COMMENT DESCRIPTION:

My comments for case nos. 11-346-EL-SSO & 11-348-EL-SSO:

We encouraged you to take fast and favorable response to AEP Ohio's petition. Giving and taking back what you agreed upon is not fair. We cannot sleep well which indirectly effecting us with the directon of compay going towards lay offs. we have a family and you fast and favorable decision will not put us in jeopardy situation. I hope you will understand a person life and let them know your good decision.

Thanks,

Please docket comments in case nos. 11-346-EL-SSO & 11-348-EL-SSO

Please take immediate and favorable action on AEP Ohio's petition.

In order to maintain a fair competitive playing field for utilities in Ohio action needs to be taken immediately. It is not reasonable to expect AEP to operate in Ohio under the current circumstances. Until a new rate plan can be agreed upon AEP needs to be allowed to hold its own against it's competitors via the proposed capacity charge.

COMMENT DESCRIPTION:

Please docket this comment in case numbers 11-346-EL-SSO and 11-348-EL-SSO.

I am respectfully asking the commission to take immediate and favorable action on AEP Ohio's petition to set the capacity charge that alternative suppliers must pay to use AEP's generating assets at \$255/MW per day until a final ESP has been approved. To not do so, is an egregious and complicit act to financially hurt an Ohio corporation, its Ohio employees and customers. It is the right and fair thing to do until a final decision is made. Please do not delay. Thank you.

COMMENT DESCRIPTION:

I question the new rates being applied for with the public utilities commission. The water service rate increase (around 13%) seems reasonable; however, the sewer service rate increase (around 180%) seems outrageous.

COMMENT DESCRIPTION:

I want my comments to be docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO. AEP is a vital and important part of the economic wellbeing of not only the state of Ohio but multi-state regions as well. AEP has diligently provided reliable and inexpensive power to their customers over many years and has always met the demanding challenges of the ever increasing demands of environmental standards and escalating fuel cost. In this critical period of sweeping economic changes for Ohio and the country overall it is vital that AEP be afforded the opportunity to compete in a market place that is fair and equitable. The economic strength of Ohio is dependent on reliable and sustainable power. AEP, afforded a level playing field, will continue to provide to its customers the power that will be desperately needed going forward into the future. I ask you take immediate and favorable action on AEP Ohio's petition.

I request my comments to be docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO

- Please take immediate and favorable action on AEP Ohio's request. The PUCO's decision to now reject AEP Ohio's reasonable request after first approving it, is unprecedented. This could not just negatively affect AEP Ohio as a company but all the employees that work for AEP. This decision could cost thousands of jobs in Ohio and thus affecting Ohio's economy as well. There is a bigger picture to this situation and by rejecting AEP Ohio's request there will be drastic economic consequences. Please reconsider your decision.

COMMENT DESCRIPTION:

I am writing asking you to quickly support AEP Ohio's petition. I have worked in the electric industry for over 17yrs, and now with the PUCO's recent reversal of AEP Ohio's ESP, YOU are threatening my job. You talk about job impacts, well your decision impacts thousands of AEP employees in Ohio as well. Asking AEP to sell energy to others a far below what it costs to generate it doesn't make sense to any business model. No one can survive if you sell a product for less than it takes to make it. I for one can not pick up an move to another state because my

husband has his own business here that is not portable, so am I supposed to live some where other than where he is because you cost me my job. In case you haven't noticed the job market isn't exactly booming. Or I loose my job and we loose our home, yeah great choices you are making here. I am not looking at this as just an AEP employee, but I am also an AEP customer. Either way it goes this is not a win for anyone if AEP pulls out of Ohio. I hope the PUCO decides to quickly approve AEP's petition, so I can continue to live and work in Ohio.

COMMENT DESCRIPTION:

I would like my comments to be docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO.

On February 27, AEP Ohio filed a motion for relief and expedited action with the PUCO to halt the financial losses sustained as a result of the Commission's decision on February 23 to revoke its approval of the company's ESP plan, which the Commission had approved on December 14 and modified on January 23. AEP has requested that the Commission set the capacity charge that alternative suppliers must pay to use AEP's generating assets at \$255/MWday until a final ESP has been approved.

