Re: Case Nos. 12-0466-TP-ATA, 90-5032-TP-TRF, and 07-464-TP-COI
In the Matter of the Application of AT&T Ohio to Add Language to Its Switched
Access Tariff as a Result of the F.C.C.'s Order on Intercarrier Compensation

Dear Ms. McCauley,

AT&T Ohio seeks to amend its tariff application made January 26, 2012, in the above captioned case. The affected Exhibit B page is attached.

Pursuant to a discussion with the Commission staff, AT&T Ohio is amending the application to remove the footnote on Sheet 1 in Part 21, Section 1. Although this still reflects AT&T Ohio's position, the language is being removed at staff's request.

If you have any questions about this application or amendment, please contact me at 223-8184. Thank you for your attention to this matter.

Very truly yours,

Susan Drombeta
Area Manager-Regulatory Affairs

1. GENERAL

The rates, charges and conditions for the provision of intrastate Carrier Access Service are as specified in the Ameritech Operating Companies Tariff F.C.C. No. 2, Access Services, as it now exists, and as it may be revised, added to or supplemented. The effectiveness of Section 4, End User Access Service, as applied to Intrastate Customers, has been suspended by the Public Utilities Commission of Ohio.

The rates, charges and conditions for the provision of intrastate Billing and Collection Service are as specified in the AMERITECH OPERATING COMPANIES TARIFF, F.C.C. NO. 1, BILLING AND COLLECTION SERVICES, as it now exists, and as it may be revised, added to or supplemented.

VoIP-PSTN Traffic

This section applies to Toll Intrastate VoIP-PSTN traffic exchanged between the Telephone Company and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. VoIP-PSTN traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment. The transitional Intercarrier Compensation framework for VoIP-PSTN traffic adopted by the Federal Communications Commission in its Report and Order, Release No. 11-161 (Nov. 18, 2011) ("FCC Order") directed that this intrastate VoIP-PSTN traffic be billed employing interstate rates.

The intrastate switched access rates in this tariff are the same as the interstate rates for Switched Access rate elements. Therefore, no percentage or VoIP factor is necessary to identify and rate the Toll Intrastate VoIP traffic, nor are modifications to the rates and/or billing necessary as a result of the Toll VoIP-PSTN provisions of the FCC Order.
