# MOTION OF BUCKEYE TELESYSTEM, INC. FOR REVIEW OF A DECISION OF THE NORTH AMERICAN NUMBERING POOLING ADMINISTRATOR

Buckeye TeleSystem, Inc. ("Buckeye") is a certificated local exchange carrier providing service to primarily business customers in northwest Ohio. Buckeye has a new customer, Sandusky City Schools ("the Schools") located at 407 Decatur Street, Sandusky, Ohio 44870-2442 that Buckeye plans to serve in the near future.

The Schools have requested that Buckeye provide it with local dial tone service for its two ISDN PRIs and its analog business lines. The Schools also request to have a consecutive block of 1,000 DID numbers from the Sandusky rate center in order to renumber its district phone system. The Schools are requesting this clean block of 1,000 DID numbers so that the public will be able to understand which facility they are calling.

Having a clean block of 1,000 DID numbers from the Sandusky rate center will also help the School's employees in recognizing if a call is being placed to a physical phone or a voice mail box helping to set expectations of a reply. In addition, having the consecutive block of 1,000 DID numbers will provide the Schools with a much easier call routing patterns within its switch to route calls. This will save the Schools labor costs for system support.

The Schools request that in this clean block of numbers, the last four numbers not begin with a 7 or a 0. This is because the digit 7 is the Schools outside line indicator and the number 0 has caused some routing issues for the Schools. Buckeye has determined that in area code 419,

the prefix "984" has available the 1,000, 2,000, 3,000, 4,000, 5,000, 6,000 and 8,000 NXX series of numbers.

Buckeye prepared its Months To Exhaust and Utilization Certification Work Sheet – TN level and found that it does not meet the month's to exhaust to deplete current inventory (MTE) within six months of obtaining a new code block. See Attachment A. In addition, Buckeye found that the utilization for the Sandusky rate center was only 59.434% instead of the FCC requirement of 75%.

Attachment B consists of the Thousands-Block Application Form – Part 1A for tracking number 419-Sandusky-OH-525646 which was prepared by Buckeye.

Buckeye has submitted a request to the Pooling Administrator which was denied on March 23, 2012. The explanation for the denial given was as follows:

DR-57: You do not meet the MTE and/or utilization requirements, therefore this request for a new block is denied. You may proceed with requesting a State Waiver from the appropriate state commission using this Part 3 denial. If you are in disagreement with the disposition of this request, please refer to the Thousands Block Number (NXX-X) Pooling Administration Guidelines for the appeals process.

#### See Attachment C.

Attachment D is a letter from Brett Kluiber, Technology Coordinator for the Sandusky City Schools to Robert Martin of Buckeye.

Attachment E is a downloaded report from the PAS displaying various code blocks in the Sandusky rate center. Buckeye is filing this motion before the Commission requesting a waiver for the sole purpose of obtaining a clean block of 1,000 numbers for the Schools from the Sandusky rate center. The FCC's Rules set forth a procedure whereby denial of a numbering resource by the pooling administration system can be brought to the appropriate state commission for review.

It is reasonable for the Schools to renumber its district phone system so that the public will have the ability to understand which facility they are calling. In addition, it is reasonable to obtain a consecutive block of 1,000 DID numbers so that the School employees will know if a call is being placed to a physical phone or a voice mail box and that the call routing patterns within the School's switch will allow it to route calls saving the district labor costs for system support.

The Commission has authority to review the PAS decision and issue a waiver to PAS authorizing assignment of the NPA-NXXs requested by Buckeye.

WHEREFORE, for the reasons set forth above, Buckeye respectfully requests that the Commission or its Attorney Examiner act expeditiously and issue an Order providing a waiver to the PAS and authorizing assignment of the numbering resources that Buckeye has requested on behalf of the Sandusky City Schools.

Respectfully submitted,

BUCKEYE TELESYSTEM, INC.

Stephen M. Howard

### Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator s name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia TM LERGTM Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia TM Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLITM tandem of the facilities based provider xi. Explanations of these terms may be found in the footnotes. Section 1.3 The date the Service Provider completes the application should be

entered in this section, as well as the Effective Date of the requested thousandsblock.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. The also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied. The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

#### Foot Notes:

<sup>1</sup> Identify the type of change(s) in Section 1.5.

ii The Pool Administrator is available to assist in completing these forms.

iii A CO Code application will also need to be submitted to the PA.

iv Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

V This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLI<sup>TM</sup> code of the switch /POI.

- vi Rate Center name must be a tariffed Rate Center.
- vii Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.
- viii Please ensure that the NPA-NXX of the LRN to be associated with this block (s) is/will be active in the network prior to the effective date of the block(s).
- ix Select if you are the current Block Holder.
- <sup>x</sup> Select if you are <u>not</u> the current Block Holder

Sandusky City Schools would like to have Buckeye Telesystem provide our local dial tone for our two ISDN PRI's and our analog business lines. Due to this request, we would also like to request to have a consecutive block of 1000 DID numbers in order to renumber our district phone system. We are requesting this so that the public has an easier time in understanding the facility they are calling. This will also help our own employees in knowing if a call is being placed to a physical phone or a voice mail box helping to set expectations of a reply. In addition this will provide us with a much easier call routing patterns within our switch to route calls saving the district labor costs for system support.

Our only request in this block is that the last 4 numbers not start in a 7 or a 0 as 7 is our outside line indicator and 0 has some routing issues for us.

Thank you for your consideration,

Brett Kluiber Technology Coordinator Sandusky City Schools 419.621.2720
