APPLICATION

---

United Telephone Company of Ohio d/b/a CenturyLink ("CenturyLink" or "Applicant") is a telephone company providing public telecommunications service to approximately 284,000 retail access lines in its local service area in the State of Ohio.

Applicant submits this application pursuant to Section 4927.12(C)(3) Ohio Revised Code, for determination that it demonstrates that two or more alternative providers offer competing services to basic local exchange service offered by CenturyLink in the Andover, Berlin Center, Bristolville, Cortland, Damascus, Greene, Hartford, Jefferson, Johnston, Kinsman, Lake Milton, New Lyme, Newton Falls, Wayland and Windham exchanges, regardless of the technology and facilities used by the alternative provider, the alternative providers location, and extent of the alternative provider's area within the exchange area. For this purpose, an alternative provider includes a telephone company, including wireless service provider, a telecommunications carrier, and a provider of internet protocol- enabled services, including voice over internet protocol.

Exhibits 1 through 3 are attached to this application and are incorporated herein.

Applicant demonstrates herein that it meets the statutory criterion in each of the exchanges included in this application. The Commission should either issue an order granting the application or allow it to be granted under the automatic approval process specified in R.C. 4927.12(C)(3)(b).

Respectfully submitted,

Memorandum in Support of Application.

---

**Introduction**

United Telephone of Ohio d/b/a CenturyLink ("CenturyLink") submits this information and analysis in support of its application filed in the captioned case. This application is filed pursuant to R. C. § 4927.12(C)(3)(a) (effective September 13, 2010), which provides as follows:

If the commission has not made a prior determination that the exchange area qualified for alternative regulation of basic local exchange service under Chapter 4901:1-4 of the Ohio Administrative Code as that chapter existed on the effective date of this section, an incumbent local exchange carrier may not alter its rates for basic local exchange service upward for that exchange area unless the carrier first applies to the commission and the commission determines that the application demonstrates that two or more alternative providers offer, in the exchange area, competing service to the basic local exchange service offered by an incumbent local exchange carrier in the exchange area, regardless of the technology and facilities used by the alternative provider, the alternative provider's location, and the extent of the alternative provider's service area within the exchange area. An alternative provider includes a telephone company, including a wireless service provider, a telecommunications carrier, and a provider of internet protocol-enabled services, including voice over internet protocol.

CenturyLink has not previously filed for alternative regulation of basic local exchange service under Chapter 4901:1-4 of the Ohio Administrative code for any of these exchanges – Andover, Berlin Center, Bristolville, Cortland, Damascus, Greene, Hartford, Jefferson, Johnston, Kinsman, Lake Milton, New Lyme, Newton Falls, Wayland and Windham – included in this application.

Thus, the Commission has not made a prior determination that any of these exchanges is qualified for alternative regulation. Further, the application demonstrates that two or more alternative providers offer service in each of the exchanges in competition with the basic exchange service offered by CenturyLink. Because the application meets the statutory

requirements of R.C. 4927.12(C)(3)(a), as demonstrated in the attached Exhibits, CenturyLink requests that the Commission issue an order granting this application. Alternatively, CenturyLink requests that the Commission allow the application to be granted under the automatic approval process set forth in R.C. 4927.12(C)(3)(b), which provides as follows:

Upon the filing of an application under division (C)(3)(a) of this section, the commission shall be deemed to have found that the application meets the requirements of that division unless the commission, within thirty days after the filing of the application, issues an order finding that the requirements have not been met.

Furthermore, CenturyLink recognizes the pricing restrictions on basic local exchange service ("BLES") and Lifeline service of the exchanges included in this filing as set forth in R.C. 4927.12(C)(3)(c) and R.C. 4927.12(C)(4)(effective September 13, 2010), respectively. R.C. 4927.12(C)(3)(c) provides the following:

In no event may an incumbent local exchange carrier that applies to the commission under division (C)(3)(a) of this section, during the twelve-month period that begins on the thirty-first day after the company files the application, and during any subsequent twelve-month period, alter the carrier's rates for basic local exchange service upward for the exchange area to which the application applies by more than the amount described in division (C)(1)(b) of this section.

R.C. 4927.12(C)(4) provides:

In no event may an incumbent local exchange carrier, before January 1, 2012, alter the carrier's rates for basic local exchange service upward for a customer receiving lifeline service under section 4927.13 of the Revised Code.

