Motion for protective order included with filing? ☐ Yes ☒ No

Motion for waiver(s) filed affecting this case? ☐ Yes ☒ No [Note: Waivers may toll any automatic timeframe.]

Notes:

Section I and II are Pursuant to Chapter 4901:1-6 OAC.

Section III – Carrier to Carrier is Pursuant to 4901:1-7 OAC, and Wireless is Pursuant to 4901:1-6-24 OAC.

Section IV – Attestation.

(1) Indicate the Carrier Type and the reason for submitting this form by checking the boxes below.

(2) For requirements for various applications, see the identified section of Ohio Administrative Code Section 4901 and/or the supplemental application form noted.

(3) Information regarding the number of copies required by the Commission may be obtained from the Commission's web site at www.puco.ohio.gov under the docketing information system section, by calling the docketing division at 614-466-4095, or by visiting the docketing division at the offices of the Commission.

(4) An Incumbent Local Exchange Carrier (ILEC) offering basic local exchange service (BLES) outside its traditional service area should choose CLEC designation when proposing to offer BLES outside its traditional service area or when proposing to make changes to that service.

All Filings that result in a change to one or more tariff pages require, at a minimum, the following exhibits.

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

ACCESS SERVICE

14. Toll VoIP-PSTN

(T)

14.1 General

(N)

Toll VoIP-PSTN traffic is defined as traffic exchanged between a Sprint Communications Company, L.P. end user and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification of Toll VoIP-PSTN traffic that is required to be compensated at interstate access rates (unless the parties have agreed otherwise and does not preclude carriers from negotiating other rates, terms and conditions going forward) by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). This section does not superseded agreements governing compensation for VoIP traffic which are already in existence.

The company shall limit audits to one per year, except where additional audits may be required to verify allocation changes which represent a five percent shift from the customer's most recent reported figures, and such change is not the result of seasonal shifts of other identifiable reasons. The customer may request that verification audits be conducted by an independent auditor. In such cases the associated auditing expenses will be paid by the customer.

All traffic between Sprint Communications Company, L.P. and the end user originates and terminates in VoIP format. The Company will provide data to support Percentage Voice Usage (PVU) upon customer request at no additional charge to the customer.

Toll Free 8YY Transit Traffic Service and Toll Free Database Access Service are applicable to Toll VoIP-PSTN traffic and will be rated at the charges set forth in the appropriate section of this tariff.

14.1.1 Rating of Toll VoIP-PSTN Traffic

Because all the Company's traffic is considered Relevant Toll VoIP-PSTN traffic it will be billed at rates equal to Sprint Communications Company, L.P. applicable tariffed interstate switched access rates as specified in Tariff F.C.C. No. 13. As these changes are FCC mandated, the applicable rates will be effective December 29, 2011.

ACCESS SERVICE

14. Toll VoIP-PSTN14.1 General

Toll VoIP-PSTN traffic is defined as traffic exchanged between a Sprint Communications Company, L.P. end user and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. This section governs the identification of Toll VoIP-PSTN traffic that is required to be compensated at interstate access rates (unless the parties have agreed otherwise and does not preclude carriers from negotiating other rates, terms and conditions going forward) by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). This section does not superseded agreements governing compensation for VoIP traffic which are already in existence.

The company shall limit audits to one per year, except where additional audits may be required to verify allocation changes which represent a five percent shift from the customer's most recent reported figures, and such change is not the result of seasonal shifts of other identifiable reasons. The customer may request that verification audits be conducted by an independent auditor. In such cases the associated auditing expenses will be paid by the customer.

The Company will provide data to support Percentage Voice Usage (PVU) upon customer request at no additional charge to the customer.

If a Toll Free Database Access Query charge is assessed on a Toll Free 8YY Transit Traffic call, it will be rated at the charges as set forth in the appropriate section of this tariff.

14.1.1 Rating of Toll VoIP-PSTN Traffic

The Relevant VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at rates equal to the Company's applicable tariffed interstate switched access rates as provided in Sprint's Tariff F.C.C. No. 13, unless intrastate rates are lower in which case they will be rated at the applicable intrastate charges.

