 and Related Matters.)

Case No. 12-0812-GA-RDR12-0812-

**APPLICATION TO ADJUST
 PIPELINE INFRASTRUCTURE REPLACEMENT PROGRAM
COST RECOVERY CHARGE**

RECEIVED-DOCKETING DIV

The East Ohio Gas Company d/b/a Dominion East Ohio ("DEO") respectfully requests, pursuant to the Commission's Entries of October 15, 2008 and December 19, 2008, in Case Nos. 07-829-GA-AIR, *et al.*, and Opinion and Order of August 3, 2011, in Case No. 11-2401-GA-ALT, that the Commission approve: (i) an adjustment to DEO's Pipeline Infrastructure Replacement ("PIR") Cost Recovery Charge as set forth in the attached Exhibit A, Schedule 1, reflecting costs associated with capital investments made during the period of July 1, 2011 through December 31, 2011; and (ii) the revised PIR Cost Recovery Charge tariff sheet attached as Exhibit B. In support of its Application, DEO states:

1. DEO is an Ohio corporation engaged in the business of providing natural gas service to approximately 1.2 million customers in northeast, western and southeast Ohio. As such, DEO is a "natural gas company" and "public utility" as defined by R.C. 4905.03(A)(5) and R.C. 4905.02.

2. On February 22, 2008, in Case No. 08-169-GA-UNC, DEO filed an application to establish a PIR Cost Recovery Charge via an automatic adjustment mechanism pursuant to R.C. 4929.11. In an Entry on Rehearing, dated May 28, 2008, the Commission determined that DEO's application constituted an application to establish an alternative rate plan and ordered that

the case number be amended to 08-169-GA-ALT; that case was later consolidated with Case Nos. 07-829-GA-AIR, *et al.*

3. On June 12, 2008, Commission Staff issued its Report in Case Nos. 07-829-GA-AIR, *et al.* ("Staff Report"). On August 22, 2008, the parties in Case Nos. 07-829-GA-AIR, *et al.*, stipulated to the adoption of Staff's PIR recommendations except as specified in the Stipulation. On October 15, 2008, the Commission approved the Stipulation. Opinion and Order at 12, 31-33. On December 19, 2008, the Commission affirmed its approval of the Stipulation and adjusted the rate of return applicable to the PIR Program to the rate of return agreed upon by the Parties to the Stipulation. Entry on Rehearing at 5.

4. On March 31, 2011, in Case No. 11-2401-GA-ALT, DEO filed a motion to modify its PIR Program. On July 15, 2011, DEO, along with Staff of the Public Utilities Commission, Utility Workers of America, Local G555, and Ohio Partners for Affordable Energy, filed a Stipulation and Recommendation wherein the signatory parties agreed to the following changes to the PIR program and PIR Cost Recovery Charge:

- a. Pipe installed and field coated before 1955 is considered ineffectively coated, without further testing, and therefore within the scope of the PIR program;
- b. Costs of moving inside meters to outside locations will be recovered in the PIR Cost Recovery Charge if DEO plans to increase the pressure in the pipeline associated with the meter to a regulated pressure greater than 1 psig; the meter is connected to a segment of target pipe; and DEO plans to operate the replacement mains and associated service lines at regulated pressure within two years of relocating the first meter on the project;

- c. Costs of transmission integrity management, distribution integrity management, and environmental compliance programs are excluded from recovery under the PIR Cost Recovery Charge;
- d. Costs of governmental relocations of target pipe are included in the PIR Cost Recovery Charge if plastic pipe associated with the relocation is 25% or less than the total footage relocated;
- e. System improvement costs are included in the PIR Cost Recovery Charge if the improvements replace the role of target pipe and cost no more than an in-kind replacement of target pipe;
- f. Costs of replacing, modifying or removing district regulating stations will be recovered through the PIR Cost Recovery Charge only if needed due to age or condition, or the work is directly associated with the replacement of target pipe connected to the regulating station;
- g. Any programmatic replacement, modification or removal of regulating stations is excluded from recovery under the PIR Cost Recovery Charge if such a program is implemented as a result of the Fairport Harbor incident and investigation; and
- h. Costs to replace steel main-to-curb service lines are included in the PIR Cost Recovery Charge regardless of whether such replacements are performed in conjunction with a planned PIR project or at the time of a defective service line replacement.

5. The Stipulation and Recommendation also recommends that DEO continue to prioritize PIR replacement projects using the Optimain software program, transition from a fiscal year- to a calendar year-based PIR Cost Recovery Charge filing, and reconcile costs recoverable

and costs actually recovered as an adjustment to the PIR revenue requirement of the subsequent PIR Cost Recovery Charge filing.

