IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

(N)

(8) If the customer does not furnish the Telephone Company with a PVU-C factor, the Telephone Company will utilize a customer PVU-C of 0% and the PVU will be equal to the Telephone Company's PVU-T.

(D) Initial Implementation of PVU Factors

(1) If the PVU factor is not available and/or cannot be implemented in the Telephone Company's billing systems by the effective date of this tariff provision, once the factor is available and can be implemented, the Telephone Company will adjust the customer's bills to reflect the PVU factors retroactively to December 29, 2011 if the PVU-C factor is provided by the customer to the Telephone Company no later than 30 days from the effective date of this tariff.

(2) The Telephone Company shall provide credits based on the reported PVU-C factors on a quarterly basis until such time as the billing system modifications can be implemented.

(E) PVU Factor Updates

The customer may update the PVU-C and the Telephone Company may update the PUV-T factors quarterly using the method set forth in (C)(1) and (2) preceding. If the customer chooses to submit such updates, it shall forward to the Telephone Company, no later than 15 days after the first of January, April, July and/or October of each year, revised PVU-C and the Telephone Company PVU-T factors based on data for the prior three months, ending the last day of December, March, June and September, respectively. No prorating or back-billing will be done based on the updated PVU-C factors.

If the customer does not supply the revised reports, the Telephone Company will assume the PVU-C percentages to be the same as those provided in the last quarterly report. For those cases in which a quarterly report or an initial PVU-C has never been received from the customer, the Telephone Company will assume the PVU-C percentages to be 0% as set forth in (C)(8).
