Re: Great news – FirstEnergy Solutions’ Hocking County aggregation program continues to offer savings!

Dear Hocking County Resident,

As a Hocking County resident, you are included in your community’s aggregation program which provides the opportunity to save money on the electricity you use. Savings are possible through governmental aggregation, where community officials bring together citizens to gain group buying power for the purchase of electricity from a retail electric generation provider certified by the Public Utilities Commission of Ohio. Hocking County voters approved this program in November 2011.

FirstEnergy Solutions Corp., a subsidiary of FirstEnergy Corp., has been selected to provide you with savings on your electric generation through March 2014. **There is no cost for enrollment, you will not be charged a switching fee, and you do not need to do anything to participate.** Please see the enclosed FAQs for more information.

As a member of this aggregation program, you are guaranteed a price of 5.85 cents per kilowatt-hour (kWh) for electric generation service through March 2014.

You will see your electric savings from FirstEnergy Solutions after your enrollment has been completed and your switch has been finalized – approximately 30-45 days, depending upon your meter read date. Of course, you are not obligated to participate in the Hocking County electric governmental aggregation program. If you wish to be excluded from the program and remain a full-service customer of your local electric utility – AEP Ohio – you have until July 23, 2012 to return the attached “opt-out” form. If you opt out, you might not be served under the same rates, terms and conditions that apply to other customers served by AEP Ohio. If you do not opt out at this time, you will receive a notice at least every three years asking if you wish to remain in the program. If you leave the program at any other time, you could be subject to a \$25 cancellation fee from FirstEnergy Solutions.

After you become a participant in this governmental aggregation program, AEP Ohio will send you a letter confirming your selection of FirstEnergy Solutions as your electric generation provider. As required by law, this letter will inform you of your option to cancel your contract with FirstEnergy Solutions within seven days of its postmark. To remain a member of the Hocking County electric governmental aggregation program, you don’t need to take any action when this letter arrives.

AEP Ohio will continue to maintain the system that delivers power to your home – no new poles or wires will be built by FirstEnergy Solutions. You will continue to receive a single, easy-to-read bill from your local electric utility with your FirstEnergy Solutions charges included. The only thing you’ll notice is savings.

If you have any questions, please call FirstEnergy Solutions toll-free at 1-866-636-3749, Monday through Friday, 8 a.m. to 5 p.m. Please do not call Hocking County with aggregation program questions.

Sincerely,

Hocking County Local Officials

P.S. To receive these savings, **you should not respond.** Return the opt-out form only if you do not want to participate in the Hocking County electric governmental aggregation program.

Hocking County Electric Governmental Aggregation Program Frequently Asked Questions

What is aggregation?

Under governmental aggregation, local officials bring citizens together to gain group buying power for the purchase of competitively priced electricity from a retail electric generation supplier certified by the Public Utilities Commission of Ohio.

How is my community able to choose a certified electric generation supplier on my behalf?

In November 2011, Hocking County residents voted to allow the community to contract for an electric generation supplier on their behalf.

Who is the certified electric generation supplier?

FirstEnergy Solutions Corp., an Ohio-based company and a subsidiary of FirstEnergy Corp., is the supplier for the Township's governmental electric aggregation program. FirstEnergy Solutions Corp. offers a wide range of energy and related products and services, including the generation and sale of electricity and energy planning and procurement. FirstEnergy Solutions is a leading competitive supplier of energy to residential and commercial and industrial customers in Ohio, Pennsylvania, New Jersey, Maryland, Illinois and Michigan.

Is the price for electric generation service provided through the program fixed, or does it vary?

In this program, participating customers' price for electric generation service will be fixed at \$0.0585 per kilowatt-hour (kWh) for the duration of the program, in this case until March 2014.

What do I need to do if I *want* to be included in this governmental aggregation?

You do not need to do anything to receive the discounted generation pricing under this program. You may choose to remain in the aggregation group and begin receiving your discount by simply **not** returning the opt-out form.

If I join the Hocking County governmental aggregation program, who will deliver my power, read my meter and respond to emergencies, such as power outages?

Your local electric utility will be responsible for the delivery of power to your home or business. Since your local electric utility still owns the wires and poles that deliver power to you, it will continue to read your meter and restore power after an outage.

What does "opt out" mean?