#### **Exhibit 1 – Exchange Areas/County**

This exhibit identifies the exchanges included in this application and the county or counties in which each exchange is located.

#### **Exhibit 2 – Supporting Competitive Information with Affidavit**

CenturyLink demonstrates in this exhibit that it meets statutory criterion that two or more alternative providers offer competing service to the BLES service offered by CenturyLink in each of the exchanges included in this application. CenturyLink reviewed publically available

information of alternative providers offering competing service in each exchange via the competitor's websites. The alternative carriers have web tools that permit one to determine the availability of the carrier's services in specific areas based on a phone number and/or address. These tools enable one to readily verify that alternative services are offered in an area and the specific service options available to customers. In addition wireless carriers have Coverage Locator sites which display the strength of service at a given location. CenturyLink utilized these tools to identify the service offerings and some of the providers within each exchange. (NOTE: CenturyLink was unable to print color images of some of the AT&T Coverage Viewer pages. See <http://www.wireless.att.com/coverageviewer/#?type=voice>)

The competitive information CenturyLink obtained from these tools is summarized at the beginning of the exhibit. This summary does not represent all the alternative providers or services available in an exchange, but demonstrates that there are two or more carriers that offer a variety of service plans and technologies in the exchanges.

The exhibit also contains the affidavit of Gary Baki attesting that the information set forth in the exhibit is true and correct to the best of CenturyLink's knowledge.

### **Exhibits 3 – Proposed Tariff Modifications**

CenturyLink proposes tariff modifications Andover, Berlin Center, Bristolville, Cortland, Damascus, Greene, Hartford, Jefferson, Johnston, Kinsman, Lake Milton, New Lyme, Newton Falls, Wayland and Windham

### **Customer Notice**

Pursuant to OAC 4901:1-6-14(F)(5) customer notice, consistent with the requirements of rule 4901:1-6-07, will be provided to all affected customers not less than thirty days prior to a rate increase. A copy will be provided to the commission-provided electronic mailbox ([TelecommRule07@puc.state.oh.us](mailto:TelecommRule07@puc.state.oh.us)) and the OCC not later than the date provided to customers. At this time no increase is planned.

## Conclusion

CenturyLink has demonstrated that it meets the statutory requirements for BLES price flexibility in each of the exchanges included in this application. The Commission should either issue an order approving this application or allow the application to be granted by operation of law.

