Ms. Renee J. Jenkins  
Docketing Division  
Public Utilities Commission of Ohio  
180 East Broad Street  
Columbus, OH 43215-3793

RE: Preferred Long Distance, Inc. Case No. 12-1343-TP-ATA

Dear Ms. Jenkins:

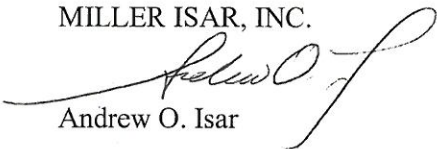

Enclosed for filing with the Public Utilities Commission of Ohio ("Commission") in the above-referenced matter is an Adobe Acrobat file containing a signed and dated *Telecommunications Filing Form*, and amended Sheets 2, 3 and 41, and original Sheets 40.1 to 40.4 to Preferred Long Distance, Inc.'s ("Preferred") carrier-to-carrier switched exchange access tariff, P.U.C.O. Tariff No. 2, for incorporation into the Company's tariff.

With this filing, Preferred implements provisions governing Voice over Internet Protocol- Public Switched Telephone Network ("VoIP-PSTN") Traffic pursuant to the Federal Communications Commission's *Report and Order and Further Notice of Proposed Rulemaking*, in Docket Nos. WC Docket No. 10-90, *et al.*, FCC 11-161 (the "ICC USF Transitional Order"). The Company also, introduces originating access rates. There is no change in rates, which remain benchmarked to the incumbent local exchange carrier's rates as noted in the Company's April 3, 2012 letter establishing compliance with the Commission's Entry in Case No. 10-2387-TP-COI. A May 24, 2012 effective date is requested, more than thirty days from the issue date.

Thank you for your attention to this matter. Questions concerning this filing may be directed to the undersigned.

Sincerely,

MILLER ISAR, INC.

  
Andrew O. Isar

**Notes:**

Section I and II are Pursuant to Chapter 4901:1-6 OAC.

Section III – Carrier to Carrier is Pursuant to 4901:1-7 OAC, and Wireless is Pursuant to 4901:1-6-24 OAC.

Section IV – Attestation.

(1) Indicate the Carrier Type and the reason for submitting this form by checking the boxes below.

(2) For requirements for various applications, see the identified section of Ohio Administrative Code Section 4901 and/or the supplemental application form noted.

(3) Information regarding the number of copies required by the Commission may be obtained from the Commission's web site at www.puco.ohio.gov under the docketing information system section, by calling the docketing division at 614-466-4095, or by visiting the docketing division at the offices of the Commission.

(4) An Incumbent Local Exchange Carrier (ILEC) offering basic local exchange service (BLES) outside its traditional service area should choose CLEC designation when proposing to offer BLES outside its traditional service area or when proposing to make changes to that service.

**All Filings that result in a change to one or more tariff pages require, at a minimum, the following exhibits.**

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

**SERVICE DESCRIPTIONS, Continued****3.2. VOICE OVER INTERNET PROTOCOL – PUBLIC SWITCHED TELEPHONE NETWORK (“VoIP – PSTN”) TRAFFIC**

- A. This section governs the identification and treatment of VoIP-PSTN Traffic that is required to be compensated at interstate access rates unless the parties have agreed otherwise in a written agreement. Specifically, this section establishes the method of separating such traffic (referred to in this tariff as “Relevant VOIP-PSTN Traffic”) from a Customer’s traditional intrastate access tariff, so that such Relevant VOIP-PSTN traffic can be billed in accordance with the FCC Order.

Company will bill and collect the full Access Reciprocal Compensation on traffic exchanged with Customers when such traffic originates and/or terminates in Internet Protocol format, as set forth in Section 51.913 of the Federal Communications Commission’s rules, 47 C.F.R. §51.913, regardless of whether the Company itself delivers such traffic to the called party’s premises or delivers the call to the called party’s premises via contractual or other arrangements with an affiliated or unaffiliated provider of interconnected Voice over Internet Protocol service or a non-interconnected Voice over Internet Protocol service that does not itself seek to collect Access Reciprocal Compensation charges for this traffic.<sup>1</sup>

Intrastate VoIP – PSTN traffic is subject to the Company’s applicable terminating interstate switched access rate per minute, as set forth in the Company’s F.C.C. Tariff No. 1 and section 4.1, below.

<sup>1</sup> See, *In the Matter of Connect America Fund A National Broadband Plan for Our Future Establishing Just and Reasonable Rates for Local Exchange Carriers High-Cost Universal Service Support Developing an Unified Intercarrier Compensation Regime Federal-State Joint Board on Universal Service Lifeline and Link-Up Universal Service Reform – Mobility Fund*, Report and Order and Further Notice of Proposed Rulemaking, Docket Nos. WC Docket No. 10-90, *et al.*, FCC 11-161, (Rel. November 18, 2011).

---

**SERVICE DESCRIPTIONS, Continued****3.2. VOICE OVER INTERNET PROTOCOL – PUBLIC SWITCHED TELEPHONE NETWORK (“VoIP – PSTN”) TRAFFIC, Continued**

(N)

**B. Calculations and Application of Percent-VoIP-PSTN Usage**

Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use (“MOU”) to which interstate rates will be applied under subsection 3.2.A, above, by applying a Percent VoIP Usage (“PVU”) factor to the total intrastate access MOU exchanged between a Company End User and the Customer. The PVU will be derived and applied as follows.

