competition is an effective means of reducing energy costs for Ohio's families and small businesses. Please protect Ohio's free market, its citizens and its job market by opposing AEP Ohio's proposal, and bring real choices for customers in all corners of the state.

If you already opposed AEP Ohio's proposal and support Ohioans' right to choose an electricity supplier, thank you for your leadership.

Sincerely,

Susan M Stein