"Opt out" means that you can decide not to participate in the Hocking County electric governmental aggregation program. By returning the opt-out form, which is included in this mailing, by the due date you will not be enrolled as an electric generation customer with FirstEnergy Solutions, your community's competitive electric generation supplier, and you will not receive the discount.

What happens if I do not send in the opt-out form?

If you do not return the opt-out form postmarked by the due date, you will be included in the Hocking County governmental aggregation program and will receive competitively priced electricity from FirstEnergy Solutions.

Can I opt out over the phone?

No, if you want to opt out, you must mail in your completed opt-out form and it must be postmarked by the due date.

Can I opt out of the program at a later date?

Yes, but you will be subject to a \$25 cancellation fee from FirstEnergy Solutions if you cancel for any other reason but moving. However, you will be sent a notice at least every three years asking if you wish to remain in the program. At that point, you may opt out at no cost.

What are my energy supply choices if I decide to opt out?

You can stay with your current electric utility, which will continue to supply your electric generation as it always has, or you can shop for an alternative generation supplier. A list of competitive electric suppliers certified by the Public Utilities Commission of Ohio and their current prices are available by calling 1-800-686-PUCO (1-800-686-7826).

If I join the aggregation, can I stay on budget billing?

Yes, you can remain on budget billing; however, the budget billing program does not apply to your charges from FirstEnergy Solutions only to charges from the electric utility. Your total charges from FirstEnergy Solutions will fluctuate from month to month according to your usage.

Can I still have my payment automatically deducted from my checking account as I do now?

Yes. How you pay your electric bill will not change.

You will have the right to rescind your enrollment within seven (7) calendar following the postmark date of the confirmation letter by following the instructions contained in the letter. The Right of Rescission only applies when a customer switches to a generation supplier and not on renewal enrollments. Your EDU will not send a confirmation notice upon any renewal of this Agreement. Should you choose to opt-out of your community’s program, you will be served by your EDU’s standard service offer established pursuant to section 4928.14 of the Ohio Revised Code unless you choose an alternate supplier of electricity.

TERMS AND CONDITIONS OF SERVICE

- 1. Eligibility.** Only Residential Customer accounts not enrolled in the Percentage of Income Plan Program (PIPP) and small commercial customers with a peak demand below 199 KW are eligible for this offer from FES. FES reserves the right to refuse enrollment to any customer with an outstanding electric bill balance.
- 2. Basic Service Prices.** During the term of this Agreement, you agree to pay FES a fixed price for combined electric Transmission, Generation and Generation Related Charges as specified in the enrollment notification. You will be billed at the fixed price per KWh per billing month, as specified in the opt-out notification. In addition to FES’ charges, you will be charged by your EDU for distribution and various other charges.
In addition to the charges described above, if any regional transmission organization or similar entity, EDU, governmental entity or agency, NERC and other industry reliability organization, or court requires a change to the terms of the Agreement, or imposes upon Supplier new or additional charges or requirements, or a change in the method or procedure for determining charges or requirements, relating to your electric supply under this Agreement (any of the foregoing, a “Pass-Through Event”), which are not otherwise reimbursed to FES, Customer agrees that Supplier may pass through the additional cost to Supplier of such Pass-Through Event, which may be variable, to Customer. Changes may include, without limitation, transmission or capacity requirements, new or modified charges or shopping credits, and other changes to retail electric customer access programs.
- 3. Length of Agreement.** As a part of your community’s program, your service from FES will commence with the next available meter reading and after processing of the enrollment by your EDU, and will continue for the term as specified in the opt-out notification, ending on the meter read for the last month of service. The program may be terminated or modified due to unforeseen regulatory action. Customer and FES agree that any such regulatory action is a force majeure event. Should the program be terminated, you will be returned to the standard service offer or its successor.
- 4. Billing.** You will receive a consolidated bill from your EDU for both your FES and EDU charges. FES does not offer budget billing. If you do not pay your bill by the due date, FES may cancel this Agreement after giving you a minimum of fourteen (14) days written notice. Upon cancellation you will be returned to your EDU as a customer. You will remain responsible to pay FES for any electricity used before this Agreement is cancelled as well as any late payment charges. FES reserves the right to convert you from consolidated billing to dual billing if such a conversion will facilitate more timely billing, collections, and/or payment. Further, your failure to pay EDU charges may result in your electric service being disconnected in accordance with the EDU tariff.
- 5. Penalties, Fees and Exceptions.** Your EDU may charge a switching fee to the customer. If you do not pay the full amount owed to FES by the due date of the bill, FES may charge a 1.5% per month late payment fee.
- 6. Cancellation/Termination Provisions.** If this agreement is not rescinded during the rescission period, enrollment will be sent to your EDU. You may terminate this Agreement, without penalty, if you move outside the CRES provider’s service area or into an area where the CRES provider charges a different price, by providing FES with

