RE: Case No.: 11-6023-TP-ATA In the Matter of the Application of LDMI Telecommunications, Inc. d/b/a Cavalier Telephone d/b/a Cavalier Business Communications d/b/a Cavalier Telephone and TV Revision to Access Services Tariff PUCO Tariff No. 6

Dear Ms. McCauley:

Please accept this Application and revised access tariff pages submitted on behalf of Talk America Inc. d/b/a Cavalier Telephone d/b/a PAETEC Business Services d/b/a Cavalier Telephone and TV. This filing makes revisions to incorporate the requirements of the Federal Communications Commission Report and Order in WC Docket No. 10-90, etc., FCC No. 11-161 (released Nov 18, 2011) ("FCC Order") regarding the treatment of Toll VoIP-PSTN traffic. The Company requests an effective date for this revision of January 24, 2012.

The following revised tariff pages are included with this filing:

4 th Revised Page 1	Updates Check Sheet;
1 st Revised Page 8	Changes definition;
1 st Revised Page 11	Adds definition;
1 st Revised Page 33	Indicates text moved to Page 35.5;
Original Pages 33.1 - 33.4	Adds VoIP-PSTN Traffic language;
Original Page 33.5	Relocates text moved from Page 33.

Please acknowledge receipt of this filing by sending a stamped copy of this filing to imennens@tminc.com. Any questions you may have regarding this filing may be directed to me at (407) 740-3031 or via email at stthomas@tminc.com.

Sincerely,

/s/Sharon Thomas
Sharon Thomas, Consultant to
LDMI Telecommunications, Inc.

Notes:

Section I and II are Pursuant to Chapter [4901:1-6 OAC](#)

Section III – Carrier to Carrier is Pursuant to [4901:1-7 OAC](#), and Wireless is Pursuant to [4901:1-6-24 OAC](#).

Section IV – Attestation

(1) Indicate the Carrier Type and the reason for submitting this form by checking the boxes below.

(2) For requirements for various applications, see the identified section of Ohio Administrative Code Section 4901 and/or the supplemental application form noted.

(3) Information regarding the number of copies required by the Commission may be obtained from the Commission's web site at www.puco.ohio.gov under the docketing information system section, by calling the docketing division at 614-466-4095, or by visiting the docketing division at the offices of the Commission.

(4) An Incumbent Local Exchange Carrier (ILEC) offering basic local exchange service (BLES) outside its traditional service area should choose CLEC designation when proposing to offer BLES outside its traditional service area or when proposing to make changes to that service.

All Filings that result in a change to one or more tariff pages require, at a minimum, the following exhibits.

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

AFFIDAVIT
Compliance with Commission Rules

I am an agent of the applicant corporation, LDMI Telecommunications, Inc., and am authorized to make this statement on its behalf.

Please Check ALL that apply:

☒ I attest that these tariffs comply with all applicable rules for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

☐ I attest that customer notices accompanying this filing form were sent to affected customers, as specified in Section II, in accordance with Rule 4901:1-6-7, Ohio Administrative Code.

I declare under penalty of perjury that the foregoing is true and correct.

CARRIER-TO-CARRIER SERVICES

SECTION 1 – DEFINITIONS, (CONT'D.)

Channel - A communications path between two or more points of termination.

City - For the purposes of this tariff, the term City denotes a specific geographic area served by the Carrier. A City is typically a metropolitan area and may include one or more adjacent or nearby areas in which the Carrier has network facilities.

Collocation - Carrier facilities and/or equipment located in the same building -- generally a LEC central office.

Commission - The Public Utilities Commission of Ohio (P.U.C.O.)

Communications System - Denotes channels and other facilities which are capable of communications between terminal equipment provided by an entity other than the Company.

Company - Denotes LDMI Telecommunications, Inc., d/b/a Cavalier Telephone d/b/a PAETEC Business Services d/b/a Cavalier Telephone and TV and /or any Concurring Carriers. (T)
(T)

Company's Network - Equipment, cabling, and/or connections owned, leased or otherwise used by the Company or the Company's agents to provide service to the Customer pursuant to this tariff.

Customer(s) - The term "Customer(s)" denotes any individual, partnership, association, joint-stock company, trust, corporation, or governmental entity or other entity which subscribes to the services offered under this tariff, including but not limited to Interexchange Carriers (ICs), End Users and other telecommunications carriers or providers originating or terminating toll VoIP-PSTN traffic. (T)
|
|
(T)

Customer Agreement - The mutual agreement between the Company and the Customer for the provision of the Company's service.

Customer Designated Premises - The premises specified by the Customer for termination of Access Services.

Customer Point of Presence - The physical location associated with the Customer's communication system.

CARRIER-TO-CARRIER SERVICES

SECTION 1 – DEFINITIONS, (CONT'D.)

