Re: *Ohio Power Company*, Case Nos. 11-346-EL-SSO, 11-348-EL-SSO, 11-349-EL-AAM, 11-350-EL-AAM, 10-343-EL-ATA, 10-344-EL-ATA, 10-2376-EL-UNC, 10-2929-EL-UNC, 11-4920-EL-RDR, and 11-4921-EL-RDR

Dear Ms. McCauley:

On February 28, 2012 AEP Ohio<sup>1</sup> filed submitted a compliance filing that implemented the *ESP I* rates and tariffs, including two rate zones to reflect the pre-merger service territories of Ohio Power and Columbus Southern Power. Upon review of the filing an inadvertent error was discovered that require a resubmission of the tariff sheets for the Phase-In Recovery Rider.

In the original compliance filing, the Company calculated the carrying costs on the deferral balance in January and an estimate of the deferral balance in February at the long-term debt rate per the stipulation in effect during these two months. The carrying cost calculation used for those two months in the original compliance filing was an annual rate instead of a monthly rate, inadvertently overstating the overall deferral balance. This revision correctly restates the estimated deferral balance as of the end of February 2012. Exhibit A has a redlined copy of the tariff and Exhibit B is a clean copy of the final tariff. Again, upon receiving Commission approval, the rates and tariffs will become effective and implemented by AEP Ohio.

---

<sup>1</sup> In accordance with the Commission's approval of the merger between Ohio Power Company and Columbus Power Company, a Certificate of Merger was executed effective at the end of 2011, such that Columbus Southern Power Company is merged into Ohio Power Company (the surviving entity is referred to herein as "AEP Ohio").

A copy of the compliance tariff workpapers is also being served upon Staff and the parties. Please advise if you have any questions or concerns regarding the compliance tariffs.

Best Regards,

//ss/ Matthew J. Satterwhite
