Subject: Capacity Rate for all Load in Ohio Power Territory - Update
Sent by: aeadams@aep.com

Exhibit A

Effective from March 7, 2012 through May 31, 2012, the capacity rate for all load of Ohio Power served by a Competitive Retail Electric Service (CRES) provider will be \$255.00/MW-day without further adjustment, except for load served by a CRES provider that has been granted RPM-priced capacity per the March 7, 2012, entry issued by the Public Utilities Commission of Ohio (PUCO) in Case No. 10-2929-EL-UNC.

The load that has been granted RPM-priced capacity by the PUCO is the first 21% of each customer class and all customers of governmental aggregations approved on or before November 8, 2011. The RPM-priced capacity shall be billed using the Final Zonal Capacity Price adjusted for the RPM Scaling Factor, the Forecast Pool Requirement and Losses.

The Final Zonal Capacity Price shall be the rate applicable to the unconstrained region of PJM.

The capacity rate to apply after May 31, 2012 may be established through a subsequent order by the PUCO.