Point of Presence - The physical location of an interexchange carrier's facilities.

Point of Termination - The point of demarcation within a Customer-designated premises at which the Company's responsibility for the provision of access service ends. The point of demarcation is the point of interconnection between Company communications facilities and Customer-provided facilities as defined in Part 68 of the Federal Communications Commission's Rules and Regulations.

Premises - The physical space designated by the Customer for the termination of the Company's service.

Serving Wire Center - The wire center from which the Customer-designated premises would normally obtain dial tone from the Company.

Special Access - See Dedicated Access.

Term Agreement - A method of purchasing the Company's services whereby the Customer agrees to purchase service between specific locations for a specified and mutually agree upon length of time.

Terminal Equipment - Telecommunications devices, apparatus and associated wiring on the Customer-designated premises.

Terminating Direction - The use of Switched Access Service for the completion of calls from an IC's premises to an End User premises.

Toll VoIP-PSTN Traffic - The term Toll VoIP-PSTN Traffic denotes a Customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over PSTN facilities, which originates and/or terminates in Internet Protocol (IP) format. Toll VoIP-PSTN Traffic originates and/or terminates in IP format when it originates from and/or terminates to an end user Customer of a service that requires IP-compatible Customer premises equipment.

(N)
|
|
|
(N)

Transmission Path - An electrical path capable of transmitting signals within the range of the service offering. A transmission path is comprised of physical or derived facilities consisting of any form or configuration of plant used in the telecommunications industry.

Trunk - A communications path connecting two switching systems in a network, used in the establishment of an end-to-end connection.

Trunk Group - A set of trunks which are traffic engineered as a unit for the establishment of connections between switching systems in which all of the communications paths are interchangeable.

Wire Center - A physical location in which one or more central offices, used for the provision of exchange services, are located.

SECTION 2 - TERMS AND CONDITIONS, (CONT'D.)

2.19.9 Mixed Interstate and Intrastate Access Service

- A.** For nonrecurring chargeable rate elements, multiply the percent intrastate use (1-PIU) times the quantity of chargeable elements times the intrastate tariff rate per element.
- B.** For usage sensitive chargeable rate elements, multiply the percent intrastate use (1-PIU) times actual use (measured or Company assumed average use) times the intrastate rate.

A similar calculation is then performed to determine the interstate portion of the bill.

$$\begin{array}{c} \text{(M)} \\ | \\ | \\ | \\ | \\ | \\ | \\ | \\ | \\ \text{(M)} \end{array}$$

Effective: January 24, 2012

CARRIER-TO-CARRIER SERVICES

SECTION 2 - TERMS AND CONDITIONS, (CONT'D.)

2.19 Obligations of the Customer, (Cont'd.)

2.19.10 Identification and Rating of VoIP-PSTN Traffic

A. Scope

1. VoIP-PSTN traffic is defined as traffic exchanged over the public switched telephone network ("PSTN") facilities that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification of toll VoIP-PSTN ("toll VoIP") traffic that in the absence of an interconnection agreement will be subject to interstate switched access rates in accordance with the Federal Communications Commission Report and Order in WC Docket Nos. 10-90, etc., FCC No. 11-161 (released Nov. 18, 2011) ("FCC Order"), as it may hereinafter be amended or clarified. Specifically, this section establishes the method of distinguishing toll VoIP traffic from the Customer's total intrastate access traffic, so that toll VoIP traffic will be billed in accordance with the FCC Order.
2. This section will be applied to the billing of switched access charges to a Customer that is a local exchange carrier only to the extent that the Customer has also implemented billing of interstate access charges for VoIP-PSTN Traffic in accordance with the FCC Order.

B. Rating of toll VoIP-PSTN Traffic

The Telephone Company will bill toll VoIP-PSTN traffic which it identifies in accordance with this tariff section at rates equal to the Telephone Company's applicable tariffed interstate switched access rates.

(N)

(N)

CARRIER-TO-CARRIER SERVICES

SECTION 2 - TERMS AND CONDITIONS, (CONT'D.)