6. The Stipulation and Recommendation also requires that, beginning with the Fiscal Year 2012 filing and each annual filing thereafter, the PIR Cost Recovery Charge reflect a minimum \$1 million O&M expense savings credit, notwithstanding actual O&M expense savings achieved during the fiscal year. If actual O&M expense savings is between \$1 million and \$1.5 million, DEO is not required to reflect any additional credit. If O&M expense savings exceed \$1.5 million, 50% of the excess thereof shall be reflected as additional O&M expense savings credited to the PIR Cost Recovery Charge revenue requirement. The O&M expense savings must be calculated in accordance with the Commission's Opinion and Order in Case No. 09-458-GA-RDR.

7. DEO is filing this Application in accordance with the August 3, 2011 Opinion and Order, in which the Commission approved the Stipulation and Recommendation. By this Application, DEO is transitioning PIR Cost Recovery Charge filings from a fiscal-year to calendar-year basis. The PIR Cost Recovery Charge requested herein recovers PIR program costs incurred between July 1, 2011 and December 31, 2011. The O&M savings credit thresholds, as described in paragraph 6 above, are adjusted proportionately to reflect the six-month filing period.

8. The current PIR Cost Recovery Charge was approved in the October 26, 2011 Opinion and Order in Case No. 11-3238-GA-RDR and is based on costs associated with PIR program investments for the fiscal year ended June 30, 2011.

9. DEO hereby submits the following schedules supporting its proposed PIR Cost Recovery Charge, attached collectively as Exhibit A.

- a. Schedule 1, which summarizes the PIR revenue requirement and the proposed PIR Cost Recovery Charge by rate schedule based on costs associated with PIR Program capital investments made during the period of July 1, 2011 through December 31, 2011, and the cumulative rate base associated with such investments;
- b. Schedule 2, which reflects the cumulative and incremental monthly capital additions under the PIR Program for the period beginning July 1, 2011 and ending December 31, 2011;
- c. Schedule 3, which reflects the cumulative and incremental monthly cost of removal associated with PIR Program projects for the period beginning July 1, 2011 and ending December 31, 2011;
- d. Schedule 4, which reflects the cumulative and incremental monthly capital retirements associated with PIR Program projects for the period beginning July 1, 2011 and ending December 31, 2011;
- e. Schedule 5, which reflects the incremental monthly and cumulative provision for depreciation of the capital additions;
- f. Schedule 5A, which reflects the incremental depreciation expense to be deferred and amortized over the lives of the associated assets;
- g. Schedule 6, which reflects the incremental monthly and cumulative post-in-service carrying costs and the associated net regulatory asset;
- h. Schedule 7, which reflects the incremental monthly and cumulative net deferred tax balance related to post-in-service carrying charges;
- i. Schedule 8, which reflects deferred taxes on liberalized depreciation;

- j. Schedule 9, which reflects annualized depreciation expense associated with capital additions through December 31, 2011;
 - k. Schedule 10, which reflects annualized amortization of post-in-service carrying costs;
 - l. Schedule 11, which reflects incremental and annualized property tax expense;
 - m. Schedule 12, which reflects the approved rate of return on rate base on a pre-tax basis;
 - n. Schedule 13, which reflects the allocation of the PIR revenue requirement by rate schedule on a cost-of-service basis;
 - o. Schedule 14, which reflects the number of bills issued to customers on applicable rate schedules between December 31, 2010 and December 31, 2011, and the volumes transported for DTS customers between the same dates; and
 - p. Schedule 15, which reflects the change in expenses associated with leak detection and repair processes and corrosion monitoring and remediation processes in relation to a baseline level of expenses, which have been adjusted proportionately to based on the six-month period covered by this Application, and Department of Transportation inspections on inside meters no longer necessary because the meters were relocated outside.
10. As reflected in Schedule 1:
- a. The total rate base through December 31, 2011 is \$265,488,578.73;
 - b. The annualized return on rate base is \$30,159,502.54;

- c. The annualized PIR-related revenue requirement is \$46,714,686.08;
- d. The resulting PIR Cost Recovery Charge by rate schedule is:

GSS/ECTS	\$2.80 per month;
LVGSS/LVECTS	\$23.68 per month;
GTS/TSS	\$107.94 per month;
DTS	\$0.0384 per Mcf.

11. The PIR Program revenue requirement shown on Exhibit A at Schedule 1 reflects the impact of bonus tax depreciation, which decreased the PIR rate base by nearly \$31 million, resulting in a decrease in the PIR Cost Recovery Charge rates shown above. The reduction in the cost recovery charge for the GSS/ECTS rate class is \$0.22 per customer, per month.

12. Without the impacts of the bonus tax depreciation and O&M expense savings of \$0.5 million, DEO's PIR capital investments for the six months ending December 31, 2011 exceeded the level required to meet the allowed \$0.65 increase cap for the PIR Cost Recovery Charge for the GSS/ECTS rate class in this filing. *See Case No. 11-2401-GA-ALT, Opinion and Order (August 3, 2011) at 6.*

13. The Commission approved the current PIR tariff sheet pursuant to its October 26, 2011 Opinion and Order in Case No. 11-3238-GA-RDR. Cleaned and scored versions of this tariff sheet reflecting the adjusted PIR Cost Recovery Charge are attached as Exhibit B.

