Dear Ms. McNeal,

Enclosed please find a tariff sheet that was meant to be a part of the Duke Energy Ohio pre-filing notice that was docketed on June 7, 2012. This tariff sheet (PUCO Gas No. 18, Sheet No. 33, Residential Firm Transportation Service) was inadvertently omitted as a result of a clerical error.

Should there be any questions and/or if you need additional information, please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jeanne W. Kingery', with a stylized flourish at the end.

### RESIDENTIAL FIRM TRANSPORTATION SERVICE

#### AVAILABILITY

Firm transportation service for residential purposes, which is provided from the Company's city gate receipt points to the outlet side of Company's meter. Service is available to all residential customers, except for those customers whose utility service accounts are past due at the time customer desires to utilize this service. The Company may terminate a customer's supplier contract for non-payment and return the customer to the Company's sales service only if: (1) the Supplier has made an affirmative request for the Company to act as its agent to terminate customer contracts for non-payment; and (2) the Supplier has included, in its customer contracts, a notice that the Company can terminate such contracts for non-payment. Where the Supplier is performing its own billing of the gas supply, termination of the agreement will be at the discretion of the Supplier, as specified in the Supplier contracts for service. In either case, the Supplier or the Company shall give no less than 30 days written notice that the customer will be switched from the Supplier and revert to the Company unless the past due amount is paid by the customer's next scheduled bill due date. If the past due amount is paid by the next scheduled bill due date, the customer will not revert to the Company and will remain with the Supplier. If the Company provides the late payment notice to the customer, it will send a copy of the notice to the customer's Supplier. A customer must enter into an agreement with a Supplier who meets the Company's requirements for participation in this pooling program pursuant to Rate FRAS, Sheet No. 44.

Gas transported under this tariff shall be for customer's sole use at one point of delivery where distribution mains are adjacent to the premises to be served. Any gas provided hereunder shall be provided by displacement.

Residential customers who are enrolled in income payment plans pursuant to Rule 4901:1-18-04(B), Ohio Administrative Code (PIPP ~~Customers~~customers), shall be provided their alternative gas supply service exclusively through their own supply pool, for which gas is provided by a willing Supplier whose bid has been approved by the Public Utilities Commission of Ohio.

#### DEFINITIONS

Terms used in this tariff are defined in the same manner as set forth in Rate FRAS, Sheet No. 44.

#### CHANGES IN CUSTOMERS' SERVICE ELECTIONS

Customers who elect service under this tariff and later return to Company's sales service may do so only in accordance with the requirements of the Company's tariffs and applicable regulations of the Public Utilities Commission of Ohio. If a customer voluntarily elects to return to the Company's sales service, all incremental gas procurement, upstream transportation, and storage costs incurred by the Company in order to return a customer to sales service shall be borne by customer pursuant to the Commission's Gas Transportation Program Guidelines adopted in Case No. 85-800-GA-COI.

### TRANSFER OF SERVICE

Customers may transfer from one Supplier's pool to any other Supplier's pool or revert to the Company's sales service upon payment of a \$4.00 switching fee. ~~After the Company installs additional information system capability on or before September 1, 2007, a customer participating in a governmental aggregation will not be subject to the switching fee, regardless of whether the customer returns to the Company's sales service from the governmental aggregation or the governmental aggregator chooses to switch its aggregation to a different Supplier.~~

## GENERAL TERMS AND CONDITIONS

### 1. Approved Supplier List

Company shall maintain a list of qualified Suppliers from which customer can choose. Such list shall include Suppliers who sign a Gas Supply Aggregation/Customer Pooling Agreement in which Supplier agrees to participate in, and abide by Company's requirements for, its pooling program. This list shall be available to any customer upon request.

## GENERAL TERMS AND CONDITIONS

### 2. Applications and Service Date

A customer who desires service under this tariff shall apply through its chosen Supplier. Unless the Company determines that the customer is not eligible to become a transportation customer of the Supplier, the Company shall transfer the customer to the Supplier's pool on the customer's next regularly scheduled meter reading date that is twelve (12) or more calendar days from the date the Company receives the transfer request from the Supplier. The Company shall notify the Supplier of the actual transfer date.

A customer may request termination of service under this tariff and return to the Company's sales service by notifying the Company, and the request will become effective on the customer's next regularly scheduled meter reading date that is twelve (12) or more calendar days from the receipt of such notification. In the event that a customer is returned to sales service for non-payment, the Supplier shall provide the Company with notice of termination and shall comply with all notice requirements of the Suppliers' Code of Conduct set forth in Rate FRAS, Sheet No. 44.

### 3. Delivery Pressure and Gas Composition

Gas service under this tariff shall be at the pressure that is currently available at customer's premises.

During severe weather periods, Company must sometimes supplement its flowing gas supplies with propane-air gas produced at peaking plants located at various points on Company's system. While Company attempts to manufacture such gas at a heating value roughly equivalent to the heating value of its flowing gas supplies, it is not always able to do so.