a thirty (30) day written notice. Upon termination with FES and return to standard offer service with your EDU, you may not be served under the same rates, terms, and conditions that apply to other EDU customers. Customer and FES both agree that the following will constitute force majeure events under this Agreement and that FES shall have the right to terminate or modify the Agreement without liability if: (1) the Customer is not allocated RPM priced capacity at any time during the term of the Agreement; (2) the Electric Security Plan (ESP), Market Rate Offer (MRO) and/or Competitive Bid Process (CBP), or other generation procurement process results in a PTC that is equal to or less than the comparable annualized generation and transmission rates and riders in effect as of the effective date of this Agreement or (3) the PUCO approves or implements a phase-in credit for generation and/or transmission charges of the EDU or takes any other action which affects the PTC or otherwise does not allow the EDU to reflect the full cost to procure generation and transmission in the PTC or other regulatory action.

- 7. Customer Consent and Information Release Authorization.** By choosing not to opt-out of your community’s program, you understand and agree to the terms and conditions of this Agreement with FES. You authorize FES to obtain information from the EDU that includes, but is not limited to: billing history, payment history, historical and future electricity usage, meter readings, and characteristics of electricity service. Re: Great news – FirstEnergy Solutions’ Hocking County aggregation program offers savings!

Dear Hocking County Business,

As a Hocking County business, you are included in your community’s aggregation program which provides the opportunity to save money on the electricity you use. Savings are possible through governmental aggregation, where community officials bring together citizens to gain group buying power for the purchase of electricity from a retail electric generation provider certified by the Public Utilities Commission of Ohio. Hocking County voters approved this program in November 2011.

FirstEnergy Solutions Corp., a subsidiary of FirstEnergy Corp., has been selected to provide you with savings on your electric generation through March 2014. **There is no cost for enrollment, you will not be charged a switching fee, and you do not need to do anything to participate.** Please see the enclosed FAQs for more information.

As a member of this aggregation program, you are guaranteed a price of 5.85 cents per kilowatt-hour (kWh) for electric generation service through March 2014.

You will see your electric savings from FirstEnergy Solutions after your enrollment has been completed and your switch has been finalized – approximately 30-45 days, depending upon your meter read date. Of course, you are not obligated to participate in the Hocking County electric governmental aggregation program. If you wish to be excluded from the program and remain a full-service customer of your local electric utility – AEP Ohio – you have until July 23, 2012 to return the attached “opt-out” form. If you opt out, you might not be served under the same rates, terms and conditions that apply to other customers served by AEP Ohio. If you do not opt out at this time, you will receive a notice at least every three years asking if you wish to remain in the program. If you leave the program at any other time, you could be subject to a \$50 cancellation fee from FirstEnergy Solutions.

After you become a participant in this governmental aggregation program, AEP Ohio will send you a letter confirming your selection of FirstEnergy Solutions as your electric generation provider. As required by law, this letter will inform you of your option to cancel your contract with FirstEnergy Solutions within seven days of its postmark. To remain a member of the Hocking County electric governmental aggregation program, you don’t need to take any action when this letter arrives.

AEP Ohio will continue to maintain the system that delivers power to your home – no new poles or wires will be built by FirstEnergy Solutions. You will continue to receive a single, easy-to-read bill from your local electric utility with your FirstEnergy Solutions charges included. The only thing you’ll notice is savings.

If you have any questions, please call FirstEnergy Solutions toll-free at 1-866-636-3749, Monday through Friday, 8 a.m. to 5 p.m. Please do not call Hocking County with aggregation program questions.

Sincerely,

Hocking County Local Officials

P.S. To receive these savings, **you should not respond.** Return the opt-out form only if you do not want to participate in the Hocking County electric governmental aggregation program.
