Transmittal Letter
Revised Tariff Sheets Filed Pursuant to the
Commission's Order in Case No. 83-464-TP-COI
and
Case No. 90-5023-TP-TRF

Dear Ms. Crockron:

Revised tariff sheets have been filed with the FCC to amend GTOC Tariff FCC No. 1, Facilities for Interstate Access, in which GTE North Incorporated concurs for intrastate applications.

In accordance with your Commission's Order in Case No. 83-464-TP-COI, we are filing four (4) copies of these revised tariff sheets.

Transmittal No. 1189- Effective January 30, 1999
This filing will provide for the following:

- Special Construction of DS1 facilities for Dragon-Net Gaming in Oregon, MCI/FAA in Texas and for GTE Wireless in Kentucky under Section 10, Special Construction.
- An ICB for an overhead superstructure for customer provided cable in the Durham, North Carolina Central office under Section 17, Expanded Interconnection Services.
- Adds billing codes, makes minor textual changes and corrections.

Acknowledgement and date of receipt of this filing is requested.

Sincerely,

J.W. Kennedy
John W. Kennedy
Assistant Vice President-Regulatory
and Governmental Affairs

FACILITIES FOR INTERSTATE ACCESS

5. SPECIAL ACCESS (Cont'd)5.6 Rate Regulations (Cont'd)5.6.14 DS1 Term Volume Plan (TVP) (Cont'd)(L) Renewal Options

At the expiration of a TVP period, the customer may select a new TVP period or convert to a month-to-month payment plan. If the customer fails to make this selection, the Telephone Company will notify the customer and continue two additional months of TVP billing. If the customer does not select a new payment plan within 60 days from the expiration date, billing will remain at the current threshold level and a new TVP period will begin based on the previously effective term and quantity commitment. All terms and conditions, including Termination Liabilities will apply to the new TVP period.

(M) Upgrade to Higher Speed Service

The customer may upgrade service to a higher speed during a TVP period. The upgraded service will be subject to all appropriate NRCs.

If the following conditions exist, no termination liabilities will be applied for the decreased number of TVP SALs that are upgraded to a higher speed service.

- The customer must notify GTE in writing, in addition to the ASR.
- The higher speed service period must be equal to or longer in length than the time remaining under the TVP.
- The upgraded service remains connected at the same point(s) of termination.

When TVP DS1 SALs are upgraded to a SONET arrangement, the number of DS1 SALs upgraded will remain in the quantity count for the purpose of determining the applicable threshold level rate.

(N) Termination Liability

When a TVP arrangement is discontinued prior to the end of the commitment period, (T) termination liability charges, as set forth below, will apply based on the remainder of the TVP period in effect at the time of disconnect.

One Year TVP - 50% of any remaining portion of the first year's recurring charges.

Two Year TVP - 50% of any remaining portion of the first year's recurring charges. In addition, for any remaining portion of the second year, the customer will be liable for 5% of the total monthly recurring charges in that period.

Three Year TVP - 50% of any remaining portion of the first year's recurring charges. In addition, for any remaining portion of the second and third years, the customer will be liable for 10% of the total monthly recurring charges in that time period.

Five Year TVP - 50% of any remaining portion of the first year's recurring charges. In addition, for any remaining portion of the second through fifth years, the customer will be liable for 15% of the total monthly recurring charges in that time period.

(O) Termination Without Liability

During a TVP period, should the currently effective rate for a customer's service increase, the customer may, at their option, terminate the TVP arrangement without penalty or liability, unless the increase is a result of FCC action.

Issued: January 15, 1999

FACILITIES FOR INTERSTATE ACCESS

16. ADVANCED COMMUNICATIONS NETWORKS (Cont'd)16.7 Asynchronous Transfer Mode Network Service (Cont'd)(F) Rate Regulations (Cont'd)(2) Rate Elements (Cont'd)(d) ATM Access Link

A nonrecurring charge and a monthly charge apply for each point-to-point connection between the Telephone Company's ATM switch and the customer's ATM terminal equipment. The ATM OC3c and the OC12c Access Links are not available for meet point service arrangements. In this situation, the appropriate SONET, OC3c and OC12c rate elements from the SONET Access Services under Section 20 may be used. (C) (T)

No diverse routing of fiber circuits or self-activating service restoral capabilities are provided with the ATM OC3c and OC12c Access Links, however, if such services are desired, the appropriate SONET rate elements from Section 20 may be used. When one of the CDLs is provided by another telephone company the appropriate SONET rates as shown in Section 20 are applicable.

(3) Rate Application

A customer may order a connection to ATM Network Service via an ATM OC3c or OC12c Access Link, a DS1 or DS3 high capacity Special Access Line (SAL) offered under Section 5 or an OC3c or OC12c SONET facilities offered under Section 20. The associated regulations, rates and charges for such facilities from Sections 5 and/or 20 shall apply in addition to the rates and charges associated with the ATM rate elements. (T)

ATM Network Service for each port must be subscribed according to the customer's chosen Level of Service as described following:

- Level 1: Up to 100% of port bandwidth may be utilized for Constant Bit Rate (CBR) and/or Variable Bit Rate-real time (VBR-rt) Quality of Service (QOS) priority processing and network transmission. Any remaining bandwidth may be utilized for VBR-nrt, ABR or UBR services.
- Level 2: Up to 75% of port bandwidth may be utilized for Constant Bit Rate (CBR) and/or Variable Bit Rate-real time (VBR-rt) Quality of Service (QOS) priority processing and network transmission. Remaining bandwidth may be utilized for VBR-nrt, ABR or UBR services.
- Level 3: Up to 50% of port bandwidth may be utilized for Constant Bit Rate (CBR) and/or Variable Bit Rate-real time (VBR-rt) Quality of Service (QOS) priority processing and network transmission. Remaining bandwidth may be utilized for VBR-nrt, ABR or UBR services.

The regulations, rates and charges for associated DS1 and DS3 facilities are found in Section 5. Associated SONET OC3c and OC12c facilities are found in Section 20.