WHEREFORE, DEO respectfully requests that the Commission approve DEO's Application to Adjust Pipeline Infrastructure Replacement Program Cost Recovery Charge as set forth on Exhibit A, Schedule 1; approve the revised PIR Cost Recovery Charge tariff sheet attached as Exhibit B; and order all other necessary and proper relief.

Dated: February 28, 2012

Respectfully submitted,

Melissa L. Thompson

PIR Cost Recovery Charge Tariff Sheet

**PIPELINE INFRASTRUCTURE REPLACEMENT (PIR)
COST RECOVERY CHARGE****APPLICABILITY**

Applicable to all customers receiving service under the East Ohio's sales and transportation rate schedules.

PIR COST RECOVERY CHARGE

All customers receiving service under the following rate schedules shall be assessed a monthly charge, regardless of gas consumed, in addition to the otherwise applicable monthly service charge to recover the revenue requirement associated with East Ohio's pipeline infrastructure replacement program:

General Sales Service – Residential ("GSS-R")
General Sales Service – Nonresidential ("GSS-NR")
Energy Choice Transportation Service – Residential ("ECTS-R")
Energy Choice Transportation Service – Nonresidential ("ECTS-NR")
Large Volume General Sales Service ("LVGSS")
Large Volumes Energy Choice Transportation Service ("LVECTS")
General Transportation Service ("GTS")
Transportation Service for Schools ("TSS")

Customers receiving service under the Daily Transportation Service ("DTS") rate schedule shall be assessed a volumetric charge in addition to their volumetric delivery charge for that purpose. The maximum monthly PIR Cost Recovery Charge for any DTS customer shall be \$1,000.00 per account.

The PIR Cost Recovery Charge shall be updated annually to reflect pipeline infrastructure replacement expenditures during the most recent calendar year. East Ohio shall submit a prefiling notice by November 30 each year, and an updated filing with actual data by February 28, with the revised PIR Cost Recovery Charge becoming effective as of the first billing cycle in May.

The charges for the respective gas service schedules are:

Rate Schedules GSS-R and GSS-NR	\$2.80/month
Rate Schedules ECTS-R and ECTS-NR	\$2.80/month
Rate Schedules LVGSS and LVECTS	\$23.68/month
Rate Schedules GTS and TSS	\$107.94/month
Rate Schedule DTS	\$.00384/Mcf

Issued:

Effective: With bills rendered on or after
Filed under authority of The Public Utilities Commission of Ohio in Case No. 12-____-GA-RDR
Anne E. Bomar, Senior Vice President

**Pipeline Infrastructure Replacement (PIR)
Cost Recovery Charge****APPLICABILITY**

Applicable to all customers receiving service under the East Ohio's sales and transportation rate schedules.

PIR COST RECOVERY CHARGE

All customers receiving service under the following rate schedules shall be assessed a monthly charge, regardless of gas consumed, in addition to the otherwise applicable monthly service charge to recover the revenue requirement associated with East Ohio's pipeline infrastructure replacement program:

General Sales Service – Residential ("GSS-R")
General Sales Service – Nonresidential ("GSS-NR")
Energy Choice Transportation Service – Residential ("ECTS-R")
Energy Choice Transportation Service – Nonresidential ("ECTS-NR")
Large Volume General Sales Service ("LVGSS")
Large Volumes Energy Choice Transportation Service ("LVECTS")
General Transportation Service ("GTS")
Transportation Service for Schools ("TSS")

Customers receiving service under the Daily Transportation Service ("DTS") rate schedule shall be assessed a volumetric charge in addition to their volumetric delivery charge for that purpose. The maximum monthly PIR Cost Recovery Charge for any DTS customer shall be \$1,000.00 per account.

The PIR Cost Recovery Charge shall be updated annually to reflect pipeline infrastructure replacement expenditures during the most recent calendar year. East Ohio shall submit a prefiling notice by November 30 each year, and an updated filing with actual data by February 28, with the revised PIR Cost Recovery Charge becoming effective as of the first billing cycle in May.

The PIR Cost Recovery Charge shall be updated annually to reflect the impact on East Ohio's revenue requirements associated with pipeline infrastructure replacement expenditures as offset by corresponding operations and maintenance expense reductions during the most recent twelve months ended June 30. East Ohio shall file a notice no later than May 31 of each year based on nine months of actual data and three months of estimated data for the fiscal year. The filing shall be updated by no later than August 31 of the same year to reflect the use of actual fiscal year data. Such adjustments to the PIR Cost Recovery Charge shall become effective with bills rendered on and after November 1 of each year.

The charges for the respective gas service schedules are:

Rate Schedules GSS-R and GSS-NR \$2.802.22/month

Issued: October 27, 2014 Effective: With bills rendered on or after November 2, 2014
