Subject: AEP price increase for small business

Message: I have four small Dairy Queens I employ about 65 people during peck season. Things are already tight in this economy with AEP icrease of 40% on small business how do we survive? one of my stores electric bill for last year was about \$24,000.00 that would be an increase of \$9600.00 for the year. Using basic math times 4 stores \$38,400.00. OUCH! Is there anything being done about the attack on small business and this increase? Other reasons we cant survive: Min. wage increase BWC increase unemployment increase CAT TAX (figured out how to tax food) Property values down yet TAXES went up? I have alot more but dont have time right now I have to go to work and scrap every dime together pay everone else but me. Would love to have lunch and talk more about why we cant survive.
