

Accordingly, regardless of its rural exemption,¹ Nova Telephone Company has had a clear duty to port numbers since 2005. By letter and telephone correspondence, Armstrong has specifically requested that Nova port numbers, and Nova has refused to do so. Armstrong is aware that Nova has ported numbers to wireless providers, and therefore has the technical capability to port numbers to Nova. Nova is in violation of the Commission's Finding and Order in Case No. 04-438-TP-UNC in failing to port numbers at Armstrong's request. As a result, Armstrong requests an Order from the Commission specifically requiring Nova to port numbers with Armstrong, effective immediate on the date of such Order.

Because of Nova's long delay in porting numbers, which adversely affects Armstrong's business interests, Armstrong respectfully requests an expedited ruling on this Motion, pursuant to Ohio Administrative Code § 4901-1-12(c). Counsel for Armstrong attempted to contact Nova to inquire if Nova objects to the issuance of an expedited ruling. Nova did not respond to Armstrong's counsel regarding objection.

Respectfully submitted,