2.19 Obligations of the Customer, (Cont'd.)

2.19.10 Identification and Rating of VoIP-PSTN Traffic, (Cont'd.)

(N)

C. Calculation and Application of Percent-VoIP-Usage Factor

The Telephone Company will determine the number of toll VoIP traffic minutes of use ("MOU") to which it will apply its interstate rates under subsection B., above, by applying an originating Percent VoIP Usage ("OPVU") factor to the total intrastate access MOU originated by a Telephone Company end user and delivered to the Customer and by applying a terminating PVU ("TPVU") factor to the total intrastate access MOU terminated by a Customer to the Telephone Company's end user. The OPVU and TPVU will be derived and applied as follows:

1. The Customer will calculate and furnish to the Telephone Company an OPVU factor, along with supporting documentation, representing the whole number percentage of the Customer's total originating intrastate access MOU that the Customer receives from the Telephone Company in the State that is originated by the Telephone Company in IP format.
2. The Customer will calculate and furnish to the Telephone Company a TPVU factor, along with supporting documentation, representing the whole number percentage of the Customer's total terminating intrastate access MOU that the Customer exchanges with the Telephone Company in the State that is sent to the Telephone Company and originated in IP format.
3. The OPVU, TPVU and supporting documentation shall be based on information that is verifiable by the Telephone Company including but not limited to the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. The Customer shall not modify its reported PIU factor to account for VoIP-PSTN traffic.

(N)

CARRIER-TO-CARRIER SERVICES

SECTION 2 - TERMS AND CONDITIONS, (CONT'D.)

2.19 Obligations of the Customer, (Cont'd.)

2.19.10 Identification and Rating of VoIP-PSTN Traffic, (Cont'd.)

(N)

C. Calculation and Application of Percent-VoIP-Usage Factor, (Cont'd.)

4. After the Telephone Company verifies the OPVU and TPVU provided by the Customer the Telephone Company will apply the OPVU and TPVU factors to the associated intrastate access MOU as indicated in Sections D. and/or E. below.

In the event that the Telephone Company can not verify the Customer's OPVU and/or TPVU, the Telephone Company will request additional information to support the OPVU and/or TPVU, during this time no changes will be made to the existing OPVU and /or TPVU. The Customer shall supply the requested additional information within 15 days of the Telephone Company's request or no changes will be made to the existing OPVU and/or TPVU. If after review of the additional information, the Customer and Telephone Company establish a revised and mutually agreed upon OPVU and/or TPVU factor, the Telephone Company will begin using the new factor with the next bill period.

If the dispute is unresolved the Customer may request that verification audits be conducted by an independent auditor, at Customer's sole expense. During the audit, the most recent undisputed OPVU and/or TPVU factor will be used by the Telephone Company.

5. In the absence of an interconnection agreement, at no time will the Telephone Company allow an OPVU or TPVU factor greater than the applicable State percentage as identified in Paragraph 963 of the FCC Order.

(N)

CARRIER-TO-CARRIER SERVICES

SECTION 2 - TERMS AND CONDITIONS, (CONT'D.)

2.19 Obligations of the Customer, (Cont'd.)

2.19.10 Identification and Rating of VoIP-PSTN Traffic, (Cont'd.)

D. Initial OPVU and TPVU Factor

In calculating the initial OPVU and TPVU factor(s), the Telephone Company will take the factor(s) provided by the Customer into account retroactively to January 1, 2012, *provided that* the Customer provides the factor(s) and supporting documentation, as specified in subsection C. above to the Telephone Company no later than 15 days after the effective date of this tariff. If the Customer does not furnish the Telephone Company with an OPVU and/or TPVU factor pursuant to the preceding subsection C., the initial factor will be zero.

E. OPVU and TPVU Factor Updates

The Customer may update the OPVU and/or TPVU factor(s) semi-annually using the method set forth in subsection C., above. If the Customer chooses to submit such updates, it shall forward to the Telephone Company, no later than 15 days after the first day of January and/or July of each year, a revised OPVU and/or TPVU factor and supporting documentation based on data for the prior three months, ending the last day of December and/or June, respectively. Once verified by the Telephone Company the revised OPVU and/or TPVU factor will apply prospectively and serve as the basis for billing until superseded by a new verified factor.

(N)

(N)

CARRIER-TO-CARRIER SERVICES

SECTION 2 - TERMS AND CONDITIONS, (CONT'D.)

2.20 Resale and Sharing

(M)

SECTION 2.20 IS AVAILABLE ONLY TO CARRIERS WHICH ARE CERTIFIED BY THE PUBLIC UTILITY COMMISSION OF OHIO TO PROVIDE INTRASTATE LOCAL EXCHANGE SERVICES

There are no prohibitions or limitations on the resale of services. Prices for services appear in the price sheet attached to this tariff. Any service provided under this tariff may be resold to or shared with other persons at the option of Customer, subject to compliance with any applicable laws of the Public Utilities Commission of Ohio regulations governing such resale or sharing. The Customer remains solely responsible for all use of services ordered by it or billed to its telephone number(s) pursuant to this tariff, for determining who is authorized to use its services, and for notifying the Company of any unauthorized use.

Rates for Resale and Sharing Service are the same as the tariffed retail rates found in Section 7.0 of the Company's Local Exchange and Interexchange Telecommunications Services tariff, P.U.C.O. No. 8.

CARRIER-TO-CARRIER SERVICES

SECTION 1 – DEFINITIONS, (CONT'D.)