Respectfully submitted,

## Why Switch to AT&T Wireless?

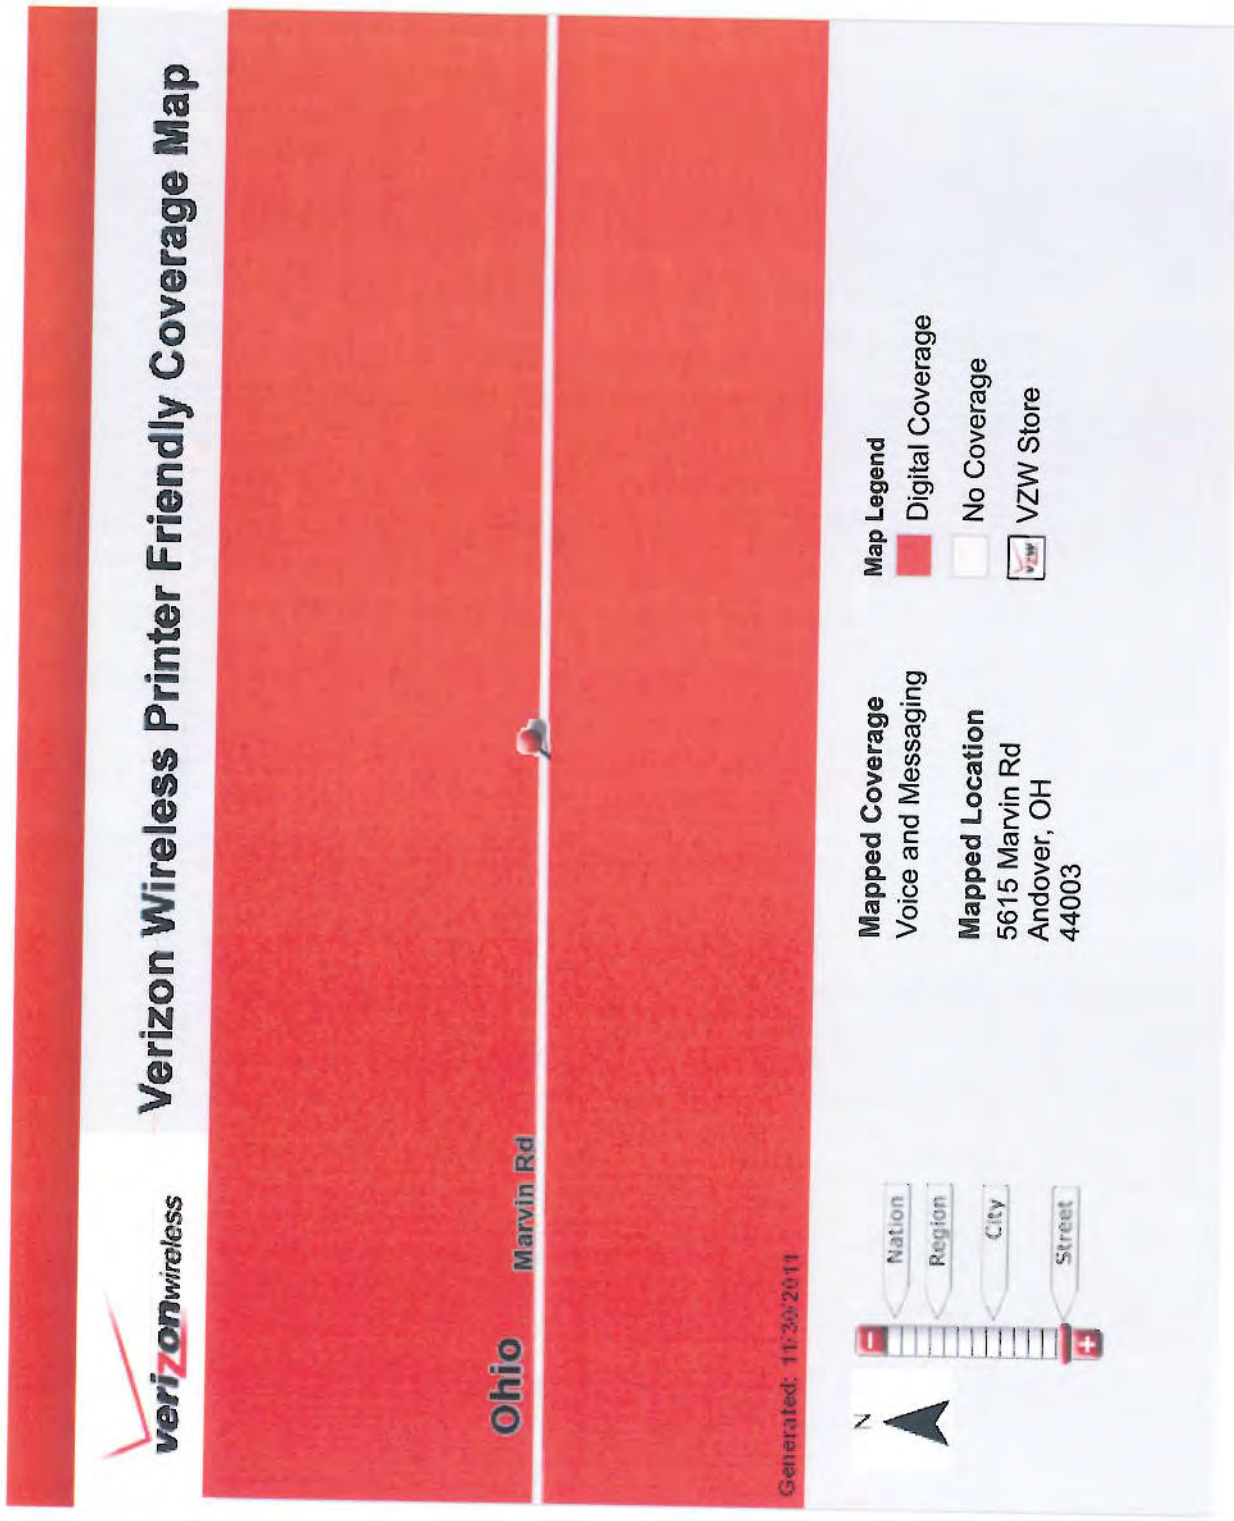

### Our Service

Phones are just the beginning. It's our cell phone service and popular features like wireless Rollover® Minutes that keep our more than 92 million customers connected.

