- Name on account: Pandora-Gilboa Local School
- Service address: 410 Rocket Ridge
- Service phone: 419-384-3227
- Account Number: 070-754-278-0-2

QUESTION DESCRIPTION:

In review of Case No. 10-2929-EL-UNC, what are we trying to do in this state? The whole reason for the strong opposition to the AEP rate increases was not only because of the high rate increase, but because they have been such an uncontrolled monopoly for many years now.

To allow what they are asking for in Case No. 10-2929-EL-UNC would be to undo the good that was supposed to happen from allowing the shopping of electric generation. This is a ridiculously high charge, they already require unnecessary meter switches that require phone line installations that darn near make it impossible to save money switching providers, this provision would insure it is impossible.

So my question is, when is Ohio going to stop having a state government that has servants only working to line their own pockets and go back to being a government that helps its citizens, businesses and in turn through the additional growth and tax revenue help itself?