I am asking that you take immediate and favorable action on AEP Ohio's petition

COMMENT DESCRIPTION:

Dear Commissioners, I would like to tell you a brief story. My name is Troy Kelley and I am from Georgia. I moved to Ohio last Oct to accept meaningful employment here at the AEP headquarters in downtown Columbus, Ohio. I move here from Ga because the economy down South is terrible. Since I was given this great opportunity here at AEP, my wife and I have been proud to call Columbus our home. While in Columbus, my wife and I have enjoyed site seeing, eating out, and shopping. Both my wife and I have also purchased lasik vision correction

surgery. We have plans on purchasing a car in the upcoming month or so; however, the recent decision by PUCO is endangering this decision and further decisions about spending our money here in Ohio. We now have concerns that AEP will leave Ohio and I like many other Ohians I will face unemployment. I just wanted to share this brief story with you in hopes that you realize that a fair settlement is the only way to go with this endeavor. Just think about the amount of money my wife and I have spent in Columbus, since my employment with AEP (Lasik was \$7K for us both!). Imagine if your decision drives AEP to cut back on staff and even leave the State. You will be the direct cause of businesses all over the city and state not reaching revenue goals because there will not be as many people with meaningful employment or employment at all. I strongly urge you to make a quick, fair, and favorable decision to practice good business here in Ohio starting with AEP?. Thank you, Troy A Kelley

COMMENT DESCRIPTION:

Please apply comments to be docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO

AEP has fully embraced the state's decision to move to electricity competition and is prepared to move forward through a fair and reasonable transition much like other utilities did. During the last decade, with the support and encouragement of the PUCO, AEP Ohio committed its low-cost

power plants to serve our customers and avoided implementing higher market rates. That commitment cannot be changed overnight and will last three years into the future. Now competitors, most of whom don't have investments in Ohio and many who own no assets at all, want to use AEP Ohio's plants to serve our customers using an arbitrary price as a basis for paying for the use of those plants. This price is extremely low, would have severe and immediate financial consequences for AEP, and could lead to unstable conditions for future investment in Ohio.

To have a healthy competitive environment in any industry, more than one company needs to be capable of competing on a level playing field. Without a reasonable transition to a fair competitive framework, Ohio's economic recovery is not sustainable due to uncertainty for investors, and long term price instability for electric service.

I do believe that competitive electricity markets can work for Ohio. Please allow AEP a fair transition to market that includes regulatory certainty so that all Ohioans can be successful. AEP Ohio will file a modified Electric Security Plan (ESP) with the PUCO by the end of March that will outline a path toward this goal.

On February 27, AEP Ohio filed a motion for relief and expedited action with the PUCO to halt the financial losses sustained as a result of the Commission's decision on February 23 to revoke its approval of the company's ESP plan, which the Commission had approved on December 14 and modified on January 23. AEP have requested that the Commission set the capacity charge that alternative suppliers must pay to use AEP's generating assets at \$255/MWday until a final ESP has been approved.

COMMENT DESCRIPTION:

I would like my comments to be docketed in case nos. 11-346-EL-SSO & 11-348-EL-SSO.

On February 27, AEP Ohio filed a motion for relief and expedited action with the PUCO to halt the financial losses sustained as a result of the Commission's decision on February 23 to revoke its approval of the company's ESP plan, which the Commission had approved on December 14

and modified on January 23. AEP has requested that the Commission set the capacity charge that alternative suppliers must pay to use AEP's generating assets at \$255/MWday until a final ESP has been approved.

I am asking that you take immediate and favorable action on AEP Ohio's petition

COMMENT DESCRIPTION:

As an employee of American Electric Power I've enjoyed working for the company for over 12 years at the IRP location. PUCO's decision to revoke the approval on the ESP has very serious implications to the ability of AEP to effectively do business and compete here in Ohio.

Our executive management has informed us that jobs may be lost and/or relocated as part of the

company efforts to mitigate the impact of this revocation. I hope that PUCO will do everything possible to work with AEP to come to a fair resolution to this situation, specifically expedition of AEP requests for immediate relief to this situation and fair review of the revised ESP.

Whether jobs are lost or relocated, the city of Columbus and Ohio stand to lose significant income in tax revenue, people could find themselves looking for jobs in a still questionable economy, and AEP could incur otherwise needless costs as it may move jobs and possibly the entire headquarters out of the state.

I understand a group of AEP Ohio customers were adversely affected by the initial rate increase, but PUCO's decision to completely revoke the ESP was also very unfair and could prove costly all around.

COMMENT DESCRIPTION:

Good morning,

I am writing today to implore that PUCO reverses its recent decision to revoke the ESP plan for AEP Ohio. This puts an extreme amount of financial strain on the company, and makes both corporate and plant jobs extremely unstable. AEP is willing to switch the competitive electricity markets, but the loss in operating monies caused by revoking the recent ESP could cause that

transistion to stall, and company growth to be halted or even reversed. It gives a competitive disadvantage to a company that has invested many hundreds of millions of dollars in the state of Ohio, potentially sabotaging all previous work. Please disregard your recent revoke of the ESP, or at least set the capacity charge for alternative suppliers at a competitive rate as well until the final ESP is approved.

Thank you,

Dan Lampke