ACCESS SERVICE

14. Toll VoIP-PSTN (Continued)14.2 Calculation and Application of Percent-VoIP-Usage Factor

Sprint will determine the number of Relevant Toll VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under subsection 14.1.1, above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU exchanged between the Sprint's end user and the customer. The PVU will be derived and applied as follows:

- (1) The customer will calculate and furnish to Sprint a factor for Percentage VoIP Usage - Customer ("PVU-C") representing the percentage of the total intrastate and interstate access MOU that the customer exchanges with the Sprint in the State, that (a) is sent to Sprint and that originated in IP format; or (b) is received from Sprint and terminated in IP format. This PVU-C shall be based on information such as the number of the customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
- (2) Sprint will, likewise, calculate a factor for Percentage VoIP Usage - Sprint ("PVU-S") representing the percentage of Sprint's total intrastate and interstate access MOU in the State that Sprint originates or terminates on its network in IP format. This PVU-S shall be based on information such as the number of Sprint's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
- (3) Sprint will use the PVU-C and PVU-S factors to calculate a PVU factor that represents the percentage of total intrastate and interstate access MOU exchanged between Sprint's end user and the customer that is originated or terminated in IP format, whether at Sprint's end, at the customer's end, or at both ends. The PVU factor will be calculated as the sum of (A) the PVU-C factor and (B) the PVU-S factor times (1.0 minus the PVU-C factor).

Overland Park, KS 66251

EFFECTIVE:
07-13-12

ACCESS SERVICE

14. Toll VoIP-PSTN (Continued)14.2 Calculation and Application of Percent-VoIP-Usage Factor (Continued)

- (4) Sprint will apply the PVU factor to the total intrastate access MOU exchanged with the customer to determine the number of Relevant VoIP-PSTN Traffic MOUs.

Example 1: The PVU-S is 10% and the PVU-C is 40%. The PVU factor is equal to $40\% + (10\% \times 60\%) = 46\%$. The Company will bill 46% of the customer's intrastate access MOU at the Company's applicable tariffed interstate or intrastate switched access rates, whichever is lower.

Example 2: The PVU-S is 10% and the PVU-C is 0%. The PVU factor is $0\% + (10\% \times 100\%) = 10\%$. The Company will bill 10% of the customer's intrastate access MOU at the Company's applicable tariffed interstate or intrastate switched access rates, whichever is lower.

Example 3: The PVU-C is 100%. No matter what the PVU-S factor is, the PVU is 100%. The Company will bill 100% of the customer's intrastate access MOU at the Company's applicable tariffed interstate or intrastate switched access rates, whichever is lower.

- (5) If the customer does not furnish the Company with a PVU-C pursuant to the preceding paragraph 1, the Company will utilize a customer PVU-C of 0%.

14.3 Initial PVU Factor

In calculating the initial PVU, Sprint will take the customer-specified PVU-C into account retroactively to December 29, 2011, provided that the customer provides the factor to Sprint no later than July 13, 2012; otherwise, it will set the initial PVU equal to the PVU-S, as specified in subsection 14.2 (2) above.

Director - Tariffs
6450 Sprint Parkway
Overland Park, KS 66251

EFFECTIVE:
07-13-12

ACCESS SERVICE

14. Toll VoIP-PSTN (Continued)**14.4 PVU Factor Updates**

The customer may update the PVU-C factor quarterly using the method set forth in subsection 14.2 (1), above. If the customer chooses to submit such updates, it shall forward to Sprint, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU-C factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. Sprint will use the revised PVU-C to calculate a revised PVU. The revised PVU factor will apply prospectively and serve as the basis for billing until superseded by a new PVU.

14.5 PVU Factor Verification

Not more than once in any year, Sprint may ask the customer to verify the PVU-C factor furnished to Sprint and customer may ask Sprint to verify the PVU-S factor and the calculation of the PVU factor. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the respective PVU-C and PVU-S factors.

14.6 Auditing Procedures

Sprint may dispute the Customer's PVU factor based upon:

- (1) A review of the requested data and information provided by the customer.
- (2) Sprint's reasonable review of other market information, F.C.C. reports on VoIP lines, such as F.C.C. Form 477 or state level results based on the F.C.C. Local Competition Report or other relevant data.
- (3) A change in the reported PVU factor by more than five percentage points from the preceding quarter.

If after review of the data and information, the customer and Sprint establish revised PVU factors, the company will begin using those revised PVU factors with the next bill period.
