COMMENT DESCRIPTION:

I would like to log a comment regarding Case# 10-2929-EL-UNC. AEP as you well know has been airing totally misleading ads related to "market based pricing". I believe all utilities should be cooperatives owned by the populations they serve, and not a private or publicly held entity. In other words, NOT a for profit organization. I realize that opportunity will never occur, so the next best scenario is to protect market based pricing at all costs. I trust you will serve the people of Ohio with decisions that will insure that protection to Ohio utility consumers.

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.

Subject: Preserve my right to save money on my electric bill
Received: 4/25/2012 7:46:31 PM
Message:
Dear Chairman Snitchler:

As a customer of AEP, I urge you to reject its proposal to limit my ability to save money on my electric bill by switching to another electric supplier.

By imposing excessive capacity fees on other suppliers, AEP's proposed Electric Security Plan would harm competition so it can protect its profits on the backs of customers like me. While nearly 2 million Ohioans are shopping every month with competitive retail suppliers, AEP is the only utility in Ohio that wants to place artificially inflated capacity charges on suppliers, reducing savings for customers.

We all know competition works. That's why we always shop for lower prices. We should let competition work for electricity too.

Please reject or modify AEP's revised Electric Security Plan and preserve my right to shop to save money on my electric bill.
