

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Commission)
Investigation Relative to Estab-) Case No. 83-464-TP-COI
lishment of Intrastate Access) (Subfile A)
Charges.)

ENTRY

The Commission, coming now to consider the above-entitled matter, hereby makes the following findings:

- 1) By Entry issued August 28, 1984, the Commission approved, through the first true up, the Ohio Telecommunications Advisory Board's (Board) recommended interim pool administration procedures, which were developed for effecting the provisions of the Commission's May 21, 1984 Access Charge Order. The Commission approved certain modifications and revisions to those interim procedures by Entry issued September 11, 1984.
- 2) On October 1, 1984, the Board filed with the Commission further revisions to the interim pool administration procedures to include true up procedures, audit provisions and an expanded interim settlement schedule. Such revisions were approved by the Commission, with certain clarifications, on October 9, 1984.
- 3) On October 17, 1984, the Board submitted revised interim pool administration procedures incorporating the clarifications requested by the Commission and also incorporating certain changes required by the Commission's companion Entry of October 9, 1984, dealing with interest costs and fees for the services of the independent auditing firm.
- 4) On December 21, 1984, the Board submitted for Commission approval, updates to the interim procedures reflecting first quarter 1985 reporting requirements. The Board indicated that such updates have been provided to the local exchange companies.
- 5) The Commission has carefully reviewed the October 17, 1984 revisions, and concludes that such revisions comport with the Commission's Entries of October 9, 1984 and should be approved with the following clarification:

Appendix A - page A-24 under the heading "Form Procedure", Line 2 should be clarified to read, "Enter amount paid by Ohio Bell to others for items previously approved by this Commission, as entered in OTABS #4D. Currently, these items include: payments for liability insurance. List individual payments by company which support this figure below."

- 6) The Commission has also reviewed the December 21, 1984 proposed updates, finds them to be

in proper form, and concludes that they should be approved.

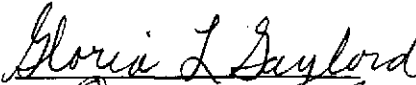

It is, therefore,

ORDERED, That the October 17, 1984 revisions to the interim pool administration procedures and the December 21, 1984 updated interim procedures be, and hereby are approved, with the clarification noted in Finding (5) above. It is, further,

ORDERED, That copies of this Entry be served upon all parties of record.
