Dear Chairman Snitchler:

PUCO

As a customer of AEP, I urge you to reject its proposal to limit my ability to save money on my electric bill by switching to another electric supplier.

By imposing excessive capacity fees on other suppliers, AEP's proposed Electric Security Plan would harm competition so it can protect its profits on the backs of customers like me. While nearly 2 million Ohioans are shopping every month with competitive retail suppliers, AEP is the only utility in Ohio that wants to place artificially inflated capacity charges on suppliers, reducing savings for customers.

We all know competition works. That's why we always shop for lower prices. We should let competition work for electricity too.

Please reject or modify AEP's revised Electric Security Plan and preserve my right to shop to save money on my electric bill.

By imposing excessive capacity fees on other suppliers, AEP's proposed Electric Security Plan would harm competition so it can protect its profits on the backs of customers like me. While nearly 2 million Ohioans are shopping every month with competitive retail suppliers, AEP is the only utility in Ohio that wants to place artificially inflated capacity charges on suppliers, reducing savings for customers.

We all know competition works. That's why we always shop for lower prices. We should let competition work for electricity too.

Please reject or modify AEP's revised Electric Security Plan and preserve my right to shop to save money on my electric bill.

Dear Chairman Snitchler:

As a customer of AEP, I urge you to reject its proposal to limit my ability to save money on my electric bill by switching to another electric supplier.