Channel - A communications path between two or more points of termination.

City - For the purposes of this tariff, the term City denotes a specific geographic area served by the Carrier. A City is typically a metropolitan area and may include one or more adjacent or nearby areas in which the Carrier has network facilities.

Collocation - Carrier facilities and/or equipment located in the same building -- generally a LEC central office.

Commission - The Public Utilities Commission of Ohio (P.U.C.O.)

Communications System - Denotes channels and other facilities which are capable of communications between terminal equipment provided by an entity other than the Company.

Company - Denotes LDMI Telecommunications, Inc., d/b/a LDMI Telecommunications, also d/b/a FoneTel and /or any Concurring Carriers.

Company's Network - Equipment, cabling, and/or connections owned, leased or otherwise used by the Company or the Company's agents to provide service to the Customer pursuant to this tariff.

Customer - Any person, firm, partnership, corporation or other entity which uses service under the terms and conditions of this tariff and is responsible for the payment of charges. In most contexts, the customer is the interexchange carrier utilizing the access services herein to reach end user customers.

Customer Agreement - The mutual agreement between the Company and the Customer for the provision of the Company's service.

Customer Designated Premises - The premises specified by the Customer for termination of Access Services.

Customer Point of Presence - The physical location associated with the Customer's communication system.

Case No.:

CARRIER-TO-CARRIER SERVICES

SECTION 1 – DEFINITIONS, (CONT'D.)

Point of Presence - The physical location of an interexchange carrier's facilities.

Point of Termination - The point of demarcation within a Customer-designated premises at which the Company's responsibility for the provision of access service ends. The point of demarcation is the point of interconnection between Company communications facilities and Customer-provided facilities as defined in Part 68 of the Federal Communications Commission's Rules and Regulations.

Premises - The physical space designated by the Customer for the termination of the Company's service.

Serving Wire Center - The wire center from which the Customer-designated premises would normally obtain dial tone from the Company.

Special Access - See Dedicated Access.

Term Agreement - A method of purchasing the Company's services whereby the Customer agrees to purchase service between specific locations for a specified and mutually agree upon length of time.

Terminal Equipment - Telecommunications devices, apparatus and associated wiring on the Customer-designated premises.

Terminating Direction - The use of Switched Access Service for the completion of calls from an IC's premises to an End User premises.

Transmission Path - An electrical path capable of transmitting signals within the range of the service offering. A transmission path is comprised of physical or derived facilities consisting of any form or configuration of plant used in the telecommunications industry.

Trunk - A communications path connecting two switching systems in a network, used in the establishment of an end-to-end connection.

Trunk Group - A set of trunks which are traffic engineered as a unit for the establishment of connections between switching systems in which all of the communications paths are interchangeable.

Wire Center - A physical location in which one or more central offices, used for the provision of exchange services, are located.

CARRIER-TO-CARRIER SERVICES

SECTION 2 - TERMS AND CONDITIONS, (CONT'D.)

2.19 Obligations of the Customer, (Cont'd.)

2.19.9 Mixed Interstate and Intrastate Access Service

When mixed interstate and intrastate switched access service is provided, all charges, including nonrecurring charges, usage charges, and optional features, will be prorated between interstate and intrastate. The percentage provided in the reports as set forth in 2.20.7 preceding will serve as the basis for prorating the charges. The percentage of an access service to be charged as intrastate is applied in the following manner:

- A. For nonrecurring chargeable rate elements, multiply the percent intrastate use (1-PIU) times the quantity of chargeable elements times the intrastate tariff rate per element.
- B. For usage sensitive chargeable rate elements, multiply the percent intrastate use (1-PIU) times actual use (measured or Company assumed average use) times the intrastate rate.

A similar calculation is then performed to determine the interstate portion of the bill.

2.20 Resale and Sharing

SECTION 2.20 IS AVAILABLE ONLY TO CARRIERS WHICH ARE CERTIFIED BY THE PUBLIC UTILITY COMMISSION OF OHIO TO PROVIDE INTRASTATE LOCAL EXCHANGE SERVICES

There are no prohibitions or limitations on the resale of services. Prices for services appear in the price sheet attached to this tariff. Any service provided under this tariff may be resold to or shared with other persons at the option of Customer, subject to compliance with any applicable laws of the Public Utilities Commission of Ohio regulations governing such resale or sharing. The Customer remains solely responsible for all use of services ordered by it or billed to its telephone number(s) pursuant to this tariff, for determining who is authorized to use its services, and for notifying the Company of any unauthorized use.

Rates for Resale and Sharing Service are the same as the tariffed retail rates found in Section 7.0 of the Company's Local Exchange and Interexchange Telecommunications Services tariff, P.U.C.O. No. 5.
