Docketing Department  
The Public Utilities Commission of Ohio  
180 East Broad Street - 10th Floor  
Columbus, OH 43215-3793

Transmittal Letter  
Revised Tariff Sheets Filed Pursuant to the  
Commission's Order in Case No. 83-464-TP-COI  
and  
Case No. 90-5023-TP-TRF

Dear Ms. Crockron:

Revised tariff sheets have been filed with the FCC to amend GTOC Tariff FCC No. 1, Facilities for Interstate Access, in which GTE North Incorporated concurs for intrastate applications.

In accordance with your Commission's Order in Case No. 83-464-TP-COI, we are filing four (4) copies of these revised tariff sheets.

Transmittal No. 1174- Effective September 26, 1998  
This filing established volume discount installation charges for DSO Blocks Engineering/Installation under Section 17, Expanded Interconnection Services.

In addition, this filing adds a wire center in Texas and makes minor text changes to the Wire Center Zone Assignments under Section 19.

This filing also provides for special construction of SNET facilities for GCI in Idaho and deletes other expired special construction charges under Section 10, Special Construction.

Acknowledgement and date of receipt of this filing is requested.

Sincerely,

John W. Kennedy  
Assistant Vice President-Regulatory  
and Governmental Affairs

## FACILITIES FOR INTERSTATE ACCESS

17. EXPANDED INTERCONNECTION SERVICES (Cont'd)17.9 Rate Regulations (Cont'd)17.9.1 Types of Rates and Charges (Cont'd)(B) Nonrecurring Charges (Cont'd)(5) Cage Enclosure

The Cage Enclosure charge is associated with work performed by the Telephone Company to construct a cage for the customer's terminating equipment for physical EIS. This charge includes one ac outlet, one charge circuit system, and electrical sub-panel and adequate lighting. This element also includes material cost for the cage enclosure. This element is optional, the customer may sub-contract this work to a Telephone Company approved contractor.

This charge provides a 100 square foot enclosure. Upon request of the customer, additional space may be provided in increments of 100 square feet for \$1,000.00 per additional 100 square feet.

(6) Engineering/Installation Fee

The Engineering/Installation Fee is associated with work performed by the Telephone Company to determine space requirements, engineer adequate amounts of power to the equipment, ensure adequate fire protection and install customer designated termination equipment for virtual EIS.

An Engineering/Installation Fee as shown in 17.12.1 apply for the (T) installation of the base unit and each DS1, DS3, or DS0 card.

DS0 card installations are also available in ranges of 144 to 224, 225 to 448, 449 to 784, 785 to 1232, 1233 to 1680, 1681 to 2128, 2129 to 2576 and 2577 to 3024 blocks. The Engineering/Installation Fee for DS0 Blocks is applied for the initial installation of the block and determined by the range in which the number of DS0s ordered appears. Subsequent additions of DS0s to the block will be charged the Per DS0 Card Installed Fee. For example, an installation request for a block of 200 DS0s will be charged the DS0 Block Fee of the 144 to 224 range. A subsequent request for (30) more DS0s will be charged (30) DS0 Per Card Installed Fees. A subsequent request for another DS0 Block for an additional 150 DS0s will be charged the DS0 (N) Block Fee of the 144 to 224 range.

## FACILITIES FOR INTERSTATE ACCESS

17. EXPANDED INTERCONNECTION SERVICES (Cont'd)17.9 Rate Regulations (Cont'd)17.9.1 Types of Rates and Charges (Cont'd)(B) Nonrecurring Charges (Cont'd)(7) Overhead Superstructure

The Overhead Superstructure is associated with work performed by the Telephone Company for the extension of overhead racking for the placement of customer provided cable for physical EIS. This charge is rated as an ICB.

(8) dc Power

The dc power charge is associated with work performed by the Telephone Company for the extension of power to the customer's cage. This charge applies on a per 40 amp increment for physical or virtual EIS.

(9) Training

The training charge is associated with the costs incurred by the Telephone Company to train Telephone Company personnel on equipment that the Telephone Company does not use in normal operations within the requested central office for the provision of virtual EIS. The interconnecting customer will be responsible for the arrangement and payment for required training seminars, including tuition and related course materials. The technicians training time will be based on labor rates as set forth in Section 6.2(G) and will be billed per hour or fraction thereof. When travel is required, travel expenses associated with training will be charged to the interconnecting customer based directly on ticket stubs and/or receipts. (M)

## FACILITIES FOR INTERSTATE ACCESS

17. EXPANDED INTERCONNECTION SERVICES (Cont'd)17.9.1 Types of Rates and Charges (Cont'd)(B) Nonrecurring Charges (Cont'd)(10) Environmental Conditioning Charge

(M)

The Environmental Conditioning charge is related to the costs incurred by the Telephone Company for the environmental conditioning of space within a wire center or access tandem when a customer chooses to collocate equipment in non-environmental conditioned space. This charge will be rated as an ICB and filed under 17.14.

- (a) The Environmental Conditioning charge will apply in full to the first customer in each wire center or access tandem.
- (b) If a second customer orders service in the same wire center or access tandem and can be located within the same collocation area as the first customer, the second customer in that wire center or access tandem will be charged one-half of the Environmental Conditioning charge. The Telephone Company will retain \$1,000 of the amount paid by the second customer to cover administrative costs for processing the request. The first customer will receive either a refund or a credit for the remaining amount.
- (c) If a third customer orders service in the same wire center or access tandem and can be located within the same collocation area as the first two customers, the third customer in that wire center or access tandem will be charged one-third of the Environmental Conditioning charge. The Telephone Company will retain \$1,000 of the amount paid by the third customer to cover administrative costs for processing the request. The first and the second customer will receive one-half of the remaining amount via a refund or a credit. This process will be repeated as additional customers order service within the same wire center or access tandem.
- (d) The first customer ordering service in the same wire center or access tandem but placed in a different collocation area will be charged the full Environmental Conditioning charge. As additional customers are placed in the same collocation area, the same process of payments and associated refunds or credits will apply.

(11) Access Ordering Charge

The Switched Access Ordering Charge applies, per ASR, for the installation, addition, change, rearrangement or move of EIS Switched and Special Access Service facilities, except as specified in 4.5.2(A)(3)(h). The appropriate service installation charge for the service termination(s) will also apply.

When an EIS is moved to a different CDL, a new minimum period will be established for the installed Switched or Special Access Service. The customer will remain responsible for all remaining minimum period charges associated with the disconnected Switched or Special Access Service. For Switched or Special Access Services subject to payment plan regulations, the same payment plan will remain in force.