### Our Technology

With the introduction of 4G LTE\*, AT&T is also the only carrier that offers two layers of network technology delivering 4G speeds: HSPA+ and LTE. This means you'll enjoy fast 4G speeds on both the HSPA+ network and on the LTE network where available. This combination adds up to a smoother, more consistent 4G experience overall.

### **Important Information About the Coverage Map**

Map may include areas served by unaffiliated carriers, and may depict their licensed area rather than an approximation of the coverage there. Actual coverage area may differ substantially from map graphics, and coverage may be affected by such things as terrain, weather, foliage, buildings and other construction, signal strength, customer equipment and other factors. AT&T does not guarantee coverage. Charges will be based on the location of the site receiving and transmitting the call, not the location of the subscriber.

(s08)

Subscription to Road Runner® Broadband is required to purchase Road Runner® Broadband Extreme, Road Runner® Broadband Turbo Plus or Road Runner® Broadband Turbo with PowerBoost®. Time Warner Cable Wideband Internet 50 Mbps and 30 Mbps claims are based on Wideband Internet's standard maximum download speed of 50 Mbps or 30 Mbps. Actual speeds may vary. Not all service tiers are available in all areas. Many factors affect speed. Road Runner® Turbo with PowerBoost® may provide a burst of download speed when capacity is available above the customer's provisioned download speeds for the first 10 MB of a file. It then reverts to your provisioned speed for the remainder of the download. Some services may include Wireless Home Networking and may require installation charges. Digital Phone Local, Digital Phone State and Digital Phone Unlimited Nationwide do not include back-up power and, as in the case with an electric-powered home cordless phone, should there be a power outage, Digital Phone, including the ability to access 9-1-1 services, may not be available. Additional charges apply for taxes, fees, Directory Assistance, Operator Services, Long Distance, and calls to International locations, as applicable. Offer valid for residential customers in Digital Phone serviceable areas. Must subscribe to both TV and Voice to get Caller ID on TV. Caller ID on TV is not available in all areas.

In certain areas, service to unlimited phone jacks is included if customer's phone jacks are pre-wired in the home. Additional phone jacks installed by Time Warner Cable are subject to additional installation fees.

International OnePrice® is available to customers who subscribe to Voice and TV and/or Road Runner® Internet. Offer valid for residential customers in Home Phone serviceable areas. International OnePrice applies only to calls terminating on a landline phone in most countries. Calls terminating to cell phones with a service provider based in the following countries are included in the plan: Anguilla, Antigua, Bahamas, Barbados, Bermuda, British Virgin Islands, Canada, China, Hong Kong, India, Macau, Paraguay, St. Kitts, and Thailand. Monthly maximum usage allowance of 1,000 minutes based on calendar month, which may or may not coincide with billing cycle. Additional charges apply for taxes, fees, Directory Assistance, and Operator Services. International calls to satellite phones, special services numbers such as toll-free, or caller-paid information services such as 900-type numbers, calls to chat lines and cell phone numbers in countries not listed above are not included and will be charged at additional per-minute rates.

#### Voice Coverage Experience

The Sprint all-digital wireless network gives you voice coverage and access to innovative services like Sprint TV®, text messaging and Web browsing. Please note that certain services, such as Sprint Music Store, are not available throughout the entire Nationwide Sprint® Network. Need help? Contact us at 888-211-4727.

Our coverage maps provide high-level estimates of our coverage areas when using your device outdoors under optimal conditions. Coverage isn't available everywhere. Estimating wireless coverage and signal strength is not an exact science.

There are gaps in coverage within our estimated coverage areas that, along with other factors both within and beyond our control (network problems, software, signal strength, your wireless device, structures, buildings, weather, geography, topography, etc.), will result in dropped and blocked connections, slower data speeds, or otherwise impact the quality of services.

Subscription to Road Runner® Broadband is required to purchase Road Runner® Broadband Extreme, Road Runner® Broadband Turbo Plus or Road Runner® Broadband Turbo with PowerBoost®. Time Warner Cable Wideband Internet 50 Mbps and 30 Mbps claims are based on Wideband Internet's standard maximum download speed of 50 Mbps or 30 Mbps. Actual speeds may vary. Not all service tiers are available in all areas. Many factors affect speed. Road Runner® Turbo with PowerBoost® may provide a burst of download speed when capacity is available above the customer's provisioned download speeds for the first 10 MB of a file. It then reverts to your provisioned speed for the remainder of the download. Some services may include Wireless Home Networking and may require installation charges.
