Rule 4901:1-13-11, Ohio Administrative Code.)	

**APPLICATION FOR
APPROVAL OF REVISED BILL FORMAT**

Now comes the Applicant, Vectren Energy Delivery of Ohio, Inc. ("VEDO"), and, in compliance with the Commission's February 23, 2012 Entry ("Entry") in this case, requests approval for the bill format proposed herein, pursuant to Rule 4901:1-13-11(D), Ohio Administrative Code. In support of its Application, VEDO states as follows:

1. VEDO is an Ohio corporation engaged in the business of supplying natural gas to consumers in Ohio, and, as such, is a public utility as defined by Sections 4905.02 and 4905.03 of the Ohio Revised Code and is subject to the jurisdiction of the Public Utilities Commission of Ohio ("Commission").

2. In its Entry, the Commission ordered companies to file revised bill formats consistent with certain revised rules in this docket within thirty days of the Entry. The proposed changes, reflected on the back of the bill, reflect the rule revisions made by the Commission.

3. VEDO submits that the proposed format makes bills as clear, straightforward and understandable as possible.

4. A sample of VEDO's proposed bill format is attached hereto and incorporated herein as Exhibit A.

5. This Application does not result in a rate increase.

6. VEDO requests Commission approval to use its current bill format until its current bill stock is exhausted. The proposed bill format would become effective for the first billing cycle after the current bill stock is exhausted.

7. Rule 4901:1-13-11(D), Ohio Administrative Code, provides that "[a] gas or natural gas company proposing any new bill format shall file its proposed bill format with the commission for approval. If the commission does not act upon an application for a new bill format approval within forty-five days, the proposed bill format shall automatically be approved on the forty-sixth day."

8. WHEREFORE, VEDO respectfully requests approval of this Application to revise its bill format consistent with the provisions of Rule 4901:1-13-11(D), Ohio Administrative Code, to become effective on the first billing cycle after its current bill stock is exhausted.

Respectfully submitted,

/s/ Gretchen J. Hummel

Terms & Definitions

Distribution and Service Charges - Charges billed each month for the delivery of natural gas and other charges approved by the PUCO to ensure safe, reliable service.

Customer Charge – Charge billed each month to recover a portion of the ongoing fixed costs of providing service to the customer. The Customer Charge does not vary with gas consumption.

Monthly Charge – Charge billed each month to recover the costs of delivering gas to the residential customer. The Monthly Charge does not vary with gas consumption.

CCF (100 Cubic Feet) – Gas consumption is measured by your meter in hundreds of cubic feet.

Standard Choice Offer – Under Vectren's Standard Choice Offer (SCO) service, Vectren customers are receiving natural gas provided by third-party suppliers. The SCO suppliers won the right in a competitive auction to provide gas supply to customers at a monthly SCO price, which is calculated by adding a fixed retail price adjustment determined in a periodic auction to the New York Mercantile Exchange (NYMEX) month-end settlement price for natural gas. Because the SCO price reflects the NYMEX-based market price, it can vary with changes in supply and demand. The SCO price is charged to customers who have not selected an alternate gas supplier through the natural gas Choice program. The name of the gas supplier providing SCO service appears on the bill.

Gas Cost Charge (DSS) – Under Vectren's Default Sales Service (DSS), Vectren purchases natural gas through third-party suppliers at a fixed retail price adjustment determined in a competitive auction plus the New York Mercantile Exchange (NYMEX) month-end settlement price for natural gas; Vectren's costs are then passed on to DSS customers. Because the DSS charge reflects the NYMEX-based market price, it can vary monthly with changes in supply and demand. The DSS price is charged to customers who are not eligible to select an alternate gas supplier through the natural gas Choice program.

Gas Supplier (also referred to as a gas marketer) – A person or company who is certified by the Public Utilities Commission of Ohio (PUCO) to sell natural gas in a competitive retail market.

Gas Supplier Charges – Charges billed each month for the consumption of natural gas supplied by a retail gas supplier.

Miscellaneous Charges – Examples of miscellaneous charges may include but are not limited to reconnect fees, labor charges and returned check charges.

Multiplier – Factor used to calculate consumption on meters with higher than the standard delivery pressure. A multiplier greater than 1 indicates a delivery pressure that is greater than Vectren's standard delivery pressure.

PIPP Plus - The Percentage of Income Payment Plan Plus (PIPP Plus) is available if your total income is at or below 150% of the Federal poverty level. This program does not reduce or waive energy costs; it only establishes a payment plan to allow you to maintain your utility service.
