Subject: Let Ohioans shop for the best energy

November 27, 2011
Commissioner, Public Utilities Commission of Ohio Cheryl Roberto

Dear Cheryl Roberto,

I am writing to urge you to defend every Ohioans' right to choose an electricity supplier and save money on their energy bills.

Millions of electric customers across Ohio are benefiting from electric competition. But one of our state's largest utilities, AEP Ohio, wants to place caps on "shopping" to prevent its customers from finding a better deal elsewhere. AEP Ohio's proposed Electric Security Plan (ESP) would overcharge residential and small business customers – while restricting their ability to shop.

At a time when Ohioans are struggling to make ends meet, they cannot afford to pay artificially inflated energy costs, nor can they afford the jobs that will be lost because of the impact on small businesses.

Electric competition is an effective means of reducing energy costs for Ohio's families and small businesses. Please protect Ohio's free market, its citizens and its job market by opposing AEP Ohio's proposal, and bring real choices for customers in all corners of the state.

If you already opposed AEP Ohio's proposal and support Ohioans' right to choose an electricity supplier, thank you for your leadership.

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.

Subject: Let Ohioans shop for the best energy

November 21, 2011
Commissioner, Public Utilities Commission of Ohio Cheryl Roberto

Dear Cheryl Roberto,

I am writing to urge you to defend every Ohioans' right to choose an electricity supplier and save money on their energy bills.

Millions of electric customers across Ohio are benefiting from electric competition. But one of our state's largest utilities, AEP Ohio, wants to place caps on "shopping" to prevent its customers from finding a better deal elsewhere. AEP Ohio's proposed Electric Security Plan (ESP) would overcharge residential and small business customers – while restricting their ability to shop.

At a time when Ohioans are struggling to make ends meet, they cannot afford to pay artificially inflated energy costs, nor can they afford the jobs that will be lost because of the impact on small businesses.

Electric competition is an effective means of reducing energy costs for Ohio's families and small businesses. Please protect Ohio's free market, its citizens and its job market by opposing AEP Ohio's proposal, and bring real choices for customers in all corners of the state.

If you already opposed AEP Ohio's proposal and support Ohioans' right to choose an electricity supplier, thank you for your leadership.

Sincerely,

Nathan Radcliffe

LANCASTER, OH 43130
