CARRIER-TO-CARRIER SERVICES

---

**SECTION 1 - DEFINITIONS *continued***

**Recurring Charges:** The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

**Service Order:** The written request for Network Services executed by the Customer and the Company in a format devised by the Company; or, in the alternative, the submission of an Access Service Request by the Customer in the manner specified in this tariff.

**Service(s):** The Company's telecommunications Access Services offered on the Company's Network.

**Signaling Point of Interface:** The Customer designated location where the SS7 signaling information is exchanged between the Company and the Customer.

**Signaling System 7 (SS7):** The common Channel Out of Band Signaling protocol developed by the Consultative Committee for International Telephone and Telegraph (CCITT) and the American National Standards Institute (ANSI).

**Switched Access Service:** Access to the switched network of an Exchange Carrier for the purpose of originating or terminating communications. Switched Access is available to carriers, as defined in this tariff.

**Toll VoIP-PSTN Traffic:** The term "Toll VoIP-PSTN Traffic" denotes a customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over PSTN facilities, which originates and/or terminates in Internet Protocol (IP) format. "Toll VoIP-PSTN Traffic" originates and/or terminates in IP format when it originates from and/or terminates to an end user customer of a service that requires IP-compatible customer premises equipment.

**SECTION 2 - RULES AND REGULATIONS *continued***

**2.3 Obligations of the Customer *continued***

**2.3.4 Identification and Rating of VoIP-PSTN Traffic**

(N)

**A. Scope**

1. VoIP-PSTN traffic is defined as traffic exchanged over the public switched telephone network ("PSTN") facilities that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification of toll VoIP-PSTN ("toll VoIP") traffic that in the absence of an interconnection agreement will be subject to interstate switched access rates in accordance with the Federal Communications Commission Report and Order in WC Docket Nos. 10-90, etc., FCC No. 11-161 released (Nov. 18, 2011) ("FCC Order") as it may hereinafter be amended or clarified. Specifically, this section establishes the method of distinguishing toll VoIP traffic from the customer's total intrastate access traffic, so that toll VoIP traffic will be billed in accordance with the FCC Order. Nothing in this section will supersede any current interconnection agreement governing the identification and rating of VoIP-PSTN traffic.
2. This section will be applied to the billing of switched access charges to a customer that is a local exchange carrier only to the extent that the customer has also implemented billing of interstate access charges for VoIP-PSTN Traffic in accordance with the FCC Order.

**B. Rating of toll VoIP-PSTN traffic**

The Telephone Company will bill toll VoIP-PSTN traffic which it identifies in accordance with this tariff section at rates equal to the Telephone Company's applicable tariffed interstate switched access rates.

**SECTION 2 - RULES AND REGULATIONS *continued***

**2.3 Obligations of the Customer *continued***

**2.3.4 Identification and Rating of VoIP-PSTN Traffic *continued***

(N)

**C. Calculation and Application of Percent-VoIP-Usage Factor**

The Telephone Company will determine the number of toll VoIP traffic minutes of use ("MOU") to which it will apply its interstate rates under subsection B., above, by applying an originating Percent VoIP Usage ("OPVU") factor to the total intrastate access MOU originated by the Telephone Company end user and delivered to the customer and by applying a terminating PVU ("TPVU") factor to the total intrastate access MOU terminated by the Telephone Company and originated by the customer. The OPVU and TPVU will be derived and applied as follows:

1. The Telephone Company will calculate and implement an OPVU factor representing a whole number percentage based on total traffic originated by Telephone Company end users in IP format and delivered to the customer in the State divided by the Telephone Company's total originated intrastate access MOU delivered to the customer in the State.
2. The customer will calculate and furnish to the Telephone Company a TPVU factor, along with supporting documentation, representing the whole number percentage of the customer's total terminating intrastate access MOU that the customer exchanges with the Telephone Company in the State that is sent to the Telephone Company and originated in IP format.
3. The TPVU and supporting documentation shall be based on information that is verifiable by the Telephone Company including but not limited to the number of the customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. The customer shall not modify its reported PIU factor to account for VoIP-PSTN traffic.

**2.3 Obligations of the Customer *continued***

**2.3.4 Identification and Rating of VoIP-PSTN Traffic *continued***

**C. Calculation and Application of Percent-VoIP-Usage Factor *continued***

4. After the Telephone Company verifies the TPVU provided by the customer the Telephone Company will apply the TPVU factor as well as the OPVU developed by the Telephone Company to the respective terminating and originating intrastate access MOU as indicated in Sections D. and/or E. below.

In the event that the Telephone Company can not verify the customer's TPVU, the Telephone Company will request additional information to support the TPVU, during this time no changes will be made to the existing TPVU. The customer shall supply the requested additional information within 15 days of the Telephone Company's request or no changes will be made to the existing TPVU. If after review of the additional information, the customer and Telephone Company establish a revised and mutually agreed upon TPVU factor, the Telephone Company will begin using the new factor with the next bill period.

If the dispute is unresolved the customer may request that verification audits be conducted by an independent auditor, at customer's sole expense. During the audit, the most recent undisputed TPVU factor will be used by the Telephone Company.

(N)

**D. Initial OPVU and TPVU Factor**

In calculating the initial OPVU and TPVU factor(s), the Telephone Company will take the factor(s) provided by the customer and/or developed by the Telephone Company into account retroactively to January 1, 2012, *provided that* the factor(s) and supporting documentation are provided as specified in subsection C. above to the Telephone Company no later than 15 days after the effective date of this tariff. Within 15 days of receiving the customers TPVU factor the Telephone Company will verify and either request additional information or apply the TPVU and associated Telephone Company developed OPVU. At the same time the customer submits the TPVU factor the customer may request from the Telephone Company supporting documentation for the OPVU factor, which will be provided by the Telephone Company within 15 days of request. If the customer does not furnish the Telephone Company with a TPVU factor pursuant to the preceding subsection C., the initial TPVU factor will be zero.

**E. OPVU and TPVU Factor Updates**

The customer may update the TPVU factor semi-annually using the method set forth in subsection C., above. If the customer chooses to submit such updates, it shall forward to the Telephone Company, no later than 15 days after the first day of January and/or July of each year, a revised TPVU factor and supporting documentation based on data for the prior three months, ending the last day of December and/or June, respectively. If the customer submits a TPVU factor update the Telephone Company will, within 15 days of receipt of such request, provide and updated OPVU factor with supporting documentation to the customer. Within 15 days of receiving the customers revised TPVU factor the Telephone Company will verify and either request additional information or apply the TPVU and associated Telephone Company developed OPVU. Once verified by the Telephone Company the revised TPVU factor along with the revised Telephone Company developed OPVU will apply prospectively and serve as the basis for billing until superseded by a new verified factor.