1. The Customer will calculate and furnish to Company a factor (the “PVU-A”) representing the percentage of the total terminating intrastate and interstate access MOU that the Customer exchanges with Company in the State, that (a) is sent to Company and that originated in IP format; or (b) is received from Company and terminated in IP format. This PVU-A shall be based on information such as the number of the Customer’s retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
2. Company will similarly calculate a factor (the “PVU-B”) representing the percentage of Company’s total terminating intrastate and interstate access MOU in the State that Company originates or terminates on its network in IP format. This PVU-B shall be based on information such as the number of Company’s retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.

(N)

**SERVICE DESCRIPTIONS, Continued****3.2. VOICE OVER INTERNET PROTOCOL – PUBLIC SWITCHED TELEPHONE NETWORK (“VoIP – PSTN”) TRAFFIC, Continued**

(N)

**B. Calculations and Application of Percent-VoIP-PSTN Usage, Continued**

3. Company will use the PVU-A and PVU-B factors to calculate a PVU factor that represents the percentage of total terminating intrastate and interstate access MOU exchanged between a Company End User and the Customer that is originated or terminated in IP format, whether at Company's end, at the Customer's end, or at both ends. The PVU factor will be calculated as the sum of: (A) the PVU-A factor and (B) the PVU-B factor times (1.0 minus the PVU-A factor).
4. Company will apply the PVU factor to the total terminating intrastate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs.

Example 1: The PVU-B is 10% and the PVU-A is 40%. The PVU factor is equal to  $40\% + (10\% \times 60\%) = 46\%$ . Company will bill 46% of the Customer's terminating intrastate access MOU at its applicable tariffed interstate rates.

Example 2: The PVU-B is 10% and the PVU-A is 0%. The PVU factor is  $0\% + (100\% \times 10\%) = 10\%$ . Company will bill 10% of the Customer's terminating intrastate access MOU at Company's applicable tariffed interstate switched access rates.

Example 3: The PVU-A is 100%. No matter what the PVU-B factor is, the PVU is 100%. Company will bill 100% of the Customer's terminating intrastate access MOU at Company's applicable tariffed interstate switched access rates.

5. If the Customer does not furnish Company with a PVU factor, the Company will utilize a PVU-A factor of zero.

(N)

**SERVICE DESCRIPTIONS, Continued****3.2. VOICE OVER INTERNET PROTOCOL – PUBLIC SWITCHED TELEPHONE NETWORK (“VoIP – PSTN”) TRAFFIC, Continued**

(N)

**C. Initial PVU-A Factor.**

If the PVU-A factor is not available and/or cannot be implemented in Company’s billing systems by April 15, 2012, the Company will adjust the Customer’s initial PVU-A to zero retroactively to January 1, 2012.

**D. PVU Factor Updates**

The Customer may update the PVU-A factor quarterly. The Customer shall submit such update no later than the 15th day of January, April, July, and October of each year. Revised PVU factors must be based on the data for the prior three months ending the last day of December, March, June, and September respectively. The Company will use the revised PVU-A factor to calculate a revised PVU. The revised PVU will be used for future billing and will be effective on the bill date of each month and will be used for subsequent monthly billing until superseded by a new PVU factor. No prorating or back billing will be done based on the updated PVU factors. The PVU factor will be billed beginning on January 1, 2012.

**E. PVU Factor Verification**

Not more than twice in any year, Company may ask the Customer to verify the PVU-A factor furnished to Company and a Customer may ask Company to verify the PVU-B factor and the calculation of the PVU factor. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the respective PVU-A and PVU-B factors.

### **Exhibit C**

A short description of the nature of the change(s), the intent of the change(s), and the customers affected.

With this filing, Preferred complies with the Federal Communications Commission's ("FCC") Report and Order and Further Notice of Proposed Rulemaking, in Docket Nos. WC Docket No. 10-90, et al., FCC 11-161 (the "ICC USF Transitional Order"), by implementing provisions governing Voice over Internet Protocol telephony – Public Switched Telephone Network ("VoIP-PSTN") Traffic. The Company also introduces originating access rates.

## **Exhibit D**

A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

This tariff amendment complies with the FCC's Report and Order and Further Notice of Proposed Rulemaking in Docket Nos. WC Docket No. 10-90, et al., FCC 11-161, by implementing provisions governing VoIP-PSTN Traffic.

The FCC's order universally applies to all interconnecting carriers, who are bound to the FCC's pronouncement by operation of rule, and have an obligation to be aware of the FCC's actions, accordingly. Though the importance of interconnecting carrier notification regarding switched exchange access services is understood, the unique nature of these FCC-mandated amendments is an exception, as the FCC's Report and Order and Further Notice of Proposed Rulemaking has effectively served as notice; indeed the Company has received no carrier notice of implementation of VoIP-PSTN Traffic provisions for Ohio or any other state despite the fact they have been widely implemented by the industry.

This filing also constitutes an administrative amendment to the Company's switched access tariff. There is no customer impact associated with this administrative amendment. No customer notice is required, or provided, accordingly.
